

Date 19/11/2025

Dear all,

As we move into the winter months, we would like to remind you of the procedures to follow in the event of severe weather conditions such as heavy snow.

School Closure Information

If there is severe weather, please listen to local radio stations or check official communication channels for updates. If Northgate School is closed due to weather conditions, then our school will also be closed.

Transport and Taxis

If your child normally travels to school by taxi and there is heavy snowfall or dangerous conditions, please keep your child at home for their safety. Taxi services may not be able to operate, and we do not want families or drivers to take unnecessary risks.

Staff Travel

Please be mindful that many of our staff travel from different counties. Severe weather can significantly affect their ability to reach school safely and on time. This may impact school operations during extreme conditions.

We appreciate your understanding and cooperation in keeping everyone safe. If you have any questions, please contact the school office.

Kind regards,

Leanne

Cambian Northampton School
