

# **Business Continuity Plan**

# Purbeck View School – Peake House Site

This document will help Cambian Group and Registered Managers/Heads/Principals meet their statutory responsibilities. In particular it will ensure:

- Compliance with relevant sections of The Management of Health and Safety at Work Regulations 1999, the
  Health and Safety at Work Act 1974 and associated regulations and the Regulatory Reform (Fire Safety) Order
  2005 and other relevant legislation.
- The premises are suitable for the regulated activity
- The premises are accessible to people who need to enter the premises and meet the appropriate requirements of the Equality Act 2010.
- The premises are designed and operated in a way that takes account of guidance from expert bodies in relation to specific needs
- Account is taken of identified risks.
- The relevant requirements of the following standards are met:
  - o Health and Social Care Act 2008 (Regulated Activities) Regulations 2014 (Part 3) (as amended)
  - CQC Fundamental Standards 2015 Cleanliness, safety and suitability of premises and equipment Regulation 15
  - o Guide to the Children's Homes Regulations including the quality standards 2015 Review of premises
  - The Children's Homes (England) Regulations 2015 Regulation 46
  - National Minimum Standards for Care Homes for Children and Younger Adults, Wales 2002
  - The Care Homes (Wales) Regulations 2002 Regulation 24
  - National Minimum Standards for Care Homes for Older People, Wales 2004 Section Eight: The Physical Environment (Standards 33 – 40)
  - Independent School Standards Regulations 2015 part 3 & 5 162a Education Act 2002 amended schedule 8 2005
  - School Premises Regulations 1999
  - Residential Special Schools 2015 National Minimum Standards 5, 6 & 7
  - National Minimum Standards for Independent Health Care Services in Wales 2011 NMS 12 Regulation 26,
     40

## 1. Planning for and Dealing with Emergencies

#### Scope

This document describes specific responsibilities in planning how to deal with emergencies and actions to be taken in emergencies.

#### **Principles**

- The safety of individuals, visitors and staff is of paramount importance.
- No one should put themselves or others at additional risk when responding to an emergency situation.
- Preservation of life and preservation from injury are over-riding concerns
- The successful handling of emergencies is related to the meticulous emergency planning and the practice of using the plan.
- Confidential records should, as far as reasonably practicable in the prevailing circumstances, be made secure. As soon as is safe to do so, they should be removed to a safe and secure location e.g. another Cambian site.

## 2. Continuity Plan Contacts

The location Manager/Head/Principal should ensure that the continuity plan is maintained.

A copy of the continuity plan should be kept in the location Managers/Heads/Principals office.

Additional copies of the continuity plan are kept:

- At each staff base/general office/reception/staff room as applicable to the specific location.
- At the homes of the Manager/Head/Principal and their appointed deputies.

A copy of the emergency plan should also be uploaded onto Cambian Point.

The location Manager/ Head/Principal should ensure that an up to date hard copy of the continuity plan is available to all staff at the location and that staff are familiar with the contents.

The Continuity plan co-ordinators for this location are:

- The Manager/Head/Principal and their appointed deputies.
- Person in charge on shift.
- The Regional Facilities Manager.
- The Location Administrator.
- The Maintenance Team.
- [Insert other]

The Continuity plan should be reviewed **at least annually** (or sooner if there is a known material change) and updated and amended as necessary. This plan will be reviewed again in **July** 2019.

Approved by: Colin Muddle

#### 2.1. Contacts

Name of Location: Peake House, Afflington, Corfe Castle, Wareham, Dorset, BH20 5HT

Telephone: Purbeck View School - 01929 481479

Pay phone No: N/A

## 2.2. Other Staff Continuity Contacts:

Name	Job Role	Mobile Number
Ginny Bellard	Location Manager/Head/Principal	07702 809737
Natalie Rule	Deputy Location Manager / Head / Principal	07921 353858
Team	Maintenance	07803 248736
Simon Laird	Regional Facilities Manager	07469 155 107
Lee Jennings	Director of Facilities Management	07525 633180
Tom Burford	Director for Improving Children's Services	07711 765786

## 2.3. Continuity Contact Numbers:

1.	Fire	Tel No: (9)999
	/Police/Ambulance	
2.	Cambian Head Office	Cambian Group  4 <sup>th</sup> Floor Waterfront  Mambre Wharf  Mambre Road  London  W6 9RH  Tel: 0208 735 6150  Fax: 0208 735 6151
3.	Local Health Board	Dorset Primary Care Trust, Hill Fort House, Poundbury Road, Dorchester, Dorset. DT1 2PN Telephone: 01305 368900

		General electrical faults should be reported to Regional Facilities Office (see 8 above)
14.	Water	Emergency Tel: Wessex Water
		Telephone: 01225 526206 (24 hours a day)
		Following link will help you identify your suppliers web site where you should find an emergency contact number:
		http://www.water.org.uk/consumers/find-your-supplier
		General leaks (within the building/site boundary) and plumbing issues should be reported to Regional Facilities Office (see 9 above)

## Remember

- Always keep calm, be reassuring and use your skill, knowledge and training to deal with the situation in a professional manner.
- Never rush
- Provided it is safe to do so, you should always put the needs of individuals in our care first.
- At no time, however, should you put yourself at risk.

# 3. Location of Main Services and Equipment

1.	Gas	Utility room, GF8
2.	Gas meters	GF10
3.	Water	Valve on bridge outside of Peake House grounds (first bridge towards Swanage) Valve in garden, outside GF10
4.	Water Meters	Meter on bridge outside of Peake House grounds (first bridge towards Swanage)

Version: 7
Next Review Date: July 2019
Print Date: 24-Oct-18

® Cambian Group PLC 2014 Policy Name: Emergency Planning Page 24 of 24 Approved by: Colin Muddle

5.	Electric Main Distribution Board	GF8
6.	Electric Meters	Outside wall of GF8
7.	Spare supply of light bulbs	Fire alarm key next to panel in lobby
8.	Key Safes etc	

#### 4. Fire Precautions

- If fire alarm sounds dial (9)**999** and follow the Group Fire Action policy (GHS 6) and the procedures specific to your location.
- Ask for the Fire Brigade providing the full Location address and state that "This is Peake House Residential School and Children's Home Swanage and there are "X number of individuals who are classed as vulnerable children/adults.
- (Do not hang up until told to do so)
- The evacuation strategy for this location is **ZONAL** evacuation. Contact your Facilities Manager if there is any doubt about which evacuation strategy applies at your location.
- Do not fight the fire unless it is safe to do so.
- Wait for the Fire Brigade to arrive at the location.
- The Fire Marshal will be in control of the building when the fire alarm sounds until either the alarm is silenced because of false activation or the Fire Brigade arrive.

**NOTE**: At some locations fire exits will release automatically either immediately or after a short (2–3 minute) time delay and allow free egress for both staff and individuals. The positioning of staff when the alarm is sounding is therefore important to ensure that any detained individuals are not allowed free access to the exterior of the building in breach of Section 17 leave conditions as part of the Mental Health Act 1983.

In most instances, the fire service will be in attendance within 10 minutes.

#### Remember!

- The fire service should remain present whilst the fire panel is reset and stay until the all clear is given.
- Read all fire notices and know the location of all manual call points and fire extinguishers.
- Know all fire exit points and zone areas.
- Keep all fire exits free from obstruction and report any faults with doors etc.
- Do not wedge doors with objects.
- Turn off electrical appliances which are not in use.
  - It is illegal to silence the alarm until a false alarm has been declared. Under no circumstances should the alarm be silenced in the event of a genuine alarm.

Most importantly, Remain Calm!

As soon as reasonably practicable the following should be contacted:

- Regional Facilities Office/Facilities Emergency Line: Tel: 01782 948989 (24 hours).
- The location Manager/Head/Principal.
- Regional Facilities Manager
- Operations Director/Regional Manager.

## 5. Electrical Power Failure

The main electrical isolation point is located Basement (electric cupboard inside the entrance). See attached plan.

#### 5.1. Section Power Failure

If the power fails to a room or a small section of the location, the Person in Charge should try to reset the circuit breakers located in the Utility Room, GF8. See attached plans for locations.

If the fault remains, contact your Regional Facilities Manager (see section 2.2) during normal working hours (8am – 5pm Mon - Fri).

For out of hours emergency repairs (5pm-8am Mon-Fri, weekends and bank holidays) call the Facilities Emergency Line on 01782 948989. If you are unable to contact your Regional Facilities Manager during normal working hours call the Facilities Emergency Line.

The Person in Charge should state the nature of the fault and request assistance.

#### 5.2. Total Power Failure

If the power fails to the whole location, the Person in Charge should try to ascertain if the failure is solely confined to the Location or, does it affect the wider neighbourhood, by contacting:

Southern Electric (emergencies): 0845 744 4555 [as per section 2.3.13]

Try to ascertain the estimated timescale for restoration of the supply. If the disruption to supply is unknown or likely to be greater than two hours contact your Regional Facilities Manager (see section 2.2) during normal working hours (8am – 5pm Mon - Fri).

For assistance out of hours (5pm-8am Mon-Fri, weekends and bank holidays) call the Facilities Emergency Line on 01782 948989. If you are unable to contact your Regional Facilities Manager during normal working hours call the Facilities Emergency Line.

The following should also be contacted:

- The Manager/Head/Principal.
- Operations Director/Regional Manager.

If the fault lies within the location, and the power cannot be reset, the Person in Charge should contact the Regional Facilities Manager (see section 2.2) during normal working hours (8am – 5pm Mon - Fri).

For assistance out of hours (5pm-8am Mon-Fri, weekends and bank holidays) call the Facilities Emergency Line on 01782 948989. If you are unable to contact your Regional Facilities Manager during normal working hours call the Facilities Emergency Line.

The following should also be contacted:

- The Manager/Head/Principal.
- Operations Director/Regional Manager.

Staff should reassure individuals and continue with their duties in a calm manner.

The location has internal, independently powered, emergency lighting which should automatically take effect when power fails. This will provide some working light in corridors and other key locations for about 3 hours.

Approved by: Colin Muddle

A torch should be kept in the living groups, the basement, and the night team manager's office in case of emergency and tested before the start of each night shift to ensure that they work.

## 6. Water Leakage

#### 6.1. Stop Valve Location in Bedrooms

Bedroom Stop valves are located: N/A

Local Isolation Points: N/A

#### 6.2. Water Leakage To A Section Of The Location

The area should be cordoned off to prevent accidents and individuals moved to a different area of the location if necessary.

The **Person in Charge** (or maintenance person if on duty) should attempt to isolate the water supply to the area/building by turning off the supply. See attached plans.

In some circumstances it may also be necessary to request advice on heating if the water supply also feeds the heating system for the location.

The **Person in Charge** should contact the Regional Facilities Manager (see section 2.2) during normal working hours (8am – 5pm Mon - Fri).

For out of hours' emergency repairs (5pm-8am Mon-Fri, weekends and bank holidays) call the Facilities Emergency Line on 01782 948989. If you are unable to contact your Regional Facilities Manager during normal working hours call the Facilities Emergency Line.

#### **6.3.** Flooding to a Major Section of the Location

If flooding occurs to a large area of the location, the Person in Charge should contact the Regional Facilities Manager (see section 2.2) during normal working hours (8am – 5pm Mon - Fri).

For out of hours' emergencies (5pm-8am Mon-Fri, weekends and bank holidays) call the Facilities Emergency Line on 01782 948989. If you are unable to contact your Regional Facilities Manager during normal working hours call the Facilities Emergency Line.

The following should also be contacted:

- The Manager/Head/Principal.
- Operations Director/Regional Manager.
- Off duty staff to come to the location as required.

Mains water stop valve(s) are located on the railway bridge, external to the property. See attached plans

The Person in Charge might need to inform the Police and Ambulance Services if appropriate.

Where practicable all individuals should be moved to a safe area of the location. Staff should reassure individuals and prepare to evacuate the location should this prove necessary.

For calls relating to water extraction, de-humidifying and drying due to flooding contact the Regional Facilities Manager (see section 2.2) during normal working hours (8am – 5pm Mon - Fri).

Approved by: Colin Muddle

For out of hours' emergencies (5pm-8am Mon-Fri, weekends and bank holidays) call the Facilities Emergency Line on 01782 948989. If you are unable to contact your Regional Facilities Manager during normal working hours call the Facilities Emergency Line.

Equipment hire is available through:

HSS Hire, 17A Christchurch Road, Bournemouth, Dorset. BH1 3LF

Telephone: 01202 319992

Website: www.hss.com

Account CA2250

NOTE: Facilities Manager or Facilities Emergency Line to be consulted before placing orders.

## 7. Gas and Oil Leakage

#### Mains Gas or LPG

The main isolation valve is Peake House is in internal cupboard in GF 10. See attached plans. The gas supply can be turned off by a quarter turn clockwise.

All staff must report any incidents of gas leakage (or suspected gas leaks) to the Person in Charge who should immediately ensure that the gas supply is isolated.

The Person in Charge should then contact National Gas Emergency Helpline Tel: 0800 111 999 as per section 2.3.12 above as per section 2.3.12 above] (24 hours a day), liaise with the operator and assess the situation concerning evacuation of the Location.

The person in charge should also contact the Regional Facilities Manager (see section 2.2) during normal working hours (8am – 5pm Mon - Fri).

For out of hours' assistance (5pm-8am Mon-Fri, weekends and bank holidays) call the Facilities Emergency Line on 01782 948989. If you are unable to contact your Regional Facilities Manager during normal working hours call the Facilities Emergency Line.

The following should also be contacted:

- The Manager/Head/Principal.
- Off duty staff to come to the location as required.
- Operations Director/Regional Manager.

#### Safety is the first consideration!

Staff should reassure the individuals and prepare to evacuate the building if advised to do so.

Oil

N/A

Approved by: Colin Muddle

# 8. Lift Failure [delete sections 8.1 and 8.2 below and enter "N/A" here if site does not have lift]

N/A

## 9. Temporary Loss of Heating

In the event of loss of heating, identify if the problem is:

- Location based or
- Externally based (Electricity/gas supply)

by contacting the numbers in sections 2.3.12 and 2.3.13 above. Try to ascertain the estimated timescale for restoration of the supply from the electricity/gas distributor.

#### 9.1. If the fault appears to be only within your Location

Contact the Regional Facilities Manager (see section 2.2) during normal working hours (8am - 5pm Mon - Fri).

For out of hours emergency repairs (5pm-8am Mon-Fri, weekends and bank holidays) call the Facilities Emergency Line on 01782 948989. If you are unable to contact your Regional Facilities Manager during normal working hours call the Facilities Emergency Line.

When the contractor has inspected the boiler they should provide clear feedback as to what the problem is and how long it will take to effect a repair and restore the heating.

If the general temperature in the location is likely to drop below 18°C for more than 4 hours approx you must:-

- Inform individuals of the interruption to the heating supply.
- Inform the Manager/Head/Principal.
- Contact the Operations Director/Regional Manager.
- Consider whether the evacuation procedure is appropriate.
- Consider what alternative measures are required to ensure that adequate heating can be arranged.
- Contact local hire shops to arrange alternative heating in communal areas (consult your Regional Facilities Manager/Facilities Emergency Line).
- The Manager should also consider making provision of:
  - Hot water bottles.
  - Foot warmers.
  - Electric Blankets.
  - Spare blankets/duvets.
  - Oil filled radiators
  - Convector heaters.

#### 9.2. If the fault appears to be externally based

If the timescale for restoration of supply is unknown or likely to be greater than two hours contact the Regional Facilities Manager (see section 2.2) during normal working hours (8am – 5pm Mon - Fri).

For out of hours assistance (5pm-8am Mon-Fri, weekends and bank holidays) call the Facilities Emergency Line on 01782 948989. If you are unable to contact your Regional Facilities Manager during normal working hours call the Facilities Emergency Line.

The following should also be contacted:

- The Manager/Head/Principal.
- Operations Director/Regional Manager.

#### 9.3. Contact Telephone Numbers

Regional Facilities Dept	Regional Facilities Manager (see section 2.2) during normal working hours (8am – 5pm Mon - Fri).  For out of hours emergency repairs (5pm-8am Mon-Fri, weekends and bank holidays) call the Facilities Emergency Line on 01782 948989. If you are unable to contact your Regional Facilities Manager during normal working hours call the Facilities Emergency Line.
Electricity Distribution Company	Southern Electric (emergencies)
	Telephone: 0845 744 4555
Gas / Oil Supplier	Gas: National Gas Emergency Helpline – Telephone: 0800 111 999
	Oil: Wessex Petroleum – Telephone: 0800 980 6172
Local Hire Shop	HSS Hire: 17A Christchurch Road, Bournemouth, Dorset, BH1 3LF
	Telephone: 01202 319992
	Website: www.hss.com
	Account CA2250
	NOTE: Facilities Manager or Facilities Emergency Line to be consulted before placing orders.

## 10. Accidents in the Location

#### 10.1. Minor Accidents

Staff should report to the Person in Charge any minor accident which occurs to any individual/patient, visitor or member of staff.

The Person in Charge or trained "first - aider" should assess the severity of the accident and if appropriate administer first aid treatment.

First aid boxes are located:

Kitchen

Office

The Person in Charge should record the details of the accident on an IR1 form/accident form.

It may also be appropriate for the Person in Charge to make a record in other places such as the care plan, communication book, handover book etc.

#### 10.2. Major Accidents

In cases involving a serious accident (eg: airway obstruction, fractures, laceration, haemorrhage) the person in charge should ring the Ambulance Service for immediate assistance by dialling (9)999.

A member of staff should remain with the injured person (if safe to do so) until assistance arrives or appropriate first aid can be administered.

At locations with a nurse call system, assistance may be summoned by pressing the personal alarm carried by each member of staff.

The Person in Charge should give as much information to the Ambulance Service and state the circumstances of the accident as far as they are known.

#### Note:

State clearly the address and telephone number of the location and listen carefully to any instructions which may be given by the Ambulance Service.

#### The full address of the location is:

Peake House, Afflington, Corfe Castle, Wareham, Dorset, BH20 5HT

**Telephone**: 01929 481479

The Person in Charge should record the details of the accident on an IR1/Incident Form (GHS 04.01.04b). It may also be appropriate for the Person in Charge to make a record in other places such as the care plan, communication book, handover book etc.

The Manager/Head/Principal should ensure that an accident investigation is completed and, where appropriate, a draft RIDDOR report is prepared and submitted to the relevant Operations Director/Regional Manager for approval prior to filing an online report to HSE.

The location must inform the relevant regulatory body (CQC, Ofsted or HIW) of any event which requires notification as prescribed in their respective regulations.

Nothing in these instructions should be seen as detracting from any other statutory duty that the manager or Company may have to notify the relevant authorities in the event of an accident.

The Person in Charge should also inform the location Manager/Head/Principal, who will notify other relevant Senior Staff.

## 11. Evacuation of the Location

This location has been carefully designed, built, maintained and managed to the highest standards and specifications. Incidents, accidents and emergencies do, however, arise.

Approved by: Colin Muddle

In an emergency the first priority is to protect individuals, staff and visitors.

In the event of a fire alarm activation the policy and procedure on fire action as detailed in section 4 must be rigidly adhered to.

In the event of any other emergency that that may impact on the safety of remaining in the building, the person in charge should assess the situation and where considered necessary call the emergency services as soon as practicable.

Remember, our individuals are considered to be vulnerable children/adults so, any decision which considers evacuation, should not be taken lightly as remaining inside the building is usually considered safer than outside, particularly at night and in winter.

A decision to evacuate or partially evacuate is likely to be taken on the advice of the emergency services representative when they arrive.

Consider all options around moving individuals within the building before evacuation, provided individuals are not put at risk remaining within the building.

## 12. Dealing with the Media

Do not speak with any representative of the media, including local newspapers, national newspapers, radio or television.

You should refer any responses to them by stating that:

"I am not authorised to make any comment on the situation, but can give you the name and telephone number of the person handling the situation."

The most appropriate course of action is to avoid any discussion whatsoever and staff must refer media personnel to the Group Business Development Director, usually via their line Manager

The Cambian Media contact is: Jeremy Wiles Tel: 02087356150 or on his Mobile 07919 023207

# 13. Temporary Accommodation

Wherever possible, in the event of an evacuation of the building, individuals should be transferred to another Cambian location such as The Forum School, Hill House School, or Southwick Park School.

Detained individuals should be prioritised for internal transfer.

Location Name	Address and Telephone
The Forum School	Shillingstone, Blandford Forum, Dorset DT11 0RA
	Telephone: 01258 860295
Hill House School	Rope Hill, Boldre, Lymington, Hampshire, SO41 8NE
	Telephone: 01590 672147

The Person in Charge should make immediate contact with the other Cambian locations listed and arrange for their transport to be dispatched to your location in order to move individuals safely and with appropriate staff support. The Person in Charge should ask the other locations to raise additional staff, if possible, to act as escorts.

The Person in Charge should also seek to contact as many staff as possible who are not on duty and ask them to come on duty to act as escorts and individual/patient support.

Wherever possible, Cambian transport should be utilised. Always ensure that there are escorts with individuals, not including the driver of the vehicle.

Where further transport is required, the Manager/Head/Principal should ensure that there is a list of taxi companies identified who might be utilised as a transport service.

Where possible this should include companies with 7-11 seat transport to accommodate individuals, their immediate personal effects and escorts.

When all internal transfer routes have been explored, have in place a protocol with other locations, e.g. NHS, with whom reciprocal arrangements can be made.

The Manager/Head/Principal should seek to establish protocols with other organisations (e.g. NHS) which could provide temporary accommodation if no internal transfer routes are available.

The Location Manager/Head/Principal should also make enquiries in the local area as to which premises might be able to offer temporary/short term refuge in the event of a full scale evacuation of the building whilst a longer term solution is sought. This might include local schools, church halls and community centres.

The Person in Charge should first check the individuals Contingency Care Plan for Contingency Placement before arranging for the provision of other emergency accommodation.

In the event of an overnight stay, the accommodation must be suitable for the individuals concerned.

Church Halls and Community Centres are not usually appropriate in an overnight stay, however, they may be considered during the daytime.

Contacts should be made with larger hotels in the area that could accommodate the individuals in the events of an evacuation of the location.

Contacts should be made with local taxi firms for local community transport to transport individuals from the location to their temporary accommodation in the event of an evacuation.

Consider asking the local Salvation Army (or similar organisation) for their help as they are quite expert at crisis management in many areas of the country.

#### 13.1. Hotels

Hotel Name	Address and Telephone
N/A	N/A

#### 13.2. Church Halls/Community Centres etc.

Church Hall / Community Centre Name	Address and Telephone
All Saints Church	5 Redcliffe Road, Swanage, Dorset, BH19 1LZ
	Telephone: 01929 421836
Methodist Church	105 High Street, Swanage, Dorset, BH19 2LZ
	Telephone: 01929 421767

Approved by: Colin Muddle

#### 13.3. Taxi Firms/Local Community Transport

1	Isle of Purbeck Mini Coaches 01929 424924
2.	South Dorset Coaches 01929 423622

## 14. Security of the Location

Each location has a specific security programme depending on the needs and risks at the location. This *may* include:

- Security fencing.
- Door entry systems.
- Individual Burglar alarms.
- Security lighting.
- Window locks.
- Security Grills.
- CCTV.

#### 14.1. Key Monitoring System

Identified doors are to be locked at all times. Locks for doors are opened in one of four ways:

- Using the individual key for that individual lock.
- Using the fob, card or code for locks with an integral access control system.
- Using the master key for the suite installed.
- Using the thumb turn where installed.

Keys or fobs should be issued only to those people who can prove the need (or right) to have a key. All keys and fobs issued must be recorded and timed when given out and timed upon return.

#### 14.2. Location Security Check

At the end of each day a security check must be made by the Person in Charge or a nominated person. This will include:

- Checking that all keys, staff alarms and access control fobs are accounted for.
- Walking the location to physically check that all fire exits are secured and communal doors and windows are closed and where appropriate locked.

#### 14.3. Staff Confronting Intruders

If a member of staff is confronted by a suspected intruder:

Stay Calm - Ask the person or persons for formal identification. If none can be produced, ask them to leave the building.

Do not physically or verbally confront the person or persons as they may be violent. When they are leaving the building write out a description and call the police. If the person or persons become abusive call the Police immediately. At locations with a nurse call system, assistance may be summoned by pressing the personal alarm carried by each member of staff.

Approved by: Colin Muddle

#### 14.4. Suspected Intruders in the Location.

The following principles should be adopted to ensure that no member of staff is put at risk.

- Call the Police and wait for them to arrive.
- Do not under any circumstances attempt to enter a room to Investigate.
- Try to ensure that a member of staff is waiting at the front door when the Police arrive.

#### 14.5 Dealing with Emergency Repairs after Forced Entry

Contact the Regional Facilities Manager (see section 2.2) during normal working hours (8am – 5pm Mon - Fri).

For out of hours assistance (5pm-8am Mon-Fri, weekends and bank holidays) call the Facilities Emergency Line on 01782 948989.) If you are unable to contact your Regional Facilities Manager during normal working hours call the Facilities Emergency Line.

## 15. Dealing With Missing Persons

Each individual, who is not subject to being detained under a section of the Mental Health Act 1983, has the right to come and go without "let or hindrance" and any attempt to restrict their movement may be seen as an infringement of their human rights.

However, there are circumstances where individuals are not able to rationalise their actions or are unable to manage their orientation once outside the location which renders them very vulnerable once outside their familiar environment without a supporter. In this situation the Deprivation of Liberty Safeguards process will be implemented and the care planning and risk management will be aligned to the results of the assessments. Any restrictions under the Deprivation of Liberty authorisation will be part of the care planning process.

The Manager/Head/Principal is responsible for making the decision that an individual is considered to be missing and ensuring that the appropriate action is then taken.

Where an informal individual tries to leave the location even after the staff member has expressed their concerns, the Person in Charge may use their discretionary holding authority as stated in Section 5(4) of the Mental Health Act 1983. This allows for the individual to be detained for a period of up to 6 hours.

The person in charge is responsible for ensuring that any detained individuals only leave the location in accordance with their Section 17 Leave authorisation form as written and directed by the RC. The terms of such leave must be strictly adhered to at all times and any breaches should be brought to the attention of the Manager and the RC.

## 16. Protocol for Managing Outbreaks of Infection

This protocol is to ensure that there are effective arrangements in place for reporting of infections and that all employees are aware of their roles and responsibilities.

Any significant infection control incidents should be recorded on an IR1 form/incident form and the location Infection Control Lead informed as soon as is practical. The Infection Control Lead should be contacted where there are:

- Two or more individuals or employees with vomiting and/or diarrhoea (amongst individuals or staff) or sudden onset of coughing with raised temperature
- Two or more individuals suffering from the same infection
- There is a high sickness rate amongst staff that appear to be suffering from the same infectious disease.

Approved by: Colin Muddle

Employees should be aware that they should wash their hands before and after any contact with an infected individual, their clothing or any contaminated item.

Ensure that there are effective arrangements in place for staff to access Occupational Health services where they may have been exposed to infection.

When an individual or member of staff is confirmed as having an infectious disease (as defined by a general practitioner, the CQC/HIW, Ofsted, PHE/NPHS Wales or the Department of Health) the Registered Person should inform the CQC/HIW/Ofsted as applicable without delay. In addition, the relevant Operations Director/Regional Manager and the Occupational Health provider should also be informed.

Once an infection has been confirmed, the individual will be treated as per the Incident and Outbreak Management Procedure.

Depending on the infection, isolation within the individuals own room may be necessary.

In extreme cases, and subject to medical advice, closure of the location may be necessary over a set period.

In all cases, high standards of infection control practices are essential. This will include environment cleaning, cleaning of equipment, laundry, hand hygiene and personal protective equipment and waste management (see the relevant procedures). These should already be in place.

Individuals and visitors should be kept informed of infection related incidents and outbreaks, the action being taken and what is expected from them. Other locations should be advised of the outbreak of infection and visitors to the facility should be kept at minimal levels with priority to only those necessary.

The following types of infections need to be reported in line with Incident and Management procedures.

Acute encephalitis Acute poliomyelitis

Anthrax Cholera Diphtheria

Dysentery (amoebic or bacillary) Food poisoning Leprosy Leptospirosis

Malaria Measles Meningitis

Meningococcal septicaemia (without meningitis)

Mumps

Ophthalmia neonatorum

Paratyphoid fever

Plaaue Rabies

Relapsing fever Smallpox Rubella Scarlet fever

Smallpox Tetanus Tuberculosis Typhoid fever **Typhus** 

Viral haemorrhagic fevers

Approved by: Colin Muddle

Date: July 2018

Viral hepatitis Whooping cough Yellow fever

If unsure staff are advised to seek advice from the Registered Manager/Head/Principal and/or the Group Infection Control Lead.

#### **Group Infection Control Lead:**

Dr Triveni Joshi Tel: 07714 312 182 Email: <u>Triveni.Joshi@cambiangroup.com</u>

The local office of Public Health England/National Public Health Service for Wales should be notified in the event of an outbreak of infection at the location (generally defined as two or more related cases of an infectious disease).

## 17. Terrorist Attack – Bomb Scare

You will normally be informed of such an event either indirectly or directly by the perpetrator. Whether the threat is deemed real or not, **all cases should be treated as genuine** and responded to in the same way.

You should always remain alert to the danger of terrorism and report suspicious activity:

- In an emergency call (9)999.
- Call the Anti-Terrorist hotline on 0800 789 321 to report any suspicious activity.
- For current threat level refer to <a href="http://www.homeoffice.gov.uk/counter-terrorism/current-threat-level">http://www.homeoffice.gov.uk/counter-terrorism/current-threat-level</a>

Once the alarm has been raised all staff must without delay evacuate individuals from the building. Ensure all are out and safe. If someone refuses to leave the building for any reason don't delay, leave them for the Emergency services and inform rescuers via the "PEEPS" form. Do not re-enter the building under any circumstances unless advised it is safe to do so by the authorities.

Using Company vehicles ensure all individuals are driven away to the nearest place of safety. This ideally would be the local Police Station. Inform the Desk Sergeant why you are there and contact a senior manager from Cambian to advise.

If the threat is real and you can't return to the building disperse all individuals and staff to allocated safe Cambian locations. The Manager/Head/Principal if on duty should remain locally to advise authorities of actions and to act as an information link.

For off-site activities the task specific risk assessment in place will include consideration for emergency situations including the threat of acts of terror. Each location will also have an off-site emergency planning protocol in place.

## 18. Adverse Weather

#### 18.1. Snow

In the event of heavy snow leading to travel disruption, staff within walking distance should, where practicable, be contacted to cover shifts.

Approved by: Colin Muddle

Local car rental companies should be contacted for availability of 4X4 vehicles to assist with staff movements to cover shifts:

ARVAL 0870 600 4499 (option 2)

No individuals in our care should be transported in hire vehicles without prior confirmation of validity of insurance.

Non-urgent medical appointments for individuals should be rearranged. If urgent medical attention is required then the emergency services should be contacted. Off-site therapeutic activities should be suspended.

As far as reasonably practicable, all primary footpaths and walkways on site should be cleared and gritted.

#### 18.2. Heat Wave

The main risks posed by a heatwave are:

- Dehydration (not having enough water).
- Overheating, which can make symptoms worse for people who already have problems with their heart or breathing.
- Heat exhaustion.
- Heatstroke.

Some of the most vulnerable people in extreme heat are:

- Older people.
- Young people.
- People with serious mental health problems.
- People with a serious chronic condition such as heart or breathing problems.

The following advice applies:

- Shut windows that are exposed to the sun when it is hotter outside and open them for ventilation when it is cooler.
- Avoid the heat. Stay out of the sun and don't go out between 11am and 3pm (the hottest part of the day)
  particularly those who are vulnerable to the effects of heat.
- Drink cold drinks regularly, such as water and fruit juice. Avoid tea and coffee.
- If outdoors wear loose, cool clothing, and a hat and use high protection sun screen.
- Have cool baths or showers, and splash yourself with cool water.
- Keep rooms cool by closing the curtains or blinds but note that metallic blinds and dark curtains can make the room hotter.

If someone feels unwell, get them somewhere cool to rest. Give them plenty of fluids to drink. Seek medical help if symptoms such as breathlessness, chest pain, confusion, weakness, dizziness or cramps get worse or don't go away.

Please also refer to applicable Government guidance in relation to specific actions required in accordance with the heat-health alert service.

# 19. IT/Telephony Failure

Complete loss of local computer systems access should be reported in the first instance to IT Lab on 0207 692 3780 (24 hours a day).

Central IT will assess impact of loss of services and likely timeframes to restore.

## Actions for up to 48 Hour Outages

Business Heads to be advised of outage and regularly updated on progress and time to resolve,

- Local IT Services to be used as available.
- External Business contacts to be advised in the event of loss of email communications
- Fax Facilities to be utilised if available).
- Senior Managers to utilise Blackberry services/mobile phone as issued.
- Consider appropriate staff working from alternative Cambian locations or home via VPN connectivity.

#### **Actions for Outages Beyond 48 Hours**

#### As above plus:

- Arrange for 3G Dongles to be deployed to Admin Team.
- Enhance Mobile IT Communications for necessary via Laptop and Tablet Devices.
- Provide Temporary alternative networked storage capabilities for staff if appropriate

Total telephone communications failures should be reported in the first instance to IT Lab on 0207 692 3780 (24 hours a day).

#### Actions for Up to 48 Hours

- Business Management to be advised of outage and alternative contact means.
- Main Business Telephone number to be routed to an available Mobile Telephone Number
- Individuals NOK to be advised and alternative communication methods provided.
- External Business contacts to be advised and alternative communication methods provided.
- Senior Site Staff to be contacted via Blackberry/Mobile phone as issued.
- Redirect to be cancelled upon restoration of telephone services.

#### **Actions for Outages beyond 48 Hours**

- As above
- Emergency Mobile Devices to be provided. These may be PAYG services for non-essential service provision.

## 20. Disruption to Food Supply

Contingency arrangements are in place should the provision of normal food supplies be unavailable.

Source local shops, eateries, takeaways to obtain food to bring back to the location.

Approved by: Colin Muddle

# 21. Review of the Business Continuity Plan

DATE	COMMENTS	APPROVED MANAGER / HEAD / PRINCIPAL	APPROVED OPERATIONS DIRECTOR / REGIONAL MANAGER
31/07/2018	Prepared by Suzie Fisher (Office Administrator) and Rachel Welsh (Bursar)	Ginny Bellard	Tom Burford
		September 2018	October 2018

A copy of this Business Continuity Plan should be sent to <u>H&SCompliance@cambiangroup.com</u> for central record holding.

Approved by: Colin Muddle

## 22. Plans Of The Location And Mains Services

Plans attached.

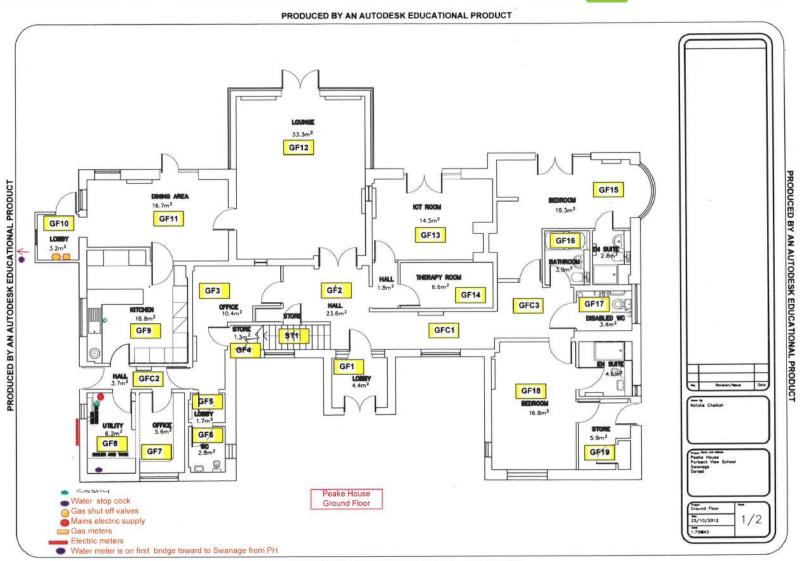

## These should show the following:

- Water meter if on metered water
- Mains water stop valve(s)
- Gas meter
- Gas/oil isolation valve(s)
- Electric meter
- Main electrical isolation switch(es) and all distribution boards
- COSHH Store(s)
