

Outcomes:

- To Explore and learn.
- Behave well in public.
- Navigate the land on an ordnance survey map.

Description of trip:

This week there was only one pupil in the class for our walk. Nevertheless, we still went on our walk and it was such an enjoyable walk. We decided to walk in a completely different area today and we visited Sutton Bridge. We enjoyed the peaceful walk talking about our long bank holiday weekends and soaking up the sun's rays. We were definitely in farmers territory. We walked past many farms and admired the drilled fields and the new crops that have been sown. In total we walked 3.8 miles this week, a little longer than we usually walk. We enjoyed the views and watching the shipping boat moving scrap metal. It was loading scrap metal the whole time we were walking.

Quotes:

"It's so peaceful"

"Is that Sutton Bridge?"

"We've never walked this way before"
