

Red Rose School
CURRICULUM – TEACHING AND LEARNING POLICY

Legal Status:

Regulatory Requirements, Part 1, paragraph 2(2) (i) to (x) Quality of Education Provided (curriculum) (teaching) of The Education (Independent School Standards Compliance Record) (England) (Amendment) Regulations.

Applies to:

- the whole school inclusive of activities outside of the normal school hours;
- all staff (teaching and support staff), the proprietor and volunteers working in the school.

Related Documents:

- Vocational Curriculum Policy, Assessment, Recording and Reporting Policy, Differentiation Policy,
- Educational Visits and Off-Site Activities Policy, English as an Additional Language Policy,
- Marking Policy, Homework Policy, Gifted and Talented Students Policy
- Special educational Needs and Disability (SEND) and Inclusion Policies, AQA, (QCF) Btec and ASDAN
- Subject Policies including, where relevant, Schemes of Work (Programmes of study)

Availability:

This policy is made available to parents/guardian/carers, carers, staff and students from the school office and website

Monitoring and Review:

This policy will be subject to continuous monitoring, refinement and audit by the Principal.

The Proprietor undertakes a formal review of this policy for the purpose of monitoring and of the efficiency with which the related duties have been discharged, by no later than one year from the date shown below, or earlier if significant changes to the systems and arrangements take place, or if legislation, regulatory requirements or best practice guidelines so require.

Signed:

Date: January 2022

Phil Worgan, Acting Head

Representative, Proprietor- Cambian Group

Ethos and Vision

Imagine the joy and excitement of learning in a vibrant, well-structured learning environment where each student's individual strengths, talents and aptitudes are nurtured and developed. Red Rose School is an inclusive school which strives to provide a first-class education that encourages students to think independently and to develop their full intellectual, creative and physical potential. Its success is the result of the recognition of the unique worth and importance of each individual. The school makes provision for young people and young people in Key Stage 1 to Key Stage 4 inclusively. The school will provide an environment in which all its members feel safe, valued and respected. Every student will be encouraged to acquire a sensitivity to the feelings and needs of others, accept personal responsibility for his or her actions, and treat all property with due care, irrespective of its ownership. The

Red Rose School is committed to safeguarding and promoting the welfare of young people and expects all staff and volunteers to share this commitment. It is our aim that all students fulfil their potential

school will celebrate achievement and promote students' achievement through praise whenever appropriate. Behaviour that undermines the happy environment that is such a hallmark of school life, such as bullying, insensitivity, discrimination, bad language or acts of intolerance, will not be accepted.

By knowing every student socially, emotionally and academically, we can employ strategies and practices giving the opportunity for each student will flourish and acquire the confidence and self-belief to achieve a fulfilling and successful future and to become confident, accomplished and ambitious young adults. At our school we know and support each and every one of our students. No effort is spared to ensure that they acquire the confidence and self-belief required for success in the world beyond school. Our pastoral care is at the heart of the way we look after our students. Their detailed knowledge of individual abilities and talents enables them to monitor students' progress very attentively, and help them cope successfully with the educational and personal challenges of schooling.

Our school offers a curriculum which is balanced and broadly based and which:

- promotes the spiritual, moral, cultural, mental and physical development of students at the school and of society and
- prepares students at the school for the opportunities, responsibilities and experiences of later life.

Our curriculum comprises all learning and other experiences that each school plans for its students. The national curriculum forms one part of the school curriculum. We make provision for sex and relationship education to students at the secondary stage. The national curriculum is just one element in the education of every individual. It provides students with an introduction to the essential knowledge that they need to be educated citizens. It introduces students to the best that has been thought and said; and helps engender an appreciation of human creativity and achievement. There is time and space in the school day and in each week, term and year to range beyond the national curriculum specifications. The national curriculum provides an outline of core knowledge around which teachers can develop exciting and stimulating lessons to promote the development of students' knowledge, understanding and skills as part of the wider school curriculum.

Student Profile

Our school provides for those with emotional and social difficulties (ESD), as well as other needs or diagnoses, including mental health, ADHD, ADD, and other difficulties. Most of our young people are referred to us and funded through the local authorities. Our age range may vary depending on specific cases; however most of our students will range between 5 and 18 years of age. Some of our young people will have a Statement of Special Educational Needs or an Education Health Care Plan. Others may be undergoing assessment. Emphasis in the school is thus on the development of community values, i.e. a caring and considerate attitude to others, good manners, self-discipline, service to the community and the pursuit of excellence. All this, of course, has a direct bearing on our curriculum design.

In our school the most important role of teaching is to promote learning in order to raise students' achievement. For us, teaching includes lesson planning, the implementation of plans, as well as marking, assessment and feedback. It also includes support and intervention strategies. In assessing the quality of the teaching in our school we take account of the evidence of students' learning, achievements and progress over time. When evaluating the quality of teaching in our school, we consider how successful the teaching is in promoting the learning, progress and personal development for every student by:

- extending the previous knowledge, skills and understanding of all students in a range of lessons and activities over time;
- enabling students to develop skills in reading, writing, communication and mathematics;
- enthusing, engaging and motivating students to learn;
- using assessment and feedback to support learning and to help students know how to improve their work
- differentiating teaching, by setting suitably challenging activities and providing support for students of different abilities, including the most able and disabled students and those who have special educational needs, so that they can all learn well and make progress

Red Rose School is committed to safeguarding and promoting the welfare of young people and expects all staff and volunteers to share this commitment. It is our aim that all students fulfil their potential

- enabling students to apply intellectual, physical or creative efforts and develop the skills to learn for themselves and setting high expectations
- using well-judged and effective teaching methods, deploying appropriate resources, managing class time and drawing on good subject knowledge and expertise to encourage students to make good progress
- managing instances of poor or disruptive behaviour.

Red Rose School is a school whose success is founded on the recognition of the unique worth and importance of each student. This ensures that no student is anonymous or unsupported. Individual attention along with small class sizes promotes confident learning and academic progress. It is integral to our purpose and incumbent on us to enable a nurturing approach to students provided by our expert and exceptionally attentive pastoral system, which supports the personal, social and academic development of each student. The close relationship between teachers, students and parents/carers/guardians ensures that students' strengths are built upon and needs for their individual development addressed.

Values

Our school curriculum is underpinned by the values of **Excellence, Respect, Courage and Perseverance** that we hold dear at Red Rose School with our motto being "Pride and Perseverance". The curriculum is the means by which the school achieves its objective of educating Students in the knowledge, skills and understanding that they need in order to lead fulfilling lives, underpinned by these values. The curriculum seeks to promote the reputation of as a school that prepares students for further education and life-long involvement in learning, contributing confidently to an ethnically pluralistic society.

- We value the way in which all Students are unique, and our curriculum promotes respect for the views of each individual Student, as well as for people of all cultures. We value the spiritual and moral development of each person as well as their intellectual and physical growth.
- We value the importance of each person in our community. We organise our curriculum so that we promote co-operation and understanding between all members of our community.
- We value the rights enjoyed by each person in our society. We respect each Student in our school for who they are and we treat them with fairness and honesty. We aim to enable each person to be successful and we provide equal opportunities for all the Students at Red Rose School.
- We value our environment and we aim, through our curriculum, to teach respect for our world and how we should care for it for future generations, as well as our own.

In order to achieve the school's values, the curriculum will seek to reinforce the following features of Red Rose School which includes the:

- confidence, talent and high aspirations of its students;
- enquiring atmosphere and enjoyment of discourse that is a prominent feature of the school;
- support given to students in and outside the classroom by well-qualified, enthusiastic and knowledgeable staff.

Entry to programmes of study is, regardless of gender, race, disability, sexual orientation, religion or belief. In accordance with statutory requirements the School aims to make the curriculum accessible to all students as far as is reasonably practicable. The School has a policy for Special Educational Needs and Disabilities, and an Accessibility Plan which are available to parents on request. The young people are encouraged to:

- have confidence in who they are as individuals, identifying courage as a worthy attribute;
- stand up for the positive values that engender meaningful loyalties and strong communities. These include: humility, dignity, compassion and integrity;
- promote supportive relationships, and a respect for diversity and difference;
- be self-disciplined, self-directed, and demonstrate self-control;
- participate in the transformation of their society through reflection, sensitivity and action.

Red Rose School is committed to safeguarding and promoting the welfare of young people and expects all staff and volunteers to share this commitment. It is our aim that all students fulfil their potential

Essential Skills

Red Rose School is committed to providing a curriculum which ensures that all of its students acquire and develop skills appropriate to their age and aptitude in the following areas:

Mathematical

This area helps students to make calculations, to understand and appreciate relationships and patterns in number and space and to develop their capacity to think logically and express themselves clearly. Their knowledge and understanding of mathematics should be developed in a variety of ways, including practical activity, exploration and discussion.

Scientific

This area is concerned with increasing students' knowledge and understanding of nature, materials and forces and with developing the skills associated with science as a process of enquiry: for example, observing, forming hypotheses, conducting experiments and recording their findings.

Technological (including Art and Design, ICT and Food Technology)

These skills can include information and communication technology (ICT); developing, planning and communicating ideas; working with tools, equipment, materials and components to produce good quality products; and evaluating processes and products.

Human and Social (including Geography, History and Religious Studies)

This area is concerned with people and with their environment, and how human action, now and in the past, has influenced events and conditions. In most schools, the subjects of history and geography make a strong contribution to this area. In our school our topic based Personal, Social and Health and Economic (PSHE) education alongside our knowledge and understanding of the world makes a strong contribution to this area.

Physical (which is supported by an extensive extra-curricular programme in this area)

This area aims to develop the students' physical control and co-ordination as well as their tactical skills and imaginative responses, and to help them to evaluate and improve their performance. Students should also acquire knowledge and understanding of the basic principles of fitness and health.

Aesthetic and creative (including Art, Drama, Photography and Music) This area is concerned with the processes of making, composing and inventing. There are aesthetic and creative aspects of all subjects, but some make a particularly strong contribution, including art, music, dance, drama and the study of literature, because they call for personal, imaginative, and often practical, responses.

Sex and relationships education

The School provides Sex and Relationships education in the basic curriculum. Students are encouraged and guided by moral principles and taught to recognise the value of family life. The syllabus for the School's Sex and Relationships Education is available to parents/guardian/carers. It forms a key part of the Personal, Social and Health Education (PSHE) course and has regard for the government's guidance in *Sex and Relationship Education Guidance (0116/2000)*. In accordance with the law the biological aspects of human reproduction remain compulsory for all students, but parents/guardian/carers may withdraw their students from any other part of the sex education provided without giving reasons.

Red Rose School is committed to safeguarding and promoting the welfare of young people and expects all staff and volunteers to share this commitment. It is our aim that all students fulfil their potential

Political education

The promotion of partisan political views in the teaching of any subject in the School is forbidden by law. Political issues are introduced in a number of courses and are presented in a balanced manner.

Religious education

Religious Education is incorporated into distinct lessons available to all students. Other religions are also taught, so students have a broader understanding of the diverse world that they are living in.

PE and games

All Students are expected to take part in the school's Physical Education and Games programme. Students can only be excused from PE and Games lessons for medical reasons, for which a note from a parent will suffice, or other reasons agreed with the school.

Spiritual, Moral, Social and Cultural Development (SMSC)

This policy statement and the declared values of the school are enhanced by the linked qualities of Spiritual, Moral, Social and Cultural Development. Red Rose School is a non-denominational school where students of all faiths and belief systems are encouraged to strive for academic excellence and a spirit of open and shared enquiry, whilst developing their individual potential and qualities of character so they can make a positive contribution to the world. This SMSC policy links and strengthens other policies so that the ideals of the school's ethos and mission statement become a reality for its Students. Whilst SMSC is integral to all aspects of our curriculum, PSHEE and religious education make a strong contribution. Students are led towards distinguishing right from wrong, to respect the law and towards acting consistently with their beliefs and with a view to the consequences of their own and others' actions. We actively promote fundamental British Values of democracy, the rule of law, individual liberty and mutual respect and tolerance of those with different faiths and beliefs. Our school:

- leads students towards becoming confident and positive contributors to their community and effective users of its services and facilities according to their maturity;
- enables students to gain insights into the origins and practices of their own cultures and into those of the wider community;
- takes steps to ensure that the students appreciate racial and cultural diversity and avoid and resist racism, and
- ensure that students are able to understand and respond to risk, for example risks associated with extremism, new technology, substance misuse, knives and gangs, personal relationships and personal safety.
- enable students to develop their self-knowledge, self-esteem and self-confidence;
- encourage students to accept responsibility for their behaviour, show initiative and understand how they can contribute to community life;
- provide students with a broad general knowledge of public institutions and services in England;
- assist students to acquire an appreciation of and respect for their own and other cultures in a way that promotes tolerance and harmony between different cultural traditions;
- encourage students to respect the fundamental British values of democracy, the rule of law, individual liberty and mutual respect and tolerance of those with different faiths and beliefs and
- precludes the promotion of partisan political views in the teaching of any subject in the school.

We also take such steps as are reasonably practicable to ensure that political issues are brought to attention of students-

- while they attend the school;
- while they are taking part an extra-curricular activity which are provided or organized by or on behalf of the school; or
- in the promotion at the school, including through the distribution of promotional material, of extra-curricular activities taking place at the school or elsewhere;
- being offered a balanced presentation of opposing views.

Red Rose School is committed to safeguarding and promoting the welfare of young people and expects all staff and volunteers to share this commitment. It is our aim that all students fulfil their potential

Therefore, the understanding and knowledge expected of the students at Red Rose School as an outcome of our positive approach to SMSC includes

- *An understanding of how citizens can influence decision-making through the democratic process;*
- *An appreciation that living under the rule of law protects individual citizens and is essential for their well-being and safety;*
- *An understanding that there is a separation of power between the executive and the judiciary, and that while some public bodies such as the police and the army can be held to account through Parliament, others such as the courts maintain independence;*
- *An understanding that the freedom to hold other faiths and beliefs is protected in law;*
- *An acceptance that people having different faiths or beliefs to oneself (or having none) should be accepted and tolerated, and should not be the cause of prejudicial or discriminatory behaviour;*
- *An understanding of the importance of identifying and combatting discrimination.*

Personal, Social and Health Education (PSHE) and Citizenship

Red Rose School is committed to providing a comprehensive programme of PSHE education for all students, which is appropriate to their age and needs. Responsibility for developing and implementing this programme rests with the Principal. Each individual's PSHE education and Citizenship education informs all aspects of the school day. The form this takes ranges from the way we treat each other to planning food technology lessons based on individual's cultural heritage. We have a cross-curricular approach to PSHE education and its associated objectives may be addressed in such areas as Drama, Science, Assemblies or other curriculum areas. Our structured play sessions are specifically tailored to the needs of the group, from working with an individual coping with parallel play to facilitating turn taking and initiation. We 'help students achieve more' by ensuring that all students are given the opportunity to be healthy, stay safe, enjoy and achieve, make a positive contribution and achieve economic well-being.

We provide positive experiences through planned and coherent opportunities in the curriculum, extra-curricular activities and through interactions with teachers and other adults for our students. Our range of artistic, sporting and other cultural opportunities is available to students through the curricular and extra-curricular programme, and their participation in these opportunities. We plan our, personal, social and health education and citizenship through assemblies and curricular areas to help our students acquire values and skills to enable them to develop independence and choose their path in life. Red Rose School seeks to:

- develop an ethos and environment which encourages a healthy lifestyle for students;
- use the full capacity and flexibility of the curriculum to help students to achieve safe and healthy lifestyles;
- provide high quality Physical Education, with specialised teachers, and sport to promote physical activity;
- promote an understanding of the full range of issues and behaviours which impact upon a lifelong health and well-being.

We aim for our students to understand and appreciate the range of different cultures and faiths in modern democratic Britain. We use our schemes of work and other plans which enable students to develop an understanding of public services and institutions and to take their place in modern democratic British society. We provide a range of quality opportunities for students to take on responsibility in school and make a positive contribution to the school, local and wider communities.

Transition Support

We carefully manage the transition of our students throughout the school and also in preparing students for further education. Red Rose School advice to students and their parents/guardian/carers about the transition process from Junior School to the Senior School. Our staff also spends time towards the end of the current academic year working with their new prospective class for the year ahead. This allows students to familiarise themselves with their new teacher in readiness for the next year group. We are especially careful in ensuring that transitions for young people with SEND are fully prepared at each stage both internally and externally.

Red Rose School is committed to safeguarding and promoting the welfare of young people and expects all staff and volunteers to share this commitment. It is our aim that all students fulfil their potential

Preparation for the future

Red Rose School provides an appropriate curriculum for preparing students for further higher education, career choices and adult life. We aim to provide students with insights into the world of work, the range of career opportunities available to them, entry routes and what further training and education they can and/or need to access. It arranges work experience and advice is given concerning further and higher education.

The Curriculum, Academic Excellence and Public Examinations

Whilst accepting the need to prepare its students for public examinations and further and higher education, Red Rose School will strive to ensure that the pursuit of these goals is consistent with achieving the other goals set out in this policy.

Enrichment opportunities

All students have the opportunity to develop existing interests and nurture new ones through a variety of clubs and enrichment activities, which operate on a Wednesday afternoon and after school. These reflect the talents and interests of the staff and students, while some will also involve the input and expertise of external specialists.

Organisation and planning

We plan our curriculum in three phases. We agree long-term plans whose schemes of work give an annual overview of the content of the curriculum for each key stage. From these plans the teachers identify curriculum aims appropriate for the year group they teach. The overview policies and plans are updated by our curriculum co-ordinator following liaison with all teaching staff. They indicate what topics are to be taught in each term and to which groups of students. This long-term plan is reviewed on an annual basis. In our medium-term plans, we give clear guidance on the objectives and teaching strategies that are used when teaching each topic. Our short-term plans are written by our teachers write on a weekly or daily basis. They are used to set out the learning objectives for each session and to identify the resources and activities required for the lesson. When teaching we focus on motivating the students and building on their skills, knowledge and understanding of the curriculum, so that they reach the highest level of personal achievement. We use the school curriculum plan to guide our teaching. This sets out the aims, objectives and values of the school and details what is to be taught to each year group. These are reviewed annually and may be subject to change.

We base our teaching on our knowledge of the students' level of attainment. Teachers make on-going assessments of each student's progress, and they use this information when planning their lessons. It enables them to consider the abilities of all their students. Our prime focus is to develop further the knowledge and skills of the students. We strive to ensure that all tasks set are appropriate to each student's level of ability. When planning work for students with special educational needs we give due regard to information and targets contained in the students' Personalised Learning Plans (PLP) Teachers modify teaching and learning as appropriate for students with disabilities. We value each individual as a unique individual, and teachers are familiar with the relevant equal opportunities' legislation covering race, gender and disability. We strive to meet the needs of all our students, and to ensure that we meet all statutory requirements related to matters of inclusion. We have high expectations of our students, and we believe that their work here at Red Rose School is of the highest possible standard they can achieve.

Disapplication

In accordance with the law the School has the right to respond to individual needs by modifying the curriculum programmes. Decisions will only be made after discussion with the parents/guardian/carers and will allow a student:

- to participate in extended work-related learning
- with individual strengths to emphasise a particular curriculum area
- making significantly less progress than other students of his/her age to consolidate his/her learning and progress across the curriculum.

Red Rose School is committed to safeguarding and promoting the welfare of young people and expects all staff and volunteers to share this commitment. It is our aim that all students fulfil their potential

The curriculum underpins the fundamental aims of the School. The curriculum must be seen as the major component of a student's education which, together with the pastoral care and the extra-curricular activities offered, help students to develop a wide range of key and transferable skills so that they leave the school equipped to become a valuable member of society. Our planned curriculum activities are organised in order to promote learning and personal growth and development. We aim to provide a challenging and stimulating curriculum which encourages an enthusiasm for learning, intellectual curiosity, creativity, personal growth and development. Fundamental to the ethos of Red Rose School our determination to provide an active learning environment for limitless minds. The school places great importance firstly on the individual development of each student, secondly, on the acquisition of the skills of research, evaluation and judgement required for independent study; thirdly, on the development of individual enthusiasms, both curricular and co-curricular; and fourthly on its students' development of qualities such as leadership, initiative and creativity.

The teaching at Red Rose School is committed to inspiring, motivating and enriching the learning opportunities of its Students in terms of both curricular and co-curricular delivery. Teaching styles are adapted to meet the varying needs of our Students. Our Schemes of work are designed to bring the curriculum to life and are interpreted creatively by teachers to inspire and challenge Students. To this end the aim of Red Rose School is to provide a broadly-based academic curriculum that will be delivered within the context of the school's aims and mission. The curriculum underpins the fundamental aims of Red Rose School. The school encourages its students to develop intellectual independence and an enduring love of learning for its own sake, equipping them for the challenges of a rapidly changing world. The programmes of study at the School are inclusive of the National Curriculum. They include not only the core subjects but also a wide variety of physical and creative experiences. Students benefit from opportunities to exercise initiative, develop team-working skills, and participate in visits beyond the classroom. The curriculum not only supports students' academic progress but also fosters in them awareness and understanding of a range of spiritual, moral, cultural and social issues. In this way, it promotes their development into compassionate, empathetic and confident individuals.

Effective Ethos and Classroom Environment

Red Rose School provides an academically challenging environment which is vibrant, happy, creative and stimulating. Our teachers have high expectations but equally foster a nurturing environment in order to promote students' academic growth and to provide the support they need in order to make excellent progress in their studies. We believe that a purposeful and structured learning environment is essential in promoting high standards. A positive caring environment and culture will promote positive self-esteem and confidence. Organised resources, displays of young people's work, stimulating materials and bright, colourful, language enriched displays all help to provide the Optimal Learning Environment. We try to ensure that all tasks and activities that the young people perform are safe. When we plan to take young people out of school, we follow Department for Education (DfE) and Health and Safety (HSE) advice. We issue a 'one off' consent form for parents/guardian/carers to sign when an individual enrolls at school and an additional consent form for residential and adventure activities. We provide details of proposed outings for parents/guardian/carers' information

Our school is an attractive learning environment. We ensure that all Students have the opportunity to display their best work at some time during the year. We believe that a stimulating environment sets the climate for learning, and an exciting classroom promotes independent use of resources and high-quality work by the Students. All our teachers reflect on their strengths and weaknesses and plan their professional development needs accordingly. We do all we can to support our teachers in developing their skills, so that they can continually improve their practice. We conduct all our teaching in an atmosphere of trust and respect for all.

Each of our teachers makes a special effort to establish good working relationships with all students in the class. We treat the students with kindness and respect. We recognise that they are all individuals with different needs, but we treat them fairly and give them equal opportunity to take part in class activities. All our teachers follow the school policy with regard to discipline and classroom management. We set and agree with students the class code

Red Rose School is committed to safeguarding and promoting the welfare of young people and expects all staff and volunteers to share this commitment. It is our aim that all students fulfil their potential

of conduct. We expect all students to comply with these rules that we jointly devise to promote the best learning opportunities for all. We praise students for their efforts and, by so doing, we help to build positive attitudes towards the school and learning in general. We insist on good order and behaviour at all times. When students misbehave we follow the guidelines for sanctions as outlined in our school behaviour policy.

We aim to provide a learning environment which is challenging and the role of the Principal at stimulating, peaceful and calm, happy and caring, organised and well resourced, makes learnings accessible, encouraging and appreciative, welcoming, enabling equal access and inclusion and providing a professional working atmosphere.

The curriculum and members of teaching staff

Teachers ensure that an appropriate level and standard of homework is on offer when appropriate and marked so that learning outcomes may be consolidated and the needs of individual Students identified and met. We appreciate that people learn best in different ways. At our school we provide a rich and varied learning environment that allows Students to develop their skills and abilities to their full potential. 'Students learn and flourish when they are healthy, protected from harm and authentically engaged and stimulated.'

Through our teaching we aim to:

- enable Students to become confident, resourceful, enquiring and independent learners;
- foster Students' self-esteem and help them build positive relationships with other people;
- develop Students' self-respect and encourage Students to respect the ideas, attitudes, values and feelings of others;
- show respect for all cultures and, in so doing, to promote positive attitudes towards other people;
- cater for the needs of individual Students;
- personalise learning;
- enable Students to understand their community and help them feel valued as part of this community;
- help Students grow into reliable, independent and positive citizens;
- Enable achievement and provide challenge appropriate to the ability, interests and needs of each Student;

Auditing our Curriculum, Teaching and Learning:

We ask ourselves the following questions when auditing our current performance:

How well are we doing?

- How do we compare with similar schools?
- What more should we aim to achieve?
- What must we do to make it happen?
- Self-evaluation and development is a crucial part of the schools managerial role and teachers, care staff and managers will input into the development as well as students own feedback.

In Red Rose School the most important role of teaching is to promote learning in order to raise students' achievement. For us, teaching includes lesson planning, the implementation of plans, as well as marking, assessment and feedback. It also includes support and intervention strategies. In assessing the quality of the teaching in our school we take account of the evidence of students' learning, achievements and progress over time. When evaluating the quality of teaching in our school, we consider how successful the teaching is in promoting the learning, progress and personal development for every student by:

- extending the previous knowledge, skills and understanding of all students in a range of lessons and activities over time;
- enabling students to develop skills in reading, writing, communication and mathematics;
- enthusing, engaging and motivating students to learn;
- using assessment and feedback to support learning and to help students know how to improve their work;

Red Rose School is committed to safeguarding and promoting the welfare of young people and expects all staff and volunteers to share this commitment. It is our aim that all students fulfil their potential

- differentiating teaching, by setting suitably challenging activities and providing support for students of different abilities, including the most able and disabled students and those who have special educational needs, so that they can all learn well and make progress;
- enabling students to apply intellectual, physical or creative efforts and develop the skills to learn for themselves and setting high expectations;
- setting appropriate homework;
- using well-judged and effective teaching methods, deploying appropriate resources, managing class time and drawing on good subject knowledge and expertise to encourage students to make good progress;
- managing instances of poor or disruptive behaviour.

Behaviour that undermines the happy environment that is such a hallmark of Red Rose School life, such as bullying, insensitivity, discrimination, bad language or acts of intolerance, will not be accepted

When evaluating the quality of the curriculum, we consider:

- the impact of the curriculum on students' academic and personal development and in preparing them for the opportunities, choices, responsibilities and experiences of adult life;
- the contribution of the curriculum to the school's particular ethos and aims and the impact on students' academic and personal development and well-being;
- how well curriculum planning is supported by appropriate schemes of work, builds systematically upon students' prior experience and plans for progression and
- the extent to which the curriculum is enriched by extra-curricular opportunities and through collaboration with other schools and organisations, including, for example, to provide appropriate careers guidance for our senior students and the views of our students, parents/guardian/carers and staff.

We design our curriculum to ensure that it is broad, well balanced and covers all the required areas of learning. We modify our curriculum and teaching to meet the needs of individuals and groups of students including our gifted and talented and disabled students or those with a special educational need. When evaluating the quality of the curriculum, we consider:

- the impact of the curriculum on students' academic and personal development and in preparing them for the opportunities, choices, responsibilities and experiences of adult life;
- the contribution of the curriculum to the school's particular ethos and aims and the impact on students' academic and personal development and well-being;
- how well curriculum planning is supported by appropriate schemes of work, builds systematically upon students' prior experience and plans for progression;
- the extent to which the curriculum is enriched by extra-curricular opportunities and through collaboration with other schools and organisations, including, for example, to provide appropriate careers guidance for our senior students and
- the views of our students, parents/guardian/carers and staff.

Effective Teaching - Expectations of Staff

Staff are expected to actively promote the curriculum aims by:

- having high expectation of students.
- employing a variety of learning and teaching methods.
- ensuring that students are enabled to access the curriculum and given opportunities to be successful.
- delivering lessons which build upon previous experience, providing continuity and progression.
- providing learning opportunities which offer depth and challenge and motivate and inspire young people.
- involving young people in the process of learning, by discussing work, giving regular formative feedback through discussion, assessment and marking, negotiating targets and encouraging young people to evaluate their personal achievements.
- developing students' skills to become independent learners.

Red Rose School is committed to safeguarding and promoting the welfare of young people and expects all staff and volunteers to share this commitment. It is our aim that all students fulfil their potential

- encouraging, reward and value achievement and effort, both formally and informally, through praise in the learning environment.
- working in partnership with young people, staff and parents/guardian/carers to achieve shared goals.
- keeping parents/guardian/carers /carers regularly and fully informed about the progress and achievements of their young people through reports and parents' evenings.

Appraisals are carried out, whereby books are checked for consistency of marking and being up to date. Planning appraisals are carried to check planning is up to date and evaluated. All teachers are observed working with classes once or twice a year, and Newly Qualified Teachers (NQTs) are observed each half term. The criteria that we use have been agreed by all teachers, and are part of our teaching and learning policy. The teacher and the observer follow the observation with a discussion. The observer notes the strengths and areas for development, and gives a copy of this information to the teacher. The Principal uses the information gained from this monitoring process to help identify common development points which can be addressed in the school's training programme for continuing professional development.

Effective learning

We acknowledge that people learn in many different ways, and respond best to different types of input (visual, auditory and kinaesthetic); we must therefore deliver teaching in different ways to address the needs of all our learners. Our Schemes of work are designed to bring the curriculum to life and are interpreted creatively by teachers to inspire and challenge students. We ensure the best possible environment for learning by developing a positive atmosphere in which Students feel safe and feel they belong, in which they enjoy being challenged, but in which they enjoy learning, and know that they will succeed (because they know the challenge will have been set at the right level). We provide small class sizes which ensure that each student's individual strengths, talents and aptitudes are nurtured and developed. All teaching is structured to maximise learning opportunities and lessons are planned in accordance with the following principles:

- the teaching should build on previous learning;
- the teacher should explain the learning objectives, and why the lesson is important;
- it should allow students to see the links within learning;
- the lesson should be presented in a range of styles;
- it should allow opportunities for the Students to build up their own understanding through various activities;
- it should allow opportunities for the Students to review what has been learnt;
- it should have built-in opportunities for feedback to the Students, celebrating success and reviewing learning strategies;
- the teaching should indicate what the next step in the learning will be.

We encourage students to take responsibility for their own learning, to be involved as far as possible in reviewing the way they learn, and to reflect on how they learn – what helps them learn and what makes it difficult for them to learn. Assessment and marking are an integral part of the teaching and learning process. As outlined in the Assessment and Marking Policy, informal formative assessment takes place continuously in the classroom and comprises of:

- well understood learning objectives which are shared with the Students
- sharing or creating learning outcomes with the Students to make them partners in their learning;
- plenaries being used as assessment opportunities:
- effective teacher questioning;
- observations of learning;
- analysing and interpreting evidence of learning to inform future planning;
- sensitive and positive feedback to Students;
- individual target setting: SMART (specific, measurable, assessable, realistic and given in time);
- Students understanding how well they are doing and how they can improve.

Red Rose School is committed to safeguarding and promoting the welfare of young people and expects all staff and volunteers to share this commitment. It is our aim that all students fulfil their potential

Effective Planning

The curriculum must be seen as the major component of a student's education that, together with the pastoral care and the co-curricular activities offered, helps students to develop a wide range of key and transferable skills so that they leave Red Rose School equipped to become valuable members of society. Our planned curriculum activities are organised in order to promote learning and personal growth and development. We aim to provide a challenging and stimulating curriculum which encourages an enthusiasm and love for learning, intellectual curiosity, creativity, personal growth and development. When teaching we focus on motivating the Students and building on their skills, knowledge and understanding of the curriculum, so that they reach the highest level of personal achievement. We use the school curriculum plan to guide our teaching. This sets out the aims, objectives and values of the school and details what is to be taught to each year group. We base our teaching on our knowledge of the Students' level of attainment. Teachers make ongoing assessments of each Student's progress, and they use this information when planning their lessons. It enables them to consider the abilities of all their Students. Our prime focus is to develop further the knowledge and skills of the Students. We strive to ensure that all tasks set are appropriate to each Student's level of ability.

When planning work for Students with special educational needs we give due regard to information and targets contained in the Students' Personal Learning Programmes. Teachers modify teaching and learning as appropriate for Students with disabilities. We value each individual as a unique individual, and teachers are familiar with the relevant equal opportunities' legislation covering race, gender and disability. We strive to meet the needs of all our Students, and to ensure that we meet all statutory requirements related to matters of inclusion. We have high expectations of our Students, and we believe that their work here at Red Rose School is of the highest possible standard. We set academic targets for the Students in each academic year and we share these targets with Students and their parents/guardian/carers. We review the progress of each Student at the end of term. Our lessons have clear learning objectives. Our lesson plans contain information about the tasks to be set, the resources needed, and the way we assess the Students' work. We evaluate all lessons so that we can modify and improve our teaching in the future

Young people with Additional and Special Educational Needs and Disabilities (SEND): The curriculum and the work of the Teaching and Learning personnel

Our curriculum is designed to provide access and opportunity for all young people in School. If we think it necessary to adapt the curriculum to meet the needs of individual young people, then we do so only after parents/guardian/carers have been consulted.

If an individual's need is more severe, consideration is given to involving appropriate external agencies and special support teachers. We always provide additional resources and support for young people with learning difficulties and/or disabilities.

The school provides an Individual Educational Plan (IEP) for each of the young people who are on the special needs register. This sets out the nature of the special need, and outlines how the school will aim to address the need. It also sets out targets for improvement, so that we can review and monitor the progress of each individual at regular intervals. Where a Student has a statement, the SENCO liaises with the individual's teachers to ensure that the education he or she receives fulfils its requirements and participates fully in the annual review.

Students with an Educational Healthcare Plan (EHCP) - please also refer to our *Special Educational Needs and Disabilities Policy*

Should a Student be in receipt of a EHCP, we will provide an education that meets their needs as specified by their EHCP.

English as an Additional Language (EAL)

We are committed to providing Students with the necessary support and teaching who require English as an additional language. To this end there is a policy in place and established practices implemented by the school.

Red Rose School is committed to safeguarding and promoting the welfare of young people and expects all staff and volunteers to share this commitment. It is our aim that all students fulfil their potential

Learning outside the classroom - Educational visits/off-site activities

Integral to our curriculum is a wide range of educational experiences that extend beyond the classroom door. The Red Rose School curriculum offers a series of educational journeys that deepen the Students' understanding of the world around them. Trips extend Students' knowledge of past and present. When the young people move to the Senior School they have the opportunity for educational visits further afield. Our experience is that Students forge strong bonds of friendship during the trips, and their respect for one another grows as a result of sharing the experiences.

Enrichment opportunities

All students have the opportunity to develop existing interests and nurture new ones through a variety of clubs and enrichment activities, which operate after school. These reflect the talents and interests of the staff and students. We ensure that all tasks and activities that the Students perform are safe. When we plan to take Students out of school, we follow a strict set of procedures to ensure safety: the venue is visited, risk assessments are completed, and various permissions are obtained. Parents/guardian/carers are informed, and their permission obtained before the visit takes place. Learning assistants and other adult helpers are deployed as effectively as possible. Sometimes they work with individual Students and sometimes they work with small groups.

Homework

The school sets homework as appropriate. Often the most valuable homework an individual can do are activities outside of the school curriculum. Examples may be; The Duke of Edinburgh Award, sports clubs, Cadet Corps, etc.

Careers guidance - please also refer to our *vocational policy*

Students at Red Rose School are supported in their preparation for formal examinations at various stages of their education. They receive specific support in Study Skills that includes guidance on revision technique, making notes, examination technique and management of stress. Students are encouraged to learn about their own academic strengths and weaknesses and the type of learning method that best suits them as an individual. Whilst we do not specifically instigate careers advice until Year 9, we provide opportunities for Students to understand the world of work and the promotion of their economic wellbeing. There are talks from professionals in various fields as well as visits to places of employment and manufacture. Through visiting speakers Students receive motivational and inspirational guidance that will help them in their current and future endeavours. Students receive interview training at the appropriate stage. These are a few of the ways in which Students are prepared for the future beyond Red Rose School.

Communication with Parents/Guardian/Carers

We believe that parents/guardian/carers and guardians have a fundamental role to play in helping Students to learn. We do all we can to inform parents/guardian/carers and guardians about what and how their young people are learning by:

- holding meetings with parents/guardian/carers to explain our school strategies, PEP meetings;
- sending end of term reports to parents/guardian/carers in which we explain the progress made by each individual and indicate how the individual can improve further;
- explaining to parents/guardian/carers how they can support their Students with homework. We suggest support for older Students with their projects and investigative work;
- posting information on the parents/guardian/carers and public pages of the school website;
- being available - we have an open-door policy;
- strong lines of communication with parents/guardian/carers, phone calls home, daily handovers;

We believe that parents/guardian/carers have the responsibility to support their Students and the school in implementing school policies. We would like parents/guardian/carers to:

- ensure that their individual has the best attendance and punctuality record possible;
- do their best to keep their individual healthy and fit to attend school;

Red Rose School is committed to safeguarding and promoting the welfare of young people and expects all staff and volunteers to share this commitment. It is our aim that all students fulfil their potential

- inform school if there are matters outside of school that are likely to affect an individual's performance or behaviour at school;
- promote a positive attitude towards school, staff and learning in general.

Concerns and complaints

Parents/guardian/carers who have concerns about any aspect of the curriculum should discuss these with the Principal. The School has a Complaints Procedure in place, which is on the website or available from Reception at the school.

Evaluation and Monitoring

Evaluation is measured against a range of indicators, which include whole school and individual student indicators.

Whole school indicators include: examination results, destination of school leavers and inspections

Individual student indicators: development of positive self-image, progression in the skills of numeracy, literacy, self-expression and ICT, an appreciation of the natural and man-made world, increasing independence, self-motivation and self-discipline, an appreciation of human aspirations and achievements, an ability to work together in co-operative groups and an acquisition of the appropriate life skills.

The curriculum, academic excellence and public examination. Whilst accepting the need to prepare our Students for further education, we strive to ensure that the pursuit of our goals, aims and objectives are consistent with achieving the goals set out in this policy.

Subjects Offered at Red Rose School Students follow a broad curriculum at all 'Key Stages', enabling them to acquire skills in thinking, speaking and listening, literacy and numeracy and gain experience in scientific, technological, social, physical, and aesthetic and creative education.

KS1 & KS2 (5-7 years and 7-11 years, Yrs 1-6 inc.)

All students study the core subjects English, Mathematics and Science. All students take, Art, Design and Technology (Resistant materials), ICT, Physical Education, Personal, Social, Health and Citizenship Education. There is also the opportunity to participate in a wide range of alternate curriculum related activities through set projects and cross curricular learning.

Key Stage 3 (11-14 years, Yrs 7-9 incl.)

All students will study the same curriculum as in KS1&2 with the addition of combined science. Students from Key Stage 3 onwards will also have access to ESafety tutorials.

Key Stage 4 (14-16 years, Yrs 10 & 11)

Students at Key Stage 4 follow a diverse range of subjects. These include, where appropriate: GCSE and Functional Skills. We are very conscious that young people with special needs are often not extended to achieve their potential. In our school, we are determined that every opportunity will be available for young people to make progress.

Red Rose School will also offer a variety of portfolio and internally assessed courses which can be used to accredit any projects or to offer those students who may struggle at GCSE Exams and work to that standard. The list below is a basic overview of what the school will offer its Key Stage 4/5 students but is not comprehensive as links with local schools will ensure options increase overtime and could include:

- AQA Unit awards
- OCR - Art
- Entry Level Certificates - Science, Design and Technology, Art and Design, English, Maths and Humanities
- Pearson - Health and Social Care, Home Cooking Skills

Red Rose School is committed to safeguarding and promoting the welfare of young people and expects all staff and volunteers to share this commitment. It is our aim that all students fulfil their potential

- Duke of Edinburgh Award will also be on offer for those students with a passion for the outdoors.

Links with local schools and high school will also mean BTEC and City and Guilds Diplomas can also be accessed in:

- Hair & Beauty, Motor Vehicle Studies and Business Studies.
- Edexcel - Functional Skills in Literacy, Numeracy and ICT will also be offered from Entry Level to Level 2.

Key Stage 5

Students will now be given a wider based curriculum focusing on their progress towards independence and preparing them for the work of work/ further education.

Links with local careers advisors and training providers will be made through the school and part of students timetables will involve CV building, Volunteer work and visiting follow on provision.

Academic qualifications such as Personal Development Award, Functional Skills and Preparation for Working Life will also be offered internally.

Red Rose School also has its own Independence Programme which covers all basis for offering support and confidence when moving on from our school.

This Policy will be reviewed annually.

Red Rose School is committed to safeguarding and promoting the welfare of young people and expects all staff and volunteers to share this commitment. It is our aim that all students fulfil their potential
