

Outcomes:

- Photography skills for use in the Trip Report
- ICT skills to write Trip Report
- Understanding about animal habitats and environments
- Learning about animal droppings
- Finding out about rare breeds of animal
- Looking for and identifying animal sculptures
- Studying the flow of a river

Description of trip: This week, Flamingos went to Pensthorpe Nature Reserve near Fakenham. We left at 9.20am and arrived just after the centre opened at 10.10 am.

After buying the tickets, we followed our map to the Mill pond. On our way, we stopped to collect information for our Poo Trail sheet! We went in a couple of the hides designed to enable people to watch the birds on the lakes and areas of water. We looked at the den-building hill; played Poo Sticks on the bridge; and crawled through a mock-up of an otter's home. After playing on both the indoor outdoor playing areas, we made our way home. JOG drove superbly to get us all back safely!

Quotes:

Look at that fishing jumping! (VD)

I have a stick of royalty (MZ)

Let's play Poo Sticks (JOG)
