

Outcomes:

- To Explore and learn.
- Behave well in public.
- Experience apple picking.

Description of trip: Today's trip was the epitome of Autumn. We went to Sandringham for a lovely walk with our class. The colours were very autumnal. Reds, oranges and browns all around. We found a horse chestnut tree and collected conkers. Our teachers told us stories from their childhood about conker fights. We enjoyed lunch together and a hot chocolate with ready salted crisps dipped in. What a combo! It was lovely to sit and chat. Did you know conkers keep the spiders away? We then made our way to the apple picking at Sandringham orchard to pick apples. We got cox's apples first; these are for eating. Then we got some Bramley apples; these are for baking. Our teacher treated us to a bottle of apple juice. We chose the discovery variety. When we got back to school, we had a sample of the apple juice. We can confirm it is delicious. Thank you Cambian!

Quotes:

"Conkers!"

"Bramley apples or
cox's apples first?"

"Crisps and hot
chocolate?"
