

Outcomes:

Enhanced learning through hands-on, sensory experiences

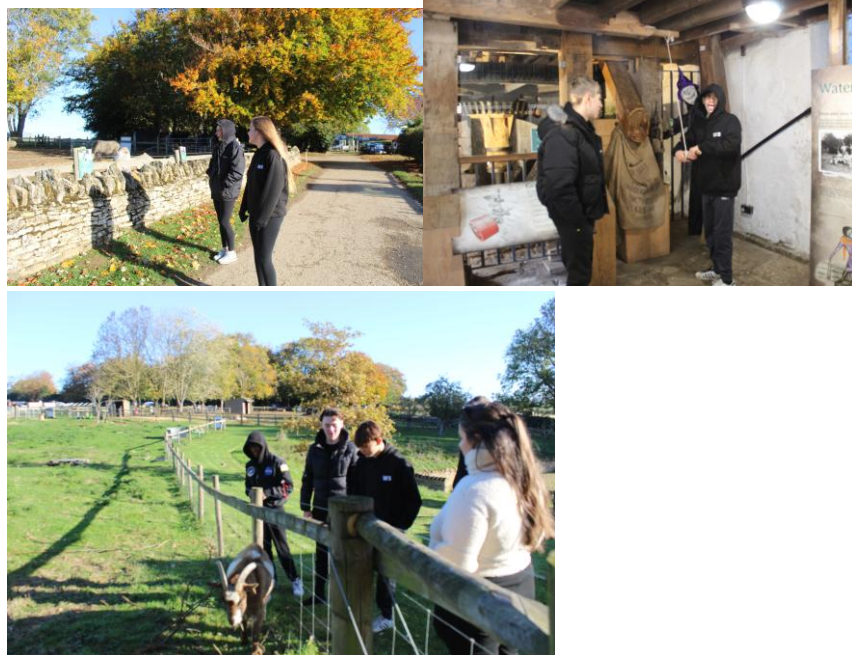

improved social and emotional skills

understanding of where food comes from.

educational benefits by connecting classroom learning to real-world applications

improving student engagement

fostering a connection to nature and the environment.

Anglia Way end of term trip to Sacrewell Farm.

We left school once we had breakfast and arrived at around 10:30am

Students and staff walked around the farm and enjoyed seeing farm animals, such as; goats, pigs, donkeys

There were lots of spooky Halloween decorations up in the old well house

Students were able to go into pens with chickens and duck and really enjoyed this part

Students before we left went into the maze

We then went to Wimblington on the ninja park

Quotes:

Look at this duck!!

This ninja park is so fun

Wow that goat is massive!
