- Multiplication
- Area
- Perimeter
- Food wise
- Asdan
- P.E.
- Humanities
- PSHE
- GCSE revision

World Book Day science experiments based on Roald Dahl, George's Marvellous Medicine book.

**Description of the week:**

Students have been working on obtaining a food wise qualification during their employability lessons. During art students have been focusing on their surrealist projects and annotating their work and building up research to support their practical work. During Physical education students have attended the park and used the tennis courts and played basketball and football. During Asdan students have been working on the expressive arts module, giving them the opportunity to link this to their art lessons. Students have really built up their confidence in drum lessons.

English - Students have been studying the book Skellig and speaking and listening.

Maths - Students have been studying angles.

Science - Some students are studying the short course and currently looking at food and nutrition. Others students have been looking at the early atmosphere and variation and evolution.
