Promoting happy, healthy and sustainable living at Hill House and beyond.

PUMPKINS GALORE

The Hill House allotment produced a number of lovely orange pumpkins this autumn! One was delivered to each home at the beginning of half term, along with a few more handpicked from the annual visit to [Sunnyfields Farm](#), and the young people got to choose what to do with them.

Some opted to decorate them for Hallowe'en, others carved them into jack-o-lanterns and used the bright orange flesh to make delicious pumpkins muffins. With our sustainability agenda always in mind, the seeds were put out for the birds and the remaining pulp was composted. Meanwhile, on Hallowe'en itself, the young people enjoyed a party and disco with lots of fun dressing up, some lively dancing, and healthy snacks like apples and popcorn.

FOOTPRINT

Meet Martin, one of our wonderful cooks, who worked his magic with all of the leftover pumpkins and produced a wonderful dip for everyone to try in the Let's Eat Café.
