

## Saint Giles Trust Visit

On Tuesday 16<sup>th</sup> July we had a visit from Nic from the Saint Giles Trust. Nic spoke to all of our students about the importance of knowing the signs of exploitation and keeping themselves safe online.

The Saint Giles Trust is an organisation that helps young people up to 25 years old, they help mentor young people who are held back by poverty, unemployment, the criminal justice system, homelessness, exploitation and abuse to build a positive future.

Nic had some brilliant conversations around the dangers of exploitation and how the students could identify and avoid any grooming techniques. Although it was a serious topic the students did really well and had some very positive conversations.

A big thank you to Nic from St Giles trust for coming in to talk to our students and promote their safety both on and offline!
