## Celebrating Earth Day 2026

### Celebrating Earth Day

Earth Day is an annual global event celebrated around the world to demonstrate support for environmental protection

At Hill House, we wanted to mark this occasion by encouraging everyone to join in a whole range of different activities throughout the day

## Young people made their own seed blessings, took part in planting activities and made mini wildlife ponds

These activities encouraged biodiversity...insects, butterflies, bees and water borne creatures!

Land and nature

Protecting and restoring land for the benefit of people and wildlife.

There was also an outdoor natural art workshop where young people used rope and string salvaged from beach cleans, to make a giant sculpture

The day was great fun and provided an opportunity to come together and promote the importance of looking after our planet whilst celebrating its beauty

	<p><b>Zero waste</b> Reducing consumption, re-using and recycling to achieve zero waste and zero pollution.</p>
	<p><b>Culture and community</b> Nurturing local identity and heritage, empowering communities and promoting a culture of sustainable living.</p>
