

Brax Goes Wild!!

Spring Hill School is extremely proud of the amazing achievements of one of its youngest students, Brax. As part of his Forest School curriculum, and to help him earn his RSPB Wild Challenge Bronze Award, Brax has worked hard to demonstrate progress in the following areas:

- Food and Water for Wildlife – made bird feeders
- Habitat Explorers – surveyed the school grounds for the different habitats we have
- Weather Wizard – kept a record of the weather for a week and how it made him feel
- Habitat Heaps – continued to build a log pile in the woods
- Spread the Word – created a display on one of the school's noticeboards
- Minibeast Safari – went on a bug hunt looking for different minibeasts

Brax is hoping to continue these challenges and look to complete some new ones next term as part of his quest to attain a Silver Award by the end of the academic year '23.

WELL DONE BRAX!
