

## Outcomes:

- To Explore and learn.
- Behave well in public.
- Visit a working windmill and make bread.

Description of trip: Today we went to visit the windmill at Bircham. On arrival we got to bake our own bread. Then we went up the windmill. We didn't go too far up as the ladders were steep and you had to come back down, backwards. We enjoyed playing in the play area outside. There was a range of activities, including building sandcastles, petting the animals, practising how to milk a cow, wax rubbings, building a cog system and playing on the tricycle with no handlebars. It was tough, but one boy eventually mastered the tricycle with no handlebars. We visited the museum part and dressed up in old fashioned clothes. We enjoyed learning about the windmills history and looking at how the flour was milled. We collected our bread, it was still warm, jumped in the car for the journey home. Our teacher asked us at lunch what our favourite part of the day was. Our favourite part was seeing each other and spending time together. Our teacher said hers was watching us play together.

## Quotes:

"My favourite part was seeing everyone"

"How does this work?"

"Please can we make a loaf"
