Cambian Dilston College

Residential and Day Placements Available Now

Cambian Dilston College is an independent specialist provider of further education in North East England, offering day and up to 52-week residential placements for young people aged 16-25 with a learning disability, Autism Spectrum Disorder and complex needs.

Education

Cambian Dilston College's curriculum is designed to enable our young people to build self-esteem and achieve their full potential, offering flexible routes to full qualifications and units of study from pre-entry to Levels 1 and 2.

We are approved to run AQA award schemes that provide a vast range of qualification to our students, and a variety of opportunities through the Qualifications and Credits Framework (QCF). Our Independent Living Skills Curriculum is designed to develop learners' readiness for independent or shared community living.

Residential

We strive to provide a homely environment for our young people where they feel safe, comfortable and valued, in the grounds of our beautiful, rural and historic 9-acre site that provides a gentle, caring and therapeutic atmosphere. We offer a large variety of living spaces both in the main college building and in our cottages around the site.

“ The site itself is very impressive and the location is beautiful, we were surprised at the how big the site was and how much was on offer for the young people! We also had the pleasure of speaking to a young person who was incredibly excited to tell us all about the animals and how they are looked after, we got to meet the animals also which was amazing.”

Caitlin Ridge
– Commissioning Support & Innovations Officer
- Children’s Commissioning Service

“ The aspirations for most students are no different to anyone else. Our students know what their rights are, how to exercise their rights and we are here to help them on their journey’ ...the students, the staff team and the environment make Dilston College the most wonderful place to be. ”

- Rick Johnson
Head of Care
