

## Outcomes:

- To Explore and learn.
- Behave well in public.
- Use a map to follow a route.

Description of trip: This week we set off on a brand-new walk around the fields of Terrington Saint Clement. This was set to be one of our longest walks. We passed many fields and farms along the way. We chatted about the type of music we liked and what plans we had for the week ahead. It was lovely to be out in the fresh air enjoying each other's company. We followed our map and it led us to a dead end where we would have to either just a dyke or take a detour. Some pupils wanted to try the dyke jumping, but our teacher insisted we take a safer option of a detour. It just meant the walk was even longer, but we didn't mind. It was exhilarating being lost in the countryside but safe in the knowledge that we had a map to follow to lead us back to the car. We put trust in the navigation skills we had learnt and one hour and 50 minutes later and 5.1 miles of walking and we were safely back at the car. A great walk which was very peaceful, great for the mind and body! Thank you Cambian.

## Quotes:

"Did you see the hare?"

"It is so peaceful"

"Detour time!"
