

Outcomes:

- To behave appropriately in public spaces.
- To extend our knowledge on WW2.
- To learn what a memorial is and what it's for (looking at key features)

Description of trip:

On Wednesday, class Koalas went on an experience day to look at different memorials around the area.

The first one we found was in Wisbech. We discussed about what identifies a memorial and the children were able to notice the different key features of the memorial. Some of the key features they mentioned were; Poppy wreaths, Names of people who passed away, quotes, the cross, and photographs. The children all chose a letter and they had the challenge of finding peoples names with the letter they chose, were there names the same? Were they perhaps related etc.

After this we got in the car to find another memorial. We couldn't view the memorials as the churches were closed however we did come across some grave stones and the children looked at the dates on the gravestones and noticed they would have been alive during WW2.

Finally, we went to have lunch at Gorefield park and the children had a play before coming back to school.

Quotes:

"I've found a picture of someone!" - EM

" I can see someone with my name!" – JG2

"I watch the remembrance day on TV." - LG
