International School

Edition #56 2023

Promoting happy, healthy and sustainable living at Hill House and beyond.

## ECO-CABIN

Ever since we held our Green Dragons' Den back in November 2021, we have been looking forward to our new Eco-Cabin!

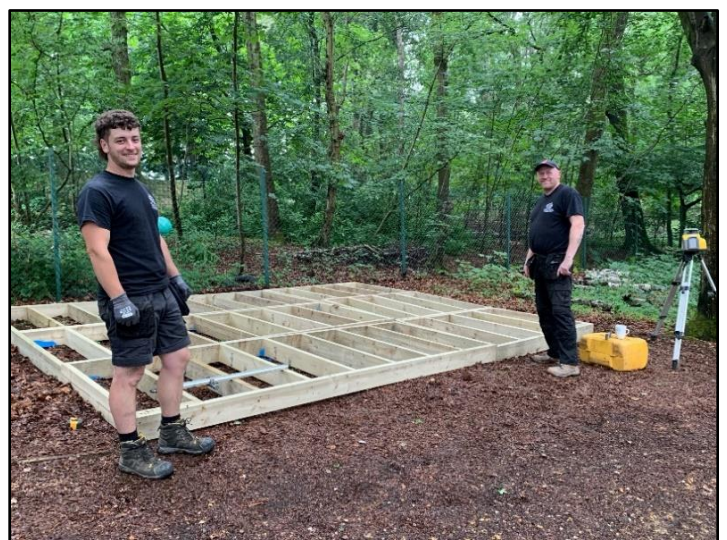

It has arrived! Ideally located in our wooded area, it will be available for the new academic year as an outdoor classroom for nature workshops and as a resource space for learning more about sustainability.

With plans to possibly house a refill station and an Eco-shop, it will also offer work experience opportunities for our sixth form students.

## From this...

Work started on the 20th June 2023 with the ground pinning, base install, and delivery of the wood. Two days later, our cabin really began to take shape.

...to this!

And finally...

With Phase 1 now completed, we await the installation of steps and some suitable furniture!
