SCHOOL GROUP

Edition #68 2024

Promoting happy, healthy and sustainable living at Hill House and beyond.

Welcome back!

We've had some incredible progress since the summer, with everyone working hard to keep our **One Planet Living** initiatives moving forward. Harvest Festival was a smash hit in October, the children shopped for fresh soup ingredients in a pop-up Farm shop, and enjoyed a visit from a Big Green Tractor. Our **Eco-Cabin** continues to provide a warming outdoor learning space, and we look forward to some huge developments in the allotment and lower field very soon!

October Half Term saw many wonderful things for our Young People!

Pumpkin soup and beetroot houmous are just some of the wonderful items we've had on the Let's eat café menu recently - all picked fresh by our YP from our very own allotment!

Edition #68 2024

The children made some stunning autumn leaf decorations, learning about their local environment and bringing about the new season.

We also had a brilliant beach clean using a litter picker, all helping towards our OPL curriculum! Holiday Club colouring in our beautiful Eco-Cabin was well received, and new flower bulbs were planted for the spring. 🌸🌸🌸🌸

Our Young People are continuing their work experience with the New Forest Fruit Farm, and this week brings our first trip to PedALL - a fantastic organisation who support EVERYONE to keep cycling right here in the New Forest with their broad range of bike shapes and sizes.

EXCITING NEWS

Green Dragon's Den is making a comeback for 2025 - this involves teams presenting ideas to increase our sustainability at HHS. We would LOVE for everyone to start planning any potential projects. All ideas welcome!
Stay tuned for more...

The Department for Education has also set sustainability targets for each school, which means putting together a team of green keen people.

If you would like to put your name forward for this, please email myself or Kate.

'We will increase opportunities for all children and young people to: spend time in nature and learn more about it...
...become actively involved in the improvement of their local environment'
