

Outcomes:

- Learning

- Revision

- Zoom education

- Engaging activities

- Group working

Description of the week:

This week students have enjoyed learning how to multiply fractions in maths and how electricity was invented in Science. In English students are still working on descriptive writing. During Duke of Edinburgh this week students have gone on walking excursions, followed and read maps and have also cooked lunch with their equipment whilst out on activities.

During art students have been focusing on surrealism, this week they used different materials and textures to create an image. Some students have enjoyed music lessons this week; using the keyboard and drum kit.

PSHE students have been researching the effects of diet, smoking, drinking etc and have created their own leaflet or poster.

Remote learning students have engaged well in their maths and English, during reading students are following the book 'Skellig'
