

Cambian Beverley School Our Vision

"Be the best you can be, nothing is impossible!"

Our Mission Statement

Our mission is to develop meaningful relationships with our young people so that they can learn in a safe and positive environment in order to achieve their full potential. We believe in supporting our students with their social, emotional and mental health needs so that they can manage themselves in different situations. Holistic development is our focus in all areas of school life.

Our Aims

By supporting our young people and working with their parents, guardians, carers and external agencies we:

- Establish strong relationships with our students so that we can enable them to feel safe in school
- Provide a personalised programme of learning so that we can meet the needs and develop the skills, talents and abilities of each student
- Provide Social, Emotional and Mental Health support so that students can understand their own needs, their challenges and develop strategies to manage their day to day lives
- Provide access to a range of opportunities so that students can build their confidence, independence, resilience and understand how the wider world works, considering, in particular, Fundamental British Values
- Provide careers advice and opportunities so that we can raise ambition and support students in making choices and having a transition plan at the end of their time with us.

Our ethos and vision links closely with our development plan so that we can look to improve and develop to maximise potential. This means that we are keen to:

- Locate suitable premises to educate and care for all pupils

- Widen opportunities to prepare children for the challenges of the modern world
- Maximise progress for all pupils by ensuring a secure, consistently high quality of teaching and learning
