Social, Moral, Spiritual and Cultural (SMSC) Policy

All curriculum subjects provide opportunities to promote pupils' spiritual, moral, social and cultural development. Explicit opportunities to promote pupils' development in these areas are provided within religious education and personal, social and health education (PSHE/RSE). A significant contribution is also made by the school ethos and values, other curriculum activities, trips and visits and assemblies.

Spiritual development

Children's spiritual development involves the growth of their sense of self, their unique potential, their understanding of their strengths and weaknesses, and their will to achieve. As their curiosity about themselves and their place in the world increases, they try to answer for themselves some of life's fundamental questions. They develop the knowledge, skills, understanding, qualities and attitudes they need to foster their own inner lives and non-material wellbeing.

Moral development

Moral development involves children acquiring an understanding of the difference between right and wrong and of moral conflict, a concern for others and the will to do what is right. They are able and willing to reflect on the consequences of their actions and learn how to forgive themselves and others. They develop the knowledge, skills and understanding, qualities and attitudes they need in order to make responsible moral decisions and act on them.

Social development

Social development involves children acquiring an understanding of the responsibilities and rights of being members of families and communities (local, national and global), and an ability to relate to others and to work with others for the common good. They display a sense of belonging and an increasing willingness to participate. They develop the knowledge, skills, understanding, qualities and attitudes they need to become active citizens within their community.

Cultural development

Cultural development involves children acquiring an understanding of cultural traditions and heritage, and the ability to appreciate and respond to 'the arts'. The children will acquire a respect for their own culture and that of others, an interest in others' ways of doing things and curiosity about differences. They develop the knowledge, skills, understanding, qualities and attitudes they need to understand, appreciate and contribute to culture.

Promoting British Values

The DfE have recently reinforced the need “to create and enforce a clear and rigorous expectation on all schools to promote the fundamental British Values of Democracy, the rule of law, individual liberty and mutual respect and tolerance of those with different faiths and beliefs”

Democracy

Each Year, pupils apply to become school council members. If elected they represent the pupil voice within the school. They must meet regularly with their peers and canvas their views as well as reporting back on decisions taken at school council meetings.

Meetings take place monthly with the lead teacher. Minutes are displayed alongside a photo board of school council members.

The Rule of Law

The importance of laws, whether those that govern the class, school or the country are highlighted at Brook View School. Pupils attend tutorials which explain laws and following rules. Some of these are centred on behaviour and expectation as well as safety, including online safety. Pupils are taught the value and reason behind rules.

Individual Liberty

At Brook View pupils are actively encouraged to make choices, knowing they are in a safe and supportive environment. Weekly assemblies reward children using the learning powers of: Resilience, Resourcefulness, Responsibility, Reflectiveness and Reciprocity. Personalised 1-1 meetings between pupil and their key tutor allow pupils to aim for individual targets. We encourage the development of “growth mind sets” as opposed to fixed ones.

Mutual Respect

Good behaviour is celebrated in Friday Assembly. All pupils in the school can see how good behaviour stands out. Children are taught how to show respect for and value each other’s’ views and beliefs. This is especially evident within tutorials and subjects such as RE, PSHE and P4C. They are also encouraged to challenge views that are in conflict with the school’s values and with ‘British Values’.

Respect and Celebration of Different Faiths, Beliefs and Cultures

We actively promote diversity through our celebrations of different faiths and cultures. Religious Education and PSHE lessons reinforce messages of respect for others. Children visit places of worship that are important to different faiths.

Spiritual, Moral, Social and Cultural (SMSC) Development

SMSC development is now referenced throughout Ofsted's School Inspection Handbook. At Brook View, we have a thoughtful and wide-ranging promotion of pupils' Spiritual, Moral, Social and Cultural development and their physical well-being, which enables them to thrive in a supportive, highly cohesive learning community.
