

Cambian Brook View School

Ward Green Lane, Preston, PR3 3YB

Cambian Brook View School is an independent provider of specialist education, offering up to 52-week residential and day placements for young people aged 8 to 18 with a diagnosis of autism spectrum disorder and other related areas of need.

We are dedicated to helping every child and young person achieve their personal best. Our aim is to make sure all pupils enjoy the same learning and social opportunities as their peers. We do this by offering high-quality facilities and a creative, carefully tailored curriculum that supports each learner's individual needs.

With a passionate staff team, a thoughtful approach, and purpose-built spaces, we create a welcoming, safe and happy environment where every child can thrive and make progress, whatever their starting point.

Student Profile

- Mixed gender, age 8-18
- Primary diagnosis of Autism
- Complex Needs
- Associated Barriers to Learning
- Learning Difficulties
- Has an Education, Health & Care Plan

PARENT FEEDBACK

"Before joining Brook View, my son had a poor experience of school life and had missed almost 3 years of education due to unmet needs. I had heard of Brook View, especially the fantastic new head and went to have a look around. From this point, Brook View was where we wanted him to go!

Due to his past experiences and having so long out of education we were all prepared for a rocky start and suitable arrangements were made. My son, however, loved it so much that there wasn't one day where he didn't want to attend, in fact by week 3 he was having that much fun he didn't want to come home!

Each individual staff member is child focused and they all bring different experiences to benefit the children. There is so much outdoor space which is utilised well daily, a cooking room and different sensory rooms, I can understand why he is so happy there!

Brook View has been life changing, not just to my son but to us as a family. I will be forever grateful that they believed in him and gave him a chance and I can now see a positive future ahead for him!"

- Parent

Set within 20 acres of beautiful and secure North West countryside, Brook View School offers a rich, spacious and calming environment designed to meet the complex needs of children and young people with autism. The school is equipped with a range of purpose-built classrooms that provide structure, predictability and low-arousal spaces to support engagement and emotional regulation.

Including:

- Sensory Integration Room
- Multisensory Light Room
- Purpose Built Playground
- Life Skills Room
- Adapted Play Equipment
- Bedding Boxes

OUTCOMES 2026

Below are some of our latest student outcomes:

EXAMINATION SUCCESS

On average, our young people achieved at least two ASDAN Lifeskills Challenge accreditations last year, formally validating their progress in preparation for adulthood.

INDEPENDENCE & LIFE SKILLS

100%

of our learners have met a personal milestone for independent food preparation.

INCLUSION

100%

of our learners took part in our inclusive Sports Day.

COMMUNICATION & INTERACTION

90%

of our learners successfully generalised their classroom social skills into real-world scenarios during community visits.

WELLBEING

Our annual learner survey showed that 90% of learners feel safe, understood, and happy at school, directly supporting their readiness to learn.

CAREERS & PATHWAYS

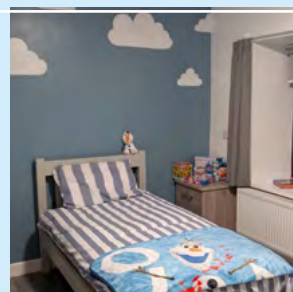

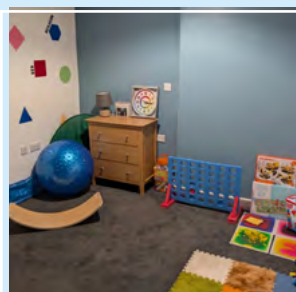

Two of our young people successfully participated in real-life external work experience placements, practicing vital workplace skills.

"Since he started Brook View he has come on massively! He's confidence is slowly coming on he is communicating better. His attitude towards learning has come on massively with the help of his, lovely teacher. The bond he has with the staff at Brook View is amazing"

- Parent

Brook View School has two residential homes offering 38 and 52-week residential places for boys and girls within the school grounds.

The residential homes at Brook View provide safe, nurturing and homely environments where children and young people can feel secure and valued. Each home offers comfortable bedrooms and welcoming shared spaces that encourage creativity, social interaction and relaxation.

With a strong person-centred approach, staff focus on building confidence, independence and positive relationships. Young people are supported to develop communication and social skills, manage their emotions and understand their own wellbeing, helping them grow into happy, healthy and confident individuals.
