

Exam Season

It's that time of the year when exams come around! Our GCSE students have begun taking their exams and we wish them the very best of luck! Our students who took part in their Functional Skills exams all passed so a big congratulations to all of them! We especially offer congratulations to Oscar who successfully completed his GCSE in Art and Design. The themes for his portfolio were natural form, architecture and photography. For his exam he chose the theme 'Mirror' and his final piece consisted of mixed media exploring the idea of narcissism. A big very well done to Oscar!

Here Comes the Sun!

School Council would like to welcome you to the new Summer Term! We still continue to meet every Monday to update the newsletter with new and exciting information about what's going on around the school. We look forward to keeping you updated and sharing our stories with you.

Lower School and Upper School's Got Talent

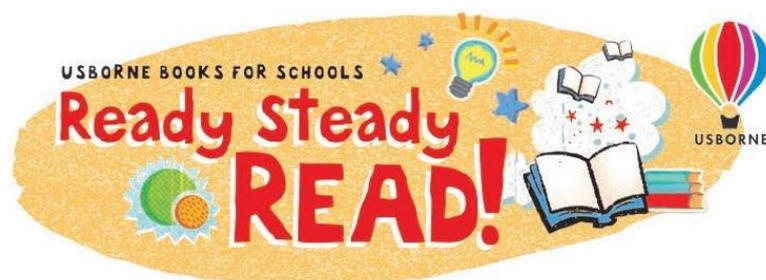

Have you ever watched *Britain's Got Talent*? Lots of students in school are trying to prove how good their talents are by entering the CNES version of the competition. Students have been rehearsing in their Drama lessons with Hannah and have had lots of fun practising.

There were lots of entries ranging from comedy to singing to dancing to showcasing our work. First prize for the Lower School and Upper School competitions was a £10 Amazon voucher!

Congratulations to Ryan in Lower School and Beth in Upper School for their achievements.

Sponsored Read

Some pupils and staff are participating in a special Sponsored Read to raise money for new books for the school. They are doing this by reading for 1 hour everyday for 2 weeks. If you would like to sponsor a pupil please do! We really appreciate your sponsors as they will go towards a fantastic cause!

SARA Visit

The whole school were fortunate enough to have the chance to have a presentation given to them by SARA – the Severn Area Rescue Association. SARA volunteers are part of the search and rescue team and told pupils about how they rescue people, how they provide CPR and other fantastic services they provide. Pupils had the opportunity to have a look around the vehicles used by SARA and some of the special equipment that they use too.

Sensory Garden Update

This half term, we have been making our sensory garden look much more inviting. We have painted a bus on one of the fences in memory of a student, created our very own yellow brick road, displayed students' art work around the garden and Lindsay has very kindly made us a sign for the entrance. We have also added a new bench and new equipment to the garden too. We would also like to say a huge thank you to the Ennis Hill form team who have put a lot of hard work into the upkeep of the garden!

We would like to thank all of the other students and staff who have given their time to make the sensory garden a happy and relaxing place. Well done, all!

End of Term Trip

School Council held a democratic vote on what the end of term trip would be. We counted everyone's CLIMB points and DOJO scores and pupils were told in a letter if they were successful. This term's trip was to Brinton's Park to play games and have fish and chips. Congratulations to all who managed to get on the trip!

CNES Returners – 1.5.19

Two former students, Adam and Kerry, came in to do a speech to a few Upper School students about life at college. They spoke about what college is like and their experiences there. Pupils found this insightful and really helpful as a few students will be leaving in the next few years hoping to go to college.

**WELCOME
BACK!**

Master Chefs

Congratulations to our MasterChef's for this term: – Zac M and Abbie who won twice! The dishes that pupils have been making are home-made rolls, home-made sausages and burgers, ravioli and toffee!

Worcester University Students

We have a series of Worcester University students coming in every week. They do a range of different things around the school such as helping out in classes, observing teachers and playing games with pupils. These students are coming to school to gain experience in preparation for future jobs working in a school. Pupils thoroughly enjoy their stay and we are sad to see them go.

Hungry Hippos

For one very special Friday reward, pupils who achieved gold in their CLIMB points were able to play a human version of Hungry Hippos. Staff and students thoroughly enjoyed the game which involved pupils and staff rolling on skateboards to try and catch the balls in the middle of the hall.

Everyone who took part in the reward thoroughly enjoyed it!
