

Purbeck View School

Purbeck View were delighted to welcome back Doctor Clark and his vaccination team at the end of March. Over 125 staff and 8 students have now received their Covid-19 vaccine using the on-site clinics since January 2021.

The school has recently been providing extra learning surrounding vaccines, how they work and how scientists have worked together to produce them.

We are incredibly grateful for the support shown by Dr Clark and all the staff at Swanage Medical Practice, not only with the vaccination clinics, but for all their help and guidance during the pandemic.
