

National Brownie Day 8th December 2025

Hartlepool Schools Students joined in the fun and had a brownie bake off as part of Food Technology to celebrate National Brownie Day. Students had many options to choose different flavours such as cherries, nuts, milk chocolate and white chocolate. They baked a brownie each to take home to share out to their parents, carers and guardians.

Students also came up with a brilliant idea to bake an extra-large brownie to hand out to cut up and share with all of the teachers and other professionals for the

end of day debrief which was enjoyed with a nice brew.

Students were quick to realise that National Brownie Day was not just about chocolate but about joy, sharing, and

creativity. Food holidays like this one offered students a low-pressure way to connect with others, take a break from

routine planning, and find delight in small, simple pleasures.

National Brownie Day was also reminder to us all that celebration doesn't need to be elaborate. Sometimes, a single square of warm, gooey chocolate brownie is all it takes to make others feel kindness, warmth and much appreciated.
