

Outcomes:

- To Explore and learn.
- Behave well in public.
- 50 things to do before 11 and $\frac{3}{4}$ #3 Camp out

Description of trip: This week Flamingo's learnt how to pitch a tent. It was number 3 on our list of things to do before we're 11 $\frac{3}{4}$. We worked together as a team to erect the tent. We first lay the ground sheets then had to put the elasticated poles together to make one long pole. We fed them through the outer tent and made the dome shape that we associate with tents. Next, we fitted the inner and our teachers let us hammer in the pegs with the mallet. Our teachers treated us to a hot chocolate from Costa. When we got back from Costa, we sat in the tent and ate our lunch and drank our hot chocolates. It warmed us up after a cold walk. We played in the tent and then told spooky stories with a torch lighting our face. It was such a fun experience day and one we'll remember for a long time.

Quotes:

"Can we tell spooky stories?"

"I love hot chocolate"

"We're so toasty in here!"
