

Whinfell School Awarded Skills Builder Gold Status

Whinfell School is delighted to announce that we have been awarded **Gold status** by Skills Builder in recognition of our outstanding work supporting young people to develop essential workplace skills.

Skills Builder shared their congratulations following an internal moderation process:

"We are delighted to confirm that you have achieved a Skills Builder Gold Award this year. This is a significant achievement, placing you among a select group of schools and colleges committed to building students' essential skills."

We are proud to be joining Skills Builder's expert panel later this month to share best practises and inspire other schools across the local area.
