Student EW – Year 10 and JB Year 13 – Ascentis
Awarding Body Certificate of Recognition nominated
for the Outstanding Learner Award Prize 2022-2023.

Looking to the Future

- Following their successful results in their A level, BTEC and GCSE's, 3 of our students have secured places at York College on their identified courses:
 - One student will complete a Computer Games Development Extended Diploma Level 3.
 - One student will be undertaking an Esports Diploma Level 2, to further develop his passion for gaming.
 - Another student will complete a Pathways to Work and Independent Living course, to further develop his independence.
- Following on from his achievement of a Level 3 BTEC in Computing - one student will access a Supported Internship with Project Choice where he will undertake work experience in preparation for paid employment.
- Following his successful achievement of a Level 3 Diploma in Financial Studies, one student will attend Stockton Riverside College to complete a supported internship in accountancy.
- Following his successful BTEC L2, GCSE and Stepping Stone Qualification results one student has secured a place at Barnet and Southgate College back in his local area. Not only has he achieved academically but this young person has also developed his skills in independent travel and effective communication to enable him to succeed!

All students who left the school this year, did so with a wealth of accredited qualifications. Levels of resilience and Independence improved significantly from starting points and all leavers transitioned on to further education.
