## 93 1. Monitoring and review

- 94 1.1 The Cambian (the Proprietor) will undertake a formal annual review of this policy for the purpose of  
95 monitoring and of the efficiency with which the related duties have been discharged, by no later than one

96 year from the date shown below, or earlier if significant changes to the systems and arrangements take  
97 place, or if legislation, regulatory requirements or best practice guidelines so require.

98 1.2 The local content of this policy will be subject to continuous monitoring, refinement and audit by the Head  
99 of Service.

100  
101 Signed:

Jeremy Wiles  
Group Executive Director- Children's Services

Date: August 2023

Steven Ince

Principal

September 2023

102

## 103 2. Terminology

104 2.1. Our aim is to use consistent terminology throughout this policy and all supporting documentation as  
105 follows:

106  
107  
108  
109  
110  
111  
112

<b>‘Establishment’ or ‘Location’</b>	This is a generic term, which means the Children’s Home/school/college.
<b>Individual</b>	This means any child or young person under the age of 18, young adult between the ages of 18 and 25
<b>Head of Service</b>	This is the senior person with overall responsibility for the school At Brook View School this is Principal, Steven Ince
<b>Key Worker</b>	Members of staff that have special responsibility for Individuals residing at or attending the Establishment.
<b>Parent, Carer, Guardian</b>	Means parent or person with Parental Responsibility
<b>Regulatory Authority</b>	Regulatory Authority is the generic term used in this policy to describe the independent regulatory body responsible for inspecting and regulating services.
<b>Social Worker</b>	This means the worker allocated to the individual’s family. If there is no allocated worker, the Duty Social Worker or Team Manager is responsible.
<b>Safeguarding Authority</b>	Children’s Social Care, Safeguarding Partners, Local Safeguarding Adults Board [LSAB] - England, Regional Safeguarding Children’s Boards [RSCB] – Wales *whichever apply for the type of service and country
<b>LADO</b>	Local Authority Designated Officer
<b>DSL/DSL Deputy</b>	Designated Safeguarding Lead/Designated Safeguarding Lead Deputy
<b>Placing Authority</b>	Placing Authority means the local authority/agency responsible for placing the child or commissioning the service
<b>Staff</b>	Means full or part-time employees of Cambian, agency workers, bank workers, contract workers and volunteers.
<b>CambianKPI</b>	The online in-house information system, which holds data for each site on quality measures.

113

### 114 3. Definitions and age-related arrangements

115 3.1. **Children and Young people are under 18.** Whilst Working together to Safeguard Children (2018) applies  
116 to children and young people until they reach the age of 18, Keeping Children Safe in Education (2023)  
117 now applies to providers of post 16 education as set out in Education and Training (Welfare of Children)  
118 Act 2021.

119 3.2. **Adults are over the age of 18.** Over 18-year olds are covered by the Local Safeguarding Adult Boards  
120 (LSABs). Government guidance can be gained from the Care Act 2014. An adult at risk of harm or abuse  
121 is any person who has needs for care and support and, is experiencing or at risk of abuse or neglect; and  
122 as a result of their particular care and support needs, is unable to protect themselves from either the risk  
123 of, or the experience of abuse or neglect’. We refer to adult service users in our provision as **young adults**  
124 due to the fact we provide children’s services up to the age of 25.

125 3.3. The Social Services and Well-being (Wales) Act 2014 came into force in April 2016 and it provides the  
126 legal framework for social service provision in Wales. It sets out what must and should be done to

127 safeguard children and adults. At a local level regional safeguarding children's boards co-ordinate and  
128 ensure the effectiveness of work to protect and promote the welfare of children.

129 3.4. Staff working with young adults aged 18 and over, who receive education, care and support from our  
130 children's services division will follow the Adult safeguarding referral process to LSAB/MASH/Regional  
131 Safeguarding Children's Boards depending on local arrangements.

132 3.5. This policy addresses children and young people up to the age of 18 and those over the age of 18 who  
133 attend a day or residential school or college – this might be 38- or 52-weeks' provision. Some children  
134 attending school or college live in children's homes or care homes across England and Wales, hence the  
135 reason why this policy and procedure is more comprehensive than that of a traditional day school or  
136 college. Our safeguarding responsibility extends beyond day education and often covers 24hrs services  
137 regulated by various regulators across the UK.

138 3.6. Where we make references to schools and colleges, this also includes associated children's or care homes  
139 in which children/young people live. Where we make references to children's or care homes, those cover  
140 all children's/care homes including those within the children's residential care division.

#### 141 Multi agency working – Safeguarding Partners & Children's Social Care

142 3.7. Children's Social Care - provide support to children in need of help and protection, including children with  
143 disabilities. Services include statutory assessment and care planning for children at risk of significant  
144 harm, provision for cared for children and care experienced young people, as well as fostering and  
145 adoption services.

146 3.8. Schools and colleges have a pivotal role to play in multi-agency safeguarding arrangements. Governance  
147 boards and proprietor should ensure that the school or college contributes to multi-agency working in  
148 line with statutory guidance [Working Together to Safeguard Children](#).

149 3.9. Locally, the three safeguarding partners (the local authority, a clinical commissioning group for an area  
150 within the local authority and the chief officer of police for an area (any part of which falls)) within the  
151 local authority work together with appropriate relevant agencies to safeguard and promote the welfare  
152 of local children, including identifying and responding to their needs.

153 3.10. It is especially important that schools and colleges understand their role in the three safeguarding partner  
154 arrangements. Governance boards, proprietor and their senior leadership teams, especially their DSLs,  
155 should make themselves aware of and follow their local arrangements.

156 3.11. The three safeguarding partners should allow all schools and colleges in the local area to be fully engaged,  
157 involved and included in safeguarding arrangements. It is expected that, locally, the three safeguarding  
158 partners will name schools and colleges as relevant agencies and will reach their own conclusions on the  
159 best way to achieve the active engagement with individual institutions in a meaningful way.

#### 160 Child protection definition

161 3.12. Child protection is part of the safeguarding process. It focuses on protecting individual children identified  
162 as suffering or likely to suffer significant harm. This includes child protection procedures, which detail  
163 how to respond to concerns about a child.

#### 164 Safeguarding definition – Working together to safeguarding children 2018

165 3.13. **Safeguarding children and young people** is the action taken to promote the welfare of children and  
166 protect them from harm. It means:

- 167 • Protecting children from abuse and maltreatment,
- 168 • Preventing harm to children's health or development,
- 169 • Ensuring children grow up with the provision of safe and effective care,
- 170 • Acting to enable all children and young people to have the best outcomes.

#### 171 Safeguarding definition – Keeping Children Safe in Education 2023

172 3.14. Safeguarding and promoting the welfare of children is everyone's responsibility. Everyone who comes  
173 into contact with children and their families has a role to play. In order to fulfil this responsibility

effectively, all practitioners should make sure their approach is child-centred. This means that they should consider, at all times, what is in the best interests of the child.

3.15. Safeguarding and promoting the welfare of children is defined for the purposes of this guidance as:

- Protecting children from maltreatment,
- Preventing impairment of children’s mental and physical health or development,
- Ensuring that children grow up in circumstances consistent with the provision of safe and effective care, and
- Acting to enable all children to have the best outcomes.

## Safeguarding Adults

3.16. Safeguarding adults means protecting an adult’s right to live in safety, free from abuse and neglect. It is about people and organisations working together to prevent and stop both the risks and experience of abuse or neglect, while at the same time making sure that the adult’s wellbeing is promoted including, where appropriate, having regard to their views, wishes, feelings and beliefs in deciding on any action.

3.17. The statutory guidance enshrines the **six principles** of adults safeguarding:

- Empowerment - presumption of person led decisions and informed consent
- Prevention - it is better to act before harm occurs
- Proportionality - proportionate and least intrusive response appropriate to the risk presented
- Protection - support and representation for those in greatest need
- Partnerships - local solutions through services working with their communities
- Accountability - accountability and transparency in delivering safeguarding

3.18. Caretech has Safeguarding Adults at Risk (England) and Safeguarding Adults (Wales) policies and procedures, which apply to its Adults’ Services. Both policies can be accessed via Rezume. Services operating in Wales can find their Safeguarding Regional Boards via this hyperlink, which provides access to local procedures for each Board <https://safeguardingboard.wales/find-your-board/>.

## The difference between safeguarding and child protection

3.19. In relation to children’s services - in practice safeguarding is the policies and practices that schools/colleges/children’s homes employ to keep children safe and promote their well-being. This means everything from security of the buildings, to the safe recruitment of staff and everything in between. **Appendix 10.** illustrates safeguarding in children’s services.

## Abuse and neglect – child and young person context

3.20. In the context of a child/young person, abuse and neglect are forms of maltreatment. Somebody may abuse or neglect a child/young person by inflicting harm, or by failing to act to prevent harm. Children/young people may be abused in a family or in an institutional or community setting, by those known to them or, more rarely, by a stranger. They may be abused by an adult or adults, or another child/young person or children/young people.

3.21. Abuse could mean neglect, physical, emotional, sexual abuse, any other including combination of these. The different types of abuse are explained in more detail in **Appendix 4 – Types of abuse - children**. The signs that someone could be a victim or an abuser have been explored in **Appendix 6** and **Appendix 7**. Parents, carers and other people can harm children and young people by direct acts and/or failure to provide proper care. It should also be understood that children can also be abused by being sexually exploited, or subject to honour-based abuse, domestic violence, forced marriage, female genital

217 mutilation and through online social media. See **Appendix 12 - Further safeguarding information – what**  
218 **everyone needs to know.**

219 3.22. In the context of an adult, abuse is a violation of a person’s human and civil rights by another person or  
220 persons and may result in significant harm to, or the exploitation of, the person subjected to it.

221 3.23. In addition to the types of abuse mentioned in **Appendix 4 – Types of abuse - Children**, there are other  
222 forms of abuse in relation to adults explained in more detail in **Appendix 5 – Types of abuse – Adults.**

223 3.24. Abuse can happen anywhere: for example, in someone’s own home, in a public place, in hospital, in a  
224 care home, school or in a college. It can happen when someone lives alone or with others. Anyone can  
225 carry out abuse or neglect. Abuse can be intentional or unintentional; it may be a single act or repeated  
226 acts.

## 227 **4. Purpose**

228 4.1. As an organisation, we have a clear set of guidelines to make sure we deal with child protection and  
229 safeguarding concerns effectively.

230 4.2. This policy is aligned with legislation outlined in **Appendix 2 – Legislation and guidance**, and it complies  
231 with the statutory and best practice guidance as set out in the **25.10 Staff Safeguarding Information**  
232 **Poster**. This policy complies with Lancashire children’s safeguarding assurance partnership locally agreed  
233 procedures. Printed or electronic copies of the Local Safeguarding Children’s Partnerships (LSCP), Local  
234 Safeguarding Adults Board (LSAB) or Regional Safeguarding Children’s Boards (Wales) procedures are  
235 available in every setting.

236 4.3. Policies and procedures for child protection and safeguarding must be undertaken in accordance with  
237 the requirements of the local authority in which the establishment is situated.

238 4.4. This policy, and supporting information in various accessible forms, is made available to all individuals,  
239 staff and parents associated with Cambian Brook View School to ensure that everyone is clear on  
240 procedures for ensuring the protection of children and safeguarding children and young adults.

241 4.5. This policy and procedure must be read in conjunction with **GHR 30. Whistleblowing Policy** and **GHR 11.**  
242 **Staff Code of Practice and GHR 37. Code of Conduct.**

243 4.6. In addition, staff should be aware of and have access to the **NSPCC whistle-blowing helpline number**  
244 **0800 028 0285** and the Cambian Whistleblowing service operated by **EthicsPoint on 0800 086 9128**. More  
245 information about EthicsPoint and how it can be contacted can be found in the Whistleblowing policy.

246 4.7. **‘When to call the police’** has been produced by the National Police Chiefs Council (NPCC) to support  
247 school and college staff with when it is appropriate to contact the police.

248 4.8. This NPCC advice does not cover safeguarding incidents. Where a child is suffering, or is likely to suffer  
249 from harm, it is important that a referral to children’s social care (and if appropriate the police) is made  
250 immediately. Referrals should follow the local referral process.

## 251 **5. Policy**

### **252 Safeguarding culture of the organisation**

253 5.1. Cambian safeguarding culture can be best described as:

254 - **Proactive**, being professionally curious to determine further information in the interests of the  
255 child. It is essential that staff exercise professional curiosity at all times, as it is likely that signs  
256 of any form of abuse including neglect will be identified when dealing with an un-associated  
257 incident. Having strong governance and leadership, raising awareness through and enhancing

- 258 children's and young people's capacity around the risks and their own safety, regular reflective  
259 supervision).
- 260 - **Reactive** (taking swift actions, reducing the risk of harm to a minimum, involving other  
261 professionals in timely manner, active listening, applying theory in practice in a methodical  
262 way).
- 263 - **Reflective** (understanding 'how we got there in the first place', completing a reflective account  
264 of events, involving other key professionals in future planning, identifying actions and further  
265 changes to be made).
- 266 5.2. Child protection and safeguarding is everyone's responsibility. Everyone working for or visiting our  
267 locations has a responsibility to understand and implement this policy and procedure at all times.
- 268 5.3. All individuals in our services have a right to feel safe, secure and be protected from harm.
- 269 5.4. As a provider of specialist education and care services it is imperative that all staff are aware that all  
270 individuals with special educational needs (SEN) and disabilities:
- 271 • Are more likely to be abused or neglected;
  - 272 • May display behaviour, mood and/or injury, which may relate to possible abuse and not just  
273 their SEN or a particular disability.
  - 274 • Have a higher risk of peer group isolation.
  - 275 • Can be disproportionally impacted by things like bullying without outwardly showing any signs.
  - 276 • Experience communication barriers and difficulties in overcoming these barriers.
- 277 5.5. The most common reason for children or young people being looked after is as a result of abuse/neglect.  
278 We will ensure all staff have the skills, knowledge and understanding to help keep children and young  
279 people safe.
- 280 5.6. All staff have a key role in the prevention of harm and an equal responsibility to act on any suspicion or  
281 disclosure that may indicate an individual is at risk of harm, either in the school, college, and care home  
282 or in the community, taking into account contextual safeguarding, see **Appendix 12 - Further**  
283 **safeguarding information – what everyone need to know** which also contains information related to  
284 safeguarding issues related to individual children and young people's needs.
- 285 5.7. We have a duty to help individuals learn how to keep themselves safe and deepen their understanding  
286 of safeguarding, through both formal curriculum and informal opportunities.
- 287 5.8. As an organisation, we acknowledge that working in partnership with other agencies protects individuals  
288 and reduces risk and so we will engage in partnership, working throughout the child protection process  
289 to safeguard children and will equally work through safeguarding adults' procedures as directed by local  
290 procedures.
- 291 5.9. A comprehensive list of all supporting documentation and related policies, procedures and guidance  
292 referred to in this document can be found in separate appendices at the end of this document.

## 293 Divisional Safeguarding Board

- 294 5.10. As an organisation Caretech children's services operates three Divisional Safeguarding Boards: Education,  
295 Residential Care and Fostering. The main purpose of each board is to ensure that all services across  
296 all divisions discharge their responsibilities effectively for assuring safe and secure services for children  
297 and young people, and manage all safeguarding risks appropriately within its own workforce, including

298 direct employees and also the contracted workforce (supply workers/agency/contractor and  
299 subcontractors). The full terms of reference for each Board is available on [Cambian Point](#).

### 300 What staff should read and be aware of

301 5.11. On the 1<sup>st</sup> September 2023 Keeping Children Safe in Education (2023) guidance replaced Keeping Children  
302 Safe in Education 2022. It is essential that everybody working in a school or college understands their  
303 safeguarding responsibilities. Staff who work directly with children read at least [Part one](#) of this guidance.  
304 Governance Boards and proprietor (or those acting on their behalf) working with their senior leadership  
305 teams and especially their designated safeguarding lead, should ensure that those staff who do not work  
306 directly with children read either Part one or [Annex A](#) (a condensed version of Part one) of this guidance.

307 5.12. The guidance should be read alongside:

- 308 • statutory guidance - [Working Together to Safeguard Children](#)
- 309 • departmental advice - [What to do if you are Worried a Child is Being Abused -](#)  
310 [Advice for Practitioners](#) ;

311 5.13. Caretech/Cambian schools and colleges are members of the Safeguarding Network and should plan how  
312 the learning from KCSIE2023 will take place with their staff. School /college's SLT should ensure that staff  
313 complete the KCSIE2023 knowledge check.

314 5.14. All staff should be aware of systems within their school or college, which support safeguarding, and these  
315 should be explained to them as part of staff induction. This should include the:

- 316 - Child protection and safeguarding policy
- 317 - Behaviour Support policy
- 318 - Anti bullying policy
- 319 - Whistleblowing policy, Code of conduct and Code of Practice policy
- 320 - Missing from Care policy, local procedure for children missing from education
- 321 - Role of the DSL (including the identity of the DSL and any deputies)
- 322 - Have Access to policies and a copy of Part one of KCSIE2023
- 323 - All staff should be aware of their local early help process and understand their role in it, more  
324 information can be found in [Working Together to Safeguard Children 2018](#)  
325 [\(publishing.service.gov.uk\)](#).

326 5.15. All staff should be aware of the process for making referrals to children's social care and for statutory  
327 assessments under the Children Act 1989, especially section 17 (children in need) and section 47 (a child  
328 suffering, or likely to suffer, significant harm) that may follow a referral, along with the role they might  
329 be expected to play in such assessments.

330 5.16. Schools concerned about a child's/young person's welfare should refer their concern to local authority  
331 children's social care where the school is located. If the child is placed at the school by a different LA then  
332 the school will need to inform that LA as well. Where a child is suffering, or is likely to suffer from harm,  
333 it is important that a referral to children's social care (and if appropriate the police) is made immediately.  
334 Referrals should follow the local referral process. Children's homes/care homes should follow their  
335 referral process as per their local procedure and contact Safeguarding Partner/Safeguarding Board as per  
336 their local Safeguarding procedure.

337 5.17. All staff should know what to do if a child/young person/young adult tells them he/she is being abused,  
338 exploited or neglected. Staff should know how to manage the requirement to maintain an appropriate  
339 level of confidentiality. This means only involving those who need to be involved, such as the DSL (or a  
340 deputy) and children's social care. Staff should never promise a child that they would not tell anyone  
341 about a report of any form of abuse, as this might ultimately not be in the best interests of the child.

342 5.18. All staff should be able to reassure victims that they are being taken seriously and that they will be  
343 supported and kept safe. A victim should never be given the impression that they are creating a problem

344 by reporting any form of abuse including sexual violence and sexual harassment. Nor should a victim ever  
345 be made to feel ashamed for making a report.

346 5.19. It is important to explain that the law is in place to protect children and young people rather than  
347 criminalise them, and this should be explained in such a way that avoids alarming or distressing them.

348 5.20. All staff should be aware that children may not feel ready or know how to tell someone that they are  
349 being abused, exploited, or neglected, and/or they may not recognise their experiences as harmful. For  
350 example, children may feel embarrassed, humiliated, or being threatened. This could be due to their  
351 vulnerability, disability and/or sexual orientation or language barriers. This should not prevent staff from  
352 having a professional curiosity and speaking to the DSL if they have concerns about a child. It is also  
353 important that staff determine how best to build trusted relationships with children and young people  
354 which facilitate communication.

355 5.21. Staff should **not** assume a colleague, or another professional will act and share information that might be  
356 critical in keeping children safe. They should be mindful that early information sharing is vital for the  
357 effective identification, assessment, and allocation of appropriate service provision, whether this is when  
358 problems first emerge, or where a child is already known to local authority children's social care (such as  
359 a child in need or a child with a protection plan).

### 360 Whole service approach to safeguarding

361 5.22. The proprietor and service (school/college/home) leaders should ensure they facilitate a whole school or  
362 college approach to safeguarding. This means ensuring safeguarding and child protection are at the  
363 forefront and underpin all relevant aspects of process and policy development. Ultimately, all systems,  
364 processes and policies should operate with the best interests of the child at their heart.

365 5.23. Where there is a safeguarding concern, the child's wishes and feelings must be considered when  
366 determining what action to take and what services to provide. Systems should be in place, and they  
367 should be well promoted, easily understood and easily accessible for children to confidently report abuse,  
368 knowing their concerns will be treated seriously, and knowing they can safely express their views and  
369 give feedback.

### 370 Children with special educational needs and disabilities or physical health issues

371 5.24. Children with special educational needs or disabilities (SEND) or certain health conditions can face  
372 additional safeguarding challenges. There might be some additional barriers when recognising abuse and  
373 neglect in this group of children. These can include:

- 374 • assumptions that indicators of possible abuse such as behaviour, mood and injury relate to  
375 the child's/young person's condition without further exploration;
- 376 • these children/young people being more prone to peer group isolation or bullying  
377 (including prejudice-based bullying) than other children/young people;
- 378 • the potential for children/young people with SEND or certain medical conditions being  
379 disproportionately impacted by behaviours such as bullying, without outwardly showing any  
380 signs; and
- 381 • Communication barriers and difficulties in managing or reporting these challenges.

382 5.25. SEN division and other services where children have/may have SEND should consider extra pastoral  
383 support and attention for these children, along with ensuring any appropriate support for communication  
384 is in place. Further information can be found in the Department's: [SEND Code of Practice 0 to 25 and](#)  
385 [Supporting Pupils at School with Medical Conditions](#).

### 386 Virtual school heads

387 5.26. Virtual school heads manage pupil premium plus for looked after children. In maintained schools and  
388 academies, the designated teacher should work with the virtual school head to discuss how funding can  
389 be best used to support the progress of looked after children in the school and meet the needs identified  
390 in the child's personal education plan. The designated teacher should also work with the virtual school

head to promote the educational achievement of previously looked after children. In other schools and colleges, an appropriately trained teacher should take the lead. More information can be found in [Designated teacher for looked after and previously looked after children](#) and [Promoting the education of looked after and previously looked after children](#).

## 6. Procedure

### Roles and responsibilities

- 6.1. **All employees, volunteers, consultants, agency staff, sub-contractors, partner organisations and visitors** are obliged to follow this policy and maintain an environment that prevents exploitation and abuse and which encourages reporting of breaches of this policy using the appropriate procedures.
- 6.2. **Managers at all levels** are responsible for ensuring volunteers, consultants, agency staff, sub-contractors, partner organisations and visitors are aware of the policy and are supported to implement and work in accordance with it, as well as creating a management culture that encourages a focus on safeguarding. They must ensure that they are responsive, acting immediately if they become aware of any safeguarding concerns, and supportive towards employees or volunteers who complain about breaches in this policy.
- 6.3. The **Designated Safeguarding Lead (DSL)** is responsible for handling reports and/or concerns, about the protection of children, young people and adults, appropriately and in accordance with the procedures that underpin this policy.

Name: Michael Kennedy

Contact: 07501388075

- 6.4. **Our DSL** is Michael Kennedy who is a senior member of our leadership team. The role of the DSL is to:
- Ensure this child protection and safeguarding policy and local arrangements are known, understood and used appropriately by the staff.
  - Act as a source of support, advice and expertise for all staff; provide support to staff to carry out their safeguarding duties.
  - Act as a point of contact with the Safeguarding Authority.
  - Take lead responsibility for referring and managing safeguarding issues and cases, unless management of a particular case is passed on to a more senior member of the organisation – see section of allegations (those meeting harm threshold and those which don't meet LADO criteria).
  - Liaise with staff (especially teachers, pastoral support staff, school nurses, IT technicians, senior mental health leads and special educational needs coordinators (SENCOs) or the named person with oversight for SEN in a college and Senior Mental Health Leads) on matters of safety and safeguarding

- 423 and welfare (including online and digital safety) and when deciding whether to make a referral by  
424 liaising with relevant agencies so that children's needs are considered holistically.
- 425 • Liaise with the senior mental health lead and, where available, the Mental Health Support Team,  
426 where safeguarding concerns are linked to mental health.
  - 427 • Refer all cases of suspected abuse or allegations of abuse to the Local Safeguarding Authority (child  
428 or adult) and, where appropriate, the Local Authority Designated Officer (LADO).
  - 429 • Liaise with the headteacher or principal (if they are not the DSL themselves) to inform him or her of  
430 issues, especially ongoing enquiries under section 47 of the Children Act 1989 and police  
431 investigations. This should include being aware of the requirement for children to have an Appropriate  
432 Adult. Further information can be found in the statutory guidance - [PACE Code C 2019](#).
  - 433 • As required, liaise with the "case manager" and the local authority designated officer(s) (LADO) for  
434 child protection concerns in cases which concern a staff member.
  - 435 • Refer cases to the Channel programme where there is a radicalisation concern as required.
  - 436 • Refer cases where a person is dismissed or left due to risk/harm to a child/young person to the  
437 Disclosure and Barring Service as required; and
  - 438 • Refer cases where a crime may have been committed to the police as required. [NPCC - When to call](#)  
439 [the police](#) should help understand when to consider calling the police and what to expect when  
440 working with the police.
  - 441 • Act as a source of advice, support and expertise within the location when deciding to make a referral  
442 by liaising with relevant agencies.
  - 443 • Help promote educational outcomes by sharing the information about the welfare, safeguarding and  
444 child protection issues that children are experiencing, or have experienced, with teachers and school  
445 and college leadership staff.
  - 446 • Identify staff safeguarding training needs and organise training for their staff.
  - 447 • Participate in local safeguarding boards when required.
  - 448 • Evaluate and contribute to high standards of safeguarding practice at the location.
  - 449 • Work to ensure that the wellbeing of children and young people is in constant focus and that they are  
450 guarded from harm or abuse.
  - 451 • Ensure the child protection and safeguarding policy is available publicly and parents/those with  
452 parental responsibility are aware of the fact that referrals about suspected abuse or neglect may be  
453 made and the role of the school/college/home in this.
  - 454 • Understands the relevant data protection legislation and regulations, especially The Data Protection  
455 Act 2018.
- 456 6.5. More details about the role of the DSL including their availability, management of referrals, information  
457 sharing, working with others, raising awareness and other can be found in [KCSIE 2023 Annex C - Role of](#)  
458 [the DSL](#)
- 459 6.6. **Designated Deputy** – will act up in the absence of the DSL and compliment their ongoing work where  
460 asked do to so. There are arrangements for covering the role of the DSL when Michael Kennedy is  
461 unavailable. Our larger provisions such as schools and college will have an internal Safeguarding Team

lead by a DSL with a number of deputies where required. Our Designated Deputies are  
and Elise Aspinall

Steven Ince

	
Name: Steven Ince	Name: Elise Aspinall
Contact: 07369222871	Contact: 07827353146

6.7. All staff are required to be aware of and alert to the signs of abuse and neglect. All cases of suspected abuse and neglect should be given the highest priority.

6.8. All staff will be given a personal copy of the booklet titled **25.15 Guide to Child Protection and Safeguarding at Cambian**.

6.9. There is **Appendix 3. Child Protection and safeguarding flowchart procedure**, which sets out clear steps to be followed when dealing with particular allegations, incidents or suspected physical injuries. Staff must use the correct forms when recording and managing concerns and allegations regarding the abuse of individuals. Education services must use Behaviour Watch system: Concern/Safeguarding function to record concerns. Where, throughout this policy, references are made to the 'concern form' this means either **25.04 Concern form** which is a word document (part of this policy) or the Behaviour Watch – Concern/Safeguarding functionality where the system is being used.

#### **Information sharing and managing the child protection file**

6.10. **The DSL** is responsible for ensuring that child protection files are kept up to date. Information should be kept confidential and stored securely. It is good practice to keep concerns and referrals in a separate child protection file for each child. Schools and colleges should use the Behaviour Watch system - Concern/Safeguarding function to record all concerns and to generate Safeguarding Tracking Packs per child/young person as necessary.

6.11. Records should include:

- a clear and comprehensive summary of the concern;
- details of how the concern was followed up and resolved;
- a note of any action taken, decisions reached and the outcome

6.12. They should ensure the file is only accessed by those who need to see it and where the file or content within it is shared, this happens in line with information sharing advice as set out in [KCSIE 2023](#) and [Information sharing advice for safeguarding practitioners](#). Schools and colleges using Behaviour Watch must set up their system group purposes in line with Behaviour Watch guidance. Behaviour Watch

491 'Safeguarding Group' controls who can view and report on Concern/SG slips and 'Not Safeguarding  
492 Group' to restrict who can complete certain sections within the Concern/SG slips.

493 6.13. Where reasonably possible, schools and colleges hold **more than one emergency contact number for**  
494 **each pupil or student.** This goes beyond the legal minimum. It is good practice to give the school or  
495 college additional options to contact a responsible adult when a child missing education is also identified  
496 as a welfare and/or safeguarding concern.

#### 497 **LADO referral criteria (KCSIE2023) – meeting the harm threshold**

498 6.14. This is about managing cases of allegations that might indicate a person could pose a risk of harm if they  
499 continue to work in regular or close contact with children in their present position, or in any capacity with  
500 children in a school or college. This guidance should be followed where it is alleged that anyone working  
501 in the school or college that provides education for children under 18 years of age, including supply  
502 teachers, volunteers and contractors has:

- 503 • behaved in a way that has harmed a child, or may have harmed a child, and/or,
- 504 • possibly committed a criminal offence against or related to a child, and/or,
- 505 • behaved towards a child or children in a way that indicates he or she may pose a risk of  
506 harm to children; and/or,
- 507 • behaved or may have behaved in a way that indicates they may not be suitable to work  
508 with children

509 6.15. The harm test is explained on the [Disclosure and Barring service website on GOV.UK. Section 31\(9\) of the](#)  
510 [Children Act 1989 as amended by the Adoption and Children Act 2002.](#)

511 6.16. The last bullet point above includes behaviour that may have happened outside of school or college that  
512 might make an individual unsuitable to work with children; this is known as transferable risk. Where  
513 appropriate an assessment of transferable risk to children with whom the person works should be  
514 undertaken. If in doubt, seek advice from the local authority designated officer (LADO).

515 6.17. This above information relates to members of staff, supply staff and volunteers who are currently working  
516 in any school or college regardless of whether the school or college is where the alleged abuse took place.  
517 Allegations against a teacher who is no longer teaching should be referred to the police. Historical  
518 allegations of abuse should also be referred to the police.

#### 519 **Children potentially at greater risk of harm**

520 6.18. Many children and young people in our services (education and care) have an allocated social worker due  
521 to safeguarding or welfare needs.

522 6.19. Children may need this help due to abuse, neglect and complex family circumstances. A child's  
523 experiences of adversity and trauma can leave them vulnerable to further harm, as well as educationally  
524 disadvantaged in facing barriers to attendance, learning, behaviour and mental health.

525 6.20. Local authorities should share the fact a child has a social worker, and the DSL should hold and use this  
526 information so that decisions can be made in the best interests of the child's safety, welfare and  
527 educational outcomes. This should be considered as a matter of routine. There are clear powers to share  
528 this information under existing duties on both local authorities and schools and colleges to safeguard and  
529 promote the welfare of children.

530 6.21. Where children need a social worker, this should inform decisions about safeguarding (for example,  
531 responding to unauthorised absence or missing education where there are known safeguarding risks) and  
532 about promoting welfare (for example, considering the provision of pastoral and/or academic support,  
533 alongside action by statutory services). Schools/colleges must follow missing from education protocol  
534 agreed with their LA.

535 6.22. Children missing from education, particularly persistently, can act as a vital warning sign to a range of  
536 safeguarding issues including neglect, child sexual and child criminal exploitation- particularly county

537 lines. It is important the school or college's response to children missing from education supports  
538 identifying such abuse and helps prevent the risk of them going missing in the future. More information  
539 can be found in [para 175 of KCSIE 2023](#)

#### 540 **Unexplained body marks**

541 6.23. Whilst Individuals are in our care there may be occasions where minor injuries occur such as bruises,  
542 swellings, cuts and scratches which by and large will be as a result of daily activities or for some individuals  
543 as a result of self-injurious behaviour. However, all marks or physical changes must be recorded  
544 appropriately using a weekly body chart. A concern form must be completed for all unexplained marks  
545 and physical changes and passed to the DSL (or a deputy) along with copies of the last 3 days of Daily  
546 Diary notes and Activity Records. Parents/carers and social workers should always be kept informed.  
547 Concern log should be updated with concern and relevant reference number provided to concern.

548 6.24. The flowchart provided in - **25.14 Guidance for Investigating Unexplained Body marks** indicates the  
549 correct course of action for dealing with unexplained body marks.

550 6.25. The DSL will assign a manager to investigate the concern to ascertain the reason for the marks and if no  
551 reasonable explanation can be given the DSL must contact the local Safeguarding Authority for further  
552 advice and mutual conclusion as to whether the matter should be treated as a Safeguarding Concern.

553 6.26. If the concern is considered to be a safeguarding concern, then safeguarding tracking pack must be  
554 opened and safeguarding process followed.

555 6.27. If the concern is considered not to be a safeguarding concern, then the concern investigation outcome  
556 must be shared with social worker and parents.

#### 557 **Disclosure from an Individual**

558 6.28. Staff must follow the process outlined in **Appendix 3. Child Protection and safeguarding flowchart**  
559 **procedure.**

560 6.29. It is important to note that children/young people may not find it easy to tell staff about their abuse  
561 verbally. Children/young people can show signs or act in ways that they hope adults will notice and react  
562 to. In some cases, the victim may not make a direct report. For example, a friend may make a report or a  
563 member of school or college staff may overhear a conversation that suggests a child has been harmed or  
564 a child's/young person's own behaviour might indicate that something is wrong. If staff have any  
565 concerns about a child's/young person's welfare, they should act on them immediately rather than wait  
566 to be told and follow the procedure described in **Appendix 3. Child Protection and safeguarding**  
567 **procedure.**

568 6.30. In case of reports of sexual violence and sexual harassment between children and young people, these  
569 are extremely complex to manage. It is essential that victims are protected, offered appropriate support  
570 and every effort is made to ensure their education and care is not disrupted. It is also important that  
571 other children, young people and staff are supported and protected as appropriate.

572 6.31. The service's initial response to a report from a child is incredibly important. How the staff respond to a  
573 report can encourage or undermine the confidence of future victims of sexual violence and sexual  
574 harassment to report or come forward.

575 6.32. If the child/young person make a disclosure - **Listen** to what they have to say and take them seriously.  
576 Reassure them but do not promise to keep it a secret. Not promising confidentiality at this initial stage  
577 as it is very likely a concern will have to be shared further (for example, with the DSL and Safeguarding  
578 Authority) to discuss next steps. Staff should only share the report with those people who are necessary  
579 in order to progress it. It is important that the victim understands what the next steps will be and whom  
580 the report will be passed to.

581 6.33. **Reflect back**, using the child's language, being non-judgmental, being clear about boundaries and how  
582 the report will be progressed, don't ask leading questions and only prompt the child where necessary

583 with open questions – where, when, what, etc. It is important to note that whilst leading questions should  
584 be avoided, staff can ask children if they have been harmed and what the nature of that harm was.

585 6.34. **Recognise** that a child is likely to disclose to someone they trust: this could be anyone on the school or  
586 college staff. It is important that the person to whom the child discloses recognises that the child has  
587 placed them in a position of trust. They should be supportive and respectful of the child.

588 6.35. **Consider** the best way of making a record of the report. Best practice is to wait until the end of the report  
589 and immediately write up a thorough summary. This allows the staff member to devote their full  
590 attention to the child and to listen to what they are saying. It may be appropriate to make notes during  
591 the report (especially if a second member of staff is present). However, if making notes, staff should be  
592 conscious of the need to remain engaged with the child and not appear distracted by the note taking.  
593 Either way, it is essential a written record is made using Concern form which is part of this policy. The  
594 written record must be fully completed within maximum of 24 hours of the disclosure, but verbal report  
595 to the DSL must be completed within an hour from the moment of the disclosure being made.

596 6.36. Only recording the facts as the child presents them. The notes should not reflect the personal opinion of  
597 the note taker. Staff should be aware that notes of such reports could become part of a statutory  
598 assessment by Safeguarding Authority and/or part of a criminal investigation.

599 6.37. In cases where either a child/young person informs the staff that an act of FGM – however described –  
600 has been carried out on her, or where the staff observes physical signs on a girl appearing to show that  
601 an act of FGM has been carried out these situations, the police must be informed. The DSL should also be  
602 informed who will trigger child protection/safeguarding procedures described in this policy. If a  
603 child/young person is at immediate risk – the Police (999) must be contacted immediately. If a  
604 child/young person required medical attention, follow steps identified in ‘**Setting priorities**’ section  
605 below.

606 6.38. Remember, **do not**:

- 607 • Investigate the incident
- 608 • Ask leading questions
- 609 • Get the young person to repeat the disclosure over and over
- 610 • Make assumptions or offer alternative explanations
- 611 • Approach/inform the alleged abuser

612 6.39. The procedure for reporting concern is described in **Appendix 8. DSL/DSL Deputy – actions, reporting**  
613 **and recording procedure.**

614 6.40. All staff know that they can contact the Local Authority direct should that be necessary. Where a  
615 safeguarding issue is raised for a young adult, the matter should be dealt with by the Local Safeguarding  
616 Adult Board. Where someone is over 18 but still receiving children’s services, the matter should be dealt  
617 with by the local Safeguarding Adult Board.

618 6.41. For allegation made against a staff member or senior managers/directors follow relevant allegations  
619 procedures described later on in this policy.

620 6.42. Where contact is made with the Local Authority in which Cambian Brook View School is geographically  
621 located, contact will also be made with the individual’s own Local Authority and also the child/young

622 person's social worker. This will be completed by one of the members of the school/college/home's  
623 safeguarding team.

624 6.43. In the case of serious harm, and/or the individual is in immediate danger the local police should be  
625 informed immediately and they can take immediate protective action as necessary.

626 6.44. If a member of staff feels their concerns are not being taken seriously then they are to inform a more  
627 senior manager, a Director of the Company or contact Ofsted/CQC/CIW/Estyn, the local safeguarding  
628 boards, the police or the **Whistleblowing Hotline – on 0800 086 9128.**

#### 629 Risk Assessment

630 6.45. When there has been a report of sexual violence, the DSL (or a deputy) should make an immediate risk  
631 and needs assessment. Where there has been a report of sexual harassment, the need for a risk  
632 assessment should be considered on a case-by-case basis. The risk and needs assessment should  
633 consider:

- 634 • the victim, especially their protection and support,
- 635 • whether there may have been other victims,
- 636 • the alleged perpetrator(s); and
- 637 • all the other children, (and, if appropriate, adult students and staff) at the school or college  
638 especially, and any actions that are appropriate to protect them from the alleged  
639 perpetrator(s), or from future harms.
- 640 • The time and location of the incident, and any action required to make the location safer.

641 6.46. Risk assessments should be recorded (written or electronic) and should be kept under review. At all times,  
642 staff should be actively considering the risks posed to all their pupils and students and put adequate  
643 measures in place to protect them and keep them safe. The DSL (or a deputy) should ensure they are  
644 engaging with Safeguarding Authority and specialist services as required. Where there has been a report  
645 of sexual violence, it is likely that professional risk assessments by social workers and or sexual violence  
646 specialists will be required. The above school or college risk assessment is not intended to replace the  
647 detailed assessments of expert professionals. Any such professional assessments should be used to  
648 inform the school's or college's approach to supporting and protecting their pupils and students and  
649 updating their own risk assessment.

#### 650 Following a report - what to consider

651 6.47. Important considerations will include:

- 652 • the wishes of the victim in terms of how they want to proceed. This is especially important in  
653 the context of sexual violence and sexual harassment. Victims should be given as much control  
654 as is reasonably possible over decisions regarding how any investigation will be progressed and

any support that they will be offered. This will however need to be balanced with the school's or college's duty and responsibilities to protect other children;

- the nature of the alleged incident(s), including whether a crime may have been committed and/or whether harmful sexual behaviour HSB has been displayed;

- the ages of the children involved;

- the developmental stages of the children involved;

- any power imbalance between the children. For example, is the alleged perpetrator(s) significantly older, more mature or more confident? Does the victim have a disability or learning difficulty?

- if the alleged incident is a one-off or a sustained pattern of abuse (sexual abuse can be accompanied by other forms of abuse and a sustained pattern may not just be of a sexual nature);

- that sexual violence and sexual harassment can take place within intimate personal relationships between children/young people/adults;

- importance of understanding intra familial harms and any necessary support for siblings following incidents

- are there ongoing risks to the victim, other children, adult students or school or college staff; and

- other related issues and wider context, including any links to child sexual exploitation and child criminal exploitation.

6.48. As always when concerned about the welfare of a child, all staff should act in the best interests of the child. In all cases, schools and colleges should follow general safeguarding principles as set out throughout this guidance. Immediate consideration should be given as to how best to support and protect the victim and the alleged perpetrator(s) (and any other children involved/impacted).

## Options to manage the report

6.49. It is important that schools and colleges consider every report on a case-by-case basis. When to inform the alleged perpetrator(s) will be a decision that should be carefully considered. Where a report is going to be made to Safeguarding Authority and/or the police, then, as a general rule, the school or college should speak to the relevant agency and discuss next steps and how the alleged perpetrator(s) will be informed of the allegations. However, as per general safeguarding principles, this does not and should not stop the school or college taking immediate action to safeguard their children, where required.

6.50. There are four likely scenarios for schools and colleges to consider when managing any reports of sexual violence and/or sexual harassment. It will be important in all scenarios that decisions and actions are regularly reviewed and that relevant policies are updated to reflect lessons learnt. It is particularly important to look out for potential patterns of concerning, problematic or inappropriate behaviour. Where a pattern is identified, the school or college should decide on a course of action. Consideration should be given as to whether there are wider cultural issues within the school or college that enabled the inappropriate behaviour to occur and where appropriate extra teaching time and/or staff training could be delivered to minimise the risk of it happening again. The four scenarios are:

- Manage internally;** In some cases of sexual harassment, for example, one-off incidents, the school or college may take the view that the children concerned are not in need of early help or that referrals need to be made to statutory services and that it would be appropriate to handle the incident internally, perhaps through utilising their behaviour policy and by providing pastoral support.

- Early help:** In line with the above, the school or college may decide that the children involved do not require referral to statutory services but may benefit from early help. Early

701 help means providing support as soon as a problem emerges, at any point in a child's life.  
702 Providing early help is more effective in promoting the welfare of children than reacting  
703 later. Early help can be particularly useful to address non-violent harmful sexual behaviour  
704 and may prevent escalation of sexual violence. It is particularly important that the DSL (and  
705 their deputies) know what the Early Help process is and how and where to access support.

- 706 • Schools and colleges, as relevant agencies, should be part of discussions with statutory  
707 safeguarding partners to agree the levels for the different types of assessment and services  
708 to be commissioned and delivered, as part of the local arrangements. Safeguarding  
709 partners should publish a local threshold document which includes the process for the local  
710 early help assessment and the type and level of early help services to be provided, and DSLs  
711 (and their deputies) will need to familiarise themselves with this document.
- 712 • **Referrals to Safeguarding Authority** - where a child has been harmed, is at risk of harm,  
713 or is in immediate danger, schools and colleges should make a referral to the local  
714 Safeguarding Authority. At the point of referral, schools and colleges will generally inform  
715 parents or carers, unless there are compelling reasons not to (if informing a parent or  
716 carer is going to put the child at additional risk). Any such decision should be made with  
717 the support of children's social care.
- 718 • **Reporting to the Police** - any report to the police will generally be in parallel with a referral  
719 to children's social care (as above. It is important that the DSL and their deputies) are clear  
720 about the local process for referrals and follow that process.

#### 70 Unsubstantiated, unfounded, false or malicious reports

- 722 6.51. If a report is determined to be unsubstantiated, unfounded, false or malicious, the DSL should consider  
723 whether the child and/or the person who has made the allegation needs help or may have been abused  
724 by someone else and this is a cry for help. In such circumstances, a referral to Safeguarding authority may  
725 be appropriate.
- 726 6.52. If a report is shown to be deliberately invented or malicious, the school or college should consider  
727 whether any disciplinary action is appropriate against the individual who made it as per their own  
728 behaviour policy.

#### 70 Safeguarding and supporting the victim

- 730 6.53. The needs and wishes of the victim should be paramount (along with protecting the child)/young person  
731 in any response. It is important they feel in as much control of the process as is reasonably possible.  
732 Wherever possible, the victim, if they wish, should be able to continue in their normal routine. Overall,  
733 the priority should be to make the victim's daily experience as normal as possible, so that the school or  
734 college is a safe space for them.
- 735 6.54. Consider the age and the developmental stage of the victim, the nature of the allegations and the  
736 potential risk of further abuse. Schools and colleges should be aware that, by the very nature of sexual  
737 violence and sexual harassment, a power imbalance is likely to have been created between the victim  
738 and alleged perpetrator(s).
- 739 6.55. The victim should never be made to feel that they are the problem for making a report or made to feel  
740 ashamed for making a report. This has been made clear throughout this policy and procedure.
- 741 6.56. Consider the proportionality of the response. Support should be tailored on a case-by-case basis. The  
742 support required regarding a one-off incident of sexualised name-calling is likely to be vastly different  
743 from that for a report of rape.
- 744 6.57. Services should be aware that sexual assault can result in a range of health needs, including physical,  
745 mental, and sexual health problems and unwanted pregnancy. Children and young people that have a  
746 health need arising from sexual assault or abuse can access specialist NHS support from a Sexual Assault  
747 Referral Centre (SARC). SARCs offer confidential and non-judgemental support to victims and survivors

748 of sexual assault and abuse. They provide medical, practical, and emotional care and advice to all children  
749 and adults, regardless of when the incident occurred.

750 6.58. Children and Young People's Independent Sexual Violence Advisors (ChISVAs) provide emotional and  
751 practical support for victims of sexual violence. They are based within the specialist sexual violence sector  
752 and will help the victim understand what their options are and how the criminal justice process works if  
753 they have reported or are considering reporting to the police. ChISVAs will work in partnership with  
754 schools and colleges to ensure the best possible outcomes for the victim.

## 755 Safeguarding and supporting the alleged perpetrator(s)

756 6.59. Advice about safeguarding and supporting the alleged perpetrators is also set out in departmental advice:  
757 [Sexual violence and sexual harassment between children at schools and colleges](#). The following principles  
758 are based on effective safeguarding practice and should help shape any decisions regarding safeguarding  
759 and supporting the alleged perpetrator(s):

- 760 • The school or college will have a difficult balancing act to consider. On the one hand, they  
761 need to safeguard the victim (and the wider pupil/student body) and on the other hand  
762 provide the alleged perpetrator(s) with an education, safeguarding support as appropriate  
763 and implement any disciplinary sanctions. Taking disciplinary action and still providing  
764 appropriate support are not mutually exclusive actions. They can, and should, occur at the  
765 same time if necessary.
- 766 • Consider the age and the developmental stage of the alleged perpetrator(s), the nature of  
767 the allegations and frequency of allegations. Any child will likely experience stress as a  
768 result of being the subject of allegations and/or negative reactions by their peers to the  
769 allegations against them.
- 770 • Consider the proportionality of the response. Support (and sanctions) should be  
771 considered on a case-by-case basis. The alleged perpetrator(s) may potentially have unmet  
772 needs (in some cases these may be considerable) as well as potentially posing a risk of harm  
773 to other children. HSB in young children may be (and often are) a symptom of either their  
774 own abuse or exposure to abusive practices and or materials.
- 775 • It is important that the perpetrator(s) is/are also given the correct support to try to stop  
776 them re-offending and to address any underlying trauma that may be causing this  
777 behaviour. Addressing inappropriate behaviour can be an important intervention that  
778 helps prevent problematic, abusive and/or violent behaviour in the future.
- 779 • Advice on behaviour and discipline in schools is clear that teachers can discipline pupils  
780 whose conduct falls below the standard, which could be reasonably expected of them. If  
781 the perpetrator(s) is to be excluded the decision must be lawful, reasonable and fair.

## 782 Setting priorities

783 6.60. The priority, at all stages throughout the child protection or safeguarding process, is the interests and  
784 safety of the individual.

785 6.61. Where appropriate, any concerns will be discussed with the individual's family / carers and where  
786 possible their agreement will be sought to making a referral to the Local Authority. However, where  
787 there is a conflict of interests between the Individual and parent/guardian, the interests of the individual  
788 must take priority and Brook View School reserves the right to contact the individual's local authority,  
789 social care or the police, without notifying parents/carers if this is in their best interests.

790 6.62. If an urgent medical, attention or advice is required and GP/specialist doctor is not available, staff MUST  
791 use the NHS 111 service. NHS 111 is available 24 hours a day, 7 days a week.

792 6.63. If the situation is life-threatening, staff must call 999 immediately and ask for an ambulance. Alternatively,  
793 if it is assessed to be in the best interest of the child/young person - the DSL MUST take the Individual to  
794 the Accident and Emergency Unit at the nearest hospital, having first notified the Local Authority/Police,

795 remembering that every reasonable effort should be made to inform the parents/carers as soon as  
796 possible.

797 6.64. If the suspected abuse is sexual, then the medical professional must determine if the medical examination  
798 should be delayed until the Local Authority and the Police can liaise with the hospital. There is a possibility  
799 that the needs of the young person are such that medical attention is the priority, in such case medical  
800 professional's judgment must be followed. There must at all times be an appropriate adult (parent,  
801 guardian or a social worker) with the individual whether from the individual's care home/school/college,  
802 the Local Authority or the Police, if the parents/carers are not included. This section must be read in  
803 conjunction with our **0.29. Child Sexual Exploitation policy**.

804 6.65. Cambian will provide an advocate to each individual where appropriate, if they are unable to speak for  
805 themselves without support or an Independent Mental Capacity Advocate (IMCA) if subject to the Mental  
806 Capacity Act. Further information on MCA are available in our **0.13. Mental Capacity and Consent policy**.

#### **80 Allegation of abuse by one or more Individuals on another Individual**

808 6.66. All Individuals involved, whether perpetrator or victim, are treated as being 'at risk'. The procedures for  
809 dealing with such abuse will be followed, where there is 'reasonable cause to suspect that an Individual  
810 is suffering or likely to suffer significant harm'. DSL must refer individual-on-individual abuse including  
811 child on child/young adult on young adult or between individuals of a different age or other to a  
812 Safeguarding Authority, local authority and regulator.

#### **81 Allegation of abuse of an Individual who is not registered at our provision – staff involved**

814 6.67. If we were given information that suggested that someone who does not reside at or attends our location  
815 has been abused by one of our members of staff, the DSL would immediately report this to the Local  
816 Authority and LADO. The Head of Service must be kept informed and HR Business Partner consulted.  
817 Should the staff member be involved we would then formally advise the member of staff of the allegation,  
818 making it clear that we would not play any part in the investigatory process. The employee would be  
819 advised of the possibility of facing suspension, re-assignment to other duties (to manage any perceived  
820 risks) etc., in exactly the same way as if the allegation had involved an Individual at our  
821 home/school/college. However, the HR Business Partner must be consulted before any action is taken. If  
822 the allegation were subsequently proved to be unfounded, he or she would be given full support in  
823 resuming their career. Should we be asked by LADO/Safeguarding authority to be involved in any  
824 potential investigations or parts of it, an HR Business Partner will have to be consulted first. At this point,  
825 an assessment will need to be made to identify what detail (if any) can be disclosed to a member of staff  
826 involved.

#### **82 Allegation of abuse of an Individual who is not registered at our provision- third party involved**

828 6.68. If we were given information that suggested that someone who does not reside at or attends our location  
829 has been abused by a third party (known or unknown to the provision), the DSL would immediately report  
830 this to the Local Authority and Police. The Head of Service must be kept informed. DSL will follow advice

831 provided by the leading agency and report back to the Head of Service who will explore any associated  
832 risk/s in relation to the provision.

### 833 **Allegations against staff**

834 6.69. All allegations must be reported to the DSL Michael Kennedy or in their absence to a DSL Deputy – see  
835 your local Safeguarding poster. In addition, where appropriate - HR Business Partner must be consulted.

836 6.70. When an allegation is made against a member of staff, set procedures must be followed, see the flow  
837 chart in **Appendix 3. Child Protection and safeguarding procedure (Flow chart)**.

838 6.71. Staff MUST act on every allegation; all repeated allegations must be treated as new and carefully assessed  
839 and investigated. Staff who are the subject of an allegation have the right to have their case dealt with  
840 fairly, quickly and consistently and to be kept informed of its progress.

841 6.72. Staff should refer to the **25.08. Guidance for staff who have the allegation made against them** provided  
842 for what to do in the event an allegation is made against them.

### 843 **Allegations against staff in Education**

844 6.73. The staff in this section include teachers and TAs, supply teachers, other staff, volunteers and contractors.  
845 The allegations are split into two groups:

846 • Allegations that may meet the harm threshold (see **LADO referral criteria**) – **meeting the**  
847 **harm threshold** of this policy)

848 • Allegation/concerns that do not meet the harms threshold – referred in the guidance and  
849 this policy as ‘low - level concerns’ - **Appendix 11. Low – level concerns (Education)**.

850 6.74. This is about managing cases of allegations that might indicate a person would pose a risk of harm if they  
851 continue to work in regular or close contact with children in their present position, or in any capacity with  
852 children in a school or college.

853 6.75. The information above relate to members of staff, supply staff, volunteers and contractors who are  
854 currently working in any school or college regardless of whether the school or college is where the alleged  
855 abuse took place. It is advised that in Education allegations against people listed above should be referred  
856 to the Head/Principal who is often the DSL, however where the Head/Principal is not the DSL, allegations  
857 against staff including supply, volunteers and contractors must be referred to the Head/Principal who  
858 may liaise with the DSL. This is because the concern/allegation may align with other performance or  
859 personal related issues the Head/Principal might already be aware of, whereas the DSL may not be. The  
860 Principal/Head should ensure the DSL is briefed as appropriate and will then decide whom the case should  
861 be led by – the DSL or themselves. Allegations against a teacher who is no longer teaching should be  
862 referred **to the police** and HR Business Partner advised.

863 6.76. Where an adult makes an allegation to a school or college that they were abused as a child, the individual  
864 should be advised to report the allegation to the police. Non-recent allegations made by a child, should  
865 be reported to the LADO in line with the local authority’s procedures for dealing with non-recent  
866 allegations. The LADO will coordinate with children social care and the police. Abuse can be reported no  
867 matter how long ago it happened.

868 6.77. Where a teacher’s employer, including an agency, dismisses or ceases to use the services of a teacher  
869 because of serious misconduct, or might have dismissed them or ceased to use their services had they  
870 not left first, they must consider whether to refer the case to the Secretary of State (via the Teaching  
871 Regulation Agency). Details about how to make a referral to the Teaching Regulation Agency can be found  
872 on GOV.UK.

873 6.78. Schools and colleges using Behaviour Watch must ensure that concerns/allegations related to staff [‘staff’  
874 slip], are set up to be only visible to the selected group of people e.g. Head teacher/Principal or the DSL  
875 or both depending on the schools/colleges internal arrangement. The same approach must be applied to  
876 Real Time Notifications. As the schools’/colleges’ arrangements around who will receive staff related

877 concerns will vary between the schools/colleges, it is up to schools to ensure their arrangements are  
878 considered when setting up the Concern/SG: *Staff* function.  
879

#### 8 Allegations against supply teachers and all workers supplied by agency

881 6.79. In some circumstances schools and colleges will have to consider an allegation against an individual not  
882 directly employed by them, where its disciplinary procedures do not fully apply because agencies will  
883 have their own policies and procedures; for example, supply teachers or contracted staff provided by an  
884 employment agency or business.

885 6.80. Whilst the organisation's schools and colleges are not the employer of supply teachers, they should  
886 ensure allegations are dealt with properly. In no circumstances should a school or college decide to cease  
887 to use a supply teacher due to safeguarding concerns, without finding out the facts and liaising with the  
888 LADO to determine a suitable outcome. Schools and colleges must also consult the HR Business Partner  
889 who may advise further. Governance boards and proprietors should discuss with the supply agency or  
890 agencies where the supply teacher is working across a number of schools or colleges, whether it is  
891 appropriate to suspend the supply teacher, or redeploy them to another part of the school or college,  
892 whilst they carry out their investigation.

893 6.81. Agencies should be fully involved and co-operate with any enquiries from the LADO, police and/or  
894 children's social care. The school or college will usually take the lead because agencies do not have direct  
895 access to children or other school or college staff, so they will not be able to collect the facts when an  
896 allegation is made, nor do they have all the relevant information required by the LADO as part of the  
897 referral process.

898 6.82. When using a supply agency, schools and colleges should inform the agency of its process for managing  
899 allegations but also take account of the agency's policies and investigatory process and their duty to refer  
900 to the DBS as personnel suppliers. This should include inviting the agency's human resource manager or  
901 equivalent to meetings and keeping them up to date with information about its policies. It is important  
902 we not blur the lines of employment, so in case there is any confusion, HR Business Partner should be  
903 consulted.  
904

#### 9 Allegations against the DSL (Principal or Registered Manager or DSL as a substantive role)

906 6.83. All allegations must be reported to:

907 - Education division: Regional Education Lead Naseem Akhtar unless within residential  
908 education the Registered Manager is the DSL in which case the matter will be referred to  
909 the Head/ Principal. For the DSL fulfilling the role as their substantive role, all allegations  
910 must be reported to the Principal/Head.

911 - Children's residential care division: Regional Manager Vikki Keenan, unless Regional  
912 Manager is the DSL in which case the matter will be referred to the Managing Director.

913 6.84. Depending on the division and who is the service DSL, people notified of allegation made (see above) will  
914 then refer the matter to Lancashire county council LADO and notify their line manager:

915 - Education division: Regional Education Lead Naseem Akhtar or

916 - Managing Director for Education Andrew Sutherland.

917 - Children's residential care division: Managing Director Graham Norris

918 **6.85.** The person who referred the matter to local authority LADO in line with agreed course of action will  
919 decide about who will lead the case including management investigation – should the allegation

920 threshold be met. The appropriate HR Business Partner should be notified, so they can advise and where  
921 required - support the investigation.

922 6.86. In residential education associated with children's homes/care homes the Responsible/Nominated  
923 Individual MUST also be notified.

924 6.87. Services using Behaviour Watch system – allegations made against the DSL or DSL Deputy who have full  
925 access to the system including Concern/Safeguarding function, should not be initially entered to the  
926 system, but recoded on the policy associated Concern form and Safeguarding Tracking Pack as they would  
927 have been prior to implementation of the Behaviour Watch. This is to ensure that no one, including those  
928 who are part of the service's Safeguarding Team are able to see the details of their own case which could  
929 have a detrimental impact on the investigation itself and the outcome of it. However, once the case has  
930 been concluded, a decision should then be made about whether or not the detail related to the case  
931 should be retrospectively entered in to Behaviour Watch or kept in the original format. Such a decision  
932 should be made by the Case Manager, Managing Director and a member of HR Team. Should a decision  
933 be made to keep it in the original format, a Concern/SG slip in the Behaviour Watch must still be  
934 retrospectively opened and a note added to reflect that there was an allegation made against the DSL/DSL  
935 Deputy but without specifying any further detail about the character of the allegation. Instead, a  
936 reference number of the case and location of the pack related to the case is provided. This action will  
937 ensure that the case has been captured in the system, which will then allow the service to generate a log  
938 with accurate numbers of concerns and safeguarding cases for the service.

#### **9 Allegations against the Regional Manager/other Regional staff**

940 6.88. Any allegations linked to the site, must be reported to the DSL of the site (In Education – the  
941 Head/Principal) who will make the initial referral to local Safeguarding Authority/LADO. Following this,  
942 the allegation should be passed to the identified senior person to follow through with local Safeguarding  
943 Authority/LADO and subsequently act in line with agreed course of action. This means that the DSL will  
944 retain the responsibility to report the initial concern, but will have no further part in the process regarding  
945 gathering any information or, should it be required, in the actual investigation in relation to a senior  
946 member.

947 6.89. Allegations not linked to specific site must be reported to Managing Director who will refer the matter to  
948 local Safeguarding Authority/LADO and act in line with agreed course of action.

949 6.90. The appropriate HR Business Partner should be notified, so they can advise and where required - support  
950 the investigation.

#### **9 Allegations against the Operations Directors or Managing Director**

952 6.91. Any allegations linked to the site, must be reported to the DSL of the site (In Education – the  
953 Head/Principal) who will make the initial referral to local Safeguarding Authority/LADO. Following this,  
954 the allegation should be passed to the identified senior person to follow through with local Safeguarding  
955 Authority/LADO and subsequently act in line with agreed course of action. This means that the DSL will  
956 retain the responsibility to report the initial concern, but will have no further part in the process regarding  
957 gathering any information or, should it be required, in the actual investigation in relation to a senior  
958 member.

959 6.92. Allegations not linked to specific site must be reported to Managing Director for Education who will refer  
960 the matter to local Safeguarding Authority/LADO and act in line with agreed course of action.

961 6.93. The Head of HR should be notified, so they can advise and where required - support the investigation.

#### **9 Allegations against any other Senior Leader**

963 6.94. Any allegations linked to the site, must be reported to the DSL of the site (In Education – the  
964 Head/Principal) who will make the initial referral to local Safeguarding Authority/LADO Following this,  
965 the allegation should be passed to the identified senior person to follow through with local Safeguarding  
966 Authority/LADO and subsequently act in line with agreed course of action. This means that the DSL will  
967 retain the responsibility to report the initial concern, but will have no further part in the process regarding

968 gathering any information or, should it be required, in the actual investigation in relation to a senior  
969 member.

970 6.95. Allegations not linked to specific site must be reported to the person's (whom allegation is made against)  
971 line manager who will refer the matter to local Safeguarding Authority/LADO and act in line with agreed  
972 course of action.

973 6.96. The Head of HR should be notified, so they can advise and where required - support the investigation.

#### **974 Allegations against the Executive Head of Children's Services**

975 6.97. Any allegations linked to the site, must be reported to the DSL of the site (In Education – the  
976 Head/Principal) who will make the initial referral to local Safeguarding Authority/LADO. Following this,  
977 the allegation should be passed to the identified senior person to follow through with local Safeguarding  
978 Authority/LADO and subsequently act in line with agreed course of action. This means that the DSL will  
979 retain the responsibility to report the initial concern, but will have no further part in the process regarding  
980 gathering any information or, should it be required, in the actual investigation in relation to a senior  
981 member.

982 6.98. Allegations not linked to specific site must be reported to reported to Executive Director Compliance –  
983 Amanda Sherlock who will refer the matter to local Safeguarding Authority/LADO and act in line with  
984 agreed course of action.

985 6.99. The Head of HR should be notified, so they can advise and where required - support the investigation.

#### **986 Allegations against the Chief Executive Officer**

987 6.100. Any allegations linked to the site, must be reported to the DSL of the site (In Education – the  
988 Head/Principal) who will make the initial referral to local Safeguarding Authority/LADO Following this,  
989 the allegation should be passed to the identified senior person to follow through with local Safeguarding  
990 Authority/LADO and subsequently act in line with agreed course of action. This means that the DSL will  
991 retain the responsibility to report the initial concern, but will have no further part in the process regarding  
992 gathering any information or, should it be required, in the actual investigation in relation to a senior  
993 member.

994 6.101. Allegations not linked to specific site must be reported to reported to Executive Director Compliance –  
995 Amanda Sherlock who will refer the matter to local Safeguarding Authority/LADO and act in line with  
996 agreed course of action.

997 6.102. The Head of HR should be notified, so they can advise and where required - support the investigation.

#### **998 Allegations - The initial response**

999 6.103. Where the school or college identifies a child/young person has been harmed, that there may be an  
1000 immediate risk of harm to a child/young person or if the situation is an emergency, they should contact

1001 the Safeguarding Authority and as appropriate the police immediately as per the processes. There are  
1002 two aspects to consider when an allegation is made:

1003 • **Looking after the welfare of the child** - the DSL is responsible for ensuring that the child is  
1004 not at risk and referring cases of suspected abuse to the local authority children's social  
1005 care as described in Part one of this guidance.

1006 • **Investigating and supporting the person subject to the allegation** - the case manager  
1007 should discuss with the LADO, the nature, content and context of the allegation, and agree  
1008 a course of action.

1009 6.104. When dealing with allegations, schools and colleges should:

- 1010 • apply common sense and judgement
- 1011 • deal with allegations quickly, fairly and consistently; and
- 1012 • provide effective protection for the child and support the person subject to the allegation.

1013 6.105. Schools and colleges should ensure they understand the local authority arrangements for managing  
1014 allegations, including the contact details and what information the LADO will require when an allegation  
1015 is made. Before contacting the LADO, schools and colleges should conduct basic enquiries in line with  
1016 local procedures to establish the facts to help them determine whether there is any foundation to the  
1017 allegation, being careful not to jeopardise any future police investigation. For example:

- 1018 • **was the individual in the school or college at the time of the allegations?**
- 1019 • **did the individual, or could they have, come into contact with the child?**
- 1020 • **are there any witnesses? and,**
- 1021 • **was there any CCTV footage?**

1022 6.106. These are just a sample of example questions. Services should be familiar with what initial information  
1023 the LADO will require. This information can be found in local policy and procedural guidance provided by  
1024 the LADO service. Any enquiries of this nature must be carefully recorded and dated so they can be shared  
1025 with the HR department to support any investigation.

1026 6.107. When to inform the individual of the allegation should be considered carefully on a case-by-case basis,  
1027 with guidance as required from the LADO, and if appropriate Safeguarding Authority and the police.

1028 6.108. If there is cause to suspect a child is suffering, or is likely to suffer significant harm, a strategy discussion  
1029 involving the police and/or children's social care will be convened in accordance with the statutory  
1030 guidance [Working Together to Safeguard Children](#).

1031 6.109. Where it is clear that an investigation by the police or Safeguarding Authority is unnecessary, or the  
1032 strategy discussion or initial assessment decides that is the case, the LADO should discuss the next steps  
1033 with the case manager (A 'case manager' will be the person leading any investigation. In most cases this  
1034 will be a senior leader from outside the school/home). The LADO should be informed who will lead the

1035 investigation to ensure there is no conflict of interest or any other concerns related to the choice of the  
1036 case manager.

#### 1037 **No Further Action**

1038 6.110. Where the initial discussion initial discussion leads to no further action, the case manager and the LADO  
1039 should:

- 1040 • record the decision and justification for it; and,
- 1041 • agree on what information should be put in writing to the individual concerned and by  
1042 whom.

#### 1043 **Further enquiries**

1044 6.111. Where further enquiries are required to enable a decision about how to proceed, the LADO and case  
1045 manager should discuss how and by whom the investigation will be undertaken. In straightforward cases,  
1046 the investigation should normally be undertaken by a senior member of the school's or college's staff.

1047 6.112. Where there is a lack of appropriate resource within the school or college, or the nature or complexity  
1048 of the allegation requires it, the allegation will require a senior member of the off-site team: Regional  
1049 Lead (Education or Care), a Director, HR Business Partner or an independent investigator if appropriate.

1050 6.113. The case manager should monitor the progress of cases to ensure that they are dealt with as quickly as  
1051 possible in a thorough and fair process. Reviews should be conducted at fortnightly or monthly intervals,  
1052 depending on the complexity of the case.

1053 6.114. Wherever possible, the first review should take place no later than four weeks after the initial  
1054 assessment. Dates for subsequent reviews, ideally at fortnightly intervals, should be set at the review  
1055 meeting if the investigation continues. The LADO will provide advice and guidance to schools and colleges  
1056 when considering allegations against adults working with children. The LADO's role is not to investigate  
1057 the allegation, but to ensure that an appropriate investigation is carried out, whether that is by the police,  
1058 children's social care, the school or college, or a combination of these.

#### 1059 **Suspension**

1060 6.115. Suspension should not be an automatic response when an allegation is reported. All options to avoid  
1061 suspension should be considered prior to taking that step. The case manager must consider carefully  
1062 whether the circumstances warrant suspension from contact with children at the school or college, or  
1063 until the allegation is resolved. It should be considered only in cases where there is cause to suspect a  
1064 child or other children at the school or college is/are at risk of harm, or the allegation could be considered  
1065 as gross or serious misconduct. Prior to any suspension, the case manager must consult with their HR  
1066 Business Partner and the LADO, as well as the police and Safeguarding Authority where they have been  
1067 involved. More information on suspension and associated process can be found in [KCSIE 2023 Part 4 -  
1068 Suspension](#).

#### 1069 **Supporting those involved**

1070 6.116. The welfare of a child/young person is paramount) and this will be the prime concern in terms of  
1071 investigating an allegation against a person in a position of trust. However, when an allegation or  
1072 safeguarding concern is being investigated it is likely to be a very stressful experience for the adult subject  
1073 of the investigation, and potentially for the family members. It is important that an employer offers  
1074 appropriate welfare support at such a time and recognises the sensitivity of the situation. Information is  
1075 confidential and should not ordinarily be shared with the other staff or with children or parents who are

1076 not directly involved in the investigation. More about employer's duty of care to their employees can be  
1077 found in the KCSIE2023 guidance.

1078 6.117. Staff whom allegation/s have been made against must always be supported and if suspended they will  
1079 receive a support person (nominated contact), any suspension is not an indication of guilt.

#### 1080 Allegation outcomes

1081 6.118. The definitions that should be used when schools and colleges determine the outcome of an allegation  
1082 are set out below:

- 1083 • Substantiated: there is sufficient evidence to prove the allegation;
- 1084 • Malicious: there is sufficient evidence to disprove the allegation and there has been a  
1085 deliberate act to deceive or cause harm to the person subject of the allegation;
- 1086 • False: there is sufficient evidence to disprove the allegation;
- 1087 • Unsubstantiated: there is insufficient evidence to either prove or disprove the allegation.  
1088 The term, therefore, does not imply guilt or innocence; or
- 1089 • Unfounded: to reflect cases where there is no evidence or proper basis which supports the  
1090 allegation being made.

1091 6.119. It should be noted that these definitions are available to support the decision-making process. However,  
1092 in certain cases, in the absence of any substantiating evidence, the Company may still progress through

1093 the formal disciplinary procedure if there are reasonable grounds to do so, or there is a reasonable belief  
1094 that an employee has committed an act of misconduct.

1095 6.120. Ultimately, the options open to the school or college depend on the nature and circumstances of the  
1096 allegations and the evidence and information available. This will range from taking no further action, to  
1097 dismissal or a decision not to use the person's services in future.

#### 1098 **Serious incident reporting**

1099 6.121. In addition to all regulatory reporting requirements, all serious incidents will be escalated and reported  
1100 as outlined in **035. SUI Part 1 – Risk Categories - Reference form and SUI Part 2 –Briefing form.**

#### 1101 **Death of someone in our care including rapid response to unexpected death**

1102 6.122. In case of **unexpected death** of a child/young person/adult in Cambian services all staff to follow the  
1103 rapid response, process described below:

- 1104 • Call the Ambulance and Police
- 1105 • Unless the 999 operator tells you to, do not touch the person; do not move anything
- 1106 around them, which may form part of forensic evidence. Police will decide about the
- 1107 forensic examinations and appropriate security of the scene.
- 1108 • DSL will contact Safeguarding Authority and follow the Serious Untoward Incidents (SUI)
- 1109 reporting procedure. The DSL will contact the Managing Director of the division they work
- 1110 in and verbally inform them of what happened before completing SUI Part 2.
- 1111 • DSL will contact Children's/Adults Social Care Team
- 1112 • Where there is a suicide/suspected suicide then Child & Adolescent Mental Health
- 1113 Services (CAMHS) should also be notified by the Safeguarding Authority.

1114 6.123. Once the above rapid steps have been taken, further steps described below must be followed.

1115 6.124. In the event of the death of an Individual in one of our homes/schools/colleges we must notify the  
1116 following within 24 hours:

- 1117 • Group Executive Director Managing Director, Responsible/Nominated Individual, Regional
- 1118 Lead following the **35.01. Caretech Children's services SUI process.**
- 1119 • Next of kin/parents/carers of the deceased.
- 1120 • Where the death of an individual occurs in an education location the assistance of the
- 1121 local police and social services department should be sought in informing the
- 1122 parents/guardians.
- 1123 • The appropriate regulatory body: e.g. Ofsted, CQC, CIW, Estyn
- 1124 • Ministry of Justice if applicable.
- 1125 • The placing authority/authorities.
- 1126 • The local authority responsible for Social Services and Education (where the death takes
- 1127 place in a registered school) within whose area the education location is situated.
- 1128 • The District Health Authority within whose area the education location is situated.
- 1129 • The Department for Education, (where the death takes place in a registered school).
- 1130 • The Health and Safety Executive.

#### 1131 **Abuse of position of trust**

1132 6.125. All staff are aware that inappropriate behaviour towards those in our care is unacceptable. In addition,  
1133 staff should understand that, under the Sexual Offences Act 2003, it is an offence for a person over the  
1134 age of 18 to have a sexual relationship with a person under the age of 18, where that person is in a  
1135 position of trust, even if the relationship is consensual. This means that any sexual activity between a

1136 member of the staff and a young person under 18 may be a criminal offence, even if that young person  
1137 is over the age of consent.

#### 1138 **Visitors**

1139 6.126. All authorised visitors will be required to sign in and out, and wear a visitor or identity badge at all times.  
1140 All unauthorised visitors will be challenged by staff and reported to the home  
1141 manager/headteacher/principal before entry is authorised.

#### 1142 **Volunteers**

1143 6.127. Volunteers undergo checks commensurate with their work in the home/school/college and contact with  
1144 children, young people and adults i.e. if they are in regulated activity or not.

#### 1145 **Contractors**

1146 6.128. We will check the identity of all contractors working on site and request the full range of DBS and other  
1147 required checks where they work in regulated activity or unsupervised in accordance with the latest  
1148 government guidance.

#### 1149 **Use of school or college premises for non-school/college activities**

1150 6.129. Where governance boards or proprietor hire or rent out school or college facilities/premises to  
1151 organisations or individuals (for example to community groups, sports associations, and service providers  
1152 to run community or extra-curricular activities) they should ensure that appropriate arrangements are in  
1153 place to keep children safe.

#### 1154 **Extended school and off-site arrangements**

1155 6.130. Where extended off-site activities are provided by and managed by us, our safeguarding policy and  
1156 procedures apply. If other organisations provide services or activities on our site we will check that they  
1157 have appropriate policies and procedures in place, including safer recruitment procedures and clarify  
1158 whose procedure is to be followed if there are concerns. There will be clear communication channels to  
1159 ensure the DSL is kept appropriately informed.

1160 6.131. When our Individuals are doing off-site activities, including day and residential visits and work-related  
1161 activities, we will risk assess and check that effective safeguarding arrangements are in place. The DSL  
1162 will be kept appropriately informed.

#### 1163 **Use of mobile phones**

1164 6.132. Staff must behave in accordance with the **GHR 11. Staff Code of Conduct** and Internet and social media  
1165 access including **Pro 01. Mobile Telephony Policy** at all times.

1166 6.133. All computer equipment and internet access within the home/school/college is subject to 'parental  
1167 controls' and internet safety rules in line with our **0. 27. E-safety policy** including internet and social  
1168 media access and **0.21. Anti-bullying policy**. Staff should not use any computer for personal reasons  
1169 during working hours. Staff need to help our Individuals to prepare for the dangers of the internet and

1170 social media whilst promoting the many learning and social opportunities available through the internet  
1171 and social media.

1172 6.134. If staff contribute to internet blogs or access social media networking sites e.g. Facebook, they MUST  
1173 neither mention the school/home or refer to their employment at the school/home. Staff are advised not  
1174 to communicate with parents, guardians, carers or Individuals via social networking sites

## 11 Photography and images

1176 6.135. This section should be read in conjunction to our **GIG 02. Data Protection policy**.

1177 6.136. The vast majority of people who take or view photographs or videos of individuals do so for entirely  
1178 innocent and acceptable reasons. Sadly, some people abuse children or vulnerable young people through  
1179 taking or using images, so we have some safeguards in place.

1180 6.137. To protect our children, young people or young adults we will:

- 1181 • seek their consent for photographs to be taken or published (for example, on our website  
1182 or in newspapers or publications)
- 1183 • seek parental consent of consent from the Individual
- 1184 • not use their full name with an image, only their initials
- 1185 • ensure that personal data is not shared
- 1186 • store images appropriately, securely and for no longer than necessary
- 1187 • only use school equipment, i.e. not personal devices
- 1188 • encourage our children, young people and adults to tell us if they are worried about any  
1189 photographs that are taken of them

## 11 Physical intervention and use of reasonable force

1191 6.138. All staff are encouraged to use de-escalation techniques and creative alternative strategies that are  
1192 specific to each Individual and in line with **0.45 Behaviour support policy** and **0.46 Physical Intervention**  
1193 **policy** and training. Restraint will only be used as a last resort and all incidents of this are reviewed,  
1194 recorded and monitored.

## 11 Staff taking medication or other substances

1196 6.139. Staff members must not be under the influence of alcohol or any other substance, which may affect their  
1197 ability to care for the individuals. If they are taking medication, they should seek medical advice and  
1198 inform the Home Manager/Headteacher/Principal who will review the medical advice and take a decision  
1199 as to whether they are fit for work.

1200 6.140. We only allow staff to work if medical advice confirms that their ability to look after individuals is unlikely  
1201 to be impaired. Should a member of staff need to bring their medication to the home/school/college, it  
1202 must be securely stored and out of reach of all children, young people and young adults. This section  
1203 should be read in conjunction with our **GHR 12 Drug and Alcohol Policy**.

## 12 Information for individuals and relatives/carers

1205 6.141. Individuals and carers will be informed that their concerns or complaints will be taken seriously, be dealt  
1206 with independently and that they will be kept involved in the process to the degree that they wish to be.  
1207 They will be reassured that they will receive help and support in taking action.

1208 6.142. They will also be advised that they can nominate an advocate or representative to speak and act on their  
1209 behalf if they wish. For individuals assessed as lacking capacity to make decisions about how they could  
1210 be protected, an Independent Mental Capacity Advocate (IMCA) must be considered and may be  
1211 appointed. They will be advised of rights to legal aid in where appropriate to victim support and  
1212 compensation.

## 12 Recruitment and vetting

1214 6.143. Our **GHR 03. Recruitment Policy** reflects Safer Recruitment guidelines and legislation in **Appendix 2.**  
1215 **Legislation and guidance** as well as carrying out further checks and precautions such as Good Conduct

1216 Certificates. HTs / Principals, DSLs and member of Recruitment team including those directly supporting  
1217 schools should read Part 3 of KCSIE2023 guidance dedicated to Safer Recruitment.

1218 6.144. Each education location maintains a **Single Central Record (SCR)**. This covers all staff including supply  
1219 teaching and teacher trainees, agency care staff as well as multisite managers and members of the  
1220 proprietor body. This is regularly audited by the school/college SLT and available for inspection.

1221 6.145. For agency workers we obtain written confirmation that all checks have been completed, in line with  
1222 safer recruitment from the employment business that is supplying the member of agency staff. All  
1223 Locations must ensure that an agreement exists between the Location and the agency to confirm that, in  
1224 the event of there being a disclosure on a DBS certificate, the Location will have sight of the certificate  
1225 before that person can begin work at the home/school/college.

1226 6.146. All locations must check the identity of any person deemed 'supply' or 'agency' staff separately to the  
1227 agency.

1228 6.147. Where other Cambian staff (e.g. care staff) work on the same site as a school they must be subject to the  
1229 same recruitment regulations and procedures as the education staff.

## 1230 Requirements to inform Disclosure and Barring Services (DBS)

1231 6.148. The employer has a legal duty to make a referral to the DBS for consideration of whether inclusion on the  
1232 barred lists is required.

1233 6.149. Services will promptly make a referral to the Disclosure and Barring Service (but no longer than one  
1234 month after leaving the Location) if a person in regulated activity has been dismissed or removed due to  
1235 safeguarding concerns, or would have been had they not resigned.

1236 6.150. In the case of a member of teaching staff at a school or sixth form college, the case manager must  
1237 consider whether to refer the matter to the TRA to consider prohibiting the individual from teaching.

1238 6.151. Referrals to the Disclosure and Barring Service will be made for any person (whether employed,  
1239 contracted (e.g. supply), a volunteer or student) whose services are no longer required because he/she  
1240 is considered unsuitable to work with children and young people.

1241 6.152. This is a legal duty and failure to refer when the criteria are met is a criminal offence. More detail is  
1242 provided at paragraph 179.

1243 6.153. All managers must read the group leavers policy – all referrals must be recorded with HR so they can  
1244 ensure any future references are correct. The references team log referrals so this can be completed. This  
1245 will apply to both: DBS and TRA.

## 1246 Record keeping

1247 6.154. Record keeping is an important element of safeguarding. Whenever a complaint or allegation of abuse is  
1248 made, staff must keep clear and accurate records using a Concern Form.

1249 6.155. All concerns, discussions and decisions made, and the reasons for those decisions, should be recorded in  
1250 writing. Information should be kept confidential and stored securely. It is good practice to keep concerns  
1251 and referrals in a separate child protection file for each child. Schools/colleges using Behaviour Watch  
1252 have Concern/Safeguarding function to record any concerns being raised. A report per child/young  
1253 person can also be generated.

1254 6.156. Records should be factual, accurate, concise, ethical and relevant.

1255 6.157. All recording of written information should be legible and discussions with other professionals and  
1256 agencies should be recorded chronologically.

1257 6.158. There will be a safeguarding section/folder for each Individual, which will hold any concerns/safeguarding  
1258 documentation for that individual. At the front of each folder, there is an Index for Individual's Concerns.  
1259 This is to enable the location to keep accurate records of any concerns raised regarding the individual

1260 and aid the monitoring/ reviewing of safeguarding incidents. The folders should be kept in a secure  
1261 location.

1262 6.159. Each location apart from those using Behaviour Watch system will also maintain **25.07. Central Log of**  
1263 **Concerns and Safeguarding** of all concerns raised at the location including the safeguarding information  
1264 where the concern has escalated. Where this is held as a paper version this is to be made into a bound  
1265 booklet and completed by the DSL. If kept electronically, access is to be restricted to the DSL and deputies  
1266 only. In either case, this should be kept in a secure location.

## 1267 Monitoring

1268 6.160. A quality assurance cycle operates to ensure that safeguarding incidents and notifications are recorded,  
1269 managed and responded to at the Location, at a regional level and at a whole divisional level, see **section**  
1270 **9. Accountability**. The cycle is informed by a weekly (Monday) submission of Key Performance Indicators  
1271 (KPIs) using **CambianKPI** and the identification and management of safeguarding risks. A report on the  
1272 position of every site in relation to their KPIs is produced every Wednesday.

## 1273 Training

1274 6.161. All staff will receive information regarding Child Protection and Safeguarding on induction. The induction  
1275 introduces the new staff member to the policy, procedure and practice at the location. They will also be  
1276 orientated as to where to find information regarding safeguarding including relevant posters around the  
1277 location. As part of their induction all staff are required to read this policy and confirm that, they  
1278 understand their role in safeguarding and protecting young people within the service they are going to  
1279 work.

1280 6.162. All staff MUST complete mandatory safeguarding face to face or online training via MYRUS which must  
1281 be completed as part of staff member induction and annually thereafter. This should include online  
1282 safety. This is to maintain staff awareness of their responsibilities in relation to children /young  
1283 people/young adult's safeguarding.

1284 6.163. Staff will not be allowed to work with individuals unless they have completed the above training. The  
1285 school/college/home must check that supply/agency staff have completed basic awareness training  
1286 before being allowed into contact with Individuals.

1287 6.164. Contractors and others on site who might have unsupervised access to individuals must also complete  
1288 basic awareness training before being allowed to start work.

1289 6.165. The DSL will ensure that all staff receive regular updates regarding safeguarding policy, procedure and  
1290 practice throughout the year. This can be undertaken in various forums: as a face-to-face or online  
1291 session, staff meetings or workshops. In addition to this, safeguarding updates including various  
1292 resources are provided to schools and colleges by the external Safeguarding Network.

1293 6.166. The DSL and DSL Deputies should undergo the same level of training providing them with the knowledge  
1294 and skills required to carry out the role. The DSL's/DSL Deputies' training should be provided by the LA  
1295 within the boundaries they operate and be refreshed at least every two years. Both should also undertake  
1296 Prevent awareness training.

## 1297 Confidentiality and information sharing

1298 6.167. Information sharing is vital in identifying and tackling all forms of abuse and neglect, and in promoting  
1299 child's/young person's welfare, including their educational outcomes. Schools and colleges have clear  
1300 powers to share, hold and use information for these purposes. Staff should be proactive in sharing  
1301 information as early as possible to help identify, assess and respond to risks or concerns about the safety  
1302 and welfare of children/ young people whether this is when problems are first emerging, or where a child  
1303 is already known to local authority children's social care.

1304 6.168. Where the police are involved, wherever possible the school or college should ask the police to obtain  
1305 consent from the individuals involved to share their statements and evidence for use in the employer's

1306 disciplinary process. This should be done as their investigation proceeds and will enable the police to  
1307 share relevant information without delaying the conclusion of their investigation or any court case.

1308 6.169. The Safeguarding authority should adopt a similar procedure when making enquiries to determine  
1309 whether the child or children named in the allegation need protection or services, so that any information  
1310 obtained in the course of those enquiries which is relevant to a disciplinary case can be passed to the  
1311 employer without delay.

1312 6.170. The case manager should take advice from the LADO, police and Safeguarding Authority to agree the  
1313 following:

- 1314 • who needs to know and exactly what information can be shared;
- 1315 • how to manage speculation, leaks and gossip
- 1316 • what, if any, information can be reasonably given to the wider community to reduce speculation;  
1317 and
- 1318 • how to manage press interest if, and when, it should arise.

1319 6.171. Exchange or disclose of personal information with other agencies will be completed in accordance with  
1320 **GIG 02. Data Protection and GIG 09. Confidentiality Code of Practice** and all relevant legislation including  
1321 the Data Protection Act 2018 and GDPR which places duty on organisations and individuals to process  
1322 personal information fairly and lawfully and to keep the information they hold safe and secure.

1323 6.172. Information relating to individual Safeguarding cases is confidential, although some information can be  
1324 shared with relevant staff. This should be done only on a 'need to know' basis.

1325 6.173. Governance Boards and proprietor should ensure relevant staff have due regard to the relevant data  
1326 protection principles, which allow them to share (and withhold) personal information, as provided for in  
1327 the Data Protection Act 2018 and the GDPR. This includes:

- 1328 • being confident of the processing conditions which allow them to store and share  
1329 information for safeguarding purposes, including information which is sensitive and  
1330 personal, and should be treated as 'special category personal data'.
- 1331 • understanding that 'safeguarding of children and individuals at risk' is a processing  
1332 condition that allows practitioners to share special category personal data. This includes  
1333 allowing practitioners to share information without consent where there is good reason  
1334 to do so, and that the sharing of information will enhance the safeguarding of a child in  
1335 a timely manner but it is not possible to gain consent, it cannot be reasonably expected  
1336 that a practitioner gains consent, or if to gain consent would place a child at risk.
- 1337 • for schools, not providing pupils' personal data where the serious harm test under the  
1338 legislation is met. For example, in a situation where a child is in a refuge or another form  
1339 of emergency accommodation, and the serious harms test is met, they must withhold

1340 providing the data in compliance with schools' obligations under the Data Protection Act  
1341 2018 and the GDPR. Where in doubt schools should seek independent legal advice.

1342 6.174. When sharing safeguarding information regarding an individual, staff will need to consider the following:

- 1343 • Information should only be shared on a 'need to know' basis when it is in the best interests  
1344 of the individual
- 1345 • Informed consent should be obtained but, if this is not possible and other adults are at risk  
1346 of abuse or neglect, it may be necessary to override the requirement
- 1347 • Distinguish fact from opinion
- 1348 • Ensure you are giving the right information about the right person
- 1349 • Ensure you are sharing information securely
- 1350 • Inform the person that the information has been shared if they were not already aware of  
1351 this and if it would not create or increase risk of harm to them/others.

1352 6.175. The Data Protection Act 2018 and GDPR do not prevent the sharing of information for the purposes of  
1353 keeping children safe. Fears about sharing information must not be allowed to stand in the way of the  
1354 need to safeguard and promote the welfare and protect the safety of children.

1355 6.176. Further details on information sharing can be found in:

- 1356 • Chapter one of [Working Together to Safeguard Children](#), which includes a myth-busting  
1357 guide to information sharing
- 1358 • Information Sharing: [Advice for Practitioners Providing Safeguarding Services to Children,  
1359 Young People, Parents and Carers](#). The seven golden rules for sharing information will  
1360 be especially useful
- 1361 • [The Information Commissioner's Office \(ICO\)](#), which includes ICO GDPR FAQs and  
1362 guidance from the department
- 1363 • [Data protection: toolkit for schools](#) - Guidance to support schools with data protection  
1364 activity, including compliance with the GDPR.

1365 6.177. The following wording is to be added to any covering letter where we are sharing documentation:  
1366 "The material contained in this letter and its enclosures are confidential to Cambian Group and the  
1367 persons named within the documentation. The documentation is delivered only in accordance with a  
1368 perceived legal obligation to make the documentation available and upon the strict understanding that  
1369 the recipient and all members of the recipient's staff will undertake to preserve confidentiality and not  
1370 in any way share the documentation or any details of the information therein contained with any other  
1371 party. Any person receiving this information who breaches these obligations of confidentiality will be

1372 held strictly responsible and will be expected to indemnify Cambian Group and any persons named within  
1373 the documentation against any losses that may arise as a result of misuse of this material”.

1374 6.178. If in doubt, the DSL or deputies must liaise with the company Caldicott Guardian. The contact details for  
1375 the Caldicott Guardian at our location is **Sarah Longley-Cook, Clinical Director**

1376 6.179. Failure to follow this policy and local procedure may result in disciplinary action.

### 1377 **Complaints and Monitoring**

1378 6.180. All complaints arising from the operation of this policy will be considered under the **0.22 complaints**  
1379 **procedure**, with reference to the our Designated Safeguarding Officer who is Michael Kennedy (DSL) and  
1380 Lancashire Safeguarding assurance partnership

## 1381 **7. Accountability**

1382 7.1. Michael Kennedy is the DSL at Cambian Brook View School and has lead responsibility for protecting and  
1383 safeguarding children, young people and young adults and liaising with the local authority and other local  
1384 agencies as appropriate. This includes young person protections, referrals, raising awareness, training,  
1385 allocating resources and supporting/directing staff within the Location. In all matters, relating to young  
1386 person protection and safeguarding Brook View School will follow the procedures outlined in this policy.

1387 7.2. The content and effective implementation of policy and procedures are subject to routine monitoring by  
1388 the Head of Service. Our Managing Director, Andrew Sutherland will undertake a full annual review of  
1389 the content and effective application of this policy and associated procedures. The date for the next  
1390 scheduled review is set out on page 2. The policy will be reviewed earlier in accordance with changes in  
1391 legislation, regulatory requirements or as a result of best practice guidance.

1392 7.3. Safeguarding at a strategic level is overseen by Amanda Sherlock - the Group Executive Director  
1393 Compliance, who will support and promote the development of initiatives to improve the prevention,  
1394 identification and response to abuse and neglect. As the Director accountable for safeguarding, she is  
1395 also responsible for reporting on safeguarding and providing executive leadership.

1396 7.4. Managers - are responsible for ensuring that staff are aware of this policy and offer support to those  
1397 reporting abuse. It is important to recognise that dealing with situations involving abuse and neglect can  
1398 be stressful and distressing for staff.

1399 7.5. Regulated professionals - Staff governed by professional regulation (for example, social workers, doctors,  
1400 allied health professionals and nurses) should understand how their professional standards and  
1401 requirements underpin their organisational roles to prevent, recognise and respond to abuse and neglect.

1402 7.6. All staff are responsible for identifying and responding to allegations of abuse. Staff at operational level  
1403 need to share a common view of what types of behaviour may be abuse or neglect and what should be  
1404 an initial response to suspicion or allegation of abuse or neglect.

1405 7.7. All staff **MUST** make sure that they have familiarised themselves with their local multi-agency  
1406 safeguarding policy as this policy is designed to complement rather than replace the multi-agency policies  
1407 which define the local practice that must be followed.

1408 7.8. In the event that the DSL or DSL Deputy are on leave or away from the Location and not contactable  
1409 alternative arrangements must be put in place, cascaded to staff and displayed so staff can access contact  
1410 names and details if required.

## 1411 **8. Further Safeguarding information – what everyone needs to know** 1412 **(Appendix 12)**

1413 8.1. All staff should have an awareness of safeguarding issues that can put children at risk of harm. Behaviours  
1414 linked to issues such as drug taking and or alcohol misuse, deliberately missing education and consensual  
1415 and non-consensual sharing of nudes and semi-nudes images and/or videos can be signs that children  
1416 are at risk. Other safeguarding issues such as child on child/young adult on young adult abuse staff should

1417 be aware of are explored in the **Appendix 12. Further Safeguarding information – what everyone needs**  
1418 **to know.**

## 1419 **9. Appendices**

#### Appendix 4: Types of abuse – children

- **Abuse:** a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm or by failing to act to prevent harm. Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others. Abuse can take place wholly online, or technology may be used to facilitate offline abuse. Children may be abused by an adult or adults or by another child or children
- **Physical abuse:** a form of abuse, which may involve hitting, slapping, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.
- **Emotional abuse:** the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.
- **Sexual abuse:** Sexual abuse may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in the production of sexual images, forcing children to look at sexual images or watch sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children. The sexual abuse of children by other children or young adults by other young adults or between individuals of different age is a specific safeguarding issue in education and all staff should be aware of it and of their school or colleges policy and procedures for dealing with it.
- **Child Sexual Exploitation and Child Criminal Exploitation** are forms of abuse that occur where an individual or group takes advantage of an imbalance in power to coerce, manipulate or deceive a child into taking part in sexual or criminal activity, in exchange for something the victim needs or wants, and/or for the financial advantage or increased status of the perpetrator or facilitator and/or through violence or the threat of violence. CSE and CCE can affect children, both male and female and can include children who have been moved (commonly referred to as trafficking) for the purpose of exploitation Child Sexual Exploitation does not always involve physical contact; it can also occur through the use of technology.
- **Neglect:** the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to: provide adequate food, clothing and shelter (including exclusion from home or abandonment); protect a child from physical and emotional harm or danger; ensure adequate supervision (including the use of inadequate care-givers); or ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.
- **Online abuse** - abuse that is facilitated using internet-connected technology. It may take place through social media, online games or other channels of digital communication. Children can also be re-victimised if evidence of their abuse is recorded or uploaded online. Technology can facilitate a number of illegal abusive behaviours including, but not limited to: harassment; stalking; threatening behaviour; child sexual abuse material; inciting a child to sexual activity; sexual exploitation; grooming; sexual communication with a child; and, causing a child to view images or watch videos of a sexual act. Using technology to facilitate any of the above activities is online abuse. Alongside those illegal activities that

are perpetrated online and constitute abuse, children may also be exposed to online harms, such as inappropriate behaviours or content online. For instance, children may be bullied online by other children/young people/young adults they know/others who they don't know or they might, either accidentally or intentionally, view content, which is intended for adults. Both online abuse and exposure to unsuitable content or behaviour can have a long-lasting impact on the wellbeing of children and young people.

## Appendix 5: Types of abuse - adults

- **Physical abuse** - assault, hitting, slapping, punching, kicking, hair-pulling, biting, pushing, rough handling, scalding and burning, physical punishments, inappropriate or unlawful use of restraint, making someone purposefully uncomfortable, involuntary isolation or confinement, misuse of medication, forcible feeding or withholding food, unauthorized restraint, restricting movement.
- **Honour based abuse** - encompasses Incidents/crimes which have been committed to protect/defend the honour of the family and/or the community including female genital mutilation (FGM), forced marriage and practices such as breast ironing. Abuse committed in the context of preserving "honour" often involves a wider network of family or community pressure and can include multiple perpetrators. It is important to be aware of this dynamic and additional risk factors when deciding what form of safeguarding action to take. All forms of HBA are abuse (regardless if the motivation) and should be handled and escalated as such. Professionals in all agencies, individuals and groups in relevant communities, need to be alert to the possibility of a child being at risk of HBA, or already having suffered HBA.
- **Domestic violence or abuse** – this type of abuse can be characterised by any of the indicators of abuse outlined in this briefing relating to: psychological, physical, sexual financial, emotional. Domestic violence and abuse include any incident or pattern of incidents of controlling, coercive or threatening behaviour, violence or abuse between those aged 16 or over who are or have been, intimate partners or family members regardless of gender or sexuality.
- **Sexual abuse** - Rape, attempted rape or sexual assault, inappropriate touch anywhere, non- consensual masturbation of either or both persons, non- consensual sexual penetration or attempted penetration of the vagina, anus or mouth, any sexual activity that the person lacks the capacity to consent to, inappropriate looking, sexual teasing or innuendo or sexual harassment, sexual photography or forced use of pornography or witnessing of sexual acts, Indecent exposure.
- **Psychological or emotional abuse** - Enforced social isolation and/or preventing someone accessing services, educational and social opportunities and seeing friends, removing mobility or communication aids or intentionally leaving someone unattended when they need assistance, preventing someone from meeting their religious and cultural needs, preventing the expression of choice and opinion, failure to respect privacy, preventing stimulation, meaningful occupation or activities, intimidation, coercion, harassment, use of threats, humiliation, bullying, swearing or verbal abuse, addressing a person in a patronising or infantilising way, threats of harm or abandonment, cyber bullying.
- **Financial or material abuse** - Theft of money or possessions, scamming, preventing a person from accessing their own money, benefits or assets, employees taking a loan from a person using the service, undue pressure, duress, threat or undue influence put on the person in connection with loans, wills, property, inheritance or financial transactions, arranging less care than is needed to save money to maximise inheritance, denying assistance to manage/monitor financial affairs, denying assistance to access benefits, misuse of personal allowance in a care home, misuse of benefits or direct payments in a family home, someone moving into a person's home and living rent free without agreement or under duress, false representation, using another person's bank account, cards or documents, exploitation of a person's money or assets, e.g. unauthorised use of a car, misuse of a power of attorney, deputy, appointee ship or other legal authority.
- **Modern slavery** – Human trafficking, forced labour, domestic servitude, sexual exploitation, such as escort work, prostitution and pornography, debt bondage – being forced to work to pay off debts that realistically they never will be able to.
- **Discriminatory abuse** - Unequal treatment based on age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion and belief, sex or sexual orientation (known as 'protected characteristics' under the Equality Act 2010). Verbal abuse, derogatory remarks or inappropriate use of language related to a protected characteristic, denying access to communication aids, not allowing access to an interpreter, signer or lip-reader, harassment or deliberate exclusion on the grounds of a protected characteristic, denying basic rights to healthcare, education, employment and

- 1694 criminal justice relating to a protected characteristic, substandard service provision relating to a  
1695 protected characteristic.
- 1696 • **Organisational or institutional abuse** - Discouraging visits or the involvement of relatives or friends, run-  
1697 down or overcrowded establishment, authoritarian management or rigid regime, lack of leadership and  
1698 supervision, insufficient staff or high turnover resulting in poor quality care, abusive and disrespectful  
1699 attitudes towards people using the service, inappropriate use of restraints, lack of respect for dignity and  
1700 privacy, failure to manage residents with abusive behaviour, not providing adequate food and drink, or  
1701 assistance with eating, not offering choice or promoting independence, misuse of medication, failure to  
1702 provide care with dentures, spectacles or hearing aids, not taking account of individuals' cultural, religious  
1703 or ethnic needs, failure to respond to abuse appropriately, interference with personal correspondence  
1704 or communication, failure to respond to complaints.
  - 1705 • **Neglect or acts of omission** - Failure to provide or allow access to food, shelter, clothing, heating,  
1706 stimulation and activity, personal or medical care, providing care in a way that the person dislikes, failure  
1707 to administer medication as prescribed, refusal of access to visitors, not taking account of individuals'  
1708 cultural, religious or ethnic needs, not taking account of educational, social and recreational needs,  
1709 ignoring or isolating the person, preventing the person from making their own decisions, preventing  
1710 access to glasses, hearing aids, dentures, etc., failure to ensure privacy and dignity.
  - 1711 • **Self-neglect** -The Care Act 2014 statutory guidance for adults includes self-neglect in the categories of  
1712 abuse or neglect relevant to safeguarding adults with care and support needs. In some circumstances,  
1713 where there is a serious risk to the health and wellbeing of an individual, it may be appropriate to raise  
1714 self-neglect as a safeguarding concern. However, interventions for self-neglect are usually more  
1715 appropriate under the parts of the Care Act dealing with assessment, planning, information and advice,  
1716 and prevention.
  - 1717
  - 1718
  - 1719
  - 1720
  - 1721

## Appendix 6: Signs that someone could be a victim

### Physical abuse

- No explanation for injuries or an inconsistent account of what happened
- Injuries that don't seem likely, given the person's lifestyle
- Bruising, cuts, welts, burns, marks on the body or loss of hair in clumps
- Frequent injuries
- Unexplained falls
- Subdued or changed behaviour in the presence of a particular person
- Signs of malnutrition (not having enough to eat)
- Failure to seek medical treatment or frequent changes of GP

### Sexual abuse

- Bruising, particularly to the thighs, buttocks and upper arms and marks on the neck
- Torn, stained or bloody underclothing
- Bleeding, pain or itching in the genital area
- Unusual difficulty in walking or sitting
- Foreign bodies in genital or rectal openings
- Infections, unexplained genital discharge, or sexually transmitted diseases
- Pregnancy in a child or young person who cannot consent to sexual intercourse
- Using unexpectedly explicit sexual language
- Major changes in sexual behaviour or attitude
- Incontinence not to do with a medical condition
- Self-harming
- Poor concentration, withdrawal, sleep disturbance
- Excessive fear of or withdrawal from relationships
- Fear of receiving help with personal care
- Not wanting to be alone with a particular person

### Psychological or emotional abuse

- An air of silence when a particular person is present
- Withdrawal or change in the psychological state of the person
- Insomnia (not sleeping)
- Low self-esteem
- Uncooperative and aggressive behaviour
- A change of appetite, weight loss or gain
- Signs of distress: tearfulness, anger
- Apparent false claims by someone involved with the person, to attract unnecessary treatment

### Neglect and acts of omission

- Poor environment – dirty or unhygienic
- Poor physical condition and/or personal hygiene
- Pressure sores or ulcers
- Malnutrition or unexplained weight loss
- Untreated injuries and medical problems
- Inconsistent or reluctant contact with medical and social care organizations
- A build-up of medication that hasn't been taken
- Uncharacteristic failure to engage in social interaction

1766 Unsuitable clothing or not enough clothes

1767

1768 **Domestic abuse**

- 1769 • becoming anxious or depressed
- 1770 • having difficulty sleeping
- 1771 • complaining of physical symptoms such as tummy aches
- 1772 • starting to wet their bed
- 1773 • behaving as though they are much younger than they are
- 1774 • having problems with school
- 1775 • becoming aggressive or they may internalise their distress and withdraw from other people
- 1776 • having a lowered sense of self-worth
- 1777 • older children may begin to play truant or start to use alcohol or drugs
- 1778 • they beginning to self-harm by taking overdoses or cutting themselves

1779

1780 **Child on Child/Young adult on young adult abuse/between individuals of different age**

- 1781 • absence from school or disengagement from school activities
- 1782 • physical injuries
- 1783 • mental or emotional health issues
- 1784 • becoming withdrawn – lack of self esteem
- 1785 • lack of sleep
- 1786 • alcohol or substance misuse
- 1787 • changes in behavior
- 1788 • inappropriate behavior doe age
- 1789 • abusive towards others

## Appendix 7: Signs that someone could be an abuser

- Using restraint when it's not needed
- Having favourites
- Giving treats, presents or money to certain people without permission from a manager
- Finding ways to spend time with a particular child, young person or young adult, perhaps by working longer hours or giving up free time
- Finding ways to spend time alone with a particular child, young person or young adult , for example in a car or somewhere else
- Inviting a particular child, young person or young adult at risk to their own house without permission from a manager
- Being over-friendly with a child, young person or young adult's parents or guardians without permission from a manager
- Taking photos of the child, young person or young adult that aren't for work purposes
- Trying to make private contact with a particular child, young person or young adult , including by text, email, mobile phone, online or in letter
- Finding ways to have physical contact, like play-fighting or tickling
- Keeping collections of toys or other items that might attract children or people at risk
- Controlling behaviour
- Narcissistic characteristics
- Bullying
- Being forced into a sexual act
- Humiliation
- Constant yelling and shouting
- The threat or use of violence
- Destroying personal items
- Limiting contact with family, friends and work colleagues
- Checking up on your whereabouts
- Accusing the child/young person (the victim), of committing the abuse when it is the other way around.

1864 **Appendix 8: DSL/DSL Deputy, Head/Principal (if the concern/allegation is related to staff) – actions, reporting**  
1865 **and recording procedure**

- 1866 • Staff notifies the DSL /Head/Principal of their concern as soon as it is possible but no later than within 1  
1867 hour from the moment of disclosure/report from the child/young person/other person completes and  
1868 passes the Concern form as soon as it is possible, but no later than 24hrs from the moment of  
1869 disclosure/report. If the DSL is unavailable, passes it on to the DSL Deputy. In Education, if the concern is  
1870 related to the staff and the Head/Principal is not available, staff must report their concern to the DSL  
1871 instead, so there is no delay in reporting of the concern. The DSL will then liaise with the Head/Principal  
1872 to agree on the next step. Services using Behaviour Watch: staff must report their concern verbally before  
1873 completing the Concern/Safeguarding slip in the system.
- 1874 • DSL/DSL Deputy or Head/Principal (depending on who will lead on the case) enters the concern details  
1875 on the **25.07. Central Log of Concerns and Safeguarding** and inserts the concern reference number on  
1876 the Concern Form. Services using Behaviour Watch – DSL/DSL Deputy or Head/Principal reviews the  
1877 concern and decides on the next step which may lead to Safeguarding Tracking Pack being opened  
1878 (Safeguarding Tracking Pack is built as part of the concern slip should the case proceed to safeguarding).
- 1879 • If it is deemed to be a child protection/safeguarding (children and adults) matter the DSL/DSL Deputy or  
1880 Head/Principal will then also additionally allocate the next sequential Safeguarding Reference number on  
1881 the **25.07. Central Log of Concerns and Safeguarding**, write this number on the Concern form and  
1882 immediately (or at least within one hour of receiving the concern form, make a referral to the local  
1883 Safeguarding Authority and the Local Authority Designated Officer (LADO) where required, to discuss the  
1884 allegation and agree a course of action. DSL/DSL Deputy or Head/Principal using the Behaviour Watch  
1885 system will progress to the next stage – Safeguarding part of the concern/SG slip which is only accessible  
1886 to the Safeguarding Team.
- 1887 • If the local Safeguarding Authority/LADO confirms that they do not consider the matter to be a  
1888 safeguarding concern, then the date and time of the contact is recorded on the Concern Form and on the  
1889 Central Log of Concerns and Safeguarding and it is marked as a Safeguarding Level 1 – Initial Informal  
1890 Investigation. The Head of Service/Head/Principal/DSL/DLS Deputy MUST ensure that a member of their  
1891 Senior Management Team is assigned to look into the concern. The review must be recorded and  
1892 outcomes shared with the people involved. Feedback from the review session MUST be provided to local  
1893 Safeguarding Authority/LADO. Services using the Behaviour Watch system will follow the same set of  
1894 steps apart from populating the Central Log of Concerns and Safeguarding as the log can be generated  
1895 by the system using chosen filtering criteria.
- 1896 • It is important to allocate a Safeguarding reference on the log even if no further action needs to be taken.  
1897 This diligent approach will ensure a clear historic record of contact with local Safeguarding  
1898 Authority/LADO for any matter which is deemed by the DSL to be of concern and has been raised with  
1899 the local Safeguarding Authority/LADO whichever appropriate.
- 1900 • If the local Safeguarding Authority/LADO confirms that the matter is a safeguarding concern and that it  
1901 requires investigation either at internal or external level then a **25.05 Safeguarding Tracking pack** must  
1902 be opened with the next sequential Safeguarding Reference included on the form and details as such  
1903 entered on the central log.
- 1904 • Services using the Behaviour Watch system – where a concern progresses to Safeguarding Tracking Pack  
1905 being opened, a one record will be created including the original concern, with the whole document  
1906 having the same slip number.
- 1907 • Services which don't use Behaviour Watch or where the concern/allegation is about the Head/Principal  
1908 or the DSL who have access to BW: Copy of **25.05 Safeguarding Tracking Pack** (initially with completed  
1909 sec. 1-5) should be submitted to the **Responsible/Nominated Individual and** in day schools - **Regional**  
1910 **Education Manager** as a follow up to the initial reporting telephone contact. STP must be sent again to  
1911 **Responsible/Nominated Individual and Regional Education Manager** on completion, providing detailed  
1912 overview of the actions taken and the final outcome. Services using the Behaviour Watch will be able to  
1913 trigger live notification to the Regional Manager (Education/Care), Responsible/Nominated Individual  
1914 and Registered Manager – where appropriate. The **Responsible/Nominated Individual and Regional**

- 1915 **Education Manager** in day schools will update relevant Directors. This original form will be saved in the  
1916 Safeguarding file/Behaviour Watch – Concern/SG module.
- 1917 • In the case of serious harm, and/or the child/young person or young adult is in immediate danger the  
1918 local Police should be informed immediately as well and they can take immediate protective action as  
1919 necessary.
- 1920 • If the matter is a more general concern then ensure that the ‘Action Taken’ log on the concern form is  
1921 completed and the form is filed within the Safeguarding file. Either way the form must be signed by the  
1922 DSL/DSL Deputy or Head/Principal. Services using the Behaviour Watch system can use  
1923 Concern/Safeguarding ‘Other’ slip to record concerns which are not related to children/young people,  
1924 staff or children/young people and staff.
- 1925 • The relevant concern form should be referenced in the Individual’s **25.01 Index form for Individual**  
1926 **concern/safeguarding file** and the site’s **25.07 Central Log of Concerns and Safeguarding**. Services using  
1927 Behaviour Watch will be able to filter information per chosen criteria and also generate reports per each  
1928 child/young person in the school, college, children’s or care homes.
- 1929 • All information relating to the Safeguarding concern is recorded on the **25.05 Safeguarding Tracking Pack**  
1930 **/Behaviour Watch Concern/SG module**.
- 1931 • The Safeguarding Concern will remain open until local Safeguarding Authority/LADO have confirmed in  
1932 writing that the concern is closed and Responsible/Nominated Individual and Regional Education  
1933 Manager in day schools has signed the Safeguarding tracking pack to confirm that the investigation is  
1934 completed in full and can be closed. **The Safeguarding will remain open until both elements of sign-off**  
1935 **have been completed.** Once the Safeguarding tracking Pack is signed, it **MUST** be filed in the Safeguarding  
1936 **file.**
- 1937 • If it is believed that the Individual is in imminent danger urgent advice should be sought from the Local  
1938 Authority and/or the police. The individual can be kept in their care home or on the school/college site  
1939 fully supported (e.g. if they are a day student) if advised to do so.
- 1940 • The parent/carers should be informed and a decision should be made with the Local Authority and the  
1941 Police about what action is to be taken and whom by.
- 1942 • If the DSL/DSL Deputy or Head/Principal is unsure about what the Individual has said or what has been  
1943 said by others they can phone the Local Authority to discuss concerns. To do so would not constitute an  
1944 abuse referral but may help to clarify the situation but they must record all details of any conversation  
1945 and advice received on a concern form. He/she can then move to a formal referral or actively monitor  
1946 the situation.
- 1947 • The local Safeguarding Authority/LADO will oversee any subsequent investigation of any suspicion or  
1948 allegation of abuse directed against anyone working within the establishment. The establishment **MUST**  
1949 not internally investigate any allegations of abuse without first taking instruction from the local  
1950 Safeguarding Authority/LADO.
- 1951 • Once agreed by local Safeguarding Authority/LADO that the provider can commence the internal  
1952 management investigation (level 2), the investigation process will commence.
- 1953 • Once agreed by local Safeguarding Authority/LADO that the investigation will be completed by the  
1954 external agency (level 3), Head of Service/Head/Principal /DSL/DSL Deputy will take appropriate steps to  
1955 assist the external agency to ensure the investigation is completed without a delay.
- 1956 • Registered Manager **MUST** notify relevant regulator by submitting specific statutory notification within  
1957 the time frame specified by their regulator. This is regardless of who leads on the investigation and  
1958 whether or not the investigation has been concluded.
- 1959 • If as the result of an investigation there has been a substantiated allegation against a member of staff,  
1960 we will work with the local Safeguarding Authority/LADO to determine whether there are any  
1961 improvements to be made to our safeguarding policy, procedures and practice to prevent similar events

1962 in the future. Also, we will work with our internal Human Resources department and may commence  
1963 proceedings under **GHR 27. Disciplinary policy and procedure.**

- 1964 • We will co-operate entirely with any investigation carried out by the Local Authority and/or the Police.  
1965 Records are kept of all conversations as part of the investigation process and made available as  
1966 required.

## Appendix 10. Safeguarding in children's Services - illustration

2084

## Appendix 11. Low – level concerns (Education)

9.1. As part of their whole school or college approach to safeguarding, schools and colleges should ensure that they promote an open and transparent culture in which all concerns about all adults working in or on behalf of the school or college (including supply teachers, volunteers and contractors) are dealt with promptly and appropriately.

9.2. The term ‘low-level’ concern does not mean that it is insignificant. A low-level concern is any concern – no matter how small, and even if no more than causing a sense of unease or a ‘nagging doubt’ - that an adult working in or on behalf of the school or college may have acted in a way that:

- is inconsistent with the staff code of conduct, including inappropriate conduct outside of work and

- does not meet the harm threshold or is otherwise not serious enough to consider a referral to the LADO.

Examples of such behaviour could include, but are not limited to:

- being over friendly with children
- having favourites
- taking photographs of children on their mobile phone, contrary to school policy
- engaging with a child on a one-to-one basis in a secluded area or behind a closed door, or
- humiliating pupils.

## Sharing Low - level concerns

9.3. Schools must have their site procedure for sharing low-level concerns which is clear, easy to understand and implement.

9.4. Whether all low-level concerns are shared initially with the DSL (or other nominated person for example DSL deputy or with the head teacher/principal is a matter for the school or college to decide. If the former, then the DSL/DSL Deputy should inform the head teacher/principal of all the low-level concerns and in a timely fashion according to the nature of each particular low-level concern. **The head teacher/principal should be the ultimate decision maker in respect of all low-level concerns**, although it is recognised that depending on the nature of some low-level concerns and/or the role of the DSL in some schools/colleges, the head teacher/principal may wish to consult with the DSL and take a more collaborative decision-making approach. Some schools’ or college’s Head teacher/Principal is also the DSL in which case all low – level concerns should be reported to them or other nominated person for example DSL Deputy).

9.5. Low-level concerns which are shared about supply staff and contractors should be notified to their employers, so that any potential patterns of inappropriate behaviour can be identified.

9.6. If schools and colleges are in any doubt as to whether the information which has been shared about a member of staff as a low-level concern in fact meets the harm threshold, they should consult with their LADO.

9.7. Schools and colleges should ensure they create an environment where staff are encouraged and feel confident to self-refer, where, for example, they have found themselves in a situation which could be misinterpreted, might appear compromising to others, and/or on reflection they believe they have behaved in such a way that they consider falls below the expected professional standards.

9.8. Creating a culture in which all concerns about adults (including allegations that do not meet the harms threshold are shared responsibly and with the right person, recorded and dealt with appropriately, is critical. If implemented correctly, this should encourage an open and transparent culture; enable schools and colleges to identify concerning, problematic or inappropriate behaviour early; minimise the risk of

2128 abuse; and ensure that adults working in or on behalf of the school or college are clear about professional  
2129 boundaries and act within these boundaries, and in accordance with the ethos and values of the  
2130 institution.

#### 2131 **Responding to low - level concerns**

2132 9.9. If the concern has been raised via a third party, the head teacher/principal (or a nominated deputy)  
2133 should collect as much evidence as possible by speaking:

- 2134 • directly to the person who raised the concern, unless it has been raised anonymously, and
- 2135 • to the individual involved and any witnesses.

2136 9.10. The information collected will help them to categorise the type of behaviour and determine what further  
2137 action may need to be taken. This information needs to be recorded in writing along with the rationale  
2138 for their decisions and action taken.

#### 2139 **Recording low - level concerns**

2140 9.11. All low-level concerns should be recorded in writing. The Concern/Safeguarding slip in Behaviour Watch  
2141 should be completed, as this is the place to record all concerns being raised. The record should include  
2142 details of the concern, the context in which the concern arose, and action taken. The name of the  
2143 individual sharing their concerns should also be noted, if the individual wishes to remain anonymous then  
2144 that should be respected as far as reasonably possible.

2145 9.12. Records should be reviewed so that potential patterns of concerning, inappropriate, problematic or  
2146 concerning behaviour can be identified. Where a pattern of such behaviour is identified, the school or  
2147 college should decide on a course of action, either through its disciplinary procedures or where a pattern  
2148 of behaviour moves from a low-level concern to meeting the harm threshold, in which case it should be  
2149 referred to the LADO.

2150 9.13. Consideration should also be given to whether there are wider cultural issues within the school or college  
2151 that enabled the behaviour to occur and where appropriate policies could be revised, or extra training  
2152 delivered to minimise the risk of it happening again.

2153 9.14. It is for schools and colleges to decide how long they retain such information, but it is recommended that  
2154 it is retained at least until the individual leaves their employment.  
2155

## Appendix 12. Further Safeguarding information – what everyone needs to know

### Contextual safeguarding

9.15. Contextual Safeguarding is ‘an approach to understanding, and responding to, young people’s experiences of significant harm beyond their families. It recognises that the different relationships that young people form in their neighbourhoods, schools, colleges, children’s/care homes and online can feature violence and abuse. Parents and carers have little influence over these contexts, and young people’s experiences of extra-familial abuse can undermine parent-child relationships. Therefore, children’s social care practitioners need to engage with individuals and sectors who do have influence over/within extra-familial contexts, and recognise that assessment of, and intervention with, these spaces are a critical part of safeguarding practices. Contextual Safeguarding, therefore, expands the objectives of child protection systems in recognition that young people are vulnerable to abuse in a range of social contexts.

9.16. All staff should be aware that safeguarding incidents and/or behaviours can be associated with factors outside the school or college and/or can occur between children outside of these environments. All staff, but especially the DSL (and deputies) should consider whether children are at risk of abuse or exploitation in situations outside their families. Extra-familial harms take a variety of different forms and children can be vulnerable to multiple harms including (but not limited to) sexual exploitation (including harassment and exploitation), domestic abuse in their own intimate relationships (teenage relationship abuse), criminal exploitation, and serious youth violence, county lines and radicalisation. Further advice is provided in the [Home Office’s Preventing youth violence and gang involvement](#) and its [Criminal exploitation of children and vulnerable adults: county lines guidance](#).

9.17. All staff should be aware that technology is a significant component in many safeguarding and wellbeing issues. Children are at risk of abuse and other risks online as well as face-to-face. In many cases abuse and other risks will take place concurrently both online and offline. Children can also abuse other children online, this can take the form of abusive, harassing, and misogynistic/misandrist messages, the non-consensual sharing of indecent images, especially around chat groups, and the sharing of abusive images and pornography, to those who do not want to receive such content.

9.18. Children’s social care assessments should consider where children are being harmed in contexts outside the home (family home, children’s/care home), so it is important that schools, colleges and children’s/care homes provide as much information as possible as part of the referral process. This will allow any assessment to consider all the available evidence and enable a contextual approach to address such harm. More information about Contextual safeguarding can be found on [NSPCC website](#).

9.19. We will consider the various factors that have an interplay with the life of any child/young person about whom we have concerns within the setting and the level of influence that these factors have on their ability to be protected and remain free from harm particularly when it comes to child exploitation or criminal activity.

9.20. Whilst this term applies to this specific definition, the notion of considering a child/young person within a specific context is also important. What life is like for e.g. day/part time/38 weeks student outside the school, college, children’s/care home gates, within their family home when they visit (children attending residential education), within the family (day students) and within the community (extracurricular off site activities, events, groups and clubs) are key considerations when the DSL is looking at any concerns.

### Bullying

9.21. Our approach to bullying is set out in a separate **0.21. Anti – bullying policy and procedure** acknowledges that to allow or condone bullying may lead to consideration under child protection procedures. Bullying

2200 is a safeguarding matter that if left unresolved can become a child protection matter. Our settings take  
2201 seriously any bullying concerns and both investigate and act to protect Individuals where appropriate.

2202 **Child on child/young adults on young adult/ between children of different age's abuse**

2203 9.22. Boarding schools, residential special schools, residential colleges and children's homes and care homes  
2204 for young adults attending education (FE colleges) have additional factors to consider with regard to  
2205 safeguarding. Schools and colleges that provide such residential accommodation and/or are registered  
2206 as children's homes should be alert to signs of abuse in such settings (for example, inappropriate pupil or  
2207 student relationships and the potential for the abuse between individuals of the same/similar age or  
2208 different age, particularly in schools and colleges where there are significantly more girls than boys or  
2209 vice versa) and work closely with the host local authority and, where relevant, any local authorities that  
2210 have placed their children there. All residential setting within the Organisation children's service will  
2211 continuously maintain their communication with the internal and external Education providers to ensure  
2212 the additional factors are being considered and any concerns shared in a timely manner and with the  
2213 right people.

2214 9.23. All staff should be aware that children can abuse other children/young adults can abuse other young  
2215 adults and that the abuse can also take place between individuals of different age and that it can happen  
2216 both inside and outside of school/college/children's/care home and online. It is important that all staff  
2217 recognise the indicators and signs of the abuse and know how to identify it and respond to reports. In  
2218 some schools, colleges, children's / care homes site – based or regional members of therapy teams might  
2219 need to be involved and support the SLT to identify the most effective ways of communication with the  
2220 child/young adult who may have potentially been the victim of child on child/young adult on young adult/  
2221 between individuals of different age abuse and who instigated it.

2222 9.24. It must be recognised that children and young people would require varied approaches and  
2223 communication mechanisms to be present and available so they can report abuse. Children must be  
2224 regularly reassured that their concern/reports will be treated seriously every time they report it.

2225 9.25. Children needs to be told what will happen from the moment their concern is shared, so the lack of  
2226 knowledge of what may happen next will not prevent them from sharing their concern/s in the future.  
2227 Children need to know that that their concerns will be investigated and dealt with. Child's/young person's  
2228 preference in terms of how feedback should be provided must be taken into consideration so this can be  
2229 planed for in advance.

2230 9.26. The communication with each individual throughout the process of child on child/young adult on young  
2231 adult or between individuals of different age investigation must be regular, proportionate and take place  
2232 using suitable communication.

2233 9.27. In [Ofsted review of sexual abuse in schools and colleges](#), young people stated that some of them didn't  
2234 receive timely and appropriate support from the school/college, hence the communication and support  
2235 must become one of the critical points of a significant priority to those responding to and those managing

2236	child on child/young adult on young adult/between individuals of different age abuse cases including
2237	those of a sexual nature. Other consideration for all providers were:
2238	<ul style="list-style-type: none"> <li>to assume it is happening here and plan accordingly</li> </ul>
2239	<ul style="list-style-type: none"> <li>work on and strengthen the whole school, college, children's/care home approach to developing</li> </ul>
2240	<ul style="list-style-type: none"> <li>a safeguarding culture</li> </ul>
2241	<ul style="list-style-type: none"> <li>to ensure staff model respectful behaviour</li> </ul>
2242	<ul style="list-style-type: none"> <li>to ensure children and young people are clear about acceptable and unacceptable behaviour</li> </ul>
2243	<ul style="list-style-type: none"> <li>to ensure children/young people are confident to ask for help</li> </ul>
2244	<ul style="list-style-type: none"> <li>to ensure carefully planned and implemented RSHE curriculum</li> </ul>
2245	<ul style="list-style-type: none"> <li>to ensure the behavioural approach with sanctions &amp; interventions for poor behaviour</li> </ul>
2246	<ul style="list-style-type: none"> <li>to have mechanisms to support students who need it in the way they need it</li> </ul>
2247	<ul style="list-style-type: none"> <li>to ensure staff have access to suitable training &amp; that there is clear expectation for staff and</li> </ul>
2248	<ul style="list-style-type: none"> <li>Managers</li> </ul>
2249	<ul style="list-style-type: none"> <li>to ensure pupil's voice is heard and responded to</li> </ul>
2250	<ul style="list-style-type: none"> <li>to ensure DSLs have some protected time to engage with local safeguarding partners and LADOs,</li> </ul>
2251	<ul style="list-style-type: none"> <li>so those relationships can be strengthened.</li> </ul>
2252	<ul style="list-style-type: none"> <li>to ensure staff follow the guidance in Keeping Children Safe in Education</li> </ul>
2253	
2254	9.28. All staff should understand that even if there are no reports in their schools or colleges it does not mean
2255	it is not happening, it may be the case that it is just not being reported. As such, it is important if staff
2256	have any concerns regarding child on child/young adult on young adult abuse or abuse between
2257	individuals of different age, they should speak to their DSL (or deputy).
2258	9.29. The Organisation has zero - tolerance approach to any type of abuse including sexual violence and
2259	harassment. Staff must NOT take the view that it doesn't not happen in their setting.
2260	9.30. The Organisation recognises that it is more likely that girls will be victims and boys' perpetrators, but that
2261	all types of abuse between children of the same, similar of different ages is unacceptable and will be

2262 taken seriously. It is essential that all victims are reassured that they are being taken seriously and that  
2263 they will be supported and kept safe.

2264 9.31. Abuse between individuals of the same, similar or different age is most likely to include, but may not be  
2265 limited to:

- 2266
- 2267 • bullying (including cyberbullying, prejudice-based and discriminatory bullying);
  - 2268 • abuse in intimate personal relationships between peers
  - 2269 • physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm  
2270 (this may include an online element which facilitates, threatens and/or encourages physical abuse)
  - 2271 • sexual violence, such as rape, assault by penetration and sexual assault; (this may include an online  
2272 element which facilitates, threatens and/or encourages sexual violence). For further information about  
2273 sexual violence see [Part 5 of KCSIE 2023 and Annex B](#)
  - 2274 • sexual harassment, such as sexual comments, remarks, jokes and online sexual harassment, which may  
2275 be standalone or part of a broader pattern of abuse; For further information about sexual harassment  
2276 see [Part 5 of KCSIE 2023 and Annex B](#)
  - 2277 • causing someone to engage in sexual activity without consent, such as forcing someone to strip, touch  
2278 themselves sexually, or to engage in sexual activity with a third party
  - 2279 • consensual and non-consensual sharing of nudes and semi nudes' images and or videos (also known as  
2280 sexting or youth produced sexual imagery). For more information about this read UKCIS guidance:  
2281 [Sharing nudes and semi-nudes advice for education settings](#).
  - 2282 • Upskirting which typically involves taking a picture under a person's clothing without their permission,  
2283 with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim  
2284 humiliation, distress or alarm; and

2285 9.32. initiation/hazing type violence and rituals (this could include activities involving harassment, abuse or  
2286 humiliation used as a way of initiating a person into a group and may also include an online element)

2287 9.33. Staff must be clear as to the school/college's/home's procedures with regards to child on child/young  
2288 adult on young adult abuse, abuse between individuals of different age and the important role they have  
2289 to play in preventing it and responding where they believe a child may be at risk from it.

2290 9.34. All Individuals will be provided with safeguarding information in a format, which is appropriate for their  
2291 understanding and communication. This may take the form of posters or a leaflet/booklet.

2292 9.35. All contact behaviours that have a sexual nature to them such as pushing or rubbing against, grabbing  
2293 bottoms, breasts or genitals, pinching or flicking bras, lifting skirts or pulling down trousers will be  
2294 challenged by staff and appropriate levels of action, which may include disciplinary action will be taken.  
2295 This is to ensure children/young people and staff are clear that these behaviours will not be tolerated or  
2296 acceptable. However, it is critical to state that some children with cognitive impairment may not be able  
2297 to fully understand how children on the receiving end of such behaviour may feel, therefore staff will  
2298 work with each of the children affected by the situation in order to enhance their understanding of the  
2299 seriousness of their behaviour, so any behaviour of such nature in the future can be prevented.

## 2300 **Serious violence**

2301 9.36. All staff should be aware of the indicators, which may signal children are at risk from, or are involved with  
2302 serious violent crime. These may include increased absence from school, a change in friendships or  
2303 relationships with older individuals or groups, a significant decline in performance, signs of self-harm or  
2304 a significant change in wellbeing, or signs of assault or unexplained injuries. Unexplained gifts or new  
2305 possessions could also indicate that children have been approached by, or are involved with; individuals  
2306 associated with criminal networks or gangs and may be at risk of criminal exploitation.

2307 9.37. All staff should be aware of the range of risk factors which increase the likelihood of involvement in  
2308 serious violence, such as being male, having been frequently absent or permanently excluded from  
2309 school, having experienced child maltreatment and having been involved in offending, such as theft or

- 2310 robbery. Advice for schools and colleges is provided in the Home Office’s Preventing youth violence and  
2311 gang involvement and its [Preventing youth violence and gang involvement](#).
- 2312 9.38. Sexual violence and sexual harassment can occur between two or more children of any age and sex, from  
2313 primary through to secondary stage and into college. It can occur also through a group of children sexually  
2314 assaulting or sexually harassing a single child or group of children. Sexual violence and sexual harassment  
2315 exist on a continuum and may overlap; they can occur online and face-to-face (both physically and  
2316 verbally) and are never acceptable. Schools and colleges should be aware of the importance of:
- 2317 • making clear that there is a zero-tolerance approach to sexual violence and sexual harassment  
2318 that it is never acceptable, and it will not be tolerated. It should never be passed off as “banter”,  
2319 “just having a laugh”, “a part of growing up” or “boys being boys”. Failure to do so can lead to a  
2320 culture of unacceptable behaviour, an unsafe environment and in worst-case scenarios a culture  
2321 that normalises abuse, leading to children accepting it as normal and not coming forward to  
2322 report it.
  - 2323 • recognising, acknowledging, and understanding the scale of harassment and abuse and that  
2324 even if there are no reports it does not mean it is not happening, it may be the case that it is just  
2325 not being reported.
  - 2326 • challenging physical behaviour (potentially criminal in nature) such as grabbing bottoms, breasts  
2327 and genitalia, pulling down trousers, flicking bras and lifting up skirts. Dismissing or tolerating  
2328 such behaviours risks normalising them.
- 2329 9.39. Sexual violence and sexual harassment between children can occur between two children of **any age and**  
2330 **sex from primary to secondary stage and into colleges. It can also occur online.** It can also occur through  
2331 a group of children sexually assaulting or sexually harassing a single child or group of children.
- 2332 9.40. Children who are victims of sexual violence and sexual harassment will likely find the experience stressful  
2333 and distressing. This will, in all likelihood, adversely affect their educational attainment and will be  
2334 exacerbated if the alleged perpetrator(s) attends the same school or college or lives in the same  
2335 children’s/care home. Sexual violence and sexual harassment exist on a continuum and may overlap; they  
2336 can occur online and face to face (both physically and verbally) and are never acceptable. All staff working  
2337 with children are advised to maintain an attitude of ‘it could happen here’.
- 2338 9.41. It is essential that all victims are reassured that they are being taken seriously and that they will be  
2339 supported and kept safe. **A victim should never be given the impression that they are creating a problem**  
2340 **by reporting sexual violence or sexual harassment.** Nor should a victim ever be made to feel ashamed  
2341 for making a report.
- 2342 9.42. Reports of sexual violence and sexual harassment are extremely complex to manage. It is essential that  
2343 victims are protected, offered appropriate support and every effort is made to ensure their education is  
2344 not disrupted. It is also important that other children, adult students and school and college staff are  
2345 supported and protected as appropriate.
- 2346 9.43. There is support available for schools and colleges. [Part 5 of KCSIE 2023 p110](#) provides detailed  
2347 information and links to resources.
- 2348 9.44. Staff should be aware that some groups are potentially more at risk. Evidence shows girls, children with  
2349 special educational needs and disabilities (SEND) and LGBT children are at greater risk.
- 2350 9.45. The fact that a child or a young person may be LGBT is not in itself an inherent risk factor for harm.  
2351 However, children who are LGBT can be targeted by other children. In some cases, a child who is

- 2352 perceived by other children to be LGBT (whether they are or not) can be just as vulnerable as children  
2353 who identify as LGBT.
- 2354 9.46. Risks can be compounded where children/young people who are LGBT lack a trusted adult with whom  
2355 they can be open. It is therefore vital that staff endeavour to reduce the additional barriers faced, and  
2356 provide a safe space for them to speak out or share their concerns with members of staff.
- 2357 9.47. LGBT inclusion is part of the statutory [Relationships Education, Relationship and Sex Education and Health](#)  
2358 [Education](#) curriculum and there is a range of support available to help schools counter homophobic,  
2359 biphobic and transphobic bullying and abuse.
- 2360 9.48. Children's sexual behaviour exists on a wide continuum, from normal and developmentally expected to  
2361 inappropriate, problematic, abusive and violent. Problematic, abusive and violent sexual behaviour is  
2362 developmentally inappropriate and may cause developmental damage. An umbrella term for these types  
2363 of behaviour are often referred to as "**harmful sexual behaviour**". The term has been widely adopted in  
2364 child protection. Harmful sexual behaviour can occur online and/or offline and can also occur  
2365 simultaneously between the two. Harmful sexual behaviour should be considered in a child protection  
2366 context.
- 2367 9.49. Situations where children/young people are forced or coerced into sexual activity by peers or associates  
2368 can be related with gang / serious youth violence activity but that is not always the case. Peer influence  
2369 or peer pressure is a major factor in the decisions made by young people to join particular groups. Many  
2370 young people see it as a "way out" from their day-to-day life and feel a strong bond with their peers, one  
2371 which they may be lacking at home. Examples of peer-on-peer abuse including sexualised online bullying  
2372 include:
- 2373 • **Racist and Religious Bullying** - a range of hurtful behaviour, both physical and  
2374 psychological, that makes a person feel unwelcome, marginalised, excluded, powerless or  
2375 worthless because of their colour, ethnicity, culture, faith community, national origin or  
2376 national status.
  - 2377 • **Sexual, Sexist Bullying** - any behaviour, whether physical or non-physical, where sexuality  
2378 or gender is used as a weapon by boys or girls, this may also include any of the following:
    - 2379 - spreading rumors about someone's alleged sex life
    - 2380 - using offensive terms to describe a person
    - 2381 - inappropriate touching or attempts to do so
    - 2382 - non-consensual sharing of sexual images and videos
    - 2383 - unwanted sexual comments and messages, including those on social media
    - 2384 - any sexual exploitation, coercion and threats
    - 2385 - sexual assault and rape
  - 2386 • **Upskirting** - taking a picture under a person's clothing without their permission and /or  
2387 knowledge, with the intention of viewing their genitals or buttocks (with or without  
2388 underwear) to obtain sexual gratification, or cause the victim humiliation, distress or alarm.  
2389 It is a criminal offence. Anyone of any gender, can be a victim The Voyeurism Offences Act,  
2390 which was commonly known as the Upskirting Bill, was introduced on 21 June 2018. It came  
2391 into force on 12 April 2019.
  - 2392 • **Transphobic bullying** - is based on fear, hatred, disbelief, or mistrust of people who are  
2393 transgender, thought to be transgender, or whose gender expression doesn't conform to

- 2394 traditional gender roles. Transphobia can prevent transgender and gender  
2395 nonconforming people from living full lives free from harm.
- 2396 • **Homophobic Bullying** - targets someone because of their sexual orientation (or perceived  
2397 sexual orientation);
- 2398 • **Disablist Bullying** - targets a young person solely based on their disability. This can include  
2399 manipulative bullying where a perpetrator forces the victim to act in a certain way, or  
2400 exploiting a certain aspect of the victim's disability.
- 2401 • **Prejudice based and discriminatory bullying** - Prejudice is an unjustified or incorrect  
2402 attitude (usually negative) towards an individual based solely on the individual's  
2403 membership of a social group. For example, a person may hold prejudiced views towards  
2404 a certain race or gender etc. (e.g. sexist).
- 2405 • **Discrimination** is the behaviour or actions, usually negative, towards an individual or  
2406 group of people, especially on the basis of sex/race/social class.
- 2407 9.50. Definitions related to sexual violence and sexual harassment can be accessed via [KCSIE 2023 Part 5: Child](#)  
2408 [on child sexual violence and harassment](#)  
2409 What staff should do if they have concerns about the child/young person
- 2410 9.51. Staff working with children/young people are advised to maintain an attitude of 'it could happen here'  
2411 where safeguarding is concerned. When concerned about the welfare of a child/young person, staff  
2412 should always act in the best interests of the child/young person
- 2413 9.52. If staff have any concerns about a child's/young person welfare, they should act on them immediately by  
2414 following this procedure and reporting their concern to the DSL/DSL Deputy.
- 2415 **Opportunities to teach safeguarding**
- 2416 9.53. Schools/colleges must ensure that their staff undergo regular updated safeguarding training, including  
2417 online safety and for children to be taught about how to keep themselves and others safe, including  
2418 online, that safeguarding training for staff, including online safety training, is integrated, aligned and  
2419 considered as part of the whole school or college safeguarding approach and wider staff training and  
2420 curriculum planning.
- 2421 9.54. It should be recognised that effective education will be tailored to the specific needs and vulnerabilities  
2422 of individual children/young people, including those who are victims of abuse, and children/young people  
2423 with special educational needs or disabilities.
- 2424 9.55. Whilst considering the above training requirements, governance boards and proprietor should have  
2425 regard to the [Teachers' Standards](#) which set out the expectation that all teachers manage behaviour  
2426 effectively to ensure a good and safe educational environment and requires teachers to have a clear  
2427 understanding of the needs of all pupils.
- 2428 9.56. Schools and colleges play a crucial role in preventative education. Preventative education is most  
2429 effective in the context of a whole-school or college approach that prepares pupils and students for life  
2430 in modern Britain and creates a culture of zero tolerance for sexism, misogyny/misandry, homophobia,  
2431 biphobic and sexual violence/harassment.
- 2432 9.57. Schools should consider all of this as part of providing a broad and balanced curriculum (colleges may  
2433 cover relevant issues through tutorials). This may include covering relevant issues for schools through  
2434 Relationships Education (for all primary pupils) and Relationships and Sex Education (for all secondary  
2435 pupils) and Health Education (for all pupils in state-funded schools). The statutory guidance can be found  
2436 here: [Statutory guidance: relationships education relationships and sex education \(RSE\) and health](#)  
2437 [education.](#)
- 2438 9.58. The Department has produced a one-stop page for teachers on GOV.UK, which can be accessed here:  
2439 [Teaching about relationships sex and health](#). This includes teacher-training modules on the RSHE topics

2440 and non-statutory implementation guidance. The following resources plus many more listed in [Annex B](#),  
2441 may also help schools and colleges understand and teach about safeguarding:

- 2442 • DfE advice for schools: [teaching online safety in schools](#);
- 2443 • UK Council for Internet Safety (UKCIS)32 guidance: [Education for a connected world](#);
- 2444 • UKCIS guidance: [Sharing nudes and semi-nudes: advice for education settings working with](#)  
2445 [children and young people](#);
- 2446 • The UKCIS [external visitors guidance](#) will help schools and colleges to ensure the maximum  
2447 impact of any online safety sessions delivered by external visitors;
- 2448 • National Crime Agency's CEOP education programme: [Thinkuknow](#);
- 2449 • LGFL '[Undressed](#)' provided schools advice about how to teach young children about being  
2450 tricked into getting undressed online in a fun way without scaring them or explaining the  
2451 motives of sex offenders.
- 2452 • Public Health England: [Every Mind Matters](#)
- 2453 • [Harmful online challenges and online hoaxes](#) - this includes advice on preparing for any  
2454 online challenges and hoaxes, sharing information with parents and carers and where to  
2455 get help and support.

2456 9.59. Whilst it is essential that governance boards and proprietor ensure that appropriate filters and  
2457 monitoring systems are in place, they should be careful that “over blocking” does not lead to  
2458 unreasonable restrictions as to what children can be taught with regard to online teaching and  
2459 safeguarding

2460 9.60. As schools and colleges increasingly work online, it is essential that children are safeguarded from  
2461 potentially harmful and inappropriate online material. Whilst it is essential that governance boards and  
2462 proprietor ensure that appropriate filters and monitoring systems are in place, they should be careful  
2463 that “over blocking” does not lead to unreasonable restrictions as to what children can be taught with  
2464 regard to online teaching and safeguarding

## 2465 Online safety

2466 9.61. It is essential that children are safeguarded from potentially harmful and inappropriate online material.  
2467 An effective whole school and college approach to online safety empowers a school or college to protect  
2468 and educate pupils, students, and staff in their use of technology and establishes mechanisms to identify,  
2469 intervene in, and escalate any concerns where appropriate.

2470 9.62. The breadth of issues classified within online safety is considerable, but can be categorised into four areas  
2471 of risk which we'll refer to as 4Cs later on:

- 2472 • **content:** being exposed to illegal, inappropriate or harmful content, for example:  
2473 pornography, fake news, racism, misogyny, self-harm, suicide, anti-Semitism, radicalisation  
2474 and extremism.
- 2475 • **contact:** being subjected to harmful online interaction with other users; for example: peer  
2476 to peer pressure, commercial advertising and adults posing as children or young adults with  
2477 the intention to groom or exploit them for sexual, criminal, financial or other purposes’.
- 2478 • **conduct:** personal online behaviour that increases the likelihood of, or causes, harm; for  
2479 example, making, sending and receiving explicit images (e.g. consensual and non-

2480 consensual sharing of nudes and semi-nudes and/or pornography, sharing other explicit  
2481 images and online bullying; and

2482 • **commerce** - risks such as online gambling, inappropriate advertising, phishing and or  
2483 financial scams. If you feel your pupils, students or staff are at risk, please report it to the  
2484 Anti-Phishing Working Group <https://apwg.org/>

2485 9.63. Schools and colleges should ensure online safety is a running and interrelated theme whilst devising and  
2486 implementing policies and procedures. This will include considering how online safety is reflected as  
2487 required in all relevant policies and considering online safety whilst planning the curriculum, any teacher  
2488 training, the role and responsibilities of the DSL and any parental engagement.

#### 2489 Online safety policy

2490 9.64. Online safety and the school or college's approach to it should be reflected in the child protection policy.  
2491 Considering the 4Cs (above) will provide the basis of an effective online policy. The school or college  
2492 should have a clear policy on the use of mobile and smart technology. Amongst other things this will  
2493 reflect the fact many children have unlimited and unrestricted access to the internet via mobile phone  
2494 networks (i.e. 3G, 4G and 5G). This access means some children, whilst at school or college, sexually  
2495 harass their peers via their mobile and smart technology, share indecent images: consensually and non-  
2496 consensually (often via large chat groups), and view and share pornography and other harmful content.  
2497 Schools and colleges should carefully consider how this is managed on their premises and reflect in their  
2498 mobile and smart technology policy and their child protection policy.

2499 9.65. Information and support available to schools and colleges to keep children safe online can be found in  
2500 [Part 2 and Annex B of KCSIE 2023](#).

#### 2501 Remote Learning

2502 9.66. The DfE has provided advice to support schools and colleges to help keep pupils, students and staff safe  
2503 whilst learning remotely, [safeguarding in schools colleges and other providers](#) and [safeguarding and](#)  
2504 [remote education](#). The NSPCC also provide helpful advice - [Undertaking remote teaching safely](#). NSPCC  
2505 Learning - [Undertaking remote teaching safely during school closures](#).

2506 9.67. Schools and colleges are likely to be in regular contact with parents and carers. Those communications  
2507 should be used to reinforce the importance of children being safe online and parents and carers are likely  
2508 to find it helpful to understand what systems schools and colleges use to filter and monitor online use. It  
2509 will be especially important for parents and carers to be aware of what their children are being asked to  
2510 do online, including the sites they will asked to access and be clear who from the school or college (if  
2511 anyone) their child is going to be interacting with online

#### 2512 Filters and monitoring

2513 9.68. Whilst considering their responsibility to safeguard and promote the welfare of children and provide  
2514 them with a safe environment in which to learn, governance boards and proprietor should be doing all  
2515 that they reasonably can to limit children's exposure to the above risks from the school's or college's IT  
2516 system. As part of this process, governance boards and proprietor should ensure their school or college  
2517 has appropriate filters and monitoring systems in place. Governance boards and proprietor should  
2518 consider the age range of their children, the number of children, how often they access the IT system and  
2519 the proportionality of costs vs risks. Schools will work with the internal Cambian/Care tech IT team and  
2520 seek advice and support required.

2521 9.69. The appropriateness of any filters and monitoring systems are a matter for individual schools and colleges  
2522 and will be informed in part, by the risk assessment required by the [Prevent Duty](#). The UK Safer Internet

2523 Centre has published guidance as to what “appropriate” filtering and monitoring might look like UK Safer  
2524 Internet Centre: [appropriate filtering and monitoring](#).

## 2525 Information security and access management

2526 9.70. Education settings are directly responsible for ensuring they have the appropriate level of security  
2527 protection procedures in place, in order to safeguard their systems, staff and learners and review the  
2528 effectiveness of these procedures periodically to keep up with evolving cyber-crime technologies.  
2529 Guidance on e-security is available from the National Education Network. In addition, broader guidance  
2530 on cyber security including considerations for governors and trustees can be found at NCSC.GOV.UK.

## 2531 Reviewing online safety

2532 9.71. Technology, and risks and harms related to it evolve and changes rapidly. Schools and colleges should  
2533 consider carrying out an annual review of their approach to online safety, supported by an annual risk  
2534 assessment that considers and reflects the risks their children face. A free online safety self-review tool  
2535 for schools can be found via the [360 safe website](#).

2536 9.72. UKCIS has published [online safety in schools and colleges: Questions from the governing board](#). The  
2537 questions can be used to gain a basic understanding of the current approach to keeping children safe  
2538 online; learn how to improve this approach where appropriate; and find out about tools, which can be  
2539 used to improve the approach. It has also published an Online Safety Audit Tool which helps mentors of  
2540 trainee teachers and newly qualified teachers induct mentees and provide ongoing support, development  
2541 and monitoring.

## 2542 Cyberbullying

2543 9.73. Central to Anti-bullying policy is the principle that ‘bullying is always unacceptable’ and that ‘all  
2544 children/young people have a right not to be bullied’. School/colleges also recognises that it must take  
2545 note of bullying perpetrated outside school/college which spills over into the school/college; therefore

2546 once aware services will respond to any cyber-bullying we become aware of carried out by  
2547 children/young people when they are away from the site.

2548 9.74. Cyber-bullying is defined as ‘an aggressive, intentional act carried out by a group or individual using  
2549 electronic forms of contact repeatedly over time against a victim who cannot easily defend  
2550 himself/herself.’

2551 • By cyber-bullying, we mean bullying by electronic media:

2552 • Bullying by texts or messages or calls on mobile ‘phones

2553 • The use of mobile ‘phone cameras to cause distress, fear or humiliation

2554 • Posting threatening, abusive, defamatory or humiliating material on websites, to include blogs,  
2555 personal websites, social networking sites

2556 • Using e-mail to message others

2557 • Hijacking/cloning e-mail accounts

2558 • Making threatening, abusive, defamatory or humiliating remarks in on-line forums

2559 9.75. Cyber-bullying may be at a level where it is criminal in character. It is unlawful to disseminate defamatory  
2560 information in any media including internet sites.

2561 9.76. Section 127 of the Communications Act 2003 makes it an offence to send, by public means of a public  
2562 electronic communications network, a message or other matter that is grossly offensive or one of an  
2563 indecent, obscene or menacing character.

2564 9.77. The Protection from Harassment Act 1997 makes it an offence to knowingly pursue any course of conduct  
2565 amounting to harassment.

2566 9.78. If services become aware of any incidents of cyberbullying, they will need to consider each case  
2567 individually as to any criminal act that may have been committed. The services will pass on information  
2568 to the police if it feels that it is appropriate or is required to do so.

## 2569 **Gaming – raising awareness**

2570 9.79. Online gaming is an activity in which the majority of children and young people and many adults get  
2571 involved. The services will raise awareness by talking to children/young people/key workers/staff and  
2572 also where appropriate parents/carers involved about the games their children play and help them  
2573 identify whether they are appropriate.

## 2574 **Nudes/semi nudes’ images or videos**

2575 9.80. Sexting is when someone shares sexual, naked or semi-naked images or videos of themselves or others,  
2576 or sends sexually explicit messages. They can be sent using mobiles, tablets, smartphones, and laptops -  
2577 any device that enables the sharing of media and messages. Sexting may also be called: trading nudes,  
2578 dirties, pic for pic.

2579 9.81. Sexting can be seen as harmless, but creating or sharing explicit images of a child is illegal, even if the  
2580 person doing it is a child. A young person is breaking the law if they:

2581 • take an explicit photo or video of themselves or a friend

2582 • share an explicit image or video of a child, even if it’s shared between children of the same age

2583 • possess, download or store an explicit image or video of a child, even if the child gave their permission  
2584 for it to be created.

2585 9.82. However, if a young person is found creating or sharing images, the police can choose to record that a  
2586 crime has been committed but that taking formal action isn't in the public interest. There are many

2587 reasons why a young person may want to send a naked or semi-naked picture, video or message to  
2588 someone else:

- 2589 • joining in because they think that ‘everyone is doing it’
- 2590 • boosting their self-esteem
- 2591 • flirting with others and testing their sexual identity
- 2592 • exploring their sexual feelings
- 2593 • to get attention and connect with new people on social media
- 2594 • they may find it difficult to say no if somebody asks them for an explicit image, especially if the person  
2595 asking is persistent

2596 9.83. The risks of sexting are that the young person has no control over the images and how these are shared,  
2597 and the subsequent risks of blackmail, bullying and harm. In response to this Cambian Group will provide  
2598 education and guidance to prevent individuals from becoming victims of such situations by encouraging  
2599 them to think about the risk of sexting and understand how to seek help when approached to take part  
2600 in sexting. More information can be found on [Keeping-children-safe/online-safety/sexting-sending-  
2601 nudes](#).

#### 2602 **Online reputation**

2603 9.84. Online reputation is the opinion others get of a person when they encounter them on-line. It is formed  
2604 by posts, photos that have been uploaded and comments made by others on people’s profiles. It is  
2605 important that children/young people and staff are aware that anything that is posted could influence  
2606 their future professional reputation. The majority of organisations and work establishments now check  
2607 digital footprint before considering applications for positions or places on courses.

#### 2608 **Grooming**

2609 9.85. On-line grooming is the process by which one person with an inappropriate sexual interest in  
2610 children/young people will approach a child/young person on-line, with the intention of developing a

2611 relationship with that child/young person, to be able to meet them in person and intentionally cause  
2612 harm.

2613 9.86. The services will build awareness amongst children/young people, parents/carers and staff about  
2614 ensuring that the child/young person:

2615 • Only has friends on-line that they know in real life

2616 • Is aware that if they communicate with somebody that they have met on-line, that relationship should  
2617 stay on-line.

2618 9.87. Where appropriate that the services will support parents/carers to:

2619 • Recognise the signs of grooming

2620 • Have regular conversations with their children/young people about on-line activity and how to stay  
2621 safe on-line

2622 9.88. Where appropriate the services will raise awareness by:

2623 • Regular communication with the families

2624 • Schools/colleges will include awareness around grooming as part of their curriculum

2625 • Identifying with the families and children/young people how they can be safeguarded against  
2626 grooming.

## 2627 **Violence against women and girls (VAWG)**

2628 9.89. Violence against women and girls (VAWG) is a hate crime and a violation of the Human Rights of women  
2629 and girls. The government has a strategy looking at specific issues that women and girls face.

2630 9.90. It is also one of the most oppressive forms of gender inequality and stands as a fundamental barrier to  
2631 equal participation of women and men in social, economic, and political spheres. Such violence impedes  
2632 gender equality and the achievement of a range of development outcomes. VAWG is a complex and  
2633 multifaceted problem that cannot effectively be addressed from a single vantage point. The prevention  
2634 of and response to such violence require coordinated action across multiple sectors.  
2635

## 2636 **Female genital mutilation (FGM)**

2637 9.91. FGM comprises all procedures involving partial or total removal of the external female genitalia or other  
2638 injury to the female genital organs for non-medical reasons, hence interferes with the natural function of  
2639 girls and women's bodies. It has no health benefits and harms girls and women in many ways.

2640 9.92. The age at which girls undergo FGM varies enormously according to the community in which they live.  
2641 The procedure may be carried out when the girl is new born, during childhood or adolescence, just before  
2642 marriage or during the first pregnancy. However, the majority of cases of FGM are thought to take place  
2643 between the ages of 5 to 8 years and therefore girls within that age bracket are at a higher risk.

2644 9.93. In 2003, FGM became a criminal offence for UK nationals or permanent UK residents to take their child  
2645 abroad to have female genital mutilation. Anyone found guilty of the offence faces a maximum penalty  
2646 of 14 years in prison. It is mandatory for teachers to report known cases of FGM to the police.

## 2647 **Forced marriage**

2648 9.94. In the case of children and young people: 'a forced marriage is a marriage in which one or both spouses  
2649 cannot consent to the marriage and duress is involved. Duress can include physical, psychological,

2650 financial, sexual and emotional pressure.’ In developing countries, approx. 11% of girls are married before  
2651 the age of 15. One in 3 victims of forced marriage in the UK are under 18 years old.

2652 9.95. It is important that all members of staff recognise the presenting symptoms, know how to respond if  
2653 there are concerns and where to turn for advice.

2654 9.96. Advice and help can be obtained nationally through the **Forced Marriage Unit on +44 (0) 20 7008 0151**  
2655 and locally through the local police safeguarding team or children’s social care.

2656 9.97. While all members of staff (education, care, clinical) have important responsibilities with regard to  
2657 children, young people or adults who may be at risk of forced marriage, managers and leaders should not  
2658 undertake roles in this regard that are most appropriately discharged by other children’s services  
2659 professionals such as police officers or social workers.

2660 9.98. The Forced Marriage Unit (FMU) has created: Multi-agency practice guidelines: handling cases of forced  
2661 marriage (pages 75-80 of which focus on the role of schools and colleges) and, Multi-agency statutory  
2662 guidance for dealing with forced marriage, which can both be found at [The Right to Choose: Multi-agency](#)  
2663 [statutory guidance for dealing with forced marriage](#). School and college staff can contact the Forced  
2664 Marriage Unit if they need advice or information: Contact: 020 7008 0151 or email [fmufcdo.gov.uk](mailto:fmufcdo.gov.uk).

#### 2665 **Breast ironing**

2666 9.99. Breast ironing, also known as breast flattening, is the pounding and massaging of a pubescent girl's  
2667 breasts, using hard or heated objects, to try to make them stop developing or disappear. It is typically  
2668 carried out by the girl's mother who will say she is trying to protect the girl from sexual harassment and  
2669 rape, to prevent early pregnancy that would tarnish the family name, or to allow the girl to pursue  
2670 education rather than be forced into early marriage. It is mostly practiced in parts of Cameroon, where  
2671 boys and men may think that girls whose breasts have begun to grow are ready for sex. Some reports  
2672 suggest that it has spread to the Cameroonian diaspora, for example to Britain. The most widely used  
2673 implement for breast ironing is a wooden pestle normally used for pounding tubers.

2674 9.100. Any suspected cases of breast ironing **MUST** be reported immediately under this Child Protection and  
2675 Safeguarding policy and the Individual offered medical help.

#### 2676 **Teenage relationship abuse**

2677 9.101. Research has shown that teenagers don’t readily understand what constitutes abusive behaviour such as  
2678 controlling behaviours, which can escalate to physical abuse, e.g. checking someone's phone, telling them  
2679 what to wear, who they can/can't see or speak to and that this abuse is prevalent within teen  
2680 relationships.

2681 9.102. Further research shows that teenagers don’t understand what consent means within their relationships.  
2682 They often hold the common misconception that rape can only be committed by a stranger down a dark  
2683 alley and don’t understand that it could happen within their own relationships. This can lead to these  
2684 abusive behaviours feeling ‘normal’ and therefore unchallenged, as they are not recognised as being  
2685 ‘abusive’.

2686 9.103. Vulnerable Individuals may struggle to understand such concepts and the potential consequences of their  
2687 own, their peers or others behaviour towards them. Therefore, significant effort will be made to raise  
2688 awareness of it and respond effectively to such situations.

2689 9.104. In response to this Cambian Group will provide education and guidance to prevent teenagers from  
2690 becoming victims and perpetrators of abusive relationships - encouraging them to rethink their views of  
2691 violence, abuse and controlling behaviours, and understand what consent means within relationships.

#### 2692 **Honour-based violence**

2693 9.105. It is often linked to family members or acquaintances who mistakenly believe someone has brought  
2694 shame to their family or community by doing something that is not in keeping with the traditional beliefs  
2695 of their culture. However, abuse committed in the context of preserving “honour” often involves a wider  
2696 network of family or community pressure and can include multiple perpetrators. It is important to be

2697 aware of this dynamic and additional risk factors when deciding what form of safeguarding action to take”  
2698 for example, honour-based violence might be committed against individuals who:

- 2699 • become involved with a boyfriend or girlfriend from a different culture or religion
- 2700 • want to get out of an arranged marriage
- 2701 • want to get out of a forced marriage
- 2702 • wear clothes or take part in activities that might not be considered traditional within a particular
- 2703 culture.

2704 9.106. Girls and women are the most common victims of honour-based violence however; it can also affect men  
2705 and boys. Crimes of ‘honour’ do not always include violence. Crimes committed in the name of ‘honour’  
2706 might include: domestic abuse, threats of violence, assault, sexual or psychological abuse, forced  
2707 marriage, being held against their will or taken somewhere they don’t want to go.

2708 9.107. If staff believe that the Individual is at risk from honour-based violence, the DSL will follow the usual  
2709 safeguarding referral process. However, if it is clear that a crime has been committed or the Individual is  
2710 at immediate risk the police will be contacted in the first place, this is a mandatory duty placed on  
2711 teachers. It is important that if honour-based violence is known or suspected, communities and family  
2712 members must NOT be contacted prior to referral to the police or social care as this could increase the  
2713 risk to the individual.

#### 2714 Preventing extremism and radicalisation

2715 9.108. All staff are fully aware of their duty in assessing the risk of Individuals being drawn into terrorism  
2716 including support for terrorism ideology and extremist ideas. In accordance with our **026. Preventing**  
2717 **Extremism and Radicalisation policy** and **0.27 E-safety policy**, we all need to be vigilant in ensuring the  
2718 safety from extremist and terrorist material when accessing the internet. We consider Lancashire  
2719 Children’s safeguarding partnership arrangements to fulfil its Prevent duties.

2720 9.109. Children are vulnerable to extremist ideology and radicalisation. Similar to protecting children from other  
2721 forms of harms and abuse, protecting children from this risk should be a part of a schools or colleges’  
2722 safeguarding approach.

- 2723 • **Extremism** is the vocal or active opposition to our fundamental values, including democracy, the
- 2724 rule of law, individual liberty and the mutual respect and tolerance of different faiths and beliefs.
- 2725 This also includes calling for the death of members of the armed forces.

- 2726 • **Radicalisation** refers to the process by which a person comes to support terrorism and extremist
- 2727 ideologies associated with terrorist groups.

- 2728 • **Terrorism** is an action that endangers or causes serious violence to a person/people; causes
- 2729 serious damage to property; or seriously interferes or disrupts an electronic system. The use or
- 2730 threat **must** be designed to influence the government or to intimidate the public and is made
- 2731 for the purpose of advancing a political, religious or ideological cause.

2732 9.110. There is no single way of identifying whether a child is likely to be susceptible to an extremist ideology.  
2733 Background factors combined with specific influences such as family and friends may contribute to a  
2734 child’s vulnerability. Similarly, radicalisation can occur through many different methods (such as social  
2735 media or the internet) and settings (such as within the home).

2736 9.111. However, it is possible to protect vulnerable people from extremist ideology and intervene to prevent  
2737 those at risk of radicalisation being radicalised. As with other safeguarding risks, staff should be alert to  
2738 changes in children’s behaviour, which could indicate that they may be in need of help or protection.

2739 Staff should use their judgement in identifying children who might be at risk of radicalisation and act  
2740 proportionately which may include making a Prevent referral.

2741 9.112. The school's or college's DSL (and any deputies) should be aware of local procedures for making a Prevent  
2742 referral

2743 9.113. All schools and colleges are subject to a duty under section 26 of the Counter-Terrorism and Security Act  
2744 2015 (the CTSA 2015), in the exercise of their functions, to have "due regard to the need to prevent  
2745 people from being drawn into terrorism". This duty is known as **the Prevent duty**.

2746 9.114. [An online general awareness-training module on Channel is available](#). The module is suitable for school  
2747 staff and other front-line workers. It introduces the topics covered by this advice, including how to  
2748 identify factors that can make people vulnerable to radicalisation, and case studies illustrating the types  
2749 of intervention that may be appropriate, in addition to Channel.

#### 2750 Prevent Duty

2751 9.115. The Prevent duty should be seen as part of schools and colleges' wider safeguarding obligations. DSLs  
2752 and other senior leaders in schools should familiarise themselves with the revised [Prevent duty guidance  
2753 for England & Wales](#), especially paragraphs 57-76, which are specifically concerned with schools (and also  
2754 covers childcare). DSLs and other senior leaders in colleges should familiar themselves with the [Prevent  
2755 duty guidance: for further education institutions in England and Wales](#). The guidance is set out in terms  
2756 of four general themes: risk assessment, working in partnership, staff training, and IT policies.

2757 9.116. Local authorities will be expected to ensure appropriate frontline staff, including those of its contractors,  
2758 have a good understanding of Prevent are trained to recognise vulnerability to being drawn into terrorism  
2759 and are aware of available programmes to deal with this issue.

2760 9.117. As the independent body responsible for standards and quality improvement for further education, the  
2761 Education and Training Foundation will work with the sector to ensure that appropriate training is

2762 available. This will include and draw from training provided through the network of Prevent co-  
2763 ordinators.

2764 9.118. At Brook View School we have a dedicated teacher who leads on the prevent strategy.

2765

2766

2767

## 2768 **Child Sexual Exploitation (CSE) and Child Criminal Exploitation (CCE)**

2769 9.119. This section of the policy must be read in conjunction with our 0.29 Child Sexual Exploitation policy.

2770 9.120. Both CSE and CCE are forms of abuse that occur where an individual or group takes advantage of an  
2771 imbalance in power to coerce, manipulate or deceive a child into taking part in sexual or criminal activity,  
2772 in exchange for something the victim needs or wants, and/or for the financial advantage or increased  
2773 status of the perpetrator or facilitator and/or through violence or the threat of violence. CSE and CCE can  
2774 affect children, both male and female and can include children who have been moved (commonly  
2775 referred to as trafficking) for the purpose of exploitation.

## 2776 **Child Criminal Exploitation (CCE)**

2777 9.121. Some specific forms of CCE can include children being forced or manipulated into transporting drugs or  
2778 money through county lines, working in cannabis factories, shoplifting or pickpocketing. They can also be  
2779 forced or manipulated into committing vehicle crime or threatening/committing serious violence to  
2780 others. Children can become trapped by this type of exploitation as perpetrators can threaten victims  
2781 (and their families) with violence, or entrap and coerce them into debt. They may be coerced into carrying  
2782 weapons such as knives or begin to carry a knife for a sense of protection from harm from others. As  
2783 children involved in criminal exploitation often commit crimes themselves, their vulnerability as victims  
2784 is not always recognised by adults and professionals, (particularly older children), and they are not  
2785 treated as victims despite the harm they have experienced. They may still have been criminally exploited  
2786 even if the activity appears to be something they have agreed or consented to.

2787 9.122. It is important to note that the experience of girls who are criminally exploited can be very different to  
2788 that of boys. The indicators may not be the same; however, professionals should be aware that girls are  
2789 at risk of criminal exploitation too. It is also important to note that both boys and girls being criminally  
2790 exploited may be at higher risk of sexual exploitation.

## 2791 **Child Sexual Exploitation (CSE)**

2792 9.123. CSE is a form of child sexual abuse. Sexual abuse may involve physical contact, including assault by  
2793 penetration (for example, rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing,  
2794 and touching outside clothing. It may include noncontact activities, such as involving children in the

2795 production of sexual images, forcing children to look at sexual images or watch sexual activities,  
2796 encouraging children to behave in sexually inappropriate ways or grooming a child in preparation for  
2797 abuse including via the internet.

2798 9.124. CSE can occur over time or be a one-off occurrence, and may happen without the child's immediate  
2799 knowledge e.g. through others sharing videos or images of them on social media.

2800 9.125. CSE can affect any child, who has been coerced into engaging in sexual activities. This includes 16 and 17  
2801 year olds who can legally consent to have sex. Some children may not realise they are being exploited  
2802 e.g. they believe they are in a genuine romantic relationship.

2803 9.126. Children with learning difficulties can be particularly vulnerable to exploitation as can children from  
2804 particular groups, e.g. looked after children, young carers, children who have a history of physical, sexual  
2805 emotional abuse or neglect or mental health problems; children who use drugs or alcohol, children who  
2806 go missing from home or school, children involved in crime, children with parents/carers who have  
2807 mental health problems, learning difficulties/other issues, children who associate with other children  
2808 involved in exploitation. However, it is important to recognise that any child can be targeted.

2809 9.127. Whilst age may be the most obvious, this power imbalance can also be due to a range of other factors  
2810 including gender, sexual identity, cognitive ability, physical strength, status, and access to economic or  
2811 other resources. In some cases, the abuse will be in exchange for something the victim needs or wants  
2812 and/or will be to the financial benefit or other advantage (such as increased status) of the perpetrator or  
2813 facilitator.

2814 9.128. The abuse can be perpetrated by individuals or groups, males or females, and children (under the age of  
2815 18 years, including 16- and 17-year olds who can legally consent to have sex) or adults. It is critical to  
2816 know that children/young people may also be exploited by other children/young people, who themselves  
2817 may be experiencing exploitation – where this is the case, it is important that the child/young person  
2818 perpetrator is also recognised as a victim.

2819 9.129. The abuse can be a one-off occurrence or a series of incidents over time, and range from opportunistic  
2820 to complex organised abuse. It can involve force and/or enticement-based methods of compliance and  
2821 may, or may not, be accompanied by violence or threats of violence. Victims can be exploited even when  
2822 activity appears consensual and it should be noted exploitation as well as being physical can be facilitated  
2823 and/or take place online. More information include definitions and indicators are included in [KCSIE 2023](#).  
2824 Some of the following can be indicators of both child criminal and sexual exploitation where children:

- 2825 • appear with unexplained gifts or new professions;
- 2826 • associate with other young people involved in exploitation;
- 2827 • suffer from changes in emotional well-being;
- 2828 • misuse drugs and alcohol;
- 2829 • go missing for periods of time or regularly or come home late; and
- 2830 • regularly miss school or education or do not take part in education.

2831 9.130. Some additional specific indicators that may be present in CSE and children who:

- 2832 • Children who have older boyfriends or girlfriends; and
- 2833 • Children who suffer from sexually transmitted infections, display sexual behaviours  
2834 beyond expected sexual development or become pregnant.

2835 9.131. Further information on signs of a child's involvement in sexual exploitation is available in Home Office  
2836 guidance: Child sexual exploitation: guide for practitioners.

2837 9.132. As an organisation we do recognise that the same level of exploitation may take place involving  
2838 vulnerable young people/adults at risk above the age of 18. An adult at risk is any person who is aged 18

2839 years or over and at risk of abuse or neglect because of their needs for care and/or support (The Care Act  
2840 2014). As we do provide services for vulnerable young people/adults at risk, therefore it is expected that  
2841 the above statement will equally apply to those who are 18+ across England and Wales.

2842 9.133. Children under the age of criminal responsibility (under the age of 10), or young people who have  
2843 increased vulnerability due to push and pull factors who are manipulated, coerced or forced into criminal  
2844 activity provide opportunity for criminals to distance themselves from crime.

#### 2845 **County Lines**

2846 9.134. County lines is a term used to describe gangs and organised criminal networks involved in exporting illegal  
2847 drugs using dedicated mobile phone lines or other form of “deal line”. This activity can happen locally as  
2848 well as across the UK - no specified distance of travel is required. Children and vulnerable adults are  
2849 exploited to move, store and sell drugs and money. Offenders will often use coercion, intimidation,  
2850 violence (including sexual violence) and weapons to ensure compliance of victims. Children can be  
2851 targeted and recruited. Exploitation is an integral part of the county lines, children may become victims  
2852 through: coercion, intimidation, violence (including sexual) and weapons.

2853 9.135. Children can be targeted and recruited into county lines in a number of locations including schools,  
2854 further and higher educational institutions, pupil referral units, special educational needs schools,  
2855 children’s homes and care homes. Children are often recruited to move drugs and money between  
2856 locations and are known to be exposed to techniques such as ‘plugging’, where drugs are concealed  
2857 internally to avoid detection. Children can easily become trapped by this type of exploitation as county  
2858 lines gangs create drug debts and can threaten serious violence and kidnap towards victims (and their  
2859 families) if they attempt to leave the county lines network.

2860 9.136. Children are also increasingly being targeted and recruited online using social media. Children can easily  
2861 become trapped by this type of exploitation as county lines gangs can manufacture drug debts which  
2862 need to be worked off or threaten serious violence and kidnap towards victims (and their families) if they  
2863 attempt to leave the county lines network. These children and young people are at serious risk of  
2864 criminalisation, sexual exploitation and exposure to violence. This is facilitated by a group who may not  
2865 necessarily be affiliated to a gang, but who have developed networks across geographical boundaries to  
2866 access and exploit existing drugs markets in these areas.

2867 9.137. The group, or individuals exploited by them, travel regularly between the urban hub and the rural  
2868 marketplace, to replenish stock and deliver cash. This movement is not unique to county lines drug supply

2869 but is generally more frequent and in smaller deal amounts compared to most other drug supply  
2870 methods.

2871 9.138. A number of the indicators for CSE and CCE as detailed above may be applicable to where children are  
2872 involved in county lines. Some additional specific indicators that may be present where a child is  
2873 criminally exploited through involvement in county lines are children who:

- 2874 • go missing and are subsequently found in areas away from their home;
- 2875 • have been the victim or perpetrator of serious violence (e.g. knife crime);
- 2876 • are involved in receiving requests for drugs via a phone line, moving drugs, handing over and  
2877 collecting money for drugs;
- 2878 • are exposed to techniques such as 'plugging', where drugs are concealed internally to avoid  
2879 detection;
- 2880 • are found in accommodation that they have no connection with, often called a 'trap house or  
2881 cuckooing' or hotel room where there is drug activity;
- 2882 • owe a 'debt bond' to their exploiters;
- 2883 • have their bank accounts used to facilitate drug dealing.

2884 9.139. If a child is suspected to be at risk of or involved in county lines, a safeguarding referral should be  
2885 considered alongside consideration of availability of local services/third sector providers who offer  
2886 support to victims of county lines exploitation.

2887 9.140. Further information on the signs of a child's involvement in county lines is available in guidance published  
2888 by the [Home Office and The Children's Society County Lines Toolkit for Professional](#).

#### 2889 Cuckooing

2890 9.141. This is the exploitation of young people that might be vulnerable is a common feature in the facilitation  
2891 of county lines drugs supply, whether for the storage or supply of drugs, the movement of cash, or to  
2892 secure the use of dwellings held by vulnerable people in the rural marketplace - commonly referred to as  
2893 cuckooing.

2894 9.142. Cuckooing is a form of crime in which drug dealers take over the home of a vulnerable person in order to  
2895 use it as a base for drug dealing. As of the 2010s, cuckooing is becoming an increasingly common problem

2896 in the South of England. The crime is named for the cuckoo's practice of taking over other birds' nests for  
2897 its young.

2898 9.143. The group is inclined to use intimidation, violence and weapons, including knives, corrosives and firearms.

2899 9.144. Additional to the list under Serious Violent Crime section, other indicators that a child may be criminally  
2900 exploited include:

2901 

- Increase in missing episodes (Education and/or Care) – particular key as

  
2902 children/young people can be missing for days and drug run in other counties

2903 

- Having unexplained amounts of money, new high cost items and multiple mobile

  
2904 phones

2905 

- Increased social media and phone/text use, almost always secretly

2906 

- Older males in particular seen to be hanging around and driving

2907 

- Having injuries that are unexplained and unwilling to be looked at

2908 

- Increase in aggression, violence and fighting

2909 

- Carrying weapons – knives, baseball bats, hammers, acid

2910 

- Travel receipts that are unexplained

2911 

- Significant missing cases from education and disengaging from previous positive peer

  
2912 groups

2913 

- Parents/carers concerns and significant changes in behaviour that affect emotional

  
2914 wellbeing

2915 9.145. We will treat any child/young person who may be criminally exploited as a victim in the first instance and  
2916 refer to the Local Safeguarding Authority in the first instance. If a referral to the police is also required as  
2917 crimes have been committed on the school premises, these will also be made.

2918 **Knife crime**

2919 9.146. Ofsted report [Knife crime safeguarding children and young people \(Lessons from London\)](#) makes  
2920 references to both; to the use of knives against children either to threaten or to wound them and to  
2921 instances when children may have been carrying or using knives for a range of purposes.

2922 9.147. Knife crime is a term used commonly in the media to refer, primarily, to street-based knife assaults and  
2923 knife-carrying. However, there are many different criminal offences relating to knives. For example:

2924 

- it is an offence to threaten or cause harm to a person with a bladed weapon

2925 

- some bladed weapons are prohibited from being sold or purchased, including to anyone

  
2926 under the age of 18

2927 

- offences such as robbery or assault can be aggravated if a knife is involved

2928 

- it is also an offence to carry a knife in a public place without good reason.

2929 

- It is clear that knife crime is an increasing safeguarding risk to children and young people,

  
2930 both at school and in their local communities. While Ofsted have not sought to answer the

2931 question of the causes of knife crime, leaders told Ofsted that, in their experience, children  
2932 are in three categories of risk of knife carrying.

2933 9.148. The highest level of risk is for those children who have been groomed into gangs, for the purposes of  
2934 criminal exploitation.

2935 9.149. Underneath this lies a group of children who have witnessed other children carrying knives, have been  
2936 the victim of knife crime or know someone who has carried a knife for protection or status-acquisition or  
2937 who are encouraged to believe knife-carrying is normal through the glamorisation of gangs and knives on  
2938 social media.

2939 9.150. Then there are children who carry knives to school as an isolated incident. For example, they may carry  
2940 a penknife that a grandparent has gifted them

2941 9.151. It is important to remember that knife crime does not exist in a vacuum and children who are victims or  
2942 perpetrators may also be experiencing multiple vulnerabilities.

2943 9.152. Some children and young people can be more at risk of being drawn into criminality; multiple studies  
2944 demonstrate a clear link between inequality and high rates of violence for example. There is a need to  
2945 both understand and address individual risk factors as well as address the social challenges that underpin  
2946 criminal exploitation and serious violence in our communities, from poor mental health, addiction,  
2947 poverty, unemployment and poor-quality housing.

#### 2948 **Missing young people and the link between missing and county lines**

2949 9.153. Every precaution is taken through the use of risk assessments and thorough planning and supervision to  
2950 ensure that children, young people and young adults are safe both at school, college, home, and on  
2951 outings. If a child, young person or young adult goes missing from our Location, it is considered a potential  
2952 indicator of abuse or neglect.

2953 9.154. Our staff members must follow our **0.23. Missing from Care and Education policy** in the event of  
2954 someone going missing. All homes/schools/colleges must inform the LA of any student who fails to attend  
2955 school regularly or has been absent without the school's permission for a continuous period of 10 days  
2956 or more or as such intervals agreed with the Local Authority. It is essential that all staff are alert to signs  
2957 such as travelling to conflict zones, FGM and forced marriage.

2958 9.155. Coercion and manipulation often increase a young person's vulnerability to exploitation, pushing them  
2959 towards going missing and becoming involved in criminal activities. Some individuals may be pulled  
2960 towards exploitation through the promise of money, gifts, affection and status. However, they may be  
2961 then be forced to work for these people as they are coerced into believing that they are indebted to  
2962 them.

#### 2963 **Domestic abuse**

2964 9.156. The Domestic Abuse Act 2021 received Royal Assent on 29 April 2021. The Act introduces the first ever  
2965 statutory definition of domestic abuse and recognises the impact of domestic abuse on children, as  
2966 victims in their own right, if they see, hear or experience the effects of abuse. The statutory definition of  
2967 domestic abuse, based on the previous cross-government definition, ensures that different types of  
2968 relationships are captured, including ex-partners and family members. The definition captures a range of  
2969 different abusive behaviours, including physical, emotional and economic abuse and coercive and  
2970 controlling behaviour. Both the person who is carrying out the behaviour and the person to whom the  
2971 behaviour is directed towards must be aged 16 or over and they must be "personally connected" (as  
2972 defined in section 2 of the 2021 Act).

2973 9.157. Types of domestic abuse include intimate partner violence, abuse by family members, teenage  
2974 relationship abuse and child/adolescent to parent violence and abuse. Anyone can be a victim of

- 2975 domestic abuse, regardless of gender, age, ethnicity, socioeconomic status, sexuality or background and  
2976 domestic abuse can take place inside or outside of the home.
- 2977 9.158. All children can witness and be adversely affected by domestic abuse in the context of their home life  
2978 where domestic abuse occurs between family members. Experiencing domestic abuse and/or violence  
2979 can have a serious, long lasting emotional and psychological impact on children. In some cases, a child  
2980 may blame themselves for the abuse or may have had to leave the family home as a result.
- 2981 9.159. Young people can also experience domestic abuse within their own intimate relationships. This form of  
2982 abuse is sometimes referred to as 'teenage relationship abuse'. Depending on the age of the young  
2983 people, this may not be recognised in law under the statutory definition of 'domestic abuse' (if one or  
2984 both parties are under 16). However, as with any child under 18, where there are concerns about safety  
2985 or welfare, child safeguarding procedures should be followed and both young victims and young  
2986 perpetrators should be offered support.
- 2987 9.160. KCSIE2022 introduces additional information about domestic abuse which can encompass a wide range  
2988 of behaviours and may be a single incident or a pattern of incidents. That abuse can be, but is not limited  
2989 to, psychological, physical, sexual, financial or emotional. Children can be victims of domestic abuse. They  
2990 may see, hear, or experience the effects of abuse at home and/or suffer domestic abuse in their own  
2991 intimate relationships (teenage relationship abuse). All of which can have a detrimental and long-term  
2992 impact on their health, well-being, development, and ability to learn.
- 2993 9.161. [Operation Encompass](#) operates in all police forces across England. It helps police and schools work  
2994 together to provide emotional and practical help to children. The system ensures that when police are  
2995 called to an incident of domestic abuse, where there are children in the household who have experienced  
2996 the domestic incident, the police will inform the key adult (usually the DSL) in school before the child or  
2997 children arrive at school the following day. This ensures that the school has up to date relevant  
2998 information about the child's circumstances and can enable immediate support to be put in place,  
2999 according to the child's needs. Operation Encompass does not replace statutory safeguarding  
3000 procedures. Where appropriate, the police and/or schools should make a referral to children's social care  
3001 if they are concerned about a child's welfare. More information about the scheme and how schools can  
3002 become involved is available on the Operation Encompass website.
- 3003 9.162. Operation Encompass provides an advice and helpline service for all staff members from educational  
3004 settings who may be concerned about children who have experienced domestic abuse. The helpline is  
3005 available 8AM to 1PM, Monday to Friday on 0204 513 9990 (charged at local rate).
- 3006 9.163. Refuge runs the National Domestic Abuse Helpline, which can be called free of charge and in confidence,  
3007 24 hours a day on 0808 2000 247. Its website provides guidance and support for potential victims, as well  
3008 as those who are worried about friends and loved ones. It also has a form through which a safe time from

3009 the team for a call can be booked. Additional advice on identifying children who are affected by domestic  
3010 abuse and how they can be helped is available at:

- 3011 • [NSPCC- UK domestic-abuse Signs Symptoms Effects](#)
- 3012 • [Refuge what is domestic violence/effects of domestic violence on children](#)
- 3013 • [SaferLives: young people and domestic abuse.](#)
- 3014 • [Domestic abuse: specialist sources of support - GOV.UK](#) (www.gov.uk) (includes  
3015 information for adult victims, young people facing abuse in their own relationships and  
3016 parents experiencing child to parent violence/abuse)
- 3017 • Home : [Operation Encompass](#) (includes information for schools on the impact of domestic  
3018 abuse on children)

### 3019 **Serious Violent Crime**

3020 9.164. All staff should be aware of indicators, which may signal that children are at risk from, or are involved  
3021 with serious violent crime. These may include:

- 3022 • increased absence from school with a significant decline in performance,
- 3023 • a change in friendships or relationships with older individuals or group,
- 3024 • signs of self-harm or a significant change in well-being, or signs of assault or  
3025 unexplained injuries,
- 3026 • unexplained gifts or new possessions could also indicate that children have been  
3027 approached by, or are involved with individuals associated with criminal networks or  
3028 gangs.

3029 9.165. All staff should be aware of the associated risks and understand the measures in place to measure these.  
3030 Advice for schools and colleges is provided in the Home Office's Preventing youth violence and gang  
3031 involvement and its [criminal exploitation of children and vulnerable adults: County Lines guidance -](#)  
3032 [September 2018.](#)

### 3033 **Mental Health**

3034 9.166. Schools, colleges and homes have an important role to play in supporting the mental health and wellbeing  
3035 of young people. All staff should be aware that mental health problems can, in some cases, be an indicator  
3036 that a child has suffered or is at risk of suffering abuse, neglect or exploitation.

3037 9.167. Schools/colleges and homes need to ensure they have clear systems and processes in place for identifying  
3038 possible mental health problems, including routes to escalate and clear referral and accountability  
3039 systems.

3040 9.168. The Department is providing funding to support costs of a significant training program for senior mental  
3041 health leads and the national rollout of the [Link Program](#). Training for senior mental health leads, will be  
3042 available to all state-funded schools and colleges by 2025, to help introduce or develop their whole school  
3043 or college approach to mental health.

3044 9.169. Only appropriately, trained professionals should attempt to make a diagnosis of a mental health problem.  
3045 Staff however, are well placed to observe children day-to-day and identify those whose behaviour  
3046 suggests that they may be experiencing a mental health problem or be at risk of developing one. If staff  
3047 suspect this might be the case they should report their concerns to a senior leader within the school and  
3048 if possible bring their concerns to a member of the clinical team.

3049 9.170. Where children have suffered abuse and neglect, or other potentially traumatic adverse childhood  
3050 experiences, this can have a lasting impact throughout childhood, adolescence and into adulthood. It is

- 3051 key that staff receive appropriate education and training so that they are aware of how these children's  
3052 experiences, can impact on their mental health, behaviour and education.
- 3053 9.171. If staff have a mental health concern about a child that is also a safeguarding concern, immediate action  
3054 should be taken. Staff should follow their child protection policy and speak immediately to the DSL or a  
3055 deputy.
- 3056 9.172. Schools and colleges can access a range of advice to help them identify children in need of extra mental  
3057 health support; this includes working with external agencies. More information can be found in the  
3058 [mental health and behaviour in schools guidance](#), colleges may also wish to follow this guidance as best  
3059 practice. Public Health England has produced a range of resources to support secondary school teachers  
3060 to promote positive health, wellbeing and resilience among children.
- 3061 9.173. The DfE has published advice and guidance on [Preventing and Tackling Bullying](#) (which may also be useful  
3062 for colleges). The [Promoting and supporting mental health and wellbeing in Schools](#) sets out how schools  
3063 and colleges can help prevent mental health problems by promoting resilience as part of an integrated,  
3064 whole school/college approach to social and emotional wellbeing, which is tailored to the needs of their  
3065 pupils.
- 3066 9.174. In addition, Public Health England has produced a range of resources to support secondary schools to  
3067 promote positive health, wellbeing and resilience among children including its guidance Promoting  
3068 children and young people's emotional health and wellbeing. Its resources include social media, forming  
3069 positive relationships, smoking and alcohol. See [Rise Above](#) for links to all materials and lesson plans. The  
3070 Department has also published, '[Every interaction matters](#)', a pre-recorded webinar which provides staff  
3071 with a simple framework for promoting wellbeing, resilience, and mental health. This sits alongside our

3072 [Wellbeing for education recovery program](#) content, which covers issues such as bereavement, loss,  
3073 anxiety, stress and trauma.

3074 **Human trafficking**

3075 9.175. Human trafficking is defined by the UNHCR in respect of children/young people/young adults as a process  
3076 that is a combination of:

- 3077 - Movement (including within the UK);
- 3078 - Control, through harm / threat of harm or fraud
- 3079 - For the purpose of exploitation

3080 9.176. Traffickers and slave drivers trick, force and/or persuade individuals to leave their homes. Grooming  
3081 methods are used to gain the trust of a person first, e.g. the promise of a better life, which results in a  
3082 life of abuse, servitude and inhumane treatment.

3083 9.177. Any individual transported for exploitative reasons is considered to be a trafficking victim. There is  
3084 significant evidence that children/young people/young adults (both of UK and other citizenship) are being  
3085 trafficked internally within the UK and this is regarded as a more common form of trafficking in the UK.

3086 9.178. There are a number of indicators which suggest that a child/young person/young adult may have been  
3087 trafficked into the UK, and may still be controlled by the traffickers or receiving adults. These are as  
3088 follows:

- 3089 - Shows signs of physical or sexual abuse, and/or has contracted a sexually transmitted  
3090 infection or has an unwanted pregnancy
- 3091 - Has a history with missing links and unexplained moves
- 3092 - Is required to earn a minimum amount of money every day
- 3093 - Works in various locations
- 3094 - Has limited freedom of movement
- 3095 - Appears to be missing for periods
- 3096 - Is known to beg for money
- 3097 - Is being cared for by adult/s who are not their parents and the quality of the  
3098 relationship between the child and their adult carers is not good
- 3099 - Is one among a number of unrelated children found at one address
- 3100 - Has not been registered with or attended a GP practice
- 3101 - Is excessively afraid of being deported.

3102 9.179. For those children/young people/young adults who are internally trafficked within the UK indicators  
3103 include:

- 3104 - Physical symptoms (bruising indicating either physical or sexual assault)
- 3105 - Prevalence of a sexually transmitted infection or unwanted pregnancy
- 3106 - Reports from reliable sources suggesting the likelihood of involvement in
- 3107 - Sexual exploitation / the child has been seen in places known to be used for sexual  
3108 exploitation
- 3109 - Evidence of drug, alcohol or substance misuse

- 3110 - Being in the community in clothing unusual for a child i.e. inappropriate for age, or
- 3111 borrowing clothing from older people
- 3112 - Relationship with a significantly older partner
- 3113 - Accounts of social activities, expensive clothes, mobile phones or other possessions
- 3114 with no plausible explanation of the source of necessary funding
- 3115 - Persistently missing, staying out overnight or returning late with no plausible
- 3116 explanation
- 3117 - Returning after having been missing, looking well cared for despite having not been
- 3118 at home
- 3119 - Having keys to premises other than those known about
- 3120 - Low self- image, low self-esteem, self-harming behaviour including cutting,
- 3121 overdosing, eating disorder, promiscuity
- 3122 - Truancy / disengagement with education
- 3123 - Entering or leaving vehicles driven by unknown adults
- 3124 - Going missing and being found in areas where the child/young person/young adult
- 3125 has no known links; and/or
- 3126 - Possible inappropriate use of the internet and forming on-line relationships,
- 3127 particularly with adults/other adults.

3128 9.180. These behaviours themselves do not indicate that an Individual is being trafficked, but should be  
3129 considered as indicators that this may be the case.

### 3130 **Child abduction and community safety incidents**

3131 9.181. Child abduction is the unauthorised removal or retention of a minor from a parent or anyone with legal  
3132 responsibility for the child. Child abduction can be committed by parents or other family members; by  
3133 people known but not related to the victim (such as neighbours, friends and acquaintances); and by  
3134 strangers. Other community safety incidents in the vicinity of a school can raise concerns amongst  
3135 children and parents, for example, people loitering nearby or unknown adults engaging children in  
3136 conversation.

3137 9.182. As children get older and are granted more independence (for example, as they start walking to school  
3138 on their own), it is important they are given practical advice on how to keep themselves safe. Many  
3139 schools provide outdoor-safety lessons run by teachers or by local police staff. It is important that lessons  
3140 focus on building children's confidence and abilities rather than simply warning them about all strangers.  
3141 Further information is available at: <http://www.actionagainstabduction.org/> and  
3142 <https://clevernevergoes.org/>

### 3143 **Modern slavery and the National Referral Mechanism**

3144 9.183. Modern slavery encompasses human trafficking and slavery, servitude and forced or compulsory labour.  
3145 Exploitation can take many forms, including: sexual exploitation, forced labour, slavery, servitude, forced  
3146 criminality and the removal of organs.

3147 9.184. When considering modern slavery, there is a perception that this is taking place overseas. The  
3148 government estimates that tens of thousands of slaves are in the UK today.

3149 9.185. Young people are being forced to work in restaurants, nail bars, car washes and harvesting fruit,  
3150 vegetables or other foods have all been slaves 'hiding in plain sight' within the U.K and rescued from

3151 slavery. Other forms of slavery such as sex slaves or household slaves are more hidden but have also been  
3152 rescued within the UK.

3153 9.186. If staff believe that a child/young person/young adult is being trafficked or is a slave, this must be  
3154 reported to the DSL/RM/Head of Service for referral to be considered to local Safeguarding Authority.

3155 9.187. Further information on the signs that someone may be a victim of modern slavery, the support available  
3156 to victims and how to refer them to the NRM is available in the Modern Slavery Statutory Guidance.  
3157 Modern slavery: how to identify and support victims - GOV.UK ([www.gov.uk](http://www.gov.uk))

## 3158 Cybercrime

3159 9.188. Cybercrime is criminal activity committed using computers and/or the internet. It is broadly categorised  
3160 as either 'cyber-enabled' (crimes that can happen off-line but are enabled at scale and at speed on-line)  
3161 or 'cyber dependent' (crimes that can be committed only by using a computer). Cyber-dependent crimes  
3162 include:

- 3163 • unauthorised access to computers (illegal 'hacking'), for example accessing a school's computer  
3164 network to look for test paper answers or change grades awarded;
- 3165 • denial of Service (Dos or DDoS) attacks or 'booting'. These are attempts to make a computer,  
3166 network or website unavailable by overwhelming it with internet traffic from multiple sources;  
3167 and
- 3168 • making, supplying or obtaining malware (malicious software) such as viruses, spyware,  
3169 ransomware, botnets and Remote Access Trojans with the intent to commit further offence,  
3170 including those above.

3171 9.189. Children with particular skill and interest in computing and technology may inadvertently or deliberately  
3172 stray into cyber-dependent crime.

3173 9.190. If there are concerns about a child in this area, the DSL (or a deputy), should consider referring into the  
3174 Cyber Choices programme. This is a nationwide police programme supported by the Home Office and led  
3175 by the National Crime Agency, working with regional and local policing. It aims to intervene where young  
3176 people are at risk of committing, or being drawn into, low level cyber-dependent offences and divert  
3177 them to a more positive use of their skills and interests.

3178 9.191. Note that Cyber Choices does not currently cover 'cyber-enabled' crime such as fraud, purchasing of  
3179 illegal drugs on-line and child sexual abuse and exploitation, nor other areas of concern such as on-line  
3180 bullying or general on-line safety. Additional advice can be found at: [Cyber Choices](#), '[NPCC- When to call the Police](#)' and [National Cyber Security Centre - NCSC.GOV.UK](#)

## 3182 Initiation/Hazing

3183 9.192. Hazing is a form of initiation ceremony, which is used to induct newcomers into an organisation such as  
3184 a private school, sports team etc. There are a number of different forms, from relatively mild rituals to  
3185 severe and sometimes violent ceremonies in gangs/criminal groups.

3186 9.193. The idea behind this practice is that it welcomes newcomers by subjecting them to a series of trials, which  
3187 promote a bond between them. After the hazing is over, the newcomers also have something in common

3188 with older members of the organisation, because they all experienced it as part of a rite of passage. Many  
3189 rituals involve humiliation, embarrassment, abuse, and harassment.

3190 9.194. Cambian Group will provide education to prevent individuals from becoming victims of such behaviour  
3191 and raise awareness of such within all services.  
3192

## 3193 **Safeguarding issues relating to Individual children and young people needs**

### 3194 **Homelessness**

3195 9.195. As an organisation we recognise that being homeless or being at risk of becoming homeless presents a  
3196 real risk to a child's/young person welfare. The impact of losing a place of safety and security can affect  
3197 an Individual's behaviour and attachments. DSL will work with Local Authorities to raise/progress  
3198 concerns at the earliest opportunity.

3199 9.196. In line with the Homelessness Reduction Act 2017 they will also promote links into the Local Housing  
3200 Authority for the parent/guardians in order to raise/progress concerns.

3201 9.197. In most cases school and college, colleagues will be considering homelessness in the context of children  
3202 who live with their families, and intervention will be on that basis. However, it should also be recognised  
3203 in some cases 16 and 17 year olds could be living independently from their parents or guardians, for  
3204 example through their exclusion from the family home, or other reasons. This will require a different level  
3205 of intervention and support. Children's services will be the lead agency for these young people and the  
3206 DSL (or a deputy) should ensure appropriate referrals are made based on the child's circumstances. The  
3207 department and the Ministry of Housing, Communities and Local Government have published joint  
3208 statutory guidance on the provision of accommodation for 16 and 17 year olds who may be homeless  
3209 and/or require accommodation: [Homelessness Reduction Act: policy factsheets](#).

3210 9.198. Guidance on how local authorities should exercise their homelessness functions in accordance with the  
3211 Homelessness Reduction Act 2017 from 3 April 2018- [Homelessness code of guidance for local](#)  
3212 [authorities](#).

3213 9.199. Children's services (Adult's services where the person is 18 +) will be the lead agency for these young  
3214 people and the DSL should ensure appropriate referrals are made based on the Individual's  
3215 circumstances.

3216 9.200. It is recognised that whilst referrals and/or discussion with the Local Housing Authority should be  
3217 progressed as appropriate, this does not, and should not, replace a referral into the Local Safeguarding  
3218 Authority where an Individual has been harmed or is at risk of harm.

### 3219 **Private Fostering**

3220 9.201. Private fostering is an arrangement by a child's parents for their child (under 16 or 18 if disabled) to be  
3221 cared for by another adult who is not closely related and is not a legal guardian with parental  
3222 responsibility for 28 days or more.

3223 9.202. It is not private fostering if the carer is a close relative to the child such as grandparent, brother, sister,  
3224 uncle or aunt.

3225 9.203. The Law requires that the carers and parents must notify the Children's Services Department of any  
3226 private fostering arrangement.

3227 9.204. If the school/college/children's home/care homes (16-18) becomes aware that a child/young person is  
3228 being privately fostered they will inform the Children's Services Department and inform both the parents  
3229 and carers that they have done so.

### 3230 **Child and the Court System**

3231 9.205. As an organisation we recognise that children/young people are sometimes required to give evidence in  
3232 criminal courts, either for crimes committed against them or for crimes, they have witnessed. We know

3233 that this can be a stressful experience and therefore services across the organisation will aim to support  
3234 children through this process.

3235 9.206. Along with information, advice and guidance, services will use age-appropriate materials published by  
3236 HM Courts and Tribunals Services (2017) [Going to court](#) explain to children/young people what it means  
3237 to be a witness, how to give evidence and the special measures which are in place to assist such as using  
3238 a live link/aids to communicate and video links.

3239 9.207. We recognise that making child arrangements via the family courts following separation can be stressful  
3240 and entrench conflict in families. This can be very stressful for children. Services will support  
3241 children/young people going through this process.

3242 9.208. Alongside information, advice and guidance services will use online materials published by The Ministry  
3243 of Justice (2018) which offers children/young people information & advice on the dispute resolution

3244 service - [Get help with child arrangements](#). These materials will also be offered to parents and carers if  
3245 appropriate.

3246 9.209. Ensure that children/young people are sufficiently supported where a parent has been sent to prison;  
3247 adequate support includes protection from stigma, isolation and poor mental health.

#### 3248 **Fabricated or induced illnesses (FII)**

3249 9.210. Fabricated or induced illness (FII) is a rare form of child abuse. It occurs when a parent or carer, usually  
3250 the child's biological mother, exaggerates or deliberately causes symptoms of illness in the child.

3251 9.211. FII is also known as "Munchausen's syndrome by proxy" (not to be confused with Munchausen's  
3252 syndrome, where a person pretends to be ill or causes illness or injury to themselves).

3253 9.212. FII covers a wide range of symptoms and behaviours involving parents seeking healthcare for a child. This  
3254 ranges from extreme neglect (failing to seek medical care) to induced illness.

3255 9.213. Behaviours in FII include a parent/carers who:

- 3256 • persuades healthcare professionals that their child is ill when they're perfectly healthy,
- 3257 • exaggerates or lies about their child's symptoms,
- 3258 • manipulates test results to suggest the presence of illness – for example, by putting glucose in urine  
3259 samples to suggest the child has diabetes,
- 3260 • deliberately induces symptoms of illness – for example, by poisoning her child with unnecessary  
3261 medication or other substances.

3262  
3263  
3264  
3265  
3266  
3267  
3268
