5.1. Equal opportunities

In line with the Equality Act 2010, the school does not unlawfully discriminate against pupils because of age, disability, gender, reassignment, race, religion or belief, sex or sexual orientation, pregnancy or maternity, marriage or civil partnership. A person is defined as having a disability if they have a physical or mental impairment that has an adverse, substantial and long-term effect on their ability to carry out normal day to day activities. Schools/colleges are required to make reasonable adjustments and make changes to

practices to ensure, as far as is reasonably possible, that a disabled person can fully benefit from the school's offer. School governing bodies and proprietors must publish information arrangement for admission of disabled individuals, the steps taken to prevent disabled individuals from being treated less favourably, the facilities provided to assist access of disabled individuals and their accessibility plans.

5.2. Admissions:

All schools/colleges will publish their admission criteria in their admission policy. Where it is practicable we make reasonable adjustments to enable prospective individuals to take up a place at the school and satisfy the current admissions criteria. The school is committed to providing these reasonable adjustments. In order to meet the needs of disabled individuals, the school requires full information. The school asks all local authorities seeking admission for an individual to the school to disclose whether the young person has any disability or other condition or special educational need of which the school should be aware. In assessing an individual or prospective individual, the school may need to take advice and require assessments as appropriate. The school will be sensitive to all issues of confidentiality in line with its GDPR. Further details are provided in the school admission policy.

5.3 Special Education Need (Code of practice).

We are determined to stay at the cutting edge of provision for all individual who are placed in our school. We ensure ongoing liaison with organisations that are able to offer specialist advice and training and complete an accessibility audit to identify where physical, curriculum and communication adjustments should be. The roles and expectations of staff in providing for pupils' special education needs are outlined in the Special Education Needs Policy

The Proprietor/ Governing Board will approve the Accessibility Plan before it is implemented and will be responsible for monitoring the accessibility plan. The school/ college will also ensure that all information provided to the parents is in a form that is accessible. Pupil voice will be recognised and utilised to improve the provision. All staff members will act in accordance with the service accessibility policy and accessibility plan at all times. All staff members will ensure that their actions do not discriminate against any pupils, parent or colleagues. Staff and Governance will take part in training to continue raising awareness on equality issues with references to the Equality Act 2010

The main purpose of the accessibility plan is to improve the extent to which pupils with disabilities or special educational needs are able to access and participate in the curriculum. It will also outline how the

school/college will develop and maintain the physical environment to meet the needs of the individuals with disabilities, staff, parent and other visitor in a given time frame.
