Smarties class completing their mummification experiment.

Description of the week: A beautiful couple of days in Forest School. Monday was the first day of spring and a chiffchaff was heard in the hedgerow, having made its long journey back to our shores for the summer. LC managed to glimpse it in the hedgerow too. The clearing of the forest continues to reward them, this week snowdrops had appeared as if from nowhere but with their new-found light peeped their heads into our world. The zip wire continues to create laughter fun and adrenaline filled action that many of the children love. HG challenged himself all day to climb high enough to use it and was rewarded for his efforts when he accomplished his task. Great perseverance. The rope bridge also allows the group to keep moving and interacting with each other. Some delicious cooking meant esquiladas were on the menu on the camp fire. In school the Puffins and the Smarties they have started a new writing project, writing explanation texts. They have studied some examples and also started to learn how to use colons and semi-colons. In maths the pupils have started work on the perimeter and area of rectilinear shapes as well as fractions of amounts. In science Puffins have attempted to create their own food webs and in Smarties they have been looking at the skeleton and the different types of bone. In History they have completed work on Egyptian Gods. This week was also our Head-teachers birthday.
