

Outcomes:

**Hand-Eye Coordination**

This skill bridges the gap between vision and action, providing the precision needed for complex tasks.

**Fine & Gross Motor Skills**

**Fine Motor (Precision & Strength)**

**Gross Motor (Balance & Coordination)**

**Social Skills**

Today we went to play adventure golf, we had the absolute best time! The children eagerly grabbed their putters to tackle the 18-hole course, navigating tricky tunnels, bridges, and winding pathways. Giggles filled the air as they spun the challenge wheels, trying to hit their golf balls while standing on one leg or putting completely blindfolded. The digital scorecards kept the friendly competition exciting, sparking loud cheers across the greens with every hole-in-one. It was a wonderful day of teamwork, outdoor fun, and shared memories that everyone talked about all the way back to school.

Quotes:

This is hard

Did that go into the whole

Its my turn now
