

Topics Covered:

- Zoom lessons
- Maths -
Angles,
algebraic
fractions
- English -
Character
profiles and
descriptive
writing
- Science -
Circuits
- Art -
Surrealism
- PE - tennis,
football,
dodgeball
- ASDAN
- Employability
- Humanities
- PSHE

Description of the week:

First week back to school after half term and what a great week it has been! Students have engaged well in their subjects and have been committed to their learning. Year11 students continue to revise and build evidence for their GCSE's. Some students have been completing zoom learning and this has had positive outcomes.

Maths, students have been learning algebraic fractions. English, students continue to work on descriptive writing and character descriptions. Science, students are still working on circuits. Art students are currently creating projects based on surrealism and are really enjoying their art lessons.

Weather improvements have seen more students getting involved in outdoor games during the afternoon periods.
