

Cambian Wisbech School trip report

date: 23/11/2022

Outcomes:

- Developing social skills
- Recap on learning of WW2
- Creative development in coming up with WW2 story ideas

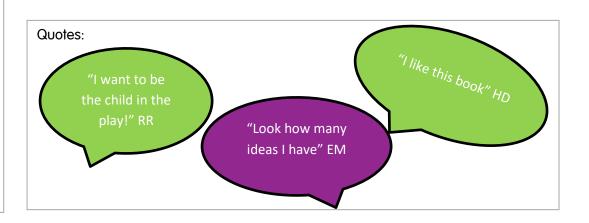

Description of trip:

Today class Koalas went on a trip to Ferry Meadows.

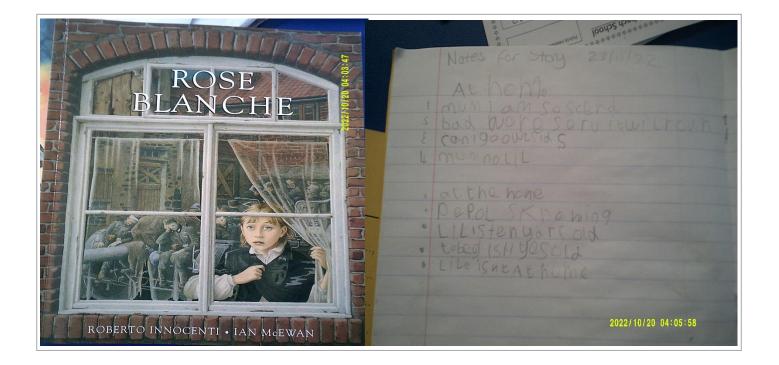

When we got there we all sat down on a bench and read through a book called Rose Blanche. This book is about how a child experienced the war without understanding it.

Once we finished reading. The children were given a short script of a WW2 play. They each chose a character and acted out the scene while reading their lines. They did this really well!

Finally, everyone wrote down some notes in their books about what they would include in their own play/story. This included who the characters were, what was happening and how they felt. They then played on the park before going back to school.
