

## Outcomes:

Wildlife exploring

Team building

Following instructions

Description of trip: We visited Dersingham Bog and Sandringham forest. While at Dersingham BOG we enjoyed a walk hearing lots of different birds. We followed a path way through the heathlands and found out that birds' nest there during the spring and summer months. We were lucky enough to also find a bird's egg hidden within the heathlands. After our walk around Dersingham Bog we then went over to Sandringham forest in investigate the new play area. We worked as a team to send the water down from the top of the tower to the bottom by using the water pumps. It was great fun and the students enjoyed having some well-deserved play time with each other building relationships

## Quotes:

I can hear a cuckoo  
bird!

I found an egg!!

The water is coming  
through start pumping!
