93 **1. Monitoring and review**

94 1.1 The Cambian (the Proprietor) will undertake a formal annual review of this policy for the purpose of
95 monitoring and of the efficiency with which the related duties have been discharged, by no later than one

96 year from the date shown below, or earlier if significant changes to the systems and arrangements take
97 place, or if legislation, regulatory requirements or best practice guidelines so require.

98 1.2 The local content of this policy will be subject to continuous monitoring, refinement and audit by the Head
99 of Service.

100
101 Signed:

Jeremy Wiles
Group Executive Director- Children's Services
Date: August 2023

Alison Priddle
Principal
September 2023

102

103 2. Terminology

104 2.1. Our aim is to use consistent terminology throughout this policy and all supporting documentation as
105 follows:

106
107
108
109
110
111
112

'Establishment' or 'Location'	This is a generic term, which means the Children's Home/school/college.
Individual	This means any child or young person under the age of 18, young adult between the ages of 18 and 25. At Southlands School we have pupils/students, children, young people and young adults attending and residing at Southlands school between the ages of 7yrs to 19yrs.
Head of Service	This is the senior person with overall responsibility for the school and home. At Southlands School/home this is the Principal/Responsible Individual, Alison Priddle and Registered manager, Jack Murphy.
Key Worker	Members of staff that have special responsibility for Individuals residing at or attending the Establishment.
Parent, Carer, Guardian	Means parent or person with Parental Responsibility
Regulatory Authority	Regulatory Authority is the generic term used in this policy to describe the independent regulatory body responsible for inspecting and regulating services.
Social Worker	This means the worker allocated to the individual's family. If there is no allocated worker, the Duty Social Worker or Team Manager is responsible.
Safeguarding Authority	Children's Social Care, Safeguarding Partners, Local Safeguarding Adults Board [LSAB] - England, Regional Safeguarding Children's Boards [RSCB] – Wales *whichever apply for the type of service and country
LADO	Local Authority Designated Officer
DSL/DSL Deputy	Designated Safeguarding Lead/Designated Safeguarding Lead Deputy
Placing Authority	Placing Authority means the local authority/agency responsible for placing the child or commissioning the service
Staff	Means full or part-time employees of Cambian, agency workers, bank workers, contract workers and volunteers.
CambianKPI	The online in-house information system, which holds data for each site on quality measures.

113

114 **3. Definitions and age-related arrangements**

115 3.1. **Children and Young people are under 18.** Whilst Working together to Safeguard Children (2018) applies
 116 to children and young people until they reach the age of 18, Keeping Children Safe in Education (2023)
 117 now applies to providers of post 16 education as set out in Education and Training (Welfare of Children)
 118 Act 2021.

119 3.2. **Adults are over the age of 18.** Over 18-year olds are covered by the Local Safeguarding Adult Boards
 120 (LSABs). Government guidance can be gained from the Care Act 2014. An adult at risk of harm or abuse
 121 is any person who has needs for care and support and, is experiencing or at risk of abuse or neglect;
 122 and as a result of their particular care and support needs, is unable to protect themselves from either
 123 the risk of, or the experience of abuse or neglect'. We refer to adult service users in our provision as
 124 **young adults** due to the fact we provide children's services up to the age of 25.

125 3.3. The Social Services and Well-being (Wales) Act 2014 came into force in April 2016 and it provides the
 126 legal framework for social service provision in Wales. It sets out what must and should be done to

127 safeguard children and adults. At a local level regional safeguarding children's boards co-ordinate
128 and ensure the effectiveness of work to protect and promote the welfare of children.

129 3.4. Staff working with young adults aged 18 and over, who receive education, care and support from our
130 children's services division will follow the Adult safeguarding referral process to LSAB/MASH/Regional
131 Safeguarding Children's Boards depending on local arrangements.

132 3.5. This policy addresses children and young people up to the age of 18 and those over the age of 18 who
133 attend a day or residential school or college – this might be 38- or 52-weeks' provision. Some children
134 attending school or college live in children's homes or care homes across England and Wales, hence
135 the reason why this policy and procedure is more comprehensive than that of a traditional day school
136 or college. Our safeguarding responsibility extends beyond day education and often covers 24hrs
137 services regulated by various regulators across the UK.

138 3.6. Where we make references to schools and colleges, this also includes associated children's or care
139 homes in which children/young people live. Where we make references to children's or care homes,
140 those cover all children's/care homes including those within the children's residential care division.

141 Multi agency working – Safeguarding Partners & Children's Social Care

142 3.7. Children's Social Care - provide support to children in need of help and protection, including children
143 with disabilities. Services include statutory assessment and care planning for children at risk of
144 significant harm, provision for cared for children and care experienced young people, as well as
145 fostering and adoption services.

146 3.8. Schools and colleges have a pivotal role to play in multi-agency safeguarding arrangements.
147 Governance boards and proprietor should ensure that the school or college contributes to multi-agency
148 working in line with statutory guidance [Working Together to Safeguard Children](#).

149 3.9. Locally, the three safeguarding partners (the local authority, a clinical commissioning group for an area
150 within the local authority and the chief officer of police for an area (any part of which falls)) within the
151 local authority work together with appropriate relevant agencies to safeguard and promote the welfare
152 of local children, including identifying and responding to their needs.

153 3.10. It is especially important that schools and colleges understand their role in the three safeguarding
154 partner arrangements. Governance boards, proprietor and their senior leadership teams, especially
155 their DSLs, should make themselves aware of and follow their local arrangements.

156 3.11. The three safeguarding partners should allow all schools and colleges in the local area to be fully
157 engaged, involved and included in safeguarding arrangements. It is expected that, locally, the three
158 safeguarding partners will name schools and colleges as relevant agencies and will reach their own

159 conclusions on the best way to achieve the active engagement with individual institutions in a
160 meaningful way.

161 Child protection definition

162 3.12. Child protection is part of the safeguarding process. It focuses on protecting individual children
163 identified as suffering or likely to suffer significant harm. This includes child protection procedures,
164 which detail how to respond to concerns about a child.

165 Safeguarding definition – Working together to safeguard children 2018

166 3.13. **Safeguarding children and young people** is the action taken to promote the welfare of children and
167 protect them from harm. It means:

- 168 • Protecting children from abuse and maltreatment,
- 169 • Preventing harm to children’s health or development,
- 170 • Ensuring children grow up with the provision of safe and effective care,
- 171 • Acting to enable all children and young people to have the best outcomes.

172 Safeguarding definition – Keeping Children Safe in Education 2023

173 3.14. Safeguarding and promoting the welfare of children is everyone’s responsibility. Everyone who comes
174 into contact with children and their families has a role to play. In order to fulfil this responsibility
175 effectively, all practitioners should make sure their approach is child-centred. This means that they
176 should consider, at all times, what is in the best interests of the child.

177 3.15. Safeguarding and promoting the welfare of children is defined for the purposes of this guidance as:

- 178 • Protecting children from maltreatment,
- 179 • Preventing impairment of children’s mental and physical health or development,
- 180 • Ensuring that children grow up in circumstances consistent with the provision of
181 safe and effective care, and
- 182 • Acting to enable all children to have the best outcomes.

183 Safeguarding Adults

184 3.16. Safeguarding adults means protecting an adult’s right to live in safety, free from abuse and neglect.
185 It is about people and organisations working together to prevent and stop both the risks and experience of
186 abuse or neglect, while at the same time making sure that the adult’s wellbeing is promoted including, where
187 appropriate, having regard to their views, wishes, feelings and beliefs in deciding on any action.

188 3.17. The statutory guidance enshrines the **six principles** of adults safeguarding:

- 189
- 190 • Empowerment - presumption of person led decisions and informed consent
- 191 • Prevention - it is better to act before harm occurs
- 192 • Proportionality - proportionate and least intrusive response appropriate to the risk
193 presented
- 194 • Protection - support and representation for those in greatest need
- 195 • Partnerships - local solutions through services working with their communities
- 196 • Accountability - accountability and transparency in delivering safeguarding

197 3.18. Caretech has Safeguarding Adults at Risk (England) and Safeguarding Adults (Wales) policies and
198 procedures, which apply to its Adults’ Services. Both policies can be accessed via Rezume. Services

199 operating in Wales can find their Safeguarding Regional Boards via this hyperlink, which provides
200 access to local procedures for each Board <https://safeguardingboard.wales/find-your-board/>.

217 The difference between safeguarding and child protection

202 3.19. In relation to children's services - in practice safeguarding is the policies and practices that
203 schools/colleges/children's homes employ to keep children safe and promote their well-being. This
204 means everything from security of the buildings, to the safe recruitment of staff and everything in
205 between. **Appendix 10.** illustrates safeguarding in children's services.

216 Abuse and neglect – child and young person context

207 3.20. In the context of a child/young person, abuse and neglect are forms of maltreatment. Somebody may
208 abuse or neglect a child/young person by inflicting harm, or by failing to act to prevent harm.
209 Children/young people may be abused in a family or in an institutional or community setting, by those
210 known to them or, more rarely, by a stranger. They may be abused by an adult or adults, or another
211 child/young person or children/young people.

212 3.21. Abuse could mean neglect, physical, emotional, sexual abuse, any other including combination of
213 these. The different types of abuse are explained in more detail in **Appendix 4 – Types of abuse -**
214 **children.** The signs that someone could be a victim or an abuser have been explored in **Appendix 6**
215 and **Appendix 7.** Parents, carers and other people can harm children and young people by direct acts
216 and/or failure to provide proper care. It should also be understood that children can also be abused
217 by being sexually exploited, or subject to honour-based abuse, domestic violence, forced marriage,
218 female genital mutilation and through online social media. See **Appendix 12 - Further safeguarding**
219 **information – what everyone needs to know.**

220 3.22. In the context of an adult, abuse is a violation of a person's human and civil rights by another person
221 or persons and may result in significant harm to, or the exploitation of, the person subjected to it.

222 3.23. In addition to the types of abuse mentioned in **Appendix 4 – Types of abuse - Children,** there are other
223 forms of abuse in relation to adults explained in more detail in **Appendix 5 – Types of abuse – Adults.**

224 3.24. Abuse can happen anywhere: for example, in someone's own home, in a public place, in hospital, in
225 a care home, school or in a college. It can happen when someone lives alone or with others. Anyone
226 can carry out abuse or neglect. Abuse can be intentional or unintentional; it may be a single act or
227 repeated acts.

228 4. Purpose

229 4.1. As an organisation, we have a clear set of guidelines to make sure we deal with child protection and
230 safeguarding concerns effectively.

231 4.2. This policy is aligned with legislation outlined in **Appendix 2 – Legislation and guidance,** and it complies
232 with the statutory and best practice guidance as set out in the **25.10 Staff Safeguarding Information**
233 **Poster.** This policy complies with Southlands School's locally agreed procedures. Printed or electronic
234 copies of the Local Safeguarding Children's Partnerships (LSCP), Local Safeguarding Adults Board (LSAB)
235 or Regional Safeguarding Children's Boards (Wales) procedures are available in every setting.

236 4.3. Policies and procedures for child protection and safeguarding must be undertaken in accordance with
237 the requirements of the local authority in which the establishment is situated.

238 4.4. This policy, and supporting information in various accessible forms, is made available to all individuals,
239 staff and parents associated with Cambian Southlands School to ensure that everyone is clear on
240 procedures for ensuring the protection of children and safeguarding children and young adults.

241 4.5. This policy and procedure must be read in conjunction with **GHR 30. Whistleblowing Policy** and **GHR 11.**
242 **Staff Code of Practice and GHR 37. Code of Conduct.**

243 4.6. In addition, staff should be aware of and have access to the NSPCC whistle-blowing helpline number
244 **0800 028 0285** and the Cambian Whistleblowing service operated by **EthicsPoint** on **0800 086 9128.**

245 More information about EthicsPoint and how it can be contacted can be found in the Whistleblowing
246 policy.

247 4.7. [‘When to call the police’](#) has been produced by the National Police Chiefs Council (NPCC) to support
248 school and college staff with when it is appropriate to contact the police.

249 4.8. This NPCC advice does not cover safeguarding incidents. Where a child is suffering, or is likely to suffer
250 from harm, it is important that a referral to children’s social care (and if appropriate the police) is made
251 immediately. Referrals should follow the local referral process.

252 5. Policy

253 Safeguarding culture of the organisation

254 5.1. Cambian safeguarding culture can be best described as:

255 - **Proactive**, being professionally curious to determine further information in the interests of the
256 child. It is essential that staff exercise professional curiosity at all times, as it is likely that signs
257 of any form of abuse including neglect will be identified when dealing with an un-associated
258 incident. Having strong governance and leadership, raising awareness through and
259 enhancing children’s and young people’s capacity around the risks and their own safety,
260 regular reflective supervision).

261 - **Reactive** (taking swift actions, reducing the risk of harm to a minimum, involving other
262 professionals in timely manner, active listening, applying theory in practice in a methodical
263 way).

264 - **Reflective** (understanding ‘how we got there in the first place’, completing a reflective account
265 of events, involving other key professionals in future planning, identifying actions and further
266 changes to be made.

267 5.2. Child protection and safeguarding is everyone’s responsibility. Everyone working for or visiting our
268 locations has a responsibility to understand and implement this policy and procedure at all times.

269 5.3. All individuals in our services have a right to feel safe, secure and be protected from harm.

270 5.4. As a provider of specialist education and care services it is imperative that all staff are aware that all
271 individuals with special educational needs (SEN) and disabilities:

272 • Are more likely to be abused or neglected;

273 • May display behaviour, mood and/or injury, which may relate to possible abuse and not
274 just their SEN or a particular disability.

275 • Have a higher risk of peer group isolation.

276 • Can be disproportionately impacted by things like bullying without outwardly showing any
277 signs.

278 • Experience communication barriers and difficulties in overcoming these barriers.

279 5.5. The most common reason for children or young people being looked after is as a result of
280 abuse/neglect. We will ensure all staff have the skills, knowledge and understanding to help keep
281 children and young people safe.

282 5.6. All staff have a key role in the prevention of harm and an equal responsibility to act on any suspicion
283 or disclosure that may indicate an individual is at risk of harm, either in the school, college, and care
284 home or in the community, taking into account contextual safeguarding, see [Appendix 12 - Further](#)

285 **safeguarding information – what everyone need to know** which also contains information related to
286 safeguarding issues related to individual children and young people’s needs.

287 5.7. We have a duty to help individuals learn how to keep themselves safe and deepen their understanding
288 of safeguarding, through both formal curriculum and informal opportunities.

289 5.8. As an organisation, we acknowledge that working in partnership with other agencies protects
290 individuals and reduces risk and so we will engage in partnership, working throughout the child
291 protection process to safeguard children and will equally work through safeguarding adults’
292 procedures as directed by local procedures.

293 5.9. A comprehensive list of all supporting documentation and related policies, procedures and guidance
294 referred to in this document can be found in separate appendices at the end of this document.

295 **Divisional Safeguarding Board**

296 5.10. As an organisation Caretech children’s services operates three Divisional Safeguarding Boards:
297 Education, Residential Care and Fostering. The main purpose of each board is to ensure that all
298 services across all divisions discharge their responsibilities effectively for assuring safe and secure
299 services for children and young people, and manage all safeguarding risks appropriately within its
300 own workforce, including direct employees and also the contracted workforce (supply
301 workers/agency/contractor and subcontractors). The full terms of reference for each Board is available
302 on [Cambian Point](#).

303 **What staff should read and be aware of**

304 5.11. On the 1st September 2023 Keeping Children Safe in Education (2023) guidance replaced Keeping
305 Children Safe in Education 2022. It is essential that everybody working in a school or college
306 understands their safeguarding responsibilities. Staff who work directly with children read at least [Part](#)
307 [one](#) of this guidance. Governance Boards and proprietor (or those acting on their behalf) working with
308 their senior leadership teams and especially their designated safeguarding lead, should ensure that
309 those staff who do not work directly with children read either Part one or [Annex A](#) (a condensed version
310 of Part one) of this guidance.

311 5.12. The guidance should be read alongside:

- 312 • statutory guidance - [Working Together to Safeguard Children](#)
- 313 • departmental advice - [What to do if you are Worried a Child is Being Abused -](#)
314 [Advice for Practitioners](#) ;

315 5.13. Caretech/Cambian schools and colleges are members of the Safeguarding Network and should plan
316 how the learning from KCSIE2023 will take place with their staff. School /college’s SLT should ensure
317 that staff complete the KCSIE2023 knowledge check.

318 5.14. All staff should be aware of systems within their school or college, which support safeguarding, and
319 these should be explained to them as part of staff induction. This should include the:

- 320 - Child protection and safeguarding policy
- 321 - Behaviour Support policy
- 322 - Anti bullying policy
- 323 - Whistleblowing policy, Code of conduct and Code of Practice policy
- 324 - Missing from Care policy, local procedure for children missing from education
- 325 - Role of the DSL (including the identity of the DSL and any deputies)
- 326 - Have Access to policies and a copy of Part one of KCSIE2023
- 327 - All staff should be aware of their local early help process and understand their role in it, more
328 information can be found in [Working Together to Safeguard Children 2018](#)
329 [\(publishing.service.gov.uk\)](#).

330 5.15. All staff should be aware of the process for making referrals to children’s social care and for statutory
331 assessments under the Children Act 1989, especially section 17 (children in need) and section 47 (a

332 child suffering, or likely to suffer, significant harm) that may follow a referral, along with the role they
333 might be expected to play in such assessments.

334 5.16. Schools concerned about a child's/young person's welfare should refer their concern to local authority
335 children's social care where the school is located. If the child is placed at the school by a different LA
336 then the school will need to inform that LA as well. Where a child is suffering, or is likely to suffer from
337 harm, it is important that a referral to children's social care (and if appropriate the police) is made
338 immediately. Referrals should follow the local referral process. Children's homes/care homes should
339 follow their referral process as per their local procedure and contact Safeguarding
340 Partner/Safeguarding Board as per their local Safeguarding procedure.

341 5.17. All staff should know what to do if a child/young person/young adult tells them he/she is being
342 abused, exploited or neglected. Staff should know how to manage the requirement to maintain an
343 appropriate level of confidentiality. This means only involving those who need to be involved, such as
344 the DSL (or a deputy) and children's social care. Staff should never promise a child that they would not
345 tell anyone about a report of any form of abuse, as this might ultimately not be in the best interests of
346 the child.

347 5.18. All staff should be able to reassure victims that they are being taken seriously and that they will be
348 supported and kept safe. A victim should never be given the impression that they are creating a
349 problem by reporting any form of abuse including sexual violence and sexual harassment. Nor should
350 a victim ever be made to feel ashamed for making a report.

351 5.19. It is important to explain that the law is in place to protect children and young people rather than
352 criminalise them, and this should be explained in such a way that avoids alarming or distressing them.

353 5.20. All staff should be aware that children may not feel ready or know how to tell someone that they are
354 being abused, exploited, or neglected, and/or they may not recognise their experiences as harmful.
355 For example, children may feel embarrassed, humiliated, or being threatened. This could be due to
356 their vulnerability, disability and/or sexual orientation or language barriers. This should not prevent
357 staff from having a professional curiosity and speaking to the DSL if they have concerns about a child.
358 It is also important that staff determine how best to build trusted relationships with children and young
359 people which facilitate communication.

360 5.21. Staff should **not** assume a colleague, or another professional will act and share information that might
361 be critical in keeping children safe. They should be mindful that early information sharing is vital for the
362 effective identification, assessment, and allocation of appropriate service provision, whether this is
363 when problems first emerge, or where a child is already known to local authority children's social care
364 (such as a child in need or a child with a protection plan).

365 Whole service approach to safeguarding

366 5.22. The proprietor and service (school/college/home) leaders should ensure they facilitate a whole school
367 or college approach to safeguarding. This means ensuring safeguarding and child protection are at
368 the forefront and underpin all relevant aspects of process and policy development. Ultimately, all
369 systems, processes and policies should operate with the best interests of the child at their heart.

370 5.23. Where there is a safeguarding concern, the child's wishes and feelings must be considered when
371 determining what action to take and what services to provide. Systems should be in place, and they
372 should be well promoted, easily understood and easily accessible for children to confidently report

373 abuse, knowing their concerns will be treated seriously, and knowing they can safely express their
374 views and give feedback.

375 Children with special educational needs and disabilities or physical health issues

376 5.24. Children with special educational needs or disabilities (SEND) or certain health conditions can face
377 additional safeguarding challenges. There might be some additional barriers when recognising abuse
378 and neglect in this group of children. These can include:

379 • assumptions that indicators of possible abuse such as behaviour, mood and injury relate
380 to the child's/young person's condition without further exploration;

381 • these children/young people being more prone to peer group isolation or bullying
382 (including prejudice-based bullying) than other children/young people;

383 • the potential for children/young people with SEND or certain medical conditions being
384 disproportionately impacted by behaviours such as bullying, without outwardly showing
385 any signs; and

386 • Communication barriers and difficulties in managing or reporting these challenges.

387 5.25. SEN division and other services where children have/may have SEND should consider extra pastoral
388 support and attention for these children, along with ensuring any appropriate support for
389 communication is in place. Further information can be found in the Department's: [SEND Code of
390 Practice 0 to 25 and Supporting Pupils at School with Medical Conditions](#).

391 Virtual school heads

392 5.26. Virtual school heads manage pupil premium plus for looked after children. In maintained schools and
393 academies, the designated teacher should work with the virtual school head to discuss how funding
394 can be best used to support the progress of looked after children in the school and meet the needs
395 identified in the child's personal education plan. The designated teacher should also work with the
396 virtual school head to promote the educational achievement of previously looked after children. In other
397 schools and colleges, an appropriately trained teacher should take the lead. More information can be
398 found in [Designated teacher for looked after and previously looked after children](#) and [Promoting the
399 education of looked after and previously looked after children](#).

400 6. Procedure

401 Roles and responsibilities

402 6.1. **All employees, volunteers, consultants, agency staff, sub-contractors, partner organisations and**
403 **visitors** are obliged to follow this policy and maintain an environment that prevents exploitation and
404 abuse and which encourages reporting of breaches of this policy using the appropriate procedures.

405 6.2. **Managers at all levels** are responsible for ensuring volunteers, consultants, agency staff, sub-
406 contractors, partner organisations and visitors are aware of the policy and are supported to implement
407 and work in accordance with it, as well as creating a management culture that encourages a focus on
408 safeguarding. They must ensure that they are responsive, acting immediately if they become aware of

409 any safeguarding concerns, and supportive towards employees or volunteers who complain about
410 breaches in this policy.

411 6.3. The **Designated Safeguarding Lead (DSL)** is responsible for handling reports and/or concerns, about
412 the protection of children, young people and adults, appropriately and in accordance with the
413 procedures that underpin this policy.
414
415
416

	
Rachel Maidment	Name: Alison Priddle
Named Designated Safeguarding lead	Principal and Responsible Individual
Contact: 01590 675350	Contact: 01590 675350

417
418

419 6.4. **Our named DSL** is Rachel Maidment, and alongside her is Alison Priddle, Principal, Responsible
420 Individual, and who holds the strategic oversight of safeguarding, both of which are members of our
421 senior leadership team. The role of the DSL is to:

- 422 • Ensure this child protection and safeguarding policy and local arrangements are known,
423 understood and used appropriately by the staff.
- 424 • Act as a source of support, advice and expertise for all staff; provide support to staff to carry out
425 their safeguarding duties.
- 426 • Act as a point of contact with the Safeguarding Authority.
- 427 • Take lead responsibility for referring and managing safeguarding issues and cases, unless
428 management of a particular case is passed on to a more senior member of the organisation – see
429 section of allegations (those meeting harm threshold and those which don't meet LADO criteria).
- 430 • Liaise with staff (especially teachers, pastoral support staff, school nurses, IT technicians, senior
431 mental health leads and special educational needs coordinators (SENCOs) or the named person
432 with oversight for SEN in a college and Senior Mental Health Leads) on matters of safety and
433 safeguarding and welfare (including online and digital safety) and when deciding whether to make
434 a referral by liaising with relevant agencies so that children's needs are considered holistically.
- 435 • Liaise with the senior mental health lead and, where available, the Mental Health Support Team,
436 where safeguarding concerns are linked to mental health.
- 437 • Refer all cases of suspected abuse or allegations of abuse to the Local Safeguarding Authority (child
438 or adult) and, where appropriate, the Local Authority Designated Officer (LADO).
- 439 • Liaise with the headteacher or principal (if they are not the DSL themselves) to inform him or her of
440 issues, especially ongoing enquiries under section 47 of the Children Act 1989 and police

- 441 investigations. This should include being aware of the requirement for children to have an
442 Appropriate Adult. Further information can be found in the statutory guidance - [PACE Code C 2019](#).
- 443 • As required, liaise with the “case manager” and the local authority designated officer(s) (LADO) for
444 child protection concerns in cases which concern a staff member.
- 445 • Refer cases to the Channel programme where there is a radicalisation concern as required.
- 446 • Refer cases where a person is dismissed or left due to risk/harm to a child/young person to the
447 Disclosure and Barring Service as required; and
- 448 • Refer cases where a crime may have been committed to the police as required. [NPCC - When to](#)
449 [call the police](#) should help understand when to consider calling the police and what to expect when
450 working with the police.
- 451 • Act as a source of advice, support and expertise within the location when deciding to make a
452 referral by liaising with relevant agencies.
- 453 • Help promote educational outcomes by sharing the information about the welfare, safeguarding
454 and child protection issues that children are experiencing, or have experienced, with teachers and
455 school and college leadership staff.
- 456 • Identify staff safeguarding training needs and organise training for their staff.
- 457 • Participate in local safeguarding boards when required.
- 458 • Evaluate and contribute to high standards of safeguarding practice at the location.
- 459 • Work to ensure that the wellbeing of children and young people is in constant focus and that they
460 are guarded from harm or abuse.
- 461 • Ensure the child protection and safeguarding policy is available publicly and parents/those with
462 parental responsibility are aware of the fact that referrals about suspected abuse or neglect may
463 be made and the role of the school/college/home in this.
- 464 • Understands the relevant data protection legislation and regulations, especially The Data Protection
465 Act 2018.
- 466 6.5. More details about the role of the DSL including their availability, management of referrals, information
467 sharing, working with others, raising awareness and other can be found in [KCSIE 2023 Annex C - Role](#)
468 [of the DSL](#)
- 469 6.6. **Designated Deputy** – will act up in the absence of the DSL and compliment their ongoing work where
470 asked do to so. There are arrangements for covering the role of the DSL when Rachel Maidment is
471 unavailable. Our larger provisions such as schools and college will have an internal Safeguarding
472 Team lead by a DSL with a number of deputies where required. Our Designated Deputies are Holly
473 Stevens on (Head of Care), Jack Murphy (Deputy Head of Care/Registered Manager), Mark Gilbert

474 (Head of Education), Hayley Mussell (Admissions Manager), Holly Jeffery (DDSL/Deputy Behaviour
475 Support Lead), Lauren Stubley (Interim Deputy Head of Care)
476

Name: Hayley Mussell Contact: 01590 675350	Name: Holly Jeffery Contact: 01590 675350	Name: Lauren Stubley Contact: 01590 675350

477

478 6.7. All staff are required to be aware of and alert to the signs of abuse and neglect. All cases of suspected
479 abuse and neglect should be given the highest priority.

480 6.8. All staff will be given a personal copy of the booklet titled **25.15 Guide to Child Protection and**
481 **Safeguarding at Cambian.**

482 6.9. There is **Appendix 3. Child Protection and safeguarding flowchart procedure**, which sets out clear steps
483 to be followed when dealing with particular allegations, incidents or suspected physical injuries. Staff
484 must use the correct forms when recording and managing concerns and allegations regarding the
485 abuse of individuals. Education services must use Behaviour Watch system: Concern/Safeguarding
486 function to record concerns. Where, throughout this policy, references are made to the 'concern form'
487 this means either **25.04 Concern form** which is a word document (part of this policy) or the Behaviour
488 Watch – Concern/Safeguarding functionality where the system is being used.

Information sharing and managing the child protection file

490 6.10. **The DSL** is responsible for ensuring that child protection files are kept up to date. Information should
491 be kept confidential and stored securely. It is good practice to keep concerns and referrals in a separate
492 child protection file for each child. Schools and colleges should use the Behaviour Watch system -

493 Concern/Safeguarding function to record all concerns and to generate Safeguarding Tracking Packs
494 per child/young person as necessary.

495 6.11. Records should include:

- 496 • a clear and comprehensive summary of the concern;
- 497 • details of how the concern was followed up and resolved;
- 498 • a note of any action taken, decisions reached and the outcome

499 6.12. They should ensure the file is only accessed by those who need to see it and where the file or content
500 within it is shared, this happens in line with information sharing advice as set out in [KCSIE 2023](#) and
501 [Information sharing advice for safeguarding practitioners](#). Schools and colleges using Behaviour Watch
502 must set up their system group purposes in line with Behaviour Watch guidance. Behaviour Watch
503 'Safeguarding Group' controls who can view and report on Concern/SG slips and 'Not Safeguarding
504 Group' to restrict who can complete certain sections within the Concern/SG slips.

505 6.13. Where reasonably possible, schools and colleges hold **more than one emergency contact number for**
506 **each pupil or student**. This goes beyond the legal minimum. It is good practice to give the school or
507 college additional options to contact a responsible adult when a child missing education is also
508 identified as a welfare and/or safeguarding concern.

509 LADO referral criteria (KCSIE2023) – meeting the harm threshold

510 6.14. This is about managing cases of allegations that might indicate a person could pose a risk of harm if
511 they continue to work in regular or close contact with children in their present position, or in any capacity
512 with children in a school or college. This guidance should be followed where it is alleged that anyone
513 working in the school or college that provides education for children under 18 years of age, including
514 supply teachers, volunteers and contractors has:

- 515 • behaved in a way that has harmed a child, or may have harmed a child, and/or,
- 516 • possibly committed a criminal offence against or related to a child, and/or,
- 517 • behaved towards a child or children in a way that indicates he or she may pose a risk
518 of harm to children; and/or,
- 519 • behaved or may have behaved in a way that indicates they may not be suitable to work
520 with children

521 6.15. The harm test is explained on the [Disclosure and Barring service website on GOV.UK. Section 31\(9\) of](#)
522 [the Children Act 1989 as amended by the Adoption and Children Act 2002](#).

523 6.16. The last bullet point above includes behaviour that may have happened outside of school or college
524 that might make an individual unsuitable to work with children; this is known as transferable risk.
525 Where appropriate an assessment of transferable risk to children with whom the person works should
526 be undertaken. If in doubt, seek advice from the local authority designated officer (LADO).

527 6.17. This above information relates to members of staff, supply staff and volunteers who are currently
528 working in any school or college regardless of whether the school or college is where the alleged abuse

529 took place. Allegations against a teacher who is no longer teaching should be referred to the police.
530 Historical allegations of abuse should also be referred to the police.

531 Children potentially at greater risk of harm

532 6.18. Many children and young people in our services (education and care) have an allocated social worker
533 due to safeguarding or welfare needs.

534 6.19. Children may need this help due to abuse, neglect and complex family circumstances. A child's
535 experiences of adversity and trauma can leave them vulnerable to further harm, as well as
536 educationally disadvantaged in facing barriers to attendance, learning, behaviour and mental health.

537 6.20. Local authorities should share the fact a child has a social worker, and the DSL should hold and use
538 this information so that decisions can be made in the best interests of the child's safety, welfare and
539 educational outcomes. This should be considered as a matter of routine. There are clear powers to
540 share this information under existing duties on both local authorities and schools and colleges to
541 safeguard and promote the welfare of children.

542 6.21. Where children need a social worker, this should inform decisions about safeguarding (for example,
543 responding to unauthorised absence or missing education where there are known safeguarding risks)
544 and about promoting welfare (for example, considering the provision of pastoral and/or academic
545 support, alongside action by statutory services). Schools/colleges must follow missing from education
546 protocol agreed with their LA.

547 6.22. Children missing from education, particularly persistently, can act as a vital warning sign to a range of
548 safeguarding issues including neglect, child sexual and child criminal exploitation- particularly county
549 lines. It is important the school or college's response to children missing from education supports
550 identifying such abuse and helps prevent the risk of them going missing in the future. More information
551 can be found in [para 175 of KCSIE 2023](#)

552 Unexplained body marks

553 6.23. Whilst Individuals are in our care there may be occasions where minor injuries occur such as bruises,
554 swellings, cuts and scratches which by and large will be as a result of daily activities or for some
555 individuals as a result of self-injurious behaviour. However, all marks or physical changes must be
556 recorded appropriately using a weekly body chart. A concern form must be completed for all
557 unexplained marks and physical changes and passed to the DSL (or a deputy) along with copies of the
558 last 3 days of Daily Diary notes and Activity Records. Parents/carers and social workers should always
559 be kept informed. Concern log should be updated with concern and relevant reference number
560 provided to concern.

561 6.24. The flowchart provided in - **25.14 Guidance for Investigating Unexplained Body marks** indicates the
562 correct course of action for dealing with unexplained body marks.

563 6.25. The DSL will assign a manager to investigate the concern to ascertain the reason for the marks and if
564 no reasonable explanation can be given the DSL must contact the local Safeguarding Authority for
565 further advice and mutual conclusion as to whether the matter should be treated as a Safeguarding
566 Concern.

567 6.26. If the concern is considered to be a safeguarding concern, then safeguarding tracking pack must be
568 opened and safeguarding process followed.

569 6.27. If the concern is considered not to be a safeguarding concern, then the concern investigation outcome
570 must be shared with social worker and parents.

571 Disclosure from an Individual

572 6.28. Staff must follow the process outlined in **Appendix 3. Child Protection and safeguarding flowchart**
573 **procedure.**

574 6.29. It is important to note that children/young people may not find it easy to tell staff about their abuse
575 verbally. Children/young people can show signs or act in ways that they hope adults will notice and
576 react to. In some cases, the victim may not make a direct report. For example, a friend may make a

- 577 report or a member of school or college staff may overhear a conversation that suggests a child has
578 been harmed or a child's/young person's own behaviour might indicate that something is wrong. If
579 staff have any concerns about a child's/young person's welfare, they should act on them immediately
580 rather than wait to be told and follow the procedure described in **Appendix 3. Child Protection and**
581 **safeguarding procedure.**
- 582 6.30. In case of reports of sexual violence and sexual harassment between children and young people, these
583 are extremely complex to manage. It is essential that victims are protected, offered appropriate support
584 and every effort is made to ensure their education and care is not disrupted. It is also important that
585 other children, young people and staff are supported and protected as appropriate.
- 586 6.31. The service's initial response to a report from a child is incredibly important. How the staff respond to
587 a report can encourage or undermine the confidence of future victims of sexual violence and sexual
588 harassment to report or come forward.
- 589 6.32. If the child/young person make a disclosure - **Listen** to what they have to say and take them seriously.
590 Reassure them but do not promise to keep it a secret. Not promising confidentiality at this initial stage
591 as it is very likely a concern will have to be shared further (for example, with the DSL and Safeguarding
592 Authority) to discuss next steps. Staff should only share the report with those people who are necessary
593 in order to progress it. It is important that the victim understands what the next steps will be and whom
594 the report will be passed to.
- 595 6.33. **Reflect back**, using the child's language, being non-judgmental, being clear about boundaries and
596 how the report will be progressed, don't ask leading questions and only prompt the child where
597 necessary with open questions – where, when, what, etc. It is important to note that whilst leading
598 questions should be avoided, staff can ask children if they have been harmed and what the nature of
599 that harm was.
- 600 6.34. **Recognise** that a child is likely to disclose to someone they trust: this could be anyone on the school or
601 college staff. It is important that the person to whom the child discloses recognises that the child has
602 placed them in a position of trust. They should be supportive and respectful of the child.
- 603 6.35. **Consider** the best way of making a record of the report. Best practice is to wait until the end of the
604 report and immediately write up a thorough summary. This allows the staff member to devote their full
605 attention to the child and to listen to what they are saying. It may be appropriate to make notes during
606 the report (especially if a second member of staff is present). However, if making notes, staff should be
607 conscious of the need to remain engaged with the child and not appear distracted by the note taking.
608 Either way, it is essential a written record is made using Concern form which is part of this policy. The
609 written record must be fully completed within maximum of 24 hours of the disclosure, but verbal report
610 to the DSL must be completed within an hour from the moment of the disclosure being made.
- 611 6.36. Only recording the facts as the child presents them. The notes should not reflect the personal opinion
612 of the note taker. Staff should be aware that notes of such reports could become part of a statutory
613 assessment by Safeguarding Authority and/or part of a criminal investigation.
- 614 6.37. In cases where either a child/young person informs the staff that an act of FGM – however described
615 – has been carried out on her, or where the staff observes physical signs on a girl appearing to show
616 that an act of FGM has been carried out these situations, the police must be informed. The DSL should
617 also be informed who will trigger child protection/safeguarding procedures described in this policy. If
618 a child/young person is at immediate risk – the Police (999) must be contacted immediately. If a

619 child/young person required medical attention, follow steps identified in 'Setting priorities' section
620 below.

621 6.38. Remember, **do not**:

- 622 • Investigate the incident
- 623 • Ask leading questions
- 624 • Get the young person to repeat the disclosure over and over
- 625 • Make assumptions or offer alternative explanations
- 626 • Approach/inform the alleged abuser

627 6.39. The procedure for reporting concern is described in **Appendix 8. DSL/DSL Deputy – actions, reporting**
628 **and recording procedure.**

629 6.40. All staff know that they can contact the Local Authority direct should that be necessary. Where a
630 safeguarding issue is raised for a young adult, the matter should be dealt with by the Local
631 Safeguarding Adult Board. Where someone is over 18 but still receiving children's services, the matter
632 should be dealt with by the local Safeguarding Adult Board.

633 6.41. For allegation made against a staff member or senior managers/directors follow relevant allegations
634 procedures described later on in this policy.

635 6.42. Where contact is made with the Local Authority in which Cambian Southlands School is geographically
636 located, contact will also be made with the individual's own Local Authority and also the child/young
637 person's social worker. This will be completed by one of the members of the school/college/home's
638 safeguarding team.

639 6.43. In the case of serious harm, and/or the individual is in immediate danger the local police should be
640 informed immediately and they can take immediate protective action as necessary.

641 6.44. If a member of staff feels their concerns are not being taken seriously then they are to inform a more
642 senior manager, a Director of the Company or contact Ofsted/CQC/CIW/Estyn, the local safeguarding
643 boards, the police or the **Whistleblowing Hotline – on 0800 086 9128.**

6 Risk Assessment

645 6.45. When there has been a report of sexual violence, the DSL (or a deputy) should make an immediate risk
646 and needs assessment. Where there has been a report of sexual harassment, the need for a risk
647 assessment should be considered on a case-by-case basis. The risk and needs assessment should
648 consider:

- 649 • the victim, especially their protection and support,
- 650 • whether there may have been other victims,
- 651 • the alleged perpetrator(s); and
- 652 • all the other children, (and, if appropriate, adult students and staff) at the school or
653 college especially, and any actions that are appropriate to protect them from the alleged
654 perpetrator(s), or from future harms.
- 655 • The time and location of the incident, and any action required to make the location safer.

656 6.46. Risk assessments should be recorded (written or electronic) and should be kept under review. At all
657 times, staff should be actively considering the risks posed to all their pupils and students and put
658 adequate measures in place to protect them and keep them safe. The DSL (or a deputy) should ensure
659 they are engaging with Safeguarding Authority and specialist services as required. Where there has
660 been a report of sexual violence, it is likely that professional risk assessments by social workers and or
661 sexual violence specialists will be required. The above school or college risk assessment is not intended
662 to replace the detailed assessments of expert professionals. Any such professional assessments

663 should be used to inform the school's or college's approach to supporting and protecting their pupils
664 and students and updating their own risk assessment.

665 Following a report - what to consider

666 6.47. Important considerations will include:

- 667 • the wishes of the victim in terms of how they want to proceed. This is especially important in
668 the context of sexual violence and sexual harassment. Victims should be given as much
669 control as is reasonably possible over decisions regarding how any investigation will be
670 progressed and any support that they will be offered. This will however need to be balanced
671 with the school's or college's duty and responsibilities to protect other children;
- 672 • the nature of the alleged incident(s), including whether a crime may have been
673 committed and/or whether harmful sexual behaviour HSB has been displayed;
- 674 • the ages of the children involved;
- 675 • the developmental stages of the children involved;
- 676 • any power imbalance between the children. For example, is the alleged perpetrator(s)
677 significantly older, more mature or more confident? Does the victim have a disability or
678 learning difficulty?
- 679 • if the alleged incident is a one-off or a sustained pattern of abuse (sexual abuse can be
680 accompanied by other forms of abuse and a sustained pattern may not just be of a
681 sexual nature);
- 682 • that sexual violence and sexual harassment can take place within intimate personal
683 relationships between children/young people/adults;
- 684 • importance of understanding intra familial harms and any necessary support for siblings
685 following incidents
- 686 • are there ongoing risks to the victim, other children, adult students or school or college
687 staff; and
- 688 • other related issues and wider context, including any links to child sexual exploitation
689 and child criminal exploitation.

690 6.48. As always when concerned about the welfare of a child, all staff should act in the best interests of the
691 child. In all cases, schools and colleges should follow general safeguarding principles as set out
692 throughout this guidance. Immediate consideration should be given as to how best to support and
693 protect the victim and the alleged perpetrator(s) (and any other children involved/impacted).

694 Options to manage the report

695 6.49. It is important that schools and colleges consider every report on a case-by-case basis. When to inform
696 the alleged perpetrator(s) will be a decision that should be carefully considered. Where a report is going
697 to be made to Safeguarding Authority and/or the police, then, as a general rule, the school or college
698 should speak to the relevant agency and discuss next steps and how the alleged perpetrator(s) will be
699 informed of the allegations. However, as per general safeguarding principles, this does not and should
700 not stop the school or college taking immediate action to safeguard their children, where required.

701 6.50. There are four likely scenarios for schools and colleges to consider when managing any reports of
702 sexual violence and/or sexual harassment. It will be important in all scenarios that decisions and
703 actions are regularly reviewed and that relevant policies are updated to reflect lessons learnt. It is
704 particularly important to look out for potential patterns of concerning, problematic or inappropriate
705 behaviour. Where a pattern is identified, the school or college should decide on a course of action.
706 Consideration should be given as to whether there are wider cultural issues within the school or college

707 that enabled the inappropriate behaviour to occur and where appropriate extra teaching time and/or
708 staff training could be delivered to minimise the risk of it happening again. The four scenarios are:

- 709
- 710 • **Manage internally;** In some cases of sexual harassment, for example, one-off incidents,
711 the school or college may take the view that the children concerned are not in need of
712 early help or that referrals need to be made to statutory services and that it would be
713 appropriate to handle the incident internally, perhaps through utilising their behaviour
policy and by providing pastoral support.
 - 714 • **Early help:** In line with the above, the school or college may decide that the children
715 involved do not require referral to statutory services but may benefit from early help. Early
716 help means providing support as soon as a problem emerges, at any point in a child's
717 life. Providing early help is more effective in promoting the welfare of children than
718 reacting later. Early help can be particularly useful to address non-violent harmful sexual
719 behaviour and may prevent escalation of sexual violence. It is particularly important that
720 the DSL (and their deputies) know what the Early Help process is and how and where to
721 access support.
 - 722 • Schools and colleges, as relevant agencies, should be part of discussions with statutory
723 safeguarding partners to agree the levels for the different types of assessment and
724 services to be commissioned and delivered, as part of the local arrangements.
725 Safeguarding partners should publish a local threshold document which includes the
726 process for the local early help assessment and the type and level of early help services
727 to be provided, and DSLs (and their deputies) will need to familiarise themselves with this
728 document.
 - 729 • **Referrals to Safeguarding Authority** - where a child has been harmed, is at risk of harm,
730 or is in immediate danger, schools and colleges should make a referral to the local
731 Safeguarding Authority. At the point of referral, schools and colleges will generally
732 inform parents or carers, unless there are compelling reasons not to (if informing a
733 parent or carer is going to put the child at additional risk). Any such decision should be
734 made with the support of children's social care.
 - 735 • **Reporting to the Police** - any report to the police will generally be in parallel with a
736 referral to children's social care (as above. It is important that the DSL and their deputies)
737 are clear about the local process for referrals and follow that process.

738 **Unsubstantiated, unfounded, false or malicious reports**

739 6.51. If a report is determined to be unsubstantiated, unfounded, false or malicious, the DSL should consider
740 whether the child and/or the person who has made the allegation needs help or may have been
741 abused by someone else and this is a cry for help. In such circumstances, a referral to Safeguarding
742 authority may be appropriate.

743 6.52. If a report is shown to be deliberately invented or malicious, the school or college should consider
744 whether any disciplinary action is appropriate against the individual who made it as per their own
745 behaviour policy.

746 **Safeguarding and supporting the victim**

747 6.53. The needs and wishes of the victim should be paramount (along with protecting the child)/young
748 person in any response. It is important they feel in as much control of the process as is reasonably
749 possible. Wherever possible, the victim, if they wish, should be able to continue in their normal routine.
750 Overall, the priority should be to make the victim's daily experience as normal as possible, so that the
751 school or college is a safe space for them.

752 6.54. Consider the age and the developmental stage of the victim, the nature of the allegations and the
753 potential risk of further abuse. Schools and colleges should be aware that, by the very nature of sexual

754 violence and sexual harassment, a power imbalance is likely to have been created between the victim
755 and alleged perpetrator(s).

756 6.55. The victim should never be made to feel that they are the problem for making a report or made to feel
757 ashamed for making a report. This has been made clear throughout this policy and procedure.

758 6.56. Consider the proportionality of the response. Support should be tailored on a case-by-case basis. The
759 support required regarding a one-off incident of sexualised name-calling is likely to be vastly different
760 from that for a report of rape.

761 6.57. Services should be aware that sexual assault can result in a range of health needs, including physical,
762 mental, and sexual health problems and unwanted pregnancy. Children and young people that have
763 a health need arising from sexual assault or abuse can access specialist NHS support from a Sexual
764 Assault Referral Centre (SARC). SARCs offer confidential and non-judgemental support to victims and
765 survivors of sexual assault and abuse. They provide medical, practical, and emotional care and advice
766 to all children and adults, regardless of when the incident occurred.

767 6.58. Children and Young People's Independent Sexual Violence Advisors (ChISVAs) provide emotional and
768 practical support for victims of sexual violence. They are based within the specialist sexual violence
769 sector and will help the victim understand what their options are and how the criminal justice process
770 works if they have reported or are considering reporting to the police. ChISVAs will work in partnership
771 with schools and colleges to ensure the best possible outcomes for the victim.

772 Safeguarding and supporting the alleged perpetrator(s)

773 6.59. Advice about safeguarding and supporting the alleged perpetrators is also set out in departmental
774 advice: [Sexual violence and sexual harassment between children at schools and colleges](#). The
775 following principles are based on effective safeguarding practice and should help shape any decisions
776 regarding safeguarding and supporting the alleged perpetrator(s):

777 • The school or college will have a difficult balancing act to consider. On the one hand,
778 they need to safeguard the victim (and the wider pupil/student body) and on the other
779 hand provide the alleged perpetrator(s) with an education, safeguarding support as
780 appropriate and implement any disciplinary sanctions. Taking disciplinary action and still
781 providing appropriate support are not mutually exclusive actions. They can, and should,
782 occur at the same time if necessary.

783 • Consider the age and the developmental stage of the alleged perpetrator(s), the nature
784 of the allegations and frequency of allegations. Any child will likely experience stress as
785 a result of being the subject of allegations and/or negative reactions by their peers to the
786 allegations against them.

787 • Consider the proportionality of the response. Support (and sanctions) should be
788 considered on a case-by-case basis. The alleged perpetrator(s) may potentially have
789 unmet needs (in some cases these may be considerable) as well as potentially posing a
790 risk of harm to other children. HSB in young children may be (and often are) a symptom
791 of either their own abuse or exposure to abusive practices and or materials.

792 • It is important that the perpetrator(s) is/are also given the correct support to try to stop
793 them re-offending and to address any underlying trauma that may be causing this

794 behaviour. Addressing inappropriate behaviour can be an important intervention that
795 helps prevent problematic, abusive and/or violent behaviour in the future.

796 • Advice on behaviour and discipline in schools is clear that teachers can discipline pupils
797 whose conduct falls below the standard, which could be reasonably expected of them.
798 If the perpetrator(s) is to be excluded the decision must be lawful, reasonable and fair.

799 **Setting priorities**

800 6.60. The priority, at all stages throughout the child protection or safeguarding process, is the interests and
801 safety of the individual.

802 6.61. Where appropriate, any concerns will be discussed with the individual's family / carers and where
803 possible their agreement will be sought to making a referral to the Local Authority. However, where
804 there is a conflict of interests between the Individual and parent/guardian, the interests of the individual
805 must take priority and Cambian Southlands School reserves the right to contact the individual's local
806 authority, social care or the police, without notifying parents/carers if this is in their best interests.

807 6.62. If an urgent medical, attention or advice is required and GP/specialist doctor is not available, staff MUST
808 use the NHS 111 service. NHS 111 is available 24 hours a day, 7 days a week.

809 6.63. If the situation is life-threatening, staff must call 999 immediately and ask for an ambulance.
810 Alternatively, if it is assessed to be in the best interest of the child/young person - the DSL MUST take
811 the Individual to the Accident and Emergency Unit at the nearest hospital, having first notified the Local
812 Authority/Police, remembering that every reasonable effort should be made to inform the
813 parents/carers as soon as possible.

814 6.64. If the suspected abuse is sexual, then the medical professional must determine if the medical
815 examination should be delayed until the Local Authority and the Police can liaise with the hospital.
816 There is a possibility that the needs of the young person are such that medical attention is the priority,
817 in such case medical professional's judgment must be followed. There must at all times be an
818 appropriate adult (parent, guardian or a social worker) with the individual whether from the individual's
819 care home/school/college, the Local Authority or the Police, if the parents/carers are not included. This
820 section must be read in conjunction with our **0.29. Child Sexual Exploitation policy**.

821 6.65. Cambian will provide an advocate to each individual where appropriate, if they are unable to speak
822 for themselves without support or an Independent Mental Capacity Advocate (IMCA) if subject to the
823 Mental Capacity Act. Further information on MCA are available in our **0.13. Mental Capacity and
824 Consent policy**.

825 **Allegation of abuse by one or more Individuals on another Individual**

826 6.66. All Individuals involved, whether perpetrator or victim, are treated as being 'at risk'. The procedures
827 for dealing with such abuse will be followed, where there is 'reasonable cause to suspect that an
828 Individual is suffering or likely to suffer significant harm'. DSL must refer individual-on-individual abuse
829 including child on child/young adult on young adult or between individuals of a different age or other
830 to a Safeguarding Authority, local authority and regulator.

831 **Allegation of abuse of an Individual who is not registered at our provision – staff involved**

832 6.67. If we were given information that suggested that someone who does not reside at or attends our
833 location has been abused by one of our members of staff, the DSL would immediately report this to
834 the Local Authority and LADO. The Head of Service must be kept informed and HR Business Partner
835 consulted. Should the staff member be involved we would then formally advise the member of staff of
836 the allegation, making it clear that we would not play any part in the investigatory process. The
837 employee would be advised of the possibility of facing suspension, re-assignment to other duties (to
838 manage any perceived risks) etc., in exactly the same way as if the allegation had involved an Individual
839 at our home/school/college. However, the HR Business Partner must be consulted before any action
840 is taken. If the allegation were subsequently proved to be unfounded, he or she would be given full
841 support in resuming their career. Should we be asked by LADO/Safeguarding authority to be involved
842 in any potential investigations or parts of it, an HR Business Partner will have to be consulted first. At

843 this point, an assessment will need to be made to identify what detail (if any) can be disclosed to a
844 member of staff involved.

8 Allegation of abuse of an Individual who is not registered at our provision- third party involved

846 6.68. If we were given information that suggested that someone who does not reside at or attends our
847 location has been abused by a third party (known or unknown to the provision), the DSL would
848 immediately report this to the Local Authority and Police. The Head of Service must be kept informed.
849 DSL will follow advice provided by the leading agency and report back to the Head of Service who will
850 explore any associated risk/s in relation to the provision.

8 Allegations against staff

852 6.69. All allegations must be reported to the DSL Rachel Maidment or in their absence to a DSL Deputy – see
853 your local Safeguarding poster. In addition, where appropriate - HR Business Partner must be
854 consulted.

855 6.70. When an allegation is made against a member of staff, set procedures must be followed, see the
856 flow chart in **Appendix 3. Child Protection and safeguarding procedure (Flow chart)**.

857 6.71. Staff MUST act on every allegation; all repeated allegations must be treated as new and carefully
858 assessed and investigated. Staff who are the subject of an allegation have the right to have their case
859 dealt with fairly, quickly and consistently and to be kept informed of its progress.

860 6.72. Staff should refer to the **25.08. Guidance for staff who have the allegation made against them** provided
861 for what to do in the event an allegation is made against them.

8 Allegations against staff in Education

863 6.73. The staff in this section include teachers and TAs, supply teachers, other staff, volunteers and
864 contractors. The allegations are split into two groups:

- 865 • Allegations that may meet the harm threshold (see **LADO referral criteria**) – **meeting the**
866 **harm threshold** of this policy)
- 867 • Allegation/concerns that do not meet the harms threshold – referred in the guidance and
868 this policy as 'low - level concerns' - **Appendix 11. Low – level concerns (Education)**.

869 6.74. This is about managing cases of allegations that might indicate a person would pose a risk of harm if
870 they continue to work in regular or close contact with children in their present position, or in any capacity
871 with children in a school or college.

872 6.75. The information above relate to members of staff, supply staff, volunteers and contractors who are
873 currently working in any school or college regardless of whether the school or college is where the
874 alleged abuse took place. It is advised that in Education allegations against people listed above should
875 be referred to the Head/Principal who is often the DSL, however where the Head/Principal is not the
876 DSL, allegations against staff including supply, volunteers and contractors must be referred to the
877 Head/Principal who may liaise with the DSL. This is because the concern/allegation may align with
878 other performance or personal related issues the Head/Principal might already be aware of, whereas
879 the DSL may not be. The Principal/Head should ensure the DSL is briefed as appropriate and will then
880 decide whom the case should be led by – the DSL or themselves. Allegations against a teacher who is
881 no longer teaching should be referred **to the police** and HR Business Partner advised.

882 6.76. Where an adult makes an allegation to a school or college that they were abused as a child, the
883 individual should be advised to report the allegation to the police. Non-recent allegations made by a
884 child, should be reported to the LADO in line with the local authority's procedures for dealing with non-
885 recent allegations. The LADO will coordinate with children social care and the police. Abuse can be
886 reported no matter how long ago it happened.

887 6.77. Where a teacher's employer, including an agency, dismisses or ceases to use the services of a teacher
888 because of serious misconduct, or might have dismissed them or ceased to use their services had they
889 not left first, they must consider whether to refer the case to the Secretary of State (via the Teaching

890 Regulation Agency). Details about how to make a referral to the Teaching Regulation Agency can be
891 found on GOV.UK.

892 6.78. Schools and colleges using Behaviour Watch must ensure that concerns/allegations related to staff
893 [‘staff’ slip], are set up to be only visible to the selected group of people e.g. Head teacher/Principal or
894 the DSL or both depending on the schools/colleges internal arrangement. The same approach must
895 be applied to Real Time Notifications. As the schools’/colleges’ arrangements around who will receive
896 staff related concerns will vary between the schools/colleges, it is up to schools to ensure their
897 arrangements are considered when setting up the Concern/SG: *Staff*function.
898

899 Allegations against supply teachers and all workers supplied by agency

900 6.79. In some circumstances schools and colleges will have to consider an allegation against an individual
901 not directly employed by them, where its disciplinary procedures do not fully apply because agencies
902 will have their own policies and procedures; for example, supply teachers or contracted staff provided
903 by an employment agency or business.

904 6.80. Whilst the organisation’s schools and colleges are not the employer of supply teachers, they should
905 ensure allegations are dealt with properly. In no circumstances should a school or college decide to
906 cease to use a supply teacher due to safeguarding concerns, without finding out the facts and liaising
907 with the LADO to determine a suitable outcome. Schools and colleges must also consult the HR
908 Business Partner who may advise further. Governance boards and proprietors should discuss with the
909 supply agency or agencies where the supply teacher is working across a number of schools of
910 colleges, whether it is appropriate to suspend the supply teacher, or redeploy them to another part of
911 the school or college, whilst they carry out their investigation.

912 6.81. Agencies should be fully involved and co-operate with any enquiries from the LADO, police and/or
913 children’s social care. The school or college will usually take the lead because agencies do not have
914 direct access to children or other school of college staff, so they will not be able to collect the facts when
915 an allegation is made, nor do they have all the relevant information required by the LADO as part of
916 the referral process.

917 6.82. When using a supply agency, schools and colleges should inform the agency of its process for
918 managing allegations but also take account of the agency’s policies and investigatory process and
919 their duty to refer to the DBS as personnel suppliers. This should include inviting the agency’s human
920 resource manager or equivalent to meetings and keeping them up to date with information about its
921 policies. It is important we not blur the lines of employment, so in case there is any confusion, HR
922 Business Partner should be consulted.
923

924 Allegations against the DSL (Principal or Registered Manager or DSL as a substantive role)

925 6.83. All allegations must be reported to:

926 - Education division: Regional Education Lead Jarlath O’Brien unless within residential
927 education the Registered Manager is the DSL in which case the matter will be referred

- 928 to the Principal. For the DSL fulfilling the role as their substantive role, all allegations must
929 be reported to the Principal.
- 930 - Children’s residential care division: Regional Manager James Watson unless Regional
931 Manager is the DSL in which case the matter will be referred to the Managing Director.
- 932 6.84. Depending on the division and who is the service DSL, people notified of allegation made (see above)
933 will then refer the matter to local Safeguarding Authority/LADO and notify their line manager:
- 934 - Education division: Regional Education Lead Jarlath O’Brien or
- 935 - Managing Director for Education Chris Strong In Independent schools – the Proprietor
936 must also be notified.
- 937 - Children’s residential care division: Managing Director Graham Norris
- 938 **6.85.** The person who referred the matter to local Safeguarding Authority/LADO in line with agreed course
939 of action will decide about who will lead the case including management investigation – should the
940 allegation threshold be met. The appropriate HR Business Partner should be notified, so they can
941 advise and where required - support the investigation.
- 942 6.86. In residential education associated with children’s homes/care homes the Responsible/Nominated
943 Individual MUST also be notified.
- 944 6.87. Services using Behaviour Watch system – allegations made against the DSL or DSL Deputy who have
945 full access to the system including Concern/Safeguarding function, should not be initially entered to
946 the system, but recoded on the policy associated Concern form and Safeguarding Tracking Pack as
947 they would have been prior to implementation of the Behaviour Watch. This is to ensure that no one,
948 including those who are part of the service’s Safeguarding Team are able to see the details of their
949 own case which could have a detrimental impact on the investigation itself and the outcome of it.
950 However, once the case has been concluded, a decision should then be made about whether or not
951 the detail related to the case should be retrospectively entered in to Behaviour Watch or kept in the
952 original format. Such a decision should be made by the Case Manager, Managing Director and a
953 member of HR Team. Should a decision be made to keep it in the original format, a Concern/SG slip in
954 the Behaviour Watch must still be retrospectively opened and a note added to reflect that there was
955 an allegation made against the DSL/DSL Deputy but without specifying any further detail about the
956 character of the allegation. Instead, a reference number of the case and location of the pack related
957 to the case is provided. This action will ensure that the case has been captured in the system, which
958 will then allow the service to generate a log with accurate numbers of concerns and safeguarding
959 cases for the service.

9 Allegations against the Regional Manager/other Regional staff

- 961 6.88. Any allegations linked to the site, must be reported to the DSL of the site (In Education – the
962 Head/Principal) who will make the initial referral to local Safeguarding Authority/LADO. Following this,
963 the allegation should be passed to the identified senior person to follow through with local
964 Safeguarding Authority/LADO and subsequently act in line with agreed course of action. This means
965 that the DSL will retain the responsibility to report the initial concern, but will have no further part in the
966 process regarding gathering any information or, should it be required, in the actual investigation in
967 relation to a senior member.
- 968 6.89. Allegations not linked to specific site must be reported to Managing Director who will refer the matter
969 to local Safeguarding Authority/LADO and act in line with agreed course of action.
- 970 6.90. The appropriate HR Business Partner should be notified, so they can advise and where required -
971 support the investigation.

9 Allegations against the Operations Directors or Managing Director

- 973 6.91. Any allegations linked to the site, must be reported to the DSL of the site (In Education – the Principal)
974 who will make the initial referral to local Safeguarding Authority/LADO. Following this, the allegation
975 should be passed to the identified senior person to follow through with local Safeguarding

976 Authority/LADO and subsequently act in line with agreed course of action. This means that the DSL will
 977 retain the responsibility to report the initial concern, but will have no further part in the process
 978 regarding gathering any information or, should it be required, in the actual investigation in relation to
 979 a senior member.

980 6.92. Allegations not linked to specific site must be reported to Managing Director for Education who will
 981 refer the matter to local Safeguarding Authority/LADO and act in line with agreed course of action.

982 6.93. The Head of HR should be notified, so they can advise and where required - support the investigation.

983 **Allegations against any other Senior Leader**

984 6.94. Any allegations linked to the site, must be reported to the DSL of the site (In Education – the Principal)
 985 who will make the initial referral to local Safeguarding Authority/LADO Following this, the allegation
 986 should be passed to the identified senior person to follow through with local Safeguarding
 987 Authority/LADO and subsequently act in line with agreed course of action. This means that the DSL will
 988 retain the responsibility to report the initial concern, but will have no further part in the process
 989 regarding gathering any information or, should it be required, in the actual investigation in relation to
 990 a senior member.

991 6.95. Allegations not linked to specific site must be reported to the person’s (whom allegation is made
 992 against) line manager who will refer the matter to local Safeguarding Authority/LADO and act in line
 993 with agreed course of action.

994 6.96. The Head of HR should be notified, so they can advise and where required - support the investigation.

995 **Allegations against the Executive Head of Children’s Services**

996 6.97. Any allegations linked to the site, must be reported to the DSL of the site (In Education – the Principal)
 997 who will make the initial referral to local Safeguarding Authority/LADO. Following this, the allegation
 998 should be passed to the identified senior person to follow through with local Safeguarding
 999 Authority/LADO and subsequently act in line with agreed course of action. This means that the DSL will
 1000 retain the responsibility to report the initial concern, but will have no further part in the process
 1001 regarding gathering any information or, should it be required, in the actual investigation in relation to
 1002 a senior member.

1003 6.98. Allegations not linked to specific site must be reported to reported to Executive Director Compliance –
 1004 Amanda Sherlock who will refer the matter to local Safeguarding Authority/LADO and act in line with
 1005 agreed course of action.

1006 6.99. The Head of HR should be notified, so they can advise and where required - support the investigation.

1007 **Allegations against the Chief Executive Officer**

1008 6.100. Any allegations linked to the site, must be reported to the DSL of the site (In Education – the Principal)
 1009 who will make the initial referral to local Safeguarding Authority/LADO Following this, the allegation
 1010 should be passed to the identified senior person to follow through with local Safeguarding
 1011 Authority/LADO and subsequently act in line with agreed course of action. This means that the DSL will
 1012 retain the responsibility to report the initial concern, but will have no further part in the process
 1013 regarding gathering any information or, should it be required, in the actual investigation in relation to
 1014 a senior member.

1015 6.101. Allegations not linked to specific site must be reported to reported to Executive Director Compliance –
 1016 Amanda Sherlock who will refer the matter to local Safeguarding Authority/LADO and act in line with
 1017 agreed course of action.

1018 6.102. The Head of HR should be notified, so they can advise and where required - support the investigation.

1019 **Allegations - The initial response**

1020 6.103. Where the school or college identifies a child/young person has been harmed, that there may be an
 1021 immediate risk of harm to a child/young person or if the situation is an emergency, they should contact

- 1022 the Safeguarding Authority and as appropriate the police immediately as per the processes. There are
1023 two aspects to consider when an allegation is made:
- 1024 • **Looking after the welfare of the child** - the DSL is responsible for ensuring that the child
1025 is not at risk and referring cases of suspected abuse to the local authority children's social
1026 care as described in Part one of this guidance.
- 1027 • **Investigating and supporting the person subject to the allegation** - the case manager
1028 should discuss with the LADO, the nature, content and context of the allegation, and
1029 agree a course of action.
- 1030 6.104. When dealing with allegations, schools and colleges should:
- 1031 • apply common sense and judgement
- 1032 • deal with allegations quickly, fairly and consistently; and
- 1033 • provide effective protection for the child and support the person subject to the allegation.
- 1034 6.105. Schools and colleges should ensure they understand the local authority arrangements for managing
1035 allegations, including the contact details and what information the LADO will require when an
1036 allegation is made. Before contacting the LADO, schools and colleges should conduct basic enquiries
1037 in line with local procedures to establish the facts to help them determine whether there is any
1038 foundation to the allegation, being careful not to jeopardise any future police investigation. For
1039 example:
- 1040 • **was the individual in the school or college at the time of the allegations?**
- 1041 • **did the individual, or could they have, come into contact with the child?**
- 1042 • **are there any witnesses? and,**
- 1043 • **was there any CCTV footage?**
- 1044 6.106. These are just a sample of example questions. Services should be familiar with what initial information
1045 the LADO will require. This information can be found in local policy and procedural guidance provided
1046 by the LADO service. Any enquiries of this nature must be carefully recorded and dated so they can be
1047 shared with the HR department to support any investigation.
- 1048 6.107. When to inform the individual of the allegation should be considered carefully on a case-by-case basis,
1049 with guidance as required from the LADO, and if appropriate Safeguarding Authority and the police.
- 1050 6.108. If there is cause to suspect a child is suffering, or is likely to suffer significant harm, a strategy discussion
1051 involving the police and/or children's social care will be convened in accordance with the statutory
1052 guidance [Working Together to Safeguard Children](#).
- 1053 6.109. Where it is clear that an investigation by the police or Safeguarding Authority is unnecessary, or the
1054 strategy discussion or initial assessment decides that is the case, the LADO should discuss the next
1055 steps with the case manager (A 'case manager' will be the person leading any investigation. In most
1056 cases this will be a senior leader from outside the school/home). The LADO should be informed who

1057 will lead the investigation to ensure there is no conflict of interest or any other concerns related to the
1058 choice of the case manager.

1059 Further Action

1060 6.110. Where the initial discussion initial discussion leads to no further action, the case manager and the
1061 LADO should:

- 1062
- record the decision and justification for it; and,
- 1063
- agree on what information should be put in writing to the individual concerned and by
1064 whom.

1065 Further enquiries

1066 6.111. Where further enquiries are required to enable a decision about how to proceed, the LADO and case
1067 manager should discuss how and by whom the investigation will be undertaken. In straightforward
1068 cases, the investigation should normally be undertaken by a senior member of the school's or college's
1069 staff.

1070 6.112. Where there is a lack of appropriate resource within the school or college, or the nature or complexity
1071 of the allegation requires it, the allegation will require a senior member of the off-site team: Regional
1072 Lead (Education or Care), a Director, HR Business Partner or an independent investigator if appropriate.

1073 6.113. The case manager should monitor the progress of cases to ensure that they are dealt with as quickly
1074 as possible in a thorough and fair process. Reviews should be conducted at fortnightly or monthly
1075 intervals, depending on the complexity of the case.

1076 6.114. Wherever possible, the first review should take place no later than four weeks after the initial
1077 assessment. Dates for subsequent reviews, ideally at fortnightly intervals, should be set at the review
1078 meeting if the investigation continues. The LADO will provide advice and guidance to schools and
1079 colleges when considering allegations against adults working with children. The LADO's role is not to
1080 investigate the allegation, but to ensure that an appropriate investigation is carried out, whether that
1081 is by the police, children's social care, the school or college, or a combination of these.

1082 Suspension

1083 6.115. Suspension should not be an automatic response when an allegation is reported. All options to avoid
1084 suspension should be considered prior to taking that step. The case manager must consider carefully
1085 whether the circumstances warrant suspension from contact with children at the school or college, or
1086 until the allegation is resolved. It should be considered only in cases where there is cause to suspect a
1087 child or other children at the school or college is/are at risk of harm, or the allegation could be
1088 considered as gross or serious misconduct. Prior to any suspension, the case manager must consult
1089 with their HR Business Partner and the LADO, as well as the police and Safeguarding Authority where
1090 they have been involved. More information on suspension and associated process can be found in
1091 [KCSIE 2023 Part 4 - Suspension](#).

1092 Supporting those involved

1093 6.116. The welfare of a child/young person is paramount) and this will be the prime concern in terms of
1094 investigating an allegation against a person in a position of trust. However, when an allegation or
1095 safeguarding concern is being investigated it is likely to be a very stressful experience for the adult
1096 subject of the investigation, and potentially for the family members. It is important that an employer
1097 offers appropriate welfare support at such a time and recognises the sensitivity of the situation.
1098 Information is confidential and should not ordinarily be shared with the other staff or with children or

1099 parents who are not directly involved in the investigation. More about employer's duty of care to their
1100 employees can be found in the KCSIE2023 guidance.

1101 6.117. Staff whom allegation/s have been made against must always be supported and if suspended they
1102 will receive a support person (nominated contact), any suspension is not an indication of guilt.

1103 Allegation outcomes

1104 6.118. The definitions that should be used when schools and colleges determine the outcome of an allegation
1105 are set out below:

- 1106 • Substantiated: there is sufficient evidence to prove the allegation;
- 1107 • Malicious: there is sufficient evidence to disprove the allegation and there has been a
1108 deliberate act to deceive or cause harm to the person subject of the allegation;
- 1109 • False: there is sufficient evidence to disprove the allegation;
- 1110 • Unsubstantiated: there is insufficient evidence to either prove or disprove the allegation.
1111 The term, therefore, does not imply guilt or innocence; or
- 1112 • Unfounded: to reflect cases where there is no evidence or proper basis which supports
1113 the allegation being made.

1114 6.119. It should be noted that these definitions are available to support the decision-making process.
1115 However, in certain cases, in the absence of any substantiating evidence, the Company may still

1116 progress through the formal disciplinary procedure if there are reasonable grounds to do so, or there
1117 is a reasonable belief that an employee has committed an act of misconduct.

1118 6.120. Ultimately, the options open to the school or college depend on the nature and circumstances of the
1119 allegations and the evidence and information available. This will range from taking no further action,
1120 to dismissal or a decision not to use the person's services in future.

1121 Serious incident reporting

1122 6.121. In addition to all regulatory reporting requirements, all serious incidents will be escalated and reported
1123 as outlined in **035. SUI Part 1 – Risk Categories - Reference form and SUI Part 2 –Briefing form.**

1124 Death of someone in our care including rapid response to unexpected death

1125 6.122. In case of **unexpected death** of a child/young person/adult in Cambian services all staff to follow the
1126 rapid response, process described below:

- 1127 • Call the Ambulance and Police
- 1128 • Unless the 999 operator tells you to, do not touch the person; do not move anything
1129 around them, which may form part of forensic evidence. Police will decide about the
1130 forensic examinations and appropriate security of the scene.
- 1131 • DSL will contact Safeguarding Authority and follow the Serious Untoward Incidents (SUI)
1132 reporting procedure. The DSL will contact the Managing Director of the division they work
1133 in and verbally inform them of what happened before completing SUI Part 2.
- 1134 • DSL will contact Children's/Adults Social Care Team
- 1135 • Where there is a suicide/suspected suicide then Child & Adolescent Mental Health
1136 Services (CAMHS) should also be notified by the Safeguarding Authority.

1137 6.123. Once the above rapid steps have been taken, further steps described below must be followed.

1138 6.124. In the event of the death of an Individual in one of our homes/schools/colleges we must notify the
1139 following within 24 hours:

- 1140 • Group Executive Director Managing Director, Responsible/Nominated Individual,
1141 Regional Lead following the **35.01. Caretech Children's services SUI process.**
- 1142 • Next of kin/parents/carer of the deceased.
- 1143 • Where the death of an individual occurs in an education location the assistance of the
1144 local police and social services department should be sought in informing the
1145 parents/guardians.
- 1146 • The appropriate regulatory body: e.g. Ofsted, CQC, CIW, Estyn
- 1147 • Ministry of Justice if applicable.
- 1148 • The placing authority/authorities.
- 1149 • The local authority responsible for Social Services and Education (where the death takes
1150 place in a registered school) within whose area the education location is situated.
- 1151 • The District Health Authority within whose area the education location is situated.
- 1152 • The Department for Education, (where the death takes place in a registered school).
- 1153 • The Health and Safety Executive.

1154 Abuse of position of trust

1155 6.125. All staff are aware that inappropriate behaviour towards those in our care is unacceptable. In addition,
1156 staff should understand that, under the Sexual Offences Act 2003, it is an offence for a person over the
1157 age of 18 to have a sexual relationship with a person under the age of 18, where that person is in a
1158 position of trust, even if the relationship is consensual. This means that any sexual activity between a

1159 member of the staff and a young person under 18 may be a criminal offence, even if that young person
1160 is over the age of consent.

1161 **Visitors**

1162 6.126. All authorised visitors will be required to sign in and out, and wear a visitor or identity badge at all
1163 times. All unauthorised visitors will be challenged by staff and reported to the home
1164 manager/headteacher/principal before entry is authorised.

1165 **Volunteers**

1166 6.127. Volunteers undergo checks commensurate with their work in the home/school/college and contact
1167 with children, young people and adults i.e. if they are in regulated activity or not.

1168 **Contractors**

1169 6.128. We will check the identity of all contractors working on site and request the full range of DBS and other
1170 required checks where they work in regulated activity or unsupervised in accordance with the latest
1171 government guidance.

1172 **Use of school or college premises for non-school/college activities**

1173 6.129. Where governance boards or proprietor hire or rent out school or college facilities/premises to
1174 organisations or individuals (for example to community groups, sports associations, and service
1175 providers to run community or extra-curricular activities) they should ensure that appropriate
1176 arrangements are in place to keep children safe.

1177 **Extended school and off-site arrangements**

1178 6.130. Where extended off-site activities are provided by and managed by us, our safeguarding policy and
1179 procedures apply. If other organisations provide services or activities on our site we will check that they
1180 have appropriate policies and procedures in place, including safer recruitment procedures and clarify
1181 whose procedure is to be followed if there are concerns. There will be clear communication channels
1182 to ensure the DSL is kept appropriately informed.

1183 6.131. When our Individuals are doing off-site activities, including day and residential visits and work-related
1184 activities, we will risk assess and check that effective safeguarding arrangements are in place. The
1185 DSL will be kept appropriately informed.

1186 **Use of mobile phones**

1187 6.132. Staff must behave in accordance with the **GHR 11. Staff Code of Conduct** and Internet and social media
1188 access including **Pro 01. Mobile Telephony Policy** at all times.

1189 6.133. All computer equipment and internet access within the home/school/college is subject to 'parental
1190 controls' and internet safety rules in line with our **0. 27. E-safety policy** including internet and social
1191 media access and **0.21. Anti-bullying policy**. Staff should not use any computer for personal reasons
1192 during working hours. Staff need to help our Individuals to prepare for the dangers of the internet and

1193 social media whilst promoting the many learning and social opportunities available through the
1194 internet and social media.

1195 6.134. If staff contribute to internet blogs or access social media networking sites e.g. Facebook, they MUST
1196 neither mention Southlands School or refer to their employment at the Southlands School. Staff are
1197 advised not to communicate with parents, guardians, carers or Individuals via social networking sites

11 Photography and images

1199 6.135. This section should be read in conjunction to our **GIG 02. Data Protection policy**.

1200 6.136. The vast majority of people who take or view photographs or videos of individuals do so for entirely
1201 innocent and acceptable reasons. Sadly, some people abuse children or vulnerable young people
1202 through taking or using images, so we have some safeguards in place.

1203 6.137. To protect our children, young people or young adults we will:

- 1204 • seek their consent for photographs to be taken or published (for example, on our
1205 website or in newspapers or publications)
- 1206 • seek parental consent of consent from the Individual
- 1207 • not use their full name with an image, only their initials
- 1208 • ensure that personal data is not shared
- 1209 • store images appropriately, securely and for no longer than necessary
- 1210 • only use school equipment, i.e. not personal devices
- 1211 • encourage our children, young people and adults to tell us if they are worried about any
1212 photographs that are taken of them

12 Physical intervention and use of reasonable force

1214 6.138. All staff are encouraged to use de-escalation techniques and creative alternative strategies that are
1215 specific to each Individual and in line with **0.45 Behaviour support policy** and **0.46 Physical Intervention**
1216 **policy** and training. Restraint will only be used as a last resort and all incidents of this are reviewed,
1217 recorded and monitored.

12 Staff taking medication or other substances

1219 6.139. Staff members must not be under the influence of alcohol or any other substance, which may affect
1220 their ability to care for the individuals. If they are taking medication, they should seek medical advice
1221 and inform the Home Manager/Headteacher/Principal who will review the medical advice and take a
1222 decision as to whether they are fit for work.

1223 6.140. We only allow staff to work if medical advice confirms that their ability to look after individuals is unlikely
1224 to be impaired. Should a member of staff need to bring their medication to the home/school/college,
1225 it must be securely stored and out of reach of all children, young people and young adults. This section
1226 should be read in conjunction with our **GHR 12 Drug and Alcohol Policy**.

12 Information for individuals and relatives/carers

1228 6.141. Individuals and carers will be informed that their concerns or complaints will be taken seriously, be
1229 dealt with independently and that they will be kept involved in the process to the degree that they wish
1230 to be. They will be reassured that they will receive help and support in taking action.

1231 6.142. They will also be advised that they can nominate an advocate or representative to speak and act on
1232 their behalf if they wish. For individuals assessed as lacking capacity to make decisions about how
1233 they could be protected, an Independent Mental Capacity Advocate (IMCA) must be considered and
1234 may be appointed. They will be advised of rights to legal aid in where appropriate to victim support
1235 and compensation.

12 Recruitment and vetting

1237 6.143. Our **GHR 03. Recruitment Policy** reflects Safer Recruitment guidelines and legislation in **Appendix 2.**
1238 **Legislation and guidance** as well as carrying out further checks and precautions such as Good Conduct

1239 Certificates. HTs / Principals, DSLs and member of Recruitment team including those directly supporting
1240 schools should read Part 3 of KCSIE2023 guidance dedicated to Safer Recruitment.

1241 6.144. Each education location maintains a **Single Central Record (SCR)**. This covers all staff including supply
1242 teaching and teacher trainees, agency care staff as well as multisite managers and members of the
1243 proprietor body. This is regularly audited by the school/college SLT and available for inspection.

1244 6.145. For agency workers we obtain written confirmation that all checks have been completed, in line with
1245 safer recruitment from the employment business that is supplying the member of agency staff. All
1246 Locations must ensure that an agreement exists between the Location and the agency to confirm that,
1247 in the event of there being a disclosure on a DBS certificate, the Location will have sight of the certificate
1248 before that person can begin work at the home/school/college.

1249 6.146. All locations must check the identity of any person deemed 'supply' or 'agency' staff separately to the
1250 agency.

1251 6.147. Where other Cambian staff (e.g. care staff) work on the same site as a school they must be subject to
1252 the same recruitment regulations and procedures as the education staff.

1253 Requirements to inform Disclosure and Barring Services (DBS)

1254 6.148. The employer has a legal duty to make a referral to the DBS for consideration of whether inclusion on
1255 the barred lists is required.

1256 6.149. Services will promptly make a referral to the Disclosure and Barring Service (but no longer than one
1257 month after leaving the Location) if a person in regulated activity has been dismissed or removed due
1258 to safeguarding concerns, or would have been had they not resigned.

1259 6.150. In the case of a member of teaching staff at a school or sixth form college, the case manager must
1260 consider whether to refer the matter to the TRA to consider prohibiting the individual from teaching.

1261 6.151. Referrals to the Disclosure and Barring Service will be made for any person (whether employed,
1262 contracted (e.g. supply), a volunteer or student) whose services are no longer required because he/she
1263 is considered unsuitable to work with children and young people.

1264 6.152. This is a legal duty and failure to refer when the criteria are met is a criminal offence. More detail is
1265 provided at paragraph 179.

1266 6.153. All managers must read the group leavers policy – all referrals must be recorded with HR so they can
1267 ensure any future references are correct. The references team log referrals so this can be completed.
1268 This will apply to both: DBS and TRA.

1269 Record keeping

1270 6.154. Record keeping is an important element of safeguarding. Whenever a complaint or allegation of abuse
1271 is made, staff must keep clear and accurate records using a Concern Form.

1272 6.155. All concerns, discussions and decisions made, and the reasons for those decisions, should be recorded
1273 in writing. Information should be kept confidential and stored securely. It is good practice to keep
1274 concerns and referrals in a separate child protection file for each child. Schools/colleges using
1275 Behaviour Watch have Concern/Safeguarding function to record any concerns being raised. A report
1276 per child/young person can also be generated.

1277 6.156. Records should be factual, accurate, concise, ethical and relevant.

1278 6.157. All recording of written information should be legible and discussions with other professionals and
1279 agencies should be recorded chronologically.

1280 6.158. There will be a safeguarding section/folder for each Individual, which will hold any
1281 concerns/safeguarding documentation for that individual. At the front of each folder, there is an Index
1282 for Individual's Concerns. This is to enable the location to keep accurate records of any concerns raised

1283 regarding the individual and aid the monitoring/ reviewing of safeguarding incidents. The folders
1284 should be kept in a secure location.

1285 6.159. Each location apart from those using Behaviour Watch system will also maintain **25.07. Central Log of**
1286 **Concerns and Safeguarding** of all concerns raised at the location including the safeguarding
1287 information where the concern has escalated. Where this is held as a paper version this is to be made
1288 into a bound booklet and completed by the DSL. If kept electronically, access is to be restricted to the
1289 DSL and deputies only. In either case, this should be kept in a secure location.

1290 **Monitoring**

1291 6.160. A quality assurance cycle operates to ensure that safeguarding incidents and notifications are
1292 recorded, managed and responded to at the Location, at a regional level and at a whole divisional
1293 level, see **section 9. Accountability**. The cycle is informed by a weekly (Monday) submission of Key
1294 Performance Indicators (KPIs) using **CambianKPI** and the identification and management of
1295 safeguarding risks. A report on the position of every site in relation to their KPIs is produced every
1296 Wednesday.

1297 **Training**

1298 6.161. All staff will receive information regarding Child Protection and Safeguarding on induction. The
1299 induction introduces the new staff member to the policy, procedure and practice at the location. They
1300 will also be orientated as to where to find information regarding safeguarding including relevant
1301 posters around the location. As part of their induction all staff are required to read this policy and
1302 confirm that, they understand their role in safeguarding and protecting young people within the service
1303 they are going to work.

1304 6.162. All staff MUST complete mandatory safeguarding face to face or online training via MYRUS which must
1305 be completed as part of staff member induction and annually thereafter. This should include online
1306 safety. This is to maintain staff awareness of their responsibilities in relation to children /young
1307 people/young adult's safeguarding.

1308 6.163. Staff will not be allowed to work with individuals unless they have completed the above training. The
1309 school/college/home must check that supply/agency staff have completed basic awareness training
1310 before being allowed into contact with Individuals.

1311 6.164. Contractors and others on site who might have unsupervised access to individuals must also complete
1312 basic awareness training before being allowed to start work.

1313 6.165. The DSL will ensure that all staff receive regular updates regarding safeguarding policy, procedure and
1314 practice throughout the year. This can be undertaken in various forums: as a face-to-face or online
1315 session, staff meetings or workshops. In addition to this, safeguarding updates including various
1316 resources are provided to schools and colleges by the external Safeguarding Network.

1317 6.166. The DSL and DSL Deputies should undergo the same level of training providing them with the
1318 knowledge and skills required to carry out the role. The DSL's/DSL Deputies' training should be provided
1319 by the LA within the boundaries they operate and be refreshed at least every two years. Both should
1320 also undertake Prevent awareness training.

1321 **Confidentiality and information sharing**

1322 6.167. Information sharing is vital in identifying and tackling all forms of abuse and neglect, and in promoting
1323 child's/young person's welfare, including their educational outcomes. Schools and colleges have clear
1324 powers to share, hold and use information for these purposes. Staff should be proactive in sharing
1325 information as early as possible to help identify, assess and respond to risks or concerns about the
1326 safety and welfare of children/ young people whether this is when problems are first emerging, or
1327 where a child is already known to local authority children's social care.

1328 6.168. Where the police are involved, wherever possible the school or college should ask the police to obtain
1329 consent from the individuals involved to share their statements and evidence for use in the employer's

- 1330 disciplinary process. This should be done as their investigation proceeds and will enable the police to
1331 share relevant information without delaying the conclusion of their investigation or any court case.
- 1332 6.169. The Safeguarding authority should adopt a similar procedure when making enquiries to determine
1333 whether the child or children named in the allegation need protection or services, so that any
1334 information obtained in the course of those enquiries which is relevant to a disciplinary case can be
1335 passed to the employer without delay.
- 1336 6.170. The case manager should take advice from the LADO, police and Safeguarding Authority to agree the
1337 following:
- 1338 • who needs to know and exactly what information can be shared;
 - 1339 • how to manage speculation, leaks and gossip
 - 1340 • what, if any, information can be reasonably given to the wider community to reduce
1341 speculation; and
 - 1342 • how to manage press interest if, and when, it should arise.
- 1343 6.171. Exchange or disclose of personal information with other agencies will be completed in accordance with
1344 **GIG 02. Data Protection and GIG 09. Confidentiality Code of Practice** and all relevant legislation
1345 including the Data Protection Act 2018 and GDPR which places duty on organisations and individuals
1346 to process personal information fairly and lawfully and to keep the information they hold safe and
1347 secure.
- 1348 6.172. Information relating to individual Safeguarding cases is confidential, although some information can
1349 be shared with relevant staff. This should be done only on a 'need to know' basis.
- 1350 6.173. Governance Boards and proprietor should ensure relevant staff have due regard to the relevant data
1351 protection principles, which allow them to share (and withhold) personal information, as provided for
1352 in the Data Protection Act 2018 and the GDPR. This includes:
- 1353 • being confident of the processing conditions which allow them to store and share
1354 information for safeguarding purposes, including information which is sensitive and
1355 personal, and should be treated as 'special category personal data'.
 - 1356 • understanding that 'safeguarding of children and individuals at risk' is a processing
1357 condition that allows practitioners to share special category personal data. This
1358 includes allowing practitioners to share information without consent where there is
1359 good reason to do so, and that the sharing of information will enhance the
1360 safeguarding of a child in a timely manner but it is not possible to gain consent, it
1361 cannot be reasonably expected that a practitioner gains consent, or if to gain consent
1362 would place a child at risk.
 - 1363 • for schools, not providing pupils' personal data where the serious harm test under the
1364 legislation is met. For example, in a situation where a child is in a refuge or another
1365 form of emergency accommodation, and the serious harms test is met, they must
1366 withhold providing the data in compliance with schools' obligations under the Data

- 1367 Protection Act 2018 and the GDPR. Where in doubt schools should seek independent
1368 legal advice.
- 1369 6.174. When sharing safeguarding information regarding an individual, staff will need to consider the
1370 following:
- 1371 • Information should only be shared on a 'need to know' basis when it is in the best
1372 interests of the individual
 - 1373 • Informed consent should be obtained but, if this is not possible and other adults are at
1374 risk of abuse or neglect, it may be necessary to override the requirement
 - 1375 • Distinguish fact from opinion
 - 1376 • Ensure you are giving the right information about the right person
 - 1377 • Ensure you are sharing information securely
 - 1378 • Inform the person that the information has been shared if they were not already aware
1379 of this and if it would not create or increase risk of harm to them/others.
- 1380 6.175. The Data Protection Act 2018 and GDPR do not prevent the sharing of information for the purposes of
1381 keeping children safe. Fears about sharing information must not be allowed to stand in the way of the
1382 need to safeguard and promote the welfare and protect the safety of children.
- 1383 6.176. Further details on information sharing can be found in:
- 1384 • Chapter one of [Working Together to Safeguard Children](#), which includes a myth-
1385 busting guide to information sharing
 - 1386 • Information Sharing: [Advice for Practitioners Providing Safeguarding Services to
1387 Children, Young People, Parents and Carers](#). The seven golden rules for sharing
1388 information will be especially useful
 - 1389 • [The Information Commissioner's Office \(ICO\)](#), which includes ICO GDPR FAQs and
1390 guidance from the department
 - 1391 • [Data protection: toolkit for schools](#) - Guidance to support schools with data protection
1392 activity, including compliance with the GDPR.
- 1393 6.177. The following wording is to be added to any covering letter where we are sharing documentation:
1394 "The material contained in this letter and its enclosures are confidential to Cambian Group and the
1395 persons named within the documentation. The documentation is delivered only in accordance with a
1396 perceived legal obligation to make the documentation available and upon the strict understanding that
1397 the recipient and all members of the recipient's staff will undertake to preserve confidentiality and not
1398 in any way share the documentation or any details of the information therein contained with any other
1399 party. Any person receiving this information who breaches these obligations of confidentiality will be

1400 held strictly responsible and will be expected to indemnify Cambian Group and any persons named
1401 within the documentation against any losses that may arise as a result of misuse of this material”.

1402 6.178. If in doubt, the DSL or deputies must liaise with the company Caldicott Guardian. The contact details
1403 for the Caldicott Guardian at our location is Dr Vishelle Kamath, Group Medical Director

1404 6.179. Failure to follow this policy and local procedure may result in disciplinary action.

1405 **Complaints and Monitoring**

1406 6.180. All complaints arising from the operation of this policy will be considered under the **0.22 complaints**
1407 **procedure**, with reference to the our Designated Safeguarding Officer who is Rachel Maidment (DSL)
1408 and Hampshire Safeguarding Children’s Board

1409 **7. Accountability**

1410 7.1. Rachel Maidment is the DSL at Cambian Southlands School and has lead responsibility for protecting
1411 and safeguarding children, young people and young adults and liaising with the local authority and
1412 other local agencies as appropriate. This includes young person protections, referrals, raising
1413 awareness, training, allocating resources and supporting/directing staff within the Location. In all
1414 matters, relating to young person protection and safeguarding Southlands School will follow the
1415 procedures outlined in this policy.

1416 7.2. The content and effective implementation of policy and procedures are subject to routine monitoring
1417 by the Head of Service. Our Managing Director, Jeremy Wiles will undertake a full annual review of the
1418 content and effective application of this policy and associated procedures. The date for the next
1419 scheduled review is set out on page 2. The policy will be reviewed earlier in accordance with changes
1420 in legislation, regulatory requirements or as a result of best practice guidance.

1421 7.3. Safeguarding at a strategic level is overseen by Amanda Sherlock - the Group Executive Director
1422 Compliance, who will support and promote the development of initiatives to improve the prevention,
1423 identification and response to abuse and neglect. As the Director accountable for safeguarding, she is
1424 also responsible for reporting on safeguarding and providing executive leadership.

1425 7.4. Managers - are responsible for ensuring that staff are aware of this policy and offer support to those
1426 reporting abuse. It is important to recognise that dealing with situations involving abuse and neglect
1427 can be stressful and distressing for staff.

1428 7.5. Regulated professionals - Staff governed by professional regulation (for example, social workers,
1429 doctors, allied health professionals and nurses) should understand how their professional standards
1430 and requirements underpin their organisational roles to prevent, recognise and respond to abuse and
1431 neglect.

1432 7.6. All staff are responsible for identifying and responding to allegations of abuse. Staff at operational level
1433 need to share a common view of what types of behaviour may be abuse or neglect and what should
1434 be an initial response to suspicion or allegation of abuse or neglect.

1435 7.7. All staff **MUST** make sure that they have familiarised themselves with their local multi-agency
1436 safeguarding policy as this policy is designed to complement rather than replace the multi-agency
1437 policies which define the local practice that must be followed.

1438 7.8. In the event that the DSL or DSL Deputy are on leave or away from the Location and not contactable
1439 alternative arrangements must be put in place, cascaded to staff and displayed so staff can access
1440 contact names and details if required.

1441 **8. Further Safeguarding information – what everyone needs to know** 1442 **(Appendix 12)**

1443 8.1. All staff should have an awareness of safeguarding issues that can put children at risk of harm.
1444 Behaviours linked to issues such as drug taking and or alcohol misuse, deliberately missing education
1445 and consensual and non-consensual sharing of nudes and semi-nudes images and/or videos can be

1446 signs that children are at risk. Other safeguarding issues such as child on child/young adult on young
1447 adult abuse staff should be aware of are explored in the **Appendix 12. Further Safeguarding**
1448 **information – what everyone needs to know.**

1614

1615 **Appendix 4: Types of abuse – children**

1616 • **Abuse:** a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm
 1617 or by failing to act to prevent harm. Children may be abused in a family or in an institutional or
 1618 community setting by those known to them or, more rarely, by others. Abuse can take place wholly
 1619 online, or technology may be used to facilitate offline abuse. Children may be abused by an adult or
 1620 adults or by another child or children

1621 • **Physical abuse:** a form of abuse, which may involve hitting, slapping, shaking, throwing, poisoning,
 1622 burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical
 1623 harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces,
 1624 illness in a child.

1625 • **Emotional abuse:** the persistent emotional maltreatment of a child such as to cause severe and
 1626 adverse effects on the child’s emotional development. It may involve conveying to a child that they are
 1627 worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It
 1628 may include not giving the child opportunities to express their views, deliberately silencing them or
 1629 ‘making fun’ of what they say or how they communicate. It may feature age or developmentally
 1630 inappropriate expectations being imposed on children. These may include interactions that are beyond
 1631 a child’s developmental capability as well as overprotection and limitation of exploration and learning,
 1632 or preventing the child participating in normal social interaction. It may involve seeing or hearing the
 1633 ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children
 1634 frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of
 1635 emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

1636 • **Sexual abuse:** Sexual abuse may involve physical contact, including assault by penetration (for
 1637 example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching
 1638 outside of clothing. They may also include non-contact activities, such as involving children in the
 1639 production of sexual images, forcing children to look at sexual images or watch sexual activities,
 1640 encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for
 1641 abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males. Women can
 1642 also commit acts of sexual abuse, as can other children. The sexual abuse of children by other children
 1643 or young adults by other young adults or between individuals of different age is a specific safeguarding
 1644 issue in education and all staff should be aware of it and of their school or colleges policy and
 1645 procedures for dealing with it.

1646 • **Child Sexual Exploitation and Child Criminal Exploitation** are forms of abuse that occur where an
 1647 individual or group takes advantage of an imbalance in power to coerce, manipulate or deceive a child
 1648 into taking part in sexual or criminal activity, in exchange for something the victim needs or wants,
 1649 and/or for the financial advantage or increased status of the perpetrator or facilitator and/or through
 1650 violence or the threat of violence. CSE and CCE can affect children, both male and female and can
 1651 include children who have been moved (commonly referred to as trafficking) for the purpose of
 1652 exploitation Child Sexual Exploitation does not always involve physical contact; it can also occur through
 1653 the use of technology.

1654 • **Neglect:** the persistent failure to meet a child’s basic physical and/or psychological needs, likely to
 1655 result in the serious impairment of the child’s health or development. Neglect may occur during
 1656 pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent
 1657 or carer failing to: provide adequate food, clothing and shelter (including exclusion from home or
 1658 abandonment); protect a child from physical and emotional harm or danger; ensure adequate
 1659 supervision (including the use of inadequate care-givers); or ensure access to appropriate medical care
 1660 or treatment. It may also include neglect of, or unresponsiveness to, a child’s basic emotional needs.

1661 • **Online abuse** - abuse that is facilitated using internet-connected technology. It may take place through
 1662 social media, online games or other channels of digital communication. Children can also be re-
 1663 victimised if evidence of their abuse is recorded or uploaded online. Technology can facilitate a number
 1664 of illegal abusive behaviours including, but not limited to: harassment; stalking; threatening behaviour;
 1665 child sexual abuse material; inciting a child to sexual activity; sexual exploitation; grooming; sexual
 1666 communication with a child; and, causing a child to view images or watch videos of a sexual act. Using
 1667 technology to facilitate any of the above activities is online abuse. Alongside those illegal activities that
 1668 are perpetrated online and constitute abuse, children may also be exposed to online harms, such as

1669 inappropriate behaviours or content online. For instance, children may be bullied online by other
 1670 children/young people/young adults they know/others who they don't know or they might, either
 1671 accidentally or intentionally, view content, which is intended for adults. Both online abuse and exposure
 1672 to unsuitable content or behaviour can have a long-lasting impact on the wellbeing of children and
 1673 young people.

1674 **Appendix 5: Types of abuse - adults**

- 1675 • **Physical abuse** - assault, hitting, slapping, punching, kicking, hair-pulling, biting, pushing, rough
 1676 handling, scalding and burning, physical punishments, inappropriate or unlawful use of restraint,
 1677 making someone purposefully uncomfortable, involuntary isolation or confinement, misuse of
 1678 medication, forcible feeding or withholding food, unauthorized restraint, restricting movement.
- 1679 • **Honour based abuse** - encompasses Incidents/crimes which have been committed to protect/defend
 1680 the honour of the family and/or the community including female genital mutilation (FGM), forced
 1681 marriage and practices such as breast ironing. Abuse committed in the context of preserving "honour"
 1682 often involves a wider network of family or community pressure and can include multiple perpetrators.
 1683 It is important to be aware of this dynamic and additional risk factors when deciding what form of
 1684 safeguarding action to take. All forms of HBA are abuse (regardless if the motivation) and should be
 1685 handled and escalated as such. Professionals in all agencies, individuals and groups in relevant
 1686 communities, need to be alert to the possibility of a child being at risk of HBA, or already having suffered
 1687 HBA.
- 1688 • **Domestic violence or abuse** – this type of abuse can be characterised by any of the indicators of abuse
 1689 outlined in this briefing relating to: psychological, physical, sexual financial, emotional. Domestic
 1690 violence and abuse include any incident or pattern of incidents of controlling, coercive or threatening
 1691 behaviour, violence or abuse between those aged 16 or over who are or have been, intimate partners
 1692 or family members regardless of gender or sexuality.
- 1693 • **Sexual abuse** - Rape, attempted rape or sexual assault, inappropriate touch anywhere, non-
 1694 consensual masturbation of either or both persons, non- consensual sexual penetration or attempted
 1695 penetration of the vagina, anus or mouth, any sexual activity that the person lacks the capacity to
 1696 consent to, inappropriate looking, sexual teasing or innuendo or sexual harassment, sexual
 1697 photography or forced use of pornography or witnessing of sexual acts, Indecent exposure.
- 1698 • **Psychological or emotional abuse** - Enforced social isolation and/or preventing someone accessing
 1699 services, educational and social opportunities and seeing friends, removing mobility or communication
 1700 aids or intentionally leaving someone unattended when they need assistance, preventing someone
 1701 from meeting their religious and cultural needs, preventing the expression of choice and opinion, failure
 1702 to respect privacy, preventing stimulation, meaningful occupation or activities, intimidation, coercion,
 1703 harassment, use of threats, humiliation, bullying, swearing or verbal abuse, addressing a person in a
 1704 patronising or infantilising way, threats of harm or abandonment, cyber bullying.
- 1705 • **Financial or material abuse** - Theft of money or possessions, scamming, preventing a person from
 1706 accessing their own money, benefits or assets, employees taking a loan from a person using the
 1707 service, undue pressure, duress, threat or undue influence put on the person in connection with loans,
 1708 wills, property, inheritance or financial transactions, arranging less care than is needed to save money
 1709 to maximise inheritance, denying assistance to manage/monitor financial affairs, denying assistance
 1710 to access benefits, misuse of personal allowance in a care home, misuse of benefits or direct payments
 1711 in a family home, someone moving into a person's home and living rent free without agreement or
 1712 under duress, false representation, using another person's bank account, cards or documents,
 1713 exploitation of a person's money or assets, e.g. unauthorised use of a car, misuse of a power of
 1714 attorney, deputy, appointee ship or other legal authority.
- 1715 • **Modern slavery** – Human trafficking, forced labour, domestic servitude, sexual exploitation, such as
 1716 escort work, prostitution and pornography, debt bondage – being forced to work to pay off debts that
 1717 realistically they never will be able to.
- 1718 • **Discriminatory abuse** - Unequal treatment based on age, disability, gender reassignment, marriage
 1719 and civil partnership, pregnancy and maternity, race, religion and belief, sex or sexual orientation
 1720 (known as 'protected characteristics' under the Equality Act 2010). Verbal abuse, derogatory remarks
 1721 or inappropriate use of language related to a protected characteristic, denying access to
 1722 communication aids, not allowing access to an interpreter, signer or lip-reader, harassment or
 1723 deliberate exclusion on the grounds of a protected characteristic, denying basic rights to healthcare,

- 1724 education, employment and criminal justice relating to a protected characteristic, substandard service
1725 provision relating to a protected characteristic.
- 1726 • **Organisational or institutional abuse** - Discouraging visits or the involvement of relatives or friends, run-
1727 down or overcrowded establishment, authoritarian management or rigid regime, lack of leadership
1728 and supervision, insufficient staff or high turnover resulting in poor quality care, abusive and
1729 disrespectful attitudes towards people using the service, inappropriate use of restraints, lack of respect
1730 for dignity and privacy, failure to manage residents with abusive behaviour, not providing adequate
1731 food and drink, or assistance with eating, not offering choice or promoting independence, misuse of
1732 medication, failure to provide care with dentures, spectacles or hearing aids, not taking account of
1733 individuals' cultural, religious or ethnic needs, failure to respond to abuse appropriately, interference
1734 with personal correspondence or communication, failure to respond to complaints.
 - 1735 • **Neglect or acts of omission** - Failure to provide or allow access to food, shelter, clothing, heating,
1736 stimulation and activity, personal or medical care, providing care in a way that the person dislikes,
1737 failure to administer medication as prescribed, refusal of access to visitors, not taking account of
1738 individuals' cultural, religious or ethnic needs, not taking account of educational, social and recreational
1739 needs, ignoring or isolating the person, preventing the person from making their own decisions,
1740 preventing access to glasses, hearing aids, dentures, etc., failure to ensure privacy and dignity.
 - 1741 • **Self-neglect** -The Care Act 2014 statutory guidance for adults includes self-neglect in the categories of
1742 abuse or neglect relevant to safeguarding adults with care and support needs. In some circumstances,
1743 where there is a serious risk to the health and wellbeing of an individual, it may be appropriate to raise
1744 self-neglect as a safeguarding concern. However, interventions for self-neglect are usually more
1745 appropriate under the parts of the Care Act dealing with assessment, planning, information and
1746 advice, and prevention.
1747
1748
1749
1750
1751

1750 Appendix 6: Signs that someone could be a victim

1753 Physical abuse

- 1754 • No explanation for injuries or an inconsistent account of what happened
- 1755 • Injuries that don't seem likely, given the person's lifestyle
- 1756 • Bruising, cuts, welts, burns, marks on the body or loss of hair in clumps
- 1757 • Frequent injuries
- 1758 • Unexplained falls
- 1759 • Subdued or changed behaviour in the presence of a particular person
- 1760 • Signs of malnutrition (not having enough to eat)
- 1761 • Failure to seek medical treatment or frequent changes of GP

1762 Sexual abuse

- 1763 • Bruising, particularly to the thighs, buttocks and upper arms and marks on the neck
- 1764 • Torn, stained or bloody underclothing
- 1765 • Bleeding, pain or itching in the genital area
- 1766 • Unusual difficulty in walking or sitting
- 1767 • Foreign bodies in genital or rectal openings
- 1768 • Infections, unexplained genital discharge, or sexually transmitted diseases
- 1769 • Pregnancy in a child or young person who cannot consent to sexual intercourse
- 1770 • Using unexpectedly explicit sexual language
- 1771 • Major changes in sexual behaviour or attitude
- 1772 • Incontinence not to do with a medical condition
- 1773 • Self-harming
- 1774 • Poor concentration, withdrawal, sleep disturbance
- 1775 • Excessive fear of or withdrawal from relationships
- 1776 • Fear of receiving help with personal care
- 1777 • Not wanting to be alone with a particular person

1778 Psychological or emotional abuse

- 1779 • An air of silence when a particular person is present
- 1780 • Withdrawal or change in the psychological state of the person
- 1781 • Insomnia (not sleeping)
- 1782 • Low self-esteem
- 1783 • Uncooperative and aggressive behaviour
- 1784 • A change of appetite, weight loss or gain
- 1785 • Signs of distress: tearfulness, anger
- 1786 • Apparent false claims by someone involved with the person, to attract unnecessary treatment

1787 Neglect and acts of omission

- 1788 • Poor environment – dirty or unhygienic
- 1789 • Poor physical condition and/or personal hygiene
- 1790 • Pressure sores or ulcers
- 1791 • Malnutrition or unexplained weight loss
- 1792 • Untreated injuries and medical problems
- 1793 • Inconsistent or reluctant contact with medical and social care organizations
- 1794 • A build-up of medication that hasn't been taken
- 1795 • Uncharacteristic failure to engage in social interaction

1796 Unsuitable clothing or not enough clothes

1797

1798 **Domestic abuse**

- 1799 • becoming anxious or depressed
- 1800 • having difficulty sleeping
- 1801 • complaining of physical symptoms such as tummy aches
- 1802 • starting to wet their bed
- 1803 • behaving as though they are much younger than they are
- 1804 • having problems with school
- 1805 • becoming aggressive or they may internalise their distress and withdraw from other people
- 1806 • having a lowered sense of self-worth
- 1807 • older children may begin to play truant or start to use alcohol or drugs
- 1808 • they beginning to self-harm by taking overdoses or cutting themselves

1809

1810 **Child on Child/Young adult on young adult abuse/between individuals of different age**

- 1811 • absence from school or disengagement from school activities
- 1812 • physical injuries
- 1813 • mental or emotional health issues
- 1814 • becoming withdrawn – lack of self esteem
- 1815 • lack of sleep
- 1816 • alcohol or substance misuse
- 1817 • changes in behavior
- 1818 • inappropriate behavior doe age
- 1819 • abusive towards others

Appendix 7: Signs that someone could be an abuser

- 1849 • Using restraint when it's not needed
- 1850 • Having favourites
- 1851 • Giving treats, presents or money to certain people without permission from a manager
- 1852 • Finding ways to spend time with a particular child, young person or young adult, perhaps by working longer hours or giving up free time
- 1853
- 1854 • Finding ways to spend time alone with a particular child, young person or young adult , for example in a car or somewhere else
- 1855
- 1856 • Inviting a particular child, young person or young adult at risk to their own house without permission from a manager
- 1857
- 1858 • Being over-friendly with a child, young person or young adult's parents or guardians without permission from a manager
- 1859
- 1860 • Taking photos of the child, young person or young adult that aren't for work purposes
- 1861 • Trying to make private contact with a particular child, young person or young adult , including by text, email, mobile phone, online or in letter
- 1862
- 1863 • Finding ways to have physical contact, like play-fighting or tickling
- 1864 • Keeping collections of toys or other items that might attract children or people at risk
- 1865 • Controlling behaviour
- 1866 • Narcissistic characteristics
- 1867 • Bullying
- 1868 • Being forced into a sexual act
- 1869 • Humiliation
- 1870 • Constant yelling and shouting
- 1871 • The threat or use of violence
- 1872 • Destroying personal items
- 1873 • Limiting contact with family, friends and work colleagues
- 1874 • Checking up on your whereabouts
- 1875 • Accusing the child/young person (the victim), of committing the abuse when it is the other way around.

1893

1894

1895 **Appendix 8: DSL/DSL Deputy, Head/Principal (if the concern/allegation is related to staff) – actions, reporting**
1896 **and recording procedure**

- 1897 • Staff notifies the DSL /Head/Principal of their concern as soon as it is possible but no later than within
1898 1 hour from the moment of disclosure/report from the child/young person/other person completes and
1899 passes the Concern form as soon as it is possible, but no later than 24hrs from the moment of
1900 disclosure/report. If the DSL is unavailable, passes it on to the DSL Deputy. In Education, if the concern
1901 is related to the staff and the Head/Principal is not available, staff must report their concern to the DSL
1902 instead, so there is no delay in reporting of the concern. The DSL will then liaise with the Head/Principal
1903 to agree on the next step. Services using Behaviour Watch: staff must report their concern verbally
1904 before completing the Concern/Safeguarding slip in the system.
- 1905 • DSL/DSL Deputy or Head/Principal (depending on who will lead on the case) enters the concern details
1906 on the **25.07. Central Log of Concerns and Safeguarding** and inserts the concern reference number on
1907 the Concern Form. Services using Behaviour Watch – DSL/DSL Deputy or Head/Principal reviews the
1908 concern and decides on the next step which may lead to Safeguarding Tracking Pack being opened
1909 (Safeguarding Tracking Pack is built as part of the concern slip should the case proceed to
1910 safeguarding).
- 1911 • If it is deemed to be a child protection/safeguarding (children and adults) matter the DSL/DSL Deputy
1912 or Head/Principal will then also additionally allocate the next sequential Safeguarding Reference
1913 number on the **25.07. Central Log of Concerns and Safeguarding**, write this number on the Concern
1914 form and immediately (or at least within one hour of receiving the concern form, make a referral to the
1915 local Safeguarding Authority and the Local Authority Designated Officer (LADO) where required, to
1916 discuss the allegation and agree a course of action. DSL/DSL Deputy or Head/Principal using the
1917 Behaviour Watch system will progress to the next stage – Safeguarding part of the concern/SG slip
1918 which is only accessible to the Safeguarding Team.
- 1919 • If the local Safeguarding Authority/LADO confirms that they do not consider the matter to be a
1920 safeguarding concern, then the date and time of the contact is recorded on the Concern Form and on
1921 the Central Log of Concerns and Safeguarding and it is marked as a Safeguarding Level 1 – Initial
1922 Informal Investigation. The Head of Service/Head/Principal/DSL/DLS Deputy **MUST** ensure that a
1923 member of their Senior Management Team is assigned to look into the concern. The review must be
1924 recorded and outcomes shared with the people involved. Feedback from the review session **MUST** be
1925 provided to local Safeguarding Authority/LADO. Services using the Behaviour Watch system will follow
1926 the same set of steps apart from populating the Central Log of Concerns and Safeguarding as the log
1927 can be generated by the system using chosen filtering criteria.
- 1928 • It is important to allocate a Safeguarding reference on the log even if no further action needs to be
1929 taken. This diligent approach will ensure a clear historic record of contact with local Safeguarding
1930 Authority/LADO for any matter which is deemed by the DSL to be of concern and has been raised with
1931 the local Safeguarding Authority/LADO whichever appropriate.
- 1932 • If the local Safeguarding Authority/LADO confirms that the matter is a safeguarding concern and that
1933 it requires investigation either at internal or external level then a **25.05 Safeguarding Tracking pack**
1934 must be opened with the next sequential Safeguarding Reference included on the form and details as
1935 such entered on the central log.
- 1936 • Services using the Behaviour Watch system – where a concern progresses to Safeguarding Tracking
1937 Pack being opened, a one record will be created including the original concern, with the whole
1938 document having the same slip number.
- 1939 • Services which don't use Behaviour Watch or where the concern/allegation is about the Head/Principal
1940 or the DSL who have access to BW: Copy of **25.05 Safeguarding Tracking Pack** (initially with completed
1941 sec. 1-5) should be submitted to the **Responsible/Nominated Individual and** in day schools - **Regional**
1942 **Education Manager** as a follow up to the initial reporting telephone contact. STP must be sent again to
1943 **Responsible/Nominated Individual and Regional Education Manager** on completion, providing
1944 detailed overview of the actions taken and the final outcome. Services using the Behaviour Watch will
1945 be able to trigger live notification to the Regional Manager (Education/Care), Responsible/Nominated
1946 Individual and Registered Manager – where appropriate. The **Responsible/Nominated Individual and**

- 1947 **Regional Education Manager** in day schools will update relevant Directors. This original form will be
1948 saved in the Safeguarding file/Behaviour Watch – Concern/SG module.
- 1949 • In the case of serious harm, and/or the child/young person or young adult is in immediate danger the
1950 local Police should be informed immediately as well and they can take immediate protective action as
1951 necessary.
- 1952 • If the matter is a more general concern then ensure that the ‘Action Taken’ log on the concern form is
1953 completed and the form is filed within the Safeguarding file. Either way the form must be signed by
1954 the DSL/DSL Deputy or Head/Principal. Services using the Behaviour Watch system can use
1955 Concern/Safeguarding ‘Other’ slip to record concerns which are not related to children/young people,
1956 staff or children/young people and staff.
- 1957 • The relevant concern form should be referenced in the Individual’s **25.01 Index form for Individual**
1958 **concern/safeguarding file** and the site’s **25.07 Central Log of Concerns and Safeguarding**. Services
1959 using Behaviour Watch will be able to filer information per chosen criteria and also generate reports
1960 per each child/young person in the school, college, children’s or care homes.
- 1961 • All information relating to the Safeguarding concern is recorded on the **25.05 Safeguarding Tracking**
1962 **Pack /Behaviour Watch Concern/SG module**.
- 1963 • The Safeguarding Concern will remain open until local Safeguarding Authority/LADO have confirmed
1964 in writing that the concern is closed and Responsible/Nominated Individual and Regional Education
1965 Manager in day schools has signed the Safeguarding tracking pack to confirm that the investigation is
1966 completed in full and can be closed. **The Safeguarding will remain open until both elements of sign-**
1967 **off have been completed.** Once the Safeguarding tracking Pack is signed, it **MUST** be filed in the
1968 **Safeguarding file.**
- 1969 • If it is believed that the Individual is in imminent danger urgent advice should be sought from the Local
1970 Authority and/or the police. The individual can be kept in their care home or on the school/college site
1971 fully supported (e.g. if they are a day student) if advised to do so.
- 1972 • The parent/carers should be informed and a decision should be made with the Local Authority and the
1973 Police about what action is to be taken and whom by.
- 1974 • If the DSL/DSL Deputy or Head/Principal is unsure about what the Individual has said or what has been
1975 said by others they can phone the Local Authority to discuss concerns. To do so would not constitute
1976 an abuse referral but may help to clarify the situation but they must record all details of any
1977 conversation and advice received on a concern form. He/she can then move to a formal referral or
1978 actively monitor the situation.
- 1979 • The local Safeguarding Authority/LADO will oversee any subsequent investigation of any suspicion or
1980 allegation of abuse directed against anyone working within the establishment. The establishment
1981 **MUST** not internally investigate any allegations of abuse without first taking instruction from the local
1982 Safeguarding Authority/LADO.
- 1983 • Once agreed by local Safeguarding Authority/LADO that the provider can commence the internal
1984 management investigation (level 2), the investigation process will commence.
- 1985 • Once agreed by local Safeguarding Authority/LADO that the investigation will be completed by the
1986 external agency (level 3), Head of Service/Head/Principal /DSL/DSL Deputy will take appropriate steps
1987 to assist the external agency to ensure the investigation is completed without a delay.
- 1988 • Registered Manager **MUST** notify relevant regulator by submitting specific statutory notification within
1989 the time frame specified by their regulator. This is regardless of who leads on the investigation and
1990 whether or not the investigation has been concluded.
- 1991 • If as the result of an investigation there has been a substantiated allegation against a member of staff,
1992 we will work with the local Safeguarding Authority/LADO to determine whether there are any
1993 improvements to be made to our safeguarding policy, procedures and practice to prevent similar

1994 events in the future. Also, we will work with our internal Human Resources department and may
1995 commence proceedings under **GHR 27. Disciplinary policy and procedure.**

- 1996
- We will co-operate entirely with any investigation carried out by the Local Authority and/or the Police.
- 1997 Records are kept of all conversations as part of the investigation process and made available as
1998 required.

2169

2170 **Appendix 11. Low – level concerns (Education)**

2171 9.1. As part of their whole school or college approach to safeguarding, schools and colleges should ensure
2172 that they promote an open and transparent culture in which all concerns about all adults working in or
2173 on behalf of the school or college (including supply teachers, volunteers and contractors) are dealt with
2174 promptly and appropriately.

2175 9.2. The term ‘low-level’ concern does not mean that it is insignificant. A low-level concern is any concern
2176 – no matter how small, and even if no more than causing a sense of unease or a ‘nagging doubt’ -
2177 that an adult working in or on behalf of the school or college may have acted in a way that:

2178 • is inconsistent with the staff code of conduct, including inappropriate conduct outside of work
2179 and

2180 • does not meet the harm threshold or is otherwise not serious enough to consider a referral to
2181 the LADO.

2182 Examples of such behaviour could include, but are not limited to:

2183 • being over friendly with children

2184 • having favourites

2185 • taking photographs of children on their mobile phone, contrary to school policy

2186 • engaging with a child on a one-to-one basis in a secluded area or behind a closed door, or

2187 • humiliating pupils.

2188 **Sharing Low - level concerns**

2189 9.3. Schools must have their site procedure for sharing low-level concerns which is clear, easy to
2190 understand and implement.

2191 9.4. Whether all low-level concerns are shared initially with the DSL (or other nominated person for example
2192 DSL deputy or with the head teacher/principal is a matter for the school or college to decide. If the
2193 former, then the DSL/DSL Deputy should inform the head teacher/principal of all the low-level concerns
2194 and in a timely fashion according to the nature of each particular low-level concern. **The head
2195 teacher/principal should be the ultimate decision maker in respect of all low-level concerns**, although
2196 it is recognised that depending on the nature of some low-level concerns and/or the role of the DSL in
2197 some schools/colleges, the head teacher/principal may wish to consult with the DSL and take a more
2198 collaborative decision-making approach. Some schools’ or college’s Head teacher/Principal is also the
2199 DSL in which case all low – level concerns should be reported to them or other nominated person for
2200 example DSL Deputy).

2201 9.5. Low-level concerns which are shared about supply staff and contractors should be notified to their
2202 employers, so that any potential patterns of inappropriate behaviour can be identified.

2203 9.6. If schools and colleges are in any doubt as to whether the information which has been shared about
2204 a member of staff as a low-level concern in fact meets the harm threshold, they should consult with
2205 their LADO.

2206 9.7. Schools and colleges should ensure they create an environment where staff are encouraged and feel
2207 confident to self-refer, where, for example, they have found themselves in a situation which could be
2208 misinterpreted, might appear compromising to others, and/or on reflection they believe they have
2209 behaved in such a way that they consider falls below the expected professional standards.

2210 9.8. Creating a culture in which all concerns about adults (including allegations that do not meet the harms
2211 threshold are shared responsibly and with the right person, recorded and dealt with appropriately, is
2212 critical. If implemented correctly, this should encourage an open and transparent culture; enable

2213 schools and colleges to identify concerning, problematic or inappropriate behaviour early; minimise
2214 the risk of abuse; and ensure that adults working in or on behalf of the school or college are clear
2215 about professional boundaries and act within these boundaries, and in accordance with the ethos and
2216 values of the institution.

2217 **Responding to low - level concerns**

2218 9.9. If the concern has been raised via a third party, the head teacher/principal (or a nominated deputy)
2219 should collect as much evidence as possible by speaking:

- 2220 • directly to the person who raised the concern, unless it has been raised anonymously, and
- 2221 • to the individual involved and any witnesses.

2222 9.10. The information collected will help them to categorise the type of behaviour and determine what further
2223 action may need to be taken. This information needs to be recorded in writing along with the rationale
2224 for their decisions and action taken.

2225 **Recording low - level concerns**

2226 9.11. All low-level concerns should be recorded in writing. The Concern/Safeguarding slip in Behaviour
2227 Watch should be completed, as this is the place to record all concerns being raised. The record should
2228 include details of the concern, the context in which the concern arose, and action taken. The name of
2229 the individual sharing their concerns should also be noted, if the individual wishes to remain
2230 anonymous then that should be respected as far as reasonably possible.

2231 9.12. Records should be reviewed so that potential patterns of concerning, inappropriate, problematic or
2232 concerning behaviour can be identified. Where a pattern of such behaviour is identified, the school or
2233 college should decide on a course of action, either through its disciplinary procedures or where a
2234 pattern of behaviour moves from a low-level concern to meeting the harm threshold, in which case it
2235 should be referred to the LADO.

2236 9.13. Consideration should also be given to whether there are wider cultural issues within the school or
2237 college that enabled the behaviour to occur and where appropriate policies could be revised, or extra
2238 training delivered to minimise the risk of it happening again.

2239 9.14. It is for schools and colleges to decide how long they retain such information, but it is recommended
2240 that it is retained at least until the individual leaves their employment.
2241

2242 **Appendix 12. Further Safeguarding information – what everyone needs to know**

2243 **Contextual safeguarding**

2244 9.15. Contextual Safeguarding is ‘an approach to understanding, and responding to, young people’s
2245 experiences of significant harm beyond their families. It recognises that the different relationships that
2246 young people form in their neighbourhoods, schools, colleges, children’s/care homes and online can
2247 feature violence and abuse. Parents and carers have little influence over these contexts, and young
2248 people’s experiences of extra-familial abuse can undermine parent-child relationships. Therefore,
2249 children’s social care practitioners need to engage with individuals and sectors who do have influence
2250 over/within extra- familial contexts, and recognise that assessment of, and intervention with, these
2251 spaces are a critical part of safeguarding practices. Contextual Safeguarding, therefore, expands the
2252 objectives of child protection systems in recognition that young people are vulnerable to abuse in a
2253 range of social contexts.

2254 9.16. All staff should be aware that safeguarding incidents and/or behaviours can be associated with factors
2255 outside the school or college and/or can occur between children outside of these environments. All
2256 staff, but especially the DSL (and deputies) should consider whether children are at risk of abuse or
2257 exploitation in situations outside their families. Extra-familial harms take a variety of different forms and
2258 children can be vulnerable to multiple harms including (but not limited to) sexual exploitation (including
2259 harassment and exploitation), domestic abuse in their own intimate relationships (teenage relationship
2260 abuse), criminal exploitation, and serious youth violence, county lines and radicalisation. Further
2261 advice is provided in the [Home Office’s Preventing youth violence and gang involvement](#) and its
2262 [Criminal exploitation of children and vulnerable adults: county lines guidance](#).

2263 9.17. All staff should be aware that technology is a significant component in many safeguarding and
2264 wellbeing issues. Children are at risk of abuse and other risks online as well as face-to-face. In many
2265 cases abuse and other risks will take place concurrently both online and offline. Children can also
2266 abuse other children online, this can take the form of abusive, harassing, and misogynistic/misandrist
2267 messages, the non-consensual sharing of indecent images, especially around chat groups, and the
2268 sharing of abusive images and pornography, to those who do not want to receive such content.

2269 9.18. Children’s social care assessments should consider where children are being harmed in contexts
2270 outside the home (family home, children’s/care home), so it is important that schools, colleges and
2271 children’s/care homes provide as much information as possible as part of the referral process. This will
2272 allow any assessment to consider all the available evidence and enable a contextual approach to
2273 address such harm. More information about Contextual safeguarding can be found on [NSPCC website](#).

2274 9.19. We will consider the various factors that have an interplay with the life of any child/young person about
2275 whom we have concerns within the setting and the level of influence that these factors have on their
2276 ability to be protected and remain free from harm particularly when it comes to child exploitation or
2277 criminal activity.

2278 9.20. Whilst this term applies to this specific definition, the notion of considering a child/young person within
2279 a specific context is also important. What life is like for e.g. day/part time/38 weeks student outside the
2280 school, college, children’s/care home gates, within their family home when they visit (children attending
2281 residential education), within the family (day students) and within the community (extracurricular off
2282 site activities, events, groups and clubs) are key considerations when the DSL is looking at any
2283 concerns.

2284 **Bullying**

2285 9.21. Our approach to bullying is set out in a separate **0.21. Anti – bullying policy and procedure**
2286 acknowledges that to allow or condone bullying may lead to consideration under child protection
2287 procedures. Bullying is a safeguarding matter that if left unresolved can become a child protection

2288 matter. Our settings take seriously any bullying concerns and both investigate and act to protect
2289 Individuals where appropriate.

2290 **Child on child/young adults on young adult/ between children of different age's abuse**

2291 9.22. Boarding schools, residential special schools, residential colleges and children's homes and care
2292 homes for young adults attending education (FE colleges) have additional factors to consider with
2293 regard to safeguarding. Schools and colleges that provide such residential accommodation and/or
2294 are registered as children's homes should be alert to signs of abuse in such settings (for example,
2295 inappropriate pupil or student relationships and the potential for the abuse between individuals of the
2296 same/similar age or different age, particularly in schools and colleges where there are significantly
2297 more girls than boys or vice versa) and work closely with the host local authority and, where relevant,
2298 any local authorities that have placed their children there. All residential setting within the Organisation
2299 children's service will continuously maintain their communication with the internal and external
2300 Education providers to ensure the additional factors are being considered and any concerns shared in
2301 a timely manner and with the right people.

2302 9.23. All staff should be aware that children can abuse other children/young adults can abuse other young
2303 adults and that the abuse can also take place between individuals of different age and that it can
2304 happen both inside and outside of school/college/children's/care home and online. It is important that
2305 all staff recognise the indicators and signs of the abuse and know how to identify it and respond to
2306 reports. In some schools, colleges, children's / care homes site – based or regional members of therapy
2307 teams might need to be involved and support the SLT to identify the most effective ways of
2308 communication with the child/young adult who may have potentially been the victim of child on
2309 child/young adult on young adult/ between individuals of different age abuse and who instigated it.

2310 9.24. It must be recognised that children and young people would require varied approaches and
2311 communication mechanisms to be present and available so they can report abuse. Children must be
2312 regularly reassured that their concern/reports will be treated seriously every time they report it.

2313 9.25. Children needs to be told what will happen from the moment their concern is shared, so the lack of
2314 knowledge of what may happen next will not prevent them from sharing their concern/s in the future.
2315 Children need to know that that their concerns will be investigated and dealt with. Child's/young
2316 person's preference in terms of how feedback should be provided must be taken into consideration so
2317 this can be planned for in advance.

2318 9.26. The communication with each individual throughout the process of child on child/young adult on young
2319 adult or between individuals of different age investigation must be regular, proportionate and take
2320 place using suitable communication.

2321 9.27. In [Ofsted review of sexual abuse in schools and colleges](#), young people stated that some of them didn't
2322 receive timely and appropriate support from the school/college, hence the communication and support
2323 must become one of the critical points of a significant priority to those responding to and those

- 2324 managing child on child/young adult on young adult/between individuals of different age abuse cases
2325 including those of a sexual nature. Other consideration for all providers were:
- 2326
 - to assume it is happening here and plan accordingly
 - 2327
 - work on and strengthen the whole school, college, children's/care home approach to
 - 2328 developing a safeguarding culture
 - 2329
 - to ensure staff model respectful behaviour
 - 2330
 - to ensure children and young people are clear about acceptable and unacceptable behaviour
 - 2331
 - to ensure children/young people are confident to ask for help
 - 2332
 - to ensure carefully planned and implemented RSHE curriculum
 - 2333
 - to ensure the behavioural approach with sanctions & interventions for poor behaviour
 - 2334
 - to have mechanisms to support students who need it in the way they need it
 - 2335
 - to ensure staff have access to suitable training & that there is clear expectation for staff and
 - 2336 Managers
 - 2337
 - to ensure pupil's voice in heard and responded to
 - 2338
 - to ensure DSLs have some protected time to engage with local safeguarding partners and
 - 2339 LADOs, so those relationships can be strengthened.
 - 2340
 - to ensure staff follow the guidance in Keeping Children Safe in Education
 - 2341
 - 2342 9.28. All staff should understand that even if there are no reports in their schools or colleges it does not mean
2343 it is not happening, it may be the case that it is just not being reported. As such, it is important if staff
2344 have any concerns regarding child on child/young adult on young adult abuse or abuse between
2345 individuals of different age, they should speak to their DSL (or deputy).
 - 2346 9.29. The Organisation has zero - tolerance approach to any type of abuse including sexual violence and
2347 harassment. Staff must NOT take the view that it doesn't not happen in their setting.
 - 2348 9.30. The Organisation recognises that it is more likely that girls will be victims and boys' perpetrators, but
2349 that all types of abuse between children of the same, similar of different ages is unacceptable and will

2350 be taken seriously. It is essential that all victims are reassured that they are being taken seriously and
2351 that they will be supported and kept safe.

2352 9.31. Abuse between individuals of the same, similar or different age is most likely to include, but may not
2353 be limited to:

2354

- 2355 • bullying (including cyberbullying, prejudice-based and discriminatory bullying);
- 2356 • abuse in intimate personal relationships between peers
- 2357 • physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical
2358 harm (this may include an online element which facilitates, threatens and/or encourages physical
2359 abuse)
- 2360 • sexual violence, such as rape, assault by penetration and sexual assault; (this may include an online
2361 element which facilitates, threatens and/or encourages sexual violence). For further information
2362 about sexual violence see [Part 5 of KCSIE 2023 and Annex B](#)
- 2363 • sexual harassment, such as sexual comments, remarks, jokes and online sexual harassment, which
2364 may be standalone or part of a broader pattern of abuse; For further information about sexual
2365 harassment see [Part 5 of KCSIE 2023 and Annex B](#)
- 2366 • causing someone to engage in sexual activity without consent, such as forcing someone to strip,
2367 touch themselves sexually, or to engage in sexual activity with a third party
- 2368 • consensual and non-consensual sharing of nudes and semi nudes' images and or videos (also
2369 known as sexting or youth produced sexual imagery). For more information about this read UKCIS
2370 guidance: [Sharing nudes and semi-nudes advice for education settings](#).
- 2371 • Upskirting which typically involves taking a picture under a person's clothing without their permission,
2372 with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the
2373 victim humiliation, distress or alarm; and

2374 9.32. initiation/hazing type violence and rituals (this could include activities involving harassment, abuse or
2375 humiliation used as a way of initiating a person into a group and may also include an online element)

2376 9.33. Staff must be clear as to the school/college's/home's procedures with regards to child on child/young
2377 adult on young adult abuse, abuse between individuals of different age and the important role they
2378 have to play in preventing it and responding where they believe a child may be at risk from it.

2379 9.34. All Individuals will be provided with safeguarding information in a format, which is appropriate for their
2380 understanding and communication. This may take the form of posters or a leaflet/booklet.

2381 9.35. All contact behaviours that have a sexual nature to them such as pushing or rubbing against, grabbing
2382 bottoms, breasts or genitals, pinching or flicking bras, lifting skirts or pulling down trousers will be
2383 challenged by staff and appropriate levels of action, which may include disciplinary action will be taken.
2384 This is to ensure children/young people and staff are clear that these behaviours will not be tolerated
2385 or acceptable. However, it is critical to state that some children with cognitive impairment may not be
2386 able to fully understand how children on the receiving end of such behaviour may feel, therefore staff
2387 will work with each of the children affected by the situation in order to enhance their understanding of
2388 the seriousness of their behaviour, so any behaviour of such nature in the future can be prevented.

2389

Serious violence

2390 9.36. All staff should be aware of the indicators, which may signal children are at risk from, or are involved
2391 with serious violent crime. These may include increased absence from school, a change in friendships
2392 or relationships with older individuals or groups, a significant decline in performance, signs of self-
2393 harm or a significant change in wellbeing, or signs of assault or unexplained injuries. Unexplained gifts
2394 or new possessions could also indicate that children have been approached by, or are involved with;
2395 individuals associated with criminal networks or gangs and may be at risk of criminal exploitation.

2396 9.37. All staff should be aware of the range of risk factors which increase the likelihood of involvement in
2397 serious violence, such as being male, having been frequently absent or permanently excluded from
2398 school, having experienced child maltreatment and having been involved in offending, such as theft or

- 2399 robbery. Advice for schools and colleges is provided in the Home Office’s Preventing youth violence
2400 and gang involvement and its [Preventing youth violence and gang involvement](#).
- 2401 9.38. Sexual violence and sexual harassment can occur between two or more children of any age and sex,
2402 from primary through to secondary stage and into college. It can occur also through a group of children
2403 sexually assaulting or sexually harassing a single child or group of children. Sexual violence and sexual
2404 harassment exist on a continuum and may overlap; they can occur online and face-to-face (both
2405 physically and verbally) and are never acceptable. Schools and colleges should be aware of the
2406 importance of:
- 2407 • making clear that there is a zero-tolerance approach to sexual violence and sexual
2408 harassment that it is never acceptable, and it will not be tolerated. It should never be passed
2409 off as “banter”, “just having a laugh”, “a part of growing up” or “boys being boys”. Failure to
2410 do so can lead to a culture of unacceptable behaviour, an unsafe environment and in worst-
2411 case scenarios a culture that normalises abuse, leading to children accepting it as normal and
2412 not coming forward to report it.
 - 2413 • recognising, acknowledging, and understanding the scale of harassment and abuse and that
2414 even if there are no reports it does not mean it is not happening, it may be the case that it is
2415 just not being reported.
 - 2416 • challenging physical behaviour (potentially criminal in nature) such as grabbing bottoms,
2417 breasts and genitalia, pulling down trousers, flicking bras and lifting up skirts. Dismissing or
2418 tolerating such behaviours risks normalising them.
- 2419 9.39. Sexual violence and sexual harassment between children can occur between two children of **any age**
2420 **and sex from primary to secondary stage and into colleges. It can also occur online.** It can also occur
2421 through a group of children sexually assaulting or sexually harassing a single child or group of children.
- 2422 9.40. Children who are victims of sexual violence and sexual harassment will likely find the experience
2423 stressful and distressing. This will, in all likelihood, adversely affect their educational attainment and
2424 will be exacerbated if the alleged perpetrator(s) attends the same school or college or lives in the same
2425 children’s/care home. Sexual violence and sexual harassment exist on a continuum and may overlap;
2426 they can occur online and face to face (both physically and verbally) and are never acceptable. All staff
2427 working with children are advised to maintain an attitude of ‘it could happen here’.
- 2428 9.41. It is essential that all victims are reassured that they are being taken seriously and that they will be
2429 supported and kept safe. **A victim should never be given the impression that they are creating a**
2430 **problem by reporting sexual violence or sexual harassment.** Nor should a victim ever be made to feel
2431 ashamed for making a report.
- 2432 9.42. Reports of sexual violence and sexual harassment are extremely complex to manage. It is essential
2433 that victims are protected, offered appropriate support and every effort is made to ensure their
2434 education is not disrupted. It is also important that other children, adult students and school and college
2435 staff are supported and protected as appropriate.
- 2436 9.43. There is support available for schools and colleges. [Part 5 of KCSIE 2023 p110](#) provides detailed
2437 information and links to resources.
- 2438 9.44. Staff should be aware that some groups are potentially more at risk. Evidence shows girls, children
2439 with special educational needs and disabilities (SEND) and LGBT children are at greater risk.
- 2440 9.45. The fact that a child or a young person may be LGBT is not in itself an inherent risk factor for harm.
2441 However, children who are LGBT can be targeted by other children. In some cases, a child who is

- 2442 perceived by other children to be LGBT (whether they are or not) can be just as vulnerable as children
2443 who identify as LGBT.
- 2444 9.46. Risks can be compounded where children/young people who are LGBT lack a trusted adult with whom
2445 they can be open. It is therefore vital that staff endeavour to reduce the additional barriers faced, and
2446 provide a safe space for them to speak out or share their concerns with members of staff.
- 2447 9.47. LGBT inclusion is part of the statutory [Relationships Education, Relationship and Sex Education and](#)
2448 [Health Education](#) curriculum and there is a range of support available to help schools counter
2449 homophobic, biphobic and transphobic bullying and abuse.
- 2450 9.48. Children's sexual behaviour exists on a wide continuum, from normal and developmentally expected
2451 to inappropriate, problematic, abusive and violent. Problematic, abusive and violent sexual behaviour
2452 is developmentally inappropriate and may cause developmental damage. An umbrella term for these
2453 types of behaviour are often referred to as "**harmful sexual behaviour**". The term has been widely
2454 adopted in child protection. Harmful sexual behaviour can occur online and/or offline and can also
2455 occur simultaneously between the two. Harmful sexual behaviour should be considered in a child
2456 protection context.
- 2457 9.49. Situations where children/young people are forced or coerced into sexual activity by peers or
2458 associates can be related with gang / serious youth violence activity but that is not always the case.
2459 Peer influence or peer pressure is a major factor in the decisions made by young people to join
2460 particular groups. Many young people see it as a "way out" from their day-to-day life and feel a strong
2461 bond with their peers, one which they may be lacking at home. Examples of peer-on-peer abuse
2462 including sexualised online bullying include:
- 2463 • **Racist and Religious Bullying** - a range of hurtful behaviour, both physical and
2464 psychological, that makes a person feel unwelcome, marginalised, excluded,
2465 powerless or worthless because of their colour, ethnicity, culture, faith community,
2466 national origin or national status.
 - 2467 • **Sexual, Sexist Bullying** - any behaviour, whether physical or non-physical, where
2468 sexuality or gender is used as a weapon by boys or girls, this may also include any of
2469 the following:
 - 2470 - spreading rumors about someone's alleged sex life
 - 2471 - using offensive terms to describe a person
 - 2472 - inappropriate touching or attempts to do so
 - 2473 - non-consensual sharing of sexual images and videos
 - 2474 - unwanted sexual comments and messages, including those on social media
 - 2475 - any sexual exploitation, coercion and threats
 - 2476 - sexual assault and rape
 - 2477 • **Upskirting** - taking a picture under a person's clothing without their permission and /or
2478 knowledge, with the intention of viewing their genitals or buttocks (with or without
2479 underwear) to obtain sexual gratification, or cause the victim humiliation, distress or
2480 alarm. It is a criminal offence. Anyone of any gender, can be a victim The Voyeurism
2481 Offences Act, which was commonly known as the Upskirting Bill, was introduced on 21
2482 June 2018. It came into force on 12 April 2019.
 - 2483 • **Transphobic bullying** - is based on fear, hatred, disbelief, or mistrust of people who are
2484 transgender, thought to be transgender, or whose gender expression doesn't conform

- 2485 to traditional gender roles. Transphobia can prevent transgender and gender
2486 nonconforming people from living full lives free from harm.
- 2487 • **Homophobic Bullying** - targets someone because of their sexual orientation (or
2488 perceived sexual orientation);
 - 2489 • **Disablist Bullying** - targets a young person solely based on their disability. This can
2490 include manipulative bullying where a perpetrator forces the victim to act in a certain
2491 way, or exploiting a certain aspect of the victim's disability.
 - 2492 • **Prejudice based and discriminatory bullying** - Prejudice is an unjustified or incorrect
2493 attitude (usually negative) towards an individual based solely on the individual's
2494 membership of a social group. For example, a person may hold prejudiced views
2495 towards a certain race or gender etc. (e.g. sexist).
 - 2496 • **Discrimination** is the behaviour or actions, usually negative, towards an individual or
2497 group of people, especially on the basis of sex/race/social class.
- 2498 9.50. Definitions related to sexual violence and sexual harassment can be accessed via [KCSIE 2023 Part 5:](#)
2499 [Child on child sexual violence and harassment](#)
2500 What staff should do if they have concerns about the child/young person
- 2501 9.51. Staff working with children/young people are advised to maintain an attitude of 'it could happen here'
2502 where safeguarding is concerned. When concerned about the welfare of a child/young person, staff
2503 should always act in the best interests of the child/young person
- 2504 9.52. If staff have any concerns about a child's/young person welfare, they should act on them immediately
2505 by following this procedure and reporting their concern to the DSL/DSL Deputy.
- 2506 **Opportunities to teach safeguarding**
- 2507 9.53. Schools/colleges must ensure that their staff undergo regular updated safeguarding training, including
2508 online safety and for children to be taught about how to keep themselves and others safe, including
2509 online, that safeguarding training for staff, including online safety training, is integrated, aligned and
2510 considered as part of the whole school or college safeguarding approach and wider staff training and
2511 curriculum planning.
- 2512 9.54. It should be recognised that effective education will be tailored to the specific needs and vulnerabilities
2513 of individual children/young people, including those who are victims of abuse, and children/young
2514 people with special educational needs or disabilities.
- 2515 9.55. Whilst considering the above training requirements, governance boards and proprietor should have
2516 regard to the [Teachers' Standards](#) which set out the expectation that all teachers manage behaviour
2517 effectively to ensure a good and safe educational environment and requires teachers to have a clear
2518 understanding of the needs of all pupils.
- 2519 9.56. Schools and colleges play a crucial role in preventative education. Preventative education is most
2520 effective in the context of a whole-school or college approach that prepares pupils and students for life
2521 in modern Britain and creates a culture of zero tolerance for sexism, misogyny/misandry, homophobia,
2522 biphobic and sexual violence/harassment.
- 2523 9.57. Schools should consider all of this as part of providing a broad and balanced curriculum (colleges may
2524 cover relevant issues through tutorials). This may include covering relevant issues for schools through
2525 Relationships Education (for all primary pupils) and Relationships and Sex Education (for all secondary
2526 pupils) and Health Education (for all pupils in state-funded schools). The statutory guidance can be
2527 found here: [Statutory guidance: relationships education relationships and sex education \(RSE\) and
2528 health education.](#)
- 2529 9.58. The Department has produced a one-stop page for teachers on GOV.UK, which can be accessed here:
2530 [Teaching about relationships sex and health](#). This includes teacher-training modules on the RSHE topics

- 2531 and non-statutory implementation guidance. The following resources plus many more listed in [Annex](#)
2532 [B](#), may also help schools and colleges understand and teach about safeguarding:
- 2533 • DfE advice for schools: [teaching online safety in schools](#);
 - 2534 • UK Council for Internet Safety (UKCIS)³² guidance: [Education for a connected world](#);
 - 2535 • UKCIS guidance: [Sharing nudes and semi-nudes: advice for education settings working](#)
2536 [with children and young people](#);
 - 2537 • The UKCIS [external visitors guidance](#) will help schools and colleges to ensure the
2538 maximum impact of any online safety sessions delivered by external visitors;
 - 2539 • National Crime Agency's CEOP education programme: [Thinkuknow](#);
 - 2540 • LGFL '[Undressed](#)' provided schools advice about how to teach young children about
2541 being tricked into getting undressed online in a fun way without scaring them or
2542 explaining the motives of sex offenders.
 - 2543 • Public Health England: [Every Mind Matters](#)
 - 2544 • [Harmful online challenges and online hoaxes](#) - this includes advice on preparing for any
2545 online challenges and hoaxes, sharing information with parents and carers and where
2546 to get help and support.
- 2547 9.59. Whilst it is essential that governance boards and proprietor ensure that appropriate filters and
2548 monitoring systems are in place, they should be careful that "over blocking" does not lead to
2549 unreasonable restrictions as to what children can be taught with regard to online teaching and
2550 safeguarding
- 2551 9.60. As schools and colleges increasingly work online, it is essential that children are safeguarded from
2552 potentially harmful and inappropriate online material. Whilst it is essential that governance boards and
2553 proprietor ensure that appropriate filters and monitoring systems are in place, they should be careful
2554 that "over blocking" does not lead to unreasonable restrictions as to what children can be taught with
2555 regard to online teaching and safeguarding
- 2556 **Online safety**
- 2557 9.61. It is essential that children are safeguarded from potentially harmful and inappropriate online material.
2558 An effective whole school and college approach to online safety empowers a school or college to
2559 protect and educate pupils, students, and staff in their use of technology and establishes mechanisms
2560 to identify, intervene in, and escalate any concerns where appropriate.
- 2561 9.62. The breadth of issues classified within online safety is considerable, but can be categorised into four
2562 areas of risk which we'll refer to as 4Cs later on:
- 2563 • **content:** being exposed to illegal, inappropriate or harmful content, for example:
2564 pornography, fake news, racism, misogyny, self-harm, suicide, anti-Semitism,
2565 radicalisation and extremism.
 - 2566 • **contact:** being subjected to harmful online interaction with other users; for example: peer
2567 to peer pressure, commercial advertising and adults posing as children or young adults
2568 with the intention to groom or exploit them for sexual, criminal, financial or other
2569 purposes'.
 - 2570 • **conduct:** personal online behaviour that increases the likelihood of, or causes, harm; for
2571 example, making, sending and receiving explicit images (e.g. consensual and non-

2572 consensual sharing of nudes and semi-nudes and/or pornography, sharing other
2573 explicit images and online bullying; and

2574 • **commerce** - risks such as online gambling, inappropriate advertising, phishing and or
2575 financial scams. If you feel your pupils, students or staff are at risk, please report it to the
2576 Anti-Phishing Working Group <https://apwg.org/>

2577 9.63. Schools and colleges should ensure online safety is a running and interrelated theme whilst devising
2578 and implementing policies and procedures. This will include considering how online safety is reflected
2579 as required in all relevant policies and considering online safety whilst planning the curriculum, any
2580 teacher training, the role and responsibilities of the DSL and any parental engagement.

2581 **Online safety policy**

2582 9.64. Online safety and the school or college's approach to it should be reflected in the child protection policy.
2583 Considering the 4Cs (above) will provide the basis of an effective online policy. The school or college
2584 should have a clear policy on the use of mobile and smart technology. Amongst other things this will
2585 reflect the fact many children have unlimited and unrestricted access to the internet via mobile phone
2586 networks (i.e. 3G, 4G and 5G). This access means some children, whilst at school or college, sexually
2587 harass their peers via their mobile and smart technology, share indecent images: consensually and
2588 non-consensually (often via large chat groups), and view and share pornography and other harmful
2589 content. Schools and colleges should carefully consider how this is managed on their premises and
2590 reflect in their mobile and smart technology policy and their child protection policy.

2591 9.65. Information and support available to schools and colleges to keep children safe online can be found
2592 in [Part 2 and Annex B of KCSIE 2023](#).

2593 **Remote Learning**

2594 9.66. The DfE has provided advice to support schools and colleges to help keep pupils, students and staff
2595 safe whilst learning remotely, [safeguarding in schools colleges and other providers](#) and [safeguarding](#)
2596 [and remote education](#). The NSPCC also provide helpful advice - [Undertaking remote teaching safely](#).
2597 NSPCC Learning - [Undertaking remote teaching safely during school closures](#).

2598 9.67. Schools and colleges are likely to be in regular contact with parents and carers. Those communications
2599 should be used to reinforce the importance of children being safe online and parents and carers are
2600 likely to find it helpful to understand what systems schools and colleges use to filter and monitor online
2601 use. It will be especially important for parents and carers to be aware of what their children are being
2602 asked to do online, including the sites they will asked to access and be clear who from the school or
2603 college (if anyone) their child is going to be interacting with online

2604 **Filters and monitoring**

2605 9.68. Whilst considering their responsibility to safeguard and promote the welfare of children and provide
2606 them with a safe environment in which to learn, governance boards and proprietor should be doing
2607 all that they reasonably can to limit children's exposure to the above risks from the school's or college's
2608 IT system. As part of this process, governance boards and proprietor should ensure their school or
2609 college has appropriate filters and monitoring systems in place. Governance boards and proprietor
2610 should consider the age range of their children, the number of children, how often they access the IT
2611 system and the proportionality of costs vs risks. Schools will work with the internal Cambian/Care tech
2612 IT team and seek advice and support required.

2613 9.69. The appropriateness of any filters and monitoring systems are a matter for individual schools and
2614 colleges and will be informed in part, by the risk assessment required by the [Prevent Duty](#). The UK
2615 Safer Internet Centre has published guidance as to what "appropriate" filtering and monitoring might
2616 look like UK Safer Internet Centre: [appropriate filtering and monitoring](#).

2617 **Information security and access management**

2618 9.70. Education settings are directly responsible for ensuring they have the appropriate level of security
2619 protection procedures in place, in order to safeguard their systems, staff and learners and review the

2620 effectiveness of these procedures periodically to keep up with evolving cyber-crime technologies.
2621 Guidance on e-security is available from the National Education Network. In addition, broader
2622 guidance on cyber security including considerations for governors and trustees can be found at
2623 NCSC.GOV.UK.

2624 **Reviewing online safety**

2625 9.71. Technology, and risks and harms related to it evolve and changes rapidly. Schools and colleges should
2626 consider carrying out an annual review of their approach to online safety, supported by an annual risk
2627 assessment that considers and reflects the risks their children face. A free online safety self-review tool
2628 for schools can be found via the [360 safe website](#).

2629 9.72. UKCIS has published [online safety in schools and colleges: Questions from the governing board](#). The
2630 questions can be used to gain a basic understanding of the current approach to keeping children safe
2631 online; learn how to improve this approach where appropriate; and find out about tools, which can be
2632 used to improve the approach. It has also published an Online Safety Audit Tool which helps mentors
2633 of trainee teachers and newly qualified teachers induct mentees and provide ongoing support,
2634 development and monitoring.

2635 **Cyberbullying**

2636 9.73. Central to Anti-bullying policy is the principle that 'bullying is always unacceptable' and that 'all
2637 children/young people have a right not to be bullied'. School/colleges also recognises that it must take
2638 note of bullying perpetrated outside school/college which spills over into the school/college; therefore

2639 once aware services will respond to any cyber-bullying we become aware of carried out by
2640 children/young people when they are away from the site.

2641 9.74. Cyber-bullying is defined as 'an aggressive, intentional act carried out by a group or individual using
2642 electronic forms of contact repeatedly over time against a victim who cannot easily defend
2643 himself/herself.'

2644 • By cyber-bullying, we mean bullying by electronic media:

2645 • Bullying by texts or messages or calls on mobile 'phones

2646 • The use of mobile 'phone cameras to cause distress, fear or humiliation

2647 • Posting threatening, abusive, defamatory or humiliating material on websites, to include blogs,
2648 personal websites, social networking sites

2649 • Using e-mail to message others

2650 • Hijacking/cloning e-mail accounts

2651 • Making threatening, abusive, defamatory or humiliating remarks in on-line forums

2652 9.75. Cyber-bullying may be at a level where it is criminal in character. It is unlawful to disseminate
2653 defamatory information in any media including internet sites.

2654 9.76. Section 127 of the Communications Act 2003 makes it an offence to send, by public means of a public
2655 electronic communications network, a message or other matter that is grossly offensive or one of an
2656 indecent, obscene or menacing character.

2657 9.77. The Protection from Harassment Act 1997 makes it an offence to knowingly pursue any course of
2658 conduct amounting to harassment.

2659 9.78. If services become aware of any incidents of cyberbullying, they will need to consider each case
2660 individually as to any criminal act that may have been committed. The services will pass on information
2661 to the police if it feels that it is appropriate or is required to do so.

2662 **Gaming – raising awareness**

2663 9.79. Online gaming is an activity in which the majority of children and young people and many adults get
2664 involved. The services will raise awareness by talking to children/young people/key workers/staff and
2665 also where appropriate parents/carers involved about the games their children play and help them
2666 identify whether they are appropriate.

2667 **Nudes/semi nudes' images or videos**

2668 9.80. Sexting is when someone shares sexual, naked or semi-naked images or videos of themselves or
2669 others, or sends sexually explicit messages. They can be sent using mobiles, tablets, smartphones,

- 2670 and laptops - any device that enables the sharing of media and messages. Sexting may also be called:
2671 trading nudes, dirties, pic for pic.
- 2672 9.81. Sexting can be seen as harmless, but creating or sharing explicit images of a child is illegal, even if the
2673 person doing it is a child. A young person is breaking the law if they:
- 2674 • take an explicit photo or video of themselves or a friend
 - 2675 • share an explicit image or video of a child, even if it's shared between children of the same age
 - 2676 • possess, download or store an explicit image or video of a child, even if the child gave their
2677 permission for it to be created.
- 2678 9.82. However, if a young person is found creating or sharing images, the police can choose to record that
2679 a crime has been committed but that taking formal action isn't in the public interest. There are many
2680 reasons why a young person may want to send a naked or semi-naked picture, video or message to
2681 someone else:
- 2682 • joining in because they think that 'everyone is doing it'
 - 2683 • boosting their self-esteem
 - 2684 • flirting with others and testing their sexual identity
 - 2685 • exploring their sexual feelings
 - 2686 • to get attention and connect with new people on social media
 - 2687 • they may find it difficult to say no if somebody asks them for an explicit image, especially if the
2688 person asking is persistent
- 2689 9.83. The risks of sexting are that the young person has no control over the images and how these are
2690 shared, and the subsequent risks of blackmail, bullying and harm. In response to this Cambian Group
2691 will provide education and guidance to prevent individuals from becoming victims of such situations
2692 by encouraging them to think about the risk of sexting and understand how to seek help when
2693 approached to take part in sexting. More information can be found on [Keeping-children-safe/online-
2694 safety/sexting-sending-nudes](#).

2695 Online reputation

- 2696 9.84. Online reputation is the opinion others get of a person when they encounter them on-line. It is formed
2697 by posts, photos that have been uploaded and comments made by others on people's profiles. It is
2698 important that children/young people and staff are aware that anything that is posted could influence
2699 their future professional reputation. The majority of organisations and work establishments now check
2700 digital footprint before considering applications for positions or places on courses.

2701 Grooming

- 2702 9.85. On-line grooming is the process by which one person with an inappropriate sexual interest in
2703 children/young people will approach a child/young person on-line, with the intention of developing a

2704 relationship with that child/young person, to be able to meet them in person and intentionally cause
2705 harm.

2706 9.86. The services will build awareness amongst children/young people, parents/carers and staff about
2707 ensuring that the child/young person:

2708 • Only has friends on-line that they know in real life

2709 • Is aware that if they communicate with somebody that they have met on-line, that relationship
2710 should stay on-line.

2711 9.87. Where appropriate that the services will support parents/carers to:

2712 • Recognise the signs of grooming

2713 • Have regular conversations with their children/young people about on-line activity and how to stay
2714 safe on-line

2715 9.88. Where appropriate the services will raise awareness by:

2716 • Regular communication with the families

2717 • Schools/colleges will include awareness around grooming as part of their curriculum

2718 • Identifying with the families and children/young people how they can be safeguarded against
2719 grooming.

2720 **Violence against women and girls (VAWG)**

2721 9.89. Violence against women and girls (VAWG) is a hate crime and a violation of the Human Rights of
2722 women and girls. The government has a strategy looking at specific issues that women and girls face.

2723 9.90. It is also one of the most oppressive forms of gender inequality and stands as a fundamental barrier
2724 to equal participation of women and men in social, economic, and political spheres. Such violence
2725 impedes gender equality and the achievement of a range of development outcomes. VAWG is a
2726 complex and multifaceted problem that cannot effectively be addressed from a single vantage point.
2727 The prevention of and response to such violence require coordinated action across multiple sectors.
2728

2729 **Female genital mutilation (FGM)**

2730 9.91. FGM comprises all procedures involving partial or total removal of the external female genitalia or other
2731 injury to the female genital organs for non-medical reasons, hence interferes with the natural function
2732 of girls and women's bodies. It has no health benefits and harms girls and women in many ways.

2733 9.92. The age at which girls undergo FGM varies enormously according to the community in which they live.
2734 The procedure may be carried out when the girl is new born, during childhood or adolescence, just
2735 before marriage or during the first pregnancy. However, the majority of cases of FGM are thought to
2736 take place between the ages of 5 to 8 years and therefore girls within that age bracket are at a higher
2737 risk.

2738 9.93. In 2003, FGM became a criminal offence for UK nationals or permanent UK residents to take their child
2739 abroad to have female genital mutilation. Anyone found guilty of the offence faces a maximum penalty
2740 of 14 years in prison. It is mandatory for teachers to report known cases of FGM to the police.

2741 **Forced marriage**

2742 9.94. In the case of children and young people: 'a forced marriage is a marriage in which one or both
2743 spouses cannot consent to the marriage and duress is involved. Duress can include physical,

2744 psychological, financial, sexual and emotional pressure.’ In developing countries, approx. 11% of girls
2745 are married before the age of 15. One in 3 victims of forced marriage in the UK are under 18 years old.

2746 9.95. It is important that all members of staff recognise the presenting symptoms, know how to respond if
2747 there are concerns and where to turn for advice.

2748 9.96. Advice and help can be obtained nationally through the **Forced Marriage Unit on +44 (0) 20 7008 0151**
2749 and locally through the local police safeguarding team or children’s social care.

2750 9.97. While all members of staff (education, care, clinical) have important responsibilities with regard to
2751 children, young people or adults who may be at risk of forced marriage, managers and leaders should
2752 not undertake roles in this regard that are most appropriately discharged by other children’s services
2753 professionals such as police officers or social workers.

2754 9.98. The Forced Marriage Unit (FMU) has created: Multi-agency practice guidelines: handling cases of
2755 forced marriage (pages 75-80 of which focus on the role of schools and colleges) and, Multi-agency
2756 statutory guidance for dealing with forced marriage, which can both be found at [The Right to Choose:
2757 Multi-agency statutory guidance for dealing with forced marriage](#). School and college staff can contact
2758 the Forced Marriage Unit if they need advice or information: Contact: 020 7008 0151 or email
2759 fmu@fcdo.gov.uk.

2760 **Breast ironing**

2761 9.99. Breast ironing, also known as breast flattening, is the pounding and massaging of a pubescent girl’s
2762 breasts, using hard or heated objects, to try to make them stop developing or disappear. It is typically
2763 carried out by the girl’s mother who will say she is trying to protect the girl from sexual harassment and
2764 rape, to prevent early pregnancy that would tarnish the family name, or to allow the girl to pursue
2765 education rather than be forced into early marriage. It is mostly practiced in parts of Cameroon, where
2766 boys and men may think that girls whose breasts have begun to grow are ready for sex. Some reports
2767 suggest that it has spread to the Cameroonian diaspora, for example to Britain. The most widely used
2768 implement for breast ironing is a wooden pestle normally used for pounding tubers.

2769 9.100. Any suspected cases of breast ironing **MUST** be reported immediately under this Child Protection and
2770 Safeguarding policy and the Individual offered medical help.

2771 **Teenage relationship abuse**

2772 9.101. Research has shown that teenagers don’t readily understand what constitutes abusive behaviour such
2773 as controlling behaviours, which can escalate to physical abuse, e.g. checking someone’s phone,
2774 telling them what to wear, who they can/can’t see or speak to and that this abuse is prevalent within
2775 teen relationships.

2776 9.102. Further research shows that teenagers don’t understand what consent means within their
2777 relationships. They often hold the common misconception that rape can only be committed by a
2778 stranger down a dark alley and don’t understand that it could happen within their own relationships.
2779 This can lead to these abusive behaviours feeling ‘normal’ and therefore unchallenged, as they are not
2780 recognised as being ‘abusive’.

2781 9.103. Vulnerable Individuals may struggle to understand such concepts and the potential consequences of
2782 their own, their peers or others behaviour towards them. Therefore, significant effort will be made to
2783 raise awareness of it and respond effectively to such situations.

2784 9.104. In response to this Cambian Group will provide education and guidance to prevent teenagers from
2785 becoming victims and perpetrators of abusive relationships - encouraging them to rethink their views
2786 of violence, abuse and controlling behaviours, and understand what consent means within
2787 relationships.

2788 **Honour-based violence**

2789 9.105. It is often linked to family members or acquaintances who mistakenly believe someone has brought
2790 shame to their family or community by doing something that is not in keeping with the traditional beliefs

2791 of their culture. However, abuse committed in the context of preserving “honour” often involves a wider
 2792 network of family or community pressure and can include multiple perpetrators. It is important to be
 2793 aware of this dynamic and additional risk factors when deciding what form of safeguarding action to
 2794 take” for example, honour-based violence might be committed against individuals who:

- 2795 • become involved with a boyfriend or girlfriend from a different culture or religion
- 2796 • want to get out of an arranged marriage
- 2797 • want to get out of a forced marriage
- 2798 • wear clothes or take part in activities that might not be considered traditional within a particular
 2799 culture.

2800 9.106. Girls and women are the most common victims of honour-based violence however; it can also affect
 2801 men and boys. Crimes of ‘honour’ do not always include violence. Crimes committed in the name of
 2802 ‘honour’ might include: domestic abuse, threats of violence, assault, sexual or psychological abuse,
 2803 forced marriage, being held against their will or taken somewhere they don’t want to go.

2804 9.107. If staff believe that the Individual is at risk from honour-based violence, the DSL will follow the usual
 2805 safeguarding referral process. However, if it is clear that a crime has been committed or the Individual
 2806 is at immediate risk the police will be contacted in the first place, this is a mandatory duty placed on
 2807 teachers. It is important that if honour-based violence is known or suspected, communities and family
 2808 members must NOT be contacted prior to referral to the police or social care as this could increase the
 2809 risk to the individual.

2810 **Preventing extremism and radicalisation**

2811 9.108. All staff are fully aware of their duty in assessing the risk of Individuals being drawn into terrorism
 2812 including support for terrorism ideology and extremist ideas. In accordance with our **026. Preventing**
 2813 **Extremism and Radicalisation policy** and **0.27 E-safety policy**, we all need to be vigilant in ensuring the
 2814 safety from extremist and terrorist material when accessing the internet. We consider Hampshire Local
 2815 Authority Safeguarding Children’s Board arrangements to fulfil its Prevent duties.

2816 9.109. Children are vulnerable to extremist ideology and radicalisation. Similar to protecting children from
 2817 other forms of harms and abuse, protecting children from this risk should be a part of a schools or
 2818 colleges’ safeguarding approach.

- 2819 • **Extremism** is the vocal or active opposition to our fundamental values, including democracy,
 2820 the rule of law, individual liberty and the mutual respect and tolerance of different faiths and
 2821 beliefs. This also includes calling for the death of members of the armed forces.

- 2822 • **Radicalisation** refers to the process by which a person comes to support terrorism and
 2823 extremist ideologies associated with terrorist groups.

- 2824 • **Terrorism** is an action that endangers or causes serious violence to a person/people; causes
 2825 serious damage to property; or seriously interferes or disrupts an electronic system. The use
 2826 or threat **must** be designed to influence the government or to intimidate the public and is
 2827 made for the purpose of advancing a political, religious or ideological cause.

2828 9.110. There is no single way of identifying whether a child is likely to be susceptible to an extremist ideology.
 2829 Background factors combined with specific influences such as family and friends may contribute to a
 2830 child’s vulnerability. Similarly, radicalisation can occur through many different methods (such as social
 2831 media or the internet) and settings (such as within the home).

2832 9.111. However, it is possible to protect vulnerable people from extremist ideology and intervene to prevent
 2833 those at risk of radicalisation being radicalised. As with other safeguarding risks, staff should be alert
 2834 to changes in children’s behaviour, which could indicate that they may be in need of help or protection.

2835 Staff should use their judgement in identifying children who might be at risk of radicalisation and act
2836 proportionately which may include making a Prevent referral.

2837 9.112. The school's or college's DSL (and any deputies) should be aware of local procedures for making a
2838 Prevent referral

2839 9.113. All schools and colleges are subject to a duty under section 26 of the Counter-Terrorism and Security
2840 Act 2015 (the CTSA 2015), in the exercise of their functions, to have "due regard to the need to prevent
2841 people from being drawn into terrorism". This duty is known as **the Prevent duty**.

2842 9.114. [An online general awareness-training module on Channel is available](#). The module is suitable for
2843 school staff and other front-line workers. It introduces the topics covered by this advice, including how
2844 to identify factors that can make people vulnerable to radicalisation, and case studies illustrating the
2845 types of intervention that may be appropriate, in addition to Channel.

2846 **Prevent Duty**

2847 9.115. The Prevent duty should be seen as part of schools and colleges' wider safeguarding obligations. DSLs
2848 and other senior leaders in schools should familiarise themselves with the revised [Prevent duty
2849 guidance for England & Wales](#), especially paragraphs 57-76, which are specifically concerned with
2850 schools (and also covers childcare). DSLs and other senior leaders in colleges should familiar
2851 themselves with the [Prevent duty guidance: for further education institutions in England and Wales](#). The
2852 guidance is set out in terms of four general themes: risk assessment, working in partnership, staff
2853 training, and IT policies.

2854 9.116. Local authorities will be expected to ensure appropriate frontline staff, including those of its contractors,
2855 have a good understanding of Prevent are trained to recognise vulnerability to being drawn into
2856 terrorism and are aware of available programmes to deal with this issue.

2857 9.117. As the independent body responsible for standards and quality improvement for further education, the
2858 Education and Training Foundation will work with the sector to ensure that appropriate training is
2859 available. This will include and draw from training provided through the network of Prevent co-
2860 ordinators.

2861 **Child Sexual Exploitation (CSE) and Child Criminal Exploitation (CCE)**

2862 9.118. This section of the policy must be read in conjunction with our 0.29 Child Sexual Exploitation policy.

2863 9.119. Both CSE and CCE are forms of abuse that occur where an individual or group takes advantage of an
2864 imbalance in power to coerce, manipulate or deceive a child into taking part in sexual or criminal
2865 activity, in exchange for something the victim needs or wants, and/or for the financial advantage or
2866 increased status of the perpetrator or facilitator and/or through violence or the threat of violence. CSE
2867 and CCE can affect children, both male and female and can include children who have been moved
2868 (commonly referred to as trafficking) for the purpose of exploitation.

2869 **Child Criminal Exploitation (CCE)**

2870 9.120. Some specific forms of CCE can include children being forced or manipulated into transporting drugs
2871 or money through county lines, working in cannabis factories, shoplifting or pickpocketing. They can
2872 also be forced or manipulated into committing vehicle crime or threatening/committing serious
2873 violence to others. Children can become trapped by this type of exploitation as perpetrators can
2874 threaten victims (and their families) with violence, or entrap and coerce them into debt. They may be
2875 coerced into carrying weapons such as knives or begin to carry a knife for a sense of protection from
2876 harm from others. As children involved in criminal exploitation often commit crimes themselves, their
2877 vulnerability as victims is not always recognised by adults and professionals, (particularly older
2878 children), and they are not treated as victims despite the harm they have experienced. They may still
2879 have been criminally exploited even if the activity appears to be something they have agreed or
2880 consented to.

2881 9.121. It is important to note that the experience of girls who are criminally exploited can be very different to
2882 that of boys. The indicators may not be the same; however, professionals should be aware that girls

2883 are at risk of criminal exploitation too. It is also important to note that both boys and girls being
2884 criminally exploited may be at higher risk of sexual exploitation.

2885 **Child Sexual Exploitation (CSE)**

2886 9.122. CSE is a form of child sexual abuse. Sexual abuse may involve physical contact, including assault by
2887 penetration (for example, rape or oral sex) or non-penetrative acts such as masturbation, kissing,
2888 rubbing, and touching outside clothing. It may include noncontact activities, such as involving children
2889 in the production of sexual images, forcing children to look at sexual images or watch sexual activities,
2890 encouraging children to behave in sexually inappropriate ways or grooming a child in preparation for
2891 abuse including via the internet.

2892 9.123. CSE can occur over time or be a one-off occurrence, and may happen without the child's immediate
2893 knowledge e.g. through others sharing videos or images of them on social media.

2894 9.124. CSE can affect any child, who has been coerced into engaging in sexual activities. This includes 16 and
2895 17 year olds who can legally consent to have sex. Some children may not realise they are being
2896 exploited e.g. they believe they are in a genuine romantic relationship.

2897 9.125. Children with learning difficulties can be particularly vulnerable to exploitation as can children from
2898 particular groups, e.g. looked after children, young carers, children who have a history of physical,
2899 sexual emotional abuse or neglect or mental health problems; children who use drugs or alcohol,
2900 children who go missing from home or school, children involved in crime, children with parents/carers
2901 who have mental health problems, learning difficulties/other issues, children who associate with other
2902 children involved in exploitation. However, it is important to recognise that any child can be targeted.

2903 9.126. Whilst age may be the most obvious, this power imbalance can also be due to a range of other factors
2904 including gender, sexual identity, cognitive ability, physical strength, status, and access to economic or
2905 other resources. In some cases, the abuse will be in exchange for something the victim needs or wants
2906 and/or will be to the financial benefit or other advantage (such as increased status) of the perpetrator
2907 or facilitator.

2908 9.127. The abuse can be perpetrated by individuals or groups, males or females, and children (under the age
2909 of 18 years, including 16- and 17-year olds who can legally consent to have sex) or adults. It is critical
2910 to know that children/young people may also be exploited by other children/young people, who
2911 themselves may be experiencing exploitation – where this is the case, it is important that the
2912 child/young person perpetrator is also recognised as a victim.

2913 9.128. The abuse can be a one-off occurrence or a series of incidents over time, and range from opportunistic
2914 to complex organised abuse. It can involve force and/or enticement-based methods of compliance
2915 and may, or may not, be accompanied by violence or threats of violence. Victims can be exploited even
2916 when activity appears consensual and it should be noted exploitation as well as being physical can be
2917 facilitated and/or take place online. More information include definitions and indicators are included

- 2918 in [KCSIE 2023](#)- Some of the following can be indicators of both child criminal and sexual exploitation
2919 where children:
- 2920 • appear with unexplained gifts or new professions;
 - 2921 • associate with other young people involved in exploitation;
 - 2922 • suffer from changes in emotional well-being;
 - 2923 • misuse drugs and alcohol;
 - 2924 • go missing for periods of time or regularly or come home late; and
 - 2925 • regularly miss school or education or do not take part in education.
- 2926 9.129. Some additional specific indicators that may be present in CSE and children who:
- 2927 • Children who have older boyfriends or girlfriends; and
 - 2928 • Children who suffer from sexually transmitted infections, display sexual behaviours
2929 beyond expected sexual development or become pregnant.
- 2930 9.130. Further information on signs of a child’s involvement in sexual exploitation is available in Home Office
2931 guidance: Child sexual exploitation: guide for practitioners.
- 2932 9.131. As an organisation we do recognise that the same level of exploitation may take place involving
2933 vulnerable young people/adults at risk above the age of 18. An adult at risk is any person who is aged
2934 18 years or over and at risk of abuse or neglect because of their needs for care and/or support (The
2935 Care Act 2014). As we do provide services for vulnerable young people/adults at risk, therefore it is
2936 expected that the above statement will equally apply to those who are 18+ across England and Wales.
- 2937 9.132. Children under the age of criminal responsibility (under the age of 10), or young people who have
2938 increased vulnerability due to push and pull factors who are manipulated, coerced or forced into
2939 criminal activity provide opportunity for criminals to distance themselves from crime.
- 2940 **County Lines**
- 2941 9.133. County lines is a term used to describe gangs and organised criminal networks involved in exporting
2942 illegal drugs using dedicated mobile phone lines or other form of “deal line”. This activity can happen
2943 locally as well as across the UK - no specified distance of travel is required. Children and vulnerable
2944 adults are exploited to move, store and sell drugs and money. Offenders will often use coercion,
2945 intimidation, violence (including sexual violence) and weapons to ensure compliance of victims.
2946 Children can be targeted and recruited. Exploitation is an integral part of the county lines, children may
2947 become victims through: coercion, intimidation, violence (including sexual) and weapons.
- 2948 9.134. Children can be targeted and recruited into county lines in a number of locations including schools,
2949 further and higher educational institutions, pupil referral units, special educational needs schools,
2950 children’s homes and care homes. Children are often recruited to move drugs and money between
2951 locations and are known to be exposed to techniques such as ‘plugging’, where drugs are concealed
2952 internally to avoid detection. Children can easily become trapped by this type of exploitation as county
2953 lines gangs create drug debts and can threaten serious violence and kidnap towards victims (and their
2954 families) if they attempt to leave the county lines network.
- 2955 9.135. Children are also increasingly being targeted and recruited online using social media. Children can
2956 easily become trapped by this type of exploitation as county lines gangs can manufacture drug debts
2957 which need to be worked off or threaten serious violence and kidnap towards victims (and their
2958 families) if they attempt to leave the county lines network. These children and young people are at
2959 serious risk of criminalisation, sexual exploitation and exposure to violence. This is facilitated by a group

- 2960 who may not necessarily be affiliated to a gang, but who have developed networks across
2961 geographical boundaries to access and exploit existing drugs markets in these areas.
- 2962 9.136. The group, or individuals exploited by them, travel regularly between the urban hub and the rural
2963 marketplace, to replenish stock and deliver cash. This movement is not unique to county lines drug
2964 supply but is generally more frequent and in smaller deal amounts compared to most other drug
2965 supply methods.
- 2966 9.137. A number of the indicators for CSE and CCE as detailed above may be applicable to where children
2967 are involved in county lines. Some additional specific indicators that may be present where a child is
2968 criminally exploited through involvement in county lines are children who:
- 2969 • go missing and are subsequently found in areas away from their home;
 - 2970 • have been the victim or perpetrator of serious violence (e.g. knife crime);
 - 2971 • are involved in receiving requests for drugs via a phone line, moving drugs, handing over and
2972 collecting money for drugs;
 - 2973 • are exposed to techniques such as ‘plugging’, where drugs are concealed internally to avoid
2974 detection;
 - 2975 • are found in accommodation that they have no connection with, often called a ‘trap house or
2976 cuckooing’ or hotel room where there is drug activity;
 - 2977 • owe a ‘debt bond’ to their exploiters;
 - 2978 • have their bank accounts used to facilitate drug dealing.
- 2979 9.138. If a child is suspected to be at risk of or involved in county lines, a safeguarding referral should be
2980 considered alongside consideration of availability of local services/third sector providers who offer
2981 support to victims of county lines exploitation.
- 2982 9.139. Further information on the signs of a child’s involvement in county lines is available in guidance
2983 published by the [Home Office and The Children’s Society County Lines Toolkit for Professional](#).
- 2984 **Cuckooing**
- 2985 9.140. This is the exploitation of young people that might be vulnerable is a common feature in the facilitation
2986 of county lines drugs supply, whether for the storage or supply of drugs, the movement of cash, or to
2987 secure the use of dwellings held by vulnerable people in the rural marketplace - commonly referred to
2988 as cuckooing.
- 2989 9.141. Cuckooing is a form of crime in which drug dealers take over the home of a vulnerable person in order
2990 to use it as a base for drug dealing. As of the 2010s, cuckooing is becoming an increasingly common

3027 the question of the causes of knife crime, leaders told Ofsted that, in their experience,
3028 children are in three categories of risk of knife carrying.

3029 9.147. The highest level of risk is for those children who have been groomed into gangs, for the purposes of
3030 criminal exploitation.

3031 9.148. Underneath this lies a group of children who have witnessed other children carrying knives, have been
3032 the victim of knife crime or know someone who has carried a knife for protection or status-acquisition
3033 or who are encouraged to believe knife-carrying is normal through the glamorisation of gangs and
3034 knives on social media.

3035 9.149. Then there are children who carry knives to school as an isolated incident. For example, they may carry
3036 a penknife that a grandparent has gifted them

3037 9.150. It is important to remember that knife crime does not exist in a vacuum and children who are victims
3038 or perpetrators may also be experiencing multiple vulnerabilities.

3039 9.151. Some children and young people can be more at risk of being drawn into criminality; multiple studies
3040 demonstrate a clear link between inequality and high rates of violence for example. There is a need to
3041 both understand and address individual risk factors as well as address the social challenges that
3042 underpin criminal exploitation and serious violence in our communities, from poor mental health,
3043 addiction, poverty, unemployment and poor-quality housing.

3044 **Missing young people and the link between missing and county lines**

3045 9.152. Every precaution is taken through the use of risk assessments and thorough planning and supervision
3046 to ensure that children, young people and young adults are safe both at school, college, home, and
3047 on outings. If a child, young person or young adult goes missing from our Location, it is considered a
3048 potential indicator of abuse or neglect.

3049 9.153. Our staff members must follow our **0.23. Missing from Care and Education policy** in the event of
3050 someone going missing. All homes/schools/colleges must inform the LA of any student who fails to
3051 attend school regularly or has been absent without the school's permission for a continuous period of
3052 10 days or more or as such intervals agreed with the Local Authority. It is essential that all staff are
3053 alert to signs such as travelling to conflict zones, FGM and forced marriage.

3054 9.154. Coercion and manipulation often increase a young person's vulnerability to exploitation, pushing them
3055 towards going missing and becoming involved in criminal activities. Some individuals may be pulled
3056 towards exploitation through the promise of money, gifts, affection and status. However, they may be
3057 then be forced to work for these people as they are coerced into believing that they are indebted to
3058 them.

3059 **Domestic abuse**

3060 9.155. The Domestic Abuse Act 2021 received Royal Assent on 29 April 2021. The Act introduces the first ever
3061 statutory definition of domestic abuse and recognises the impact of domestic abuse on children, as
3062 victims in their own right, if they see, hear or experience the effects of abuse. The statutory definition of
3063 domestic abuse, based on the previous cross-government definition, ensures that different types of
3064 relationships are captured, including ex-partners and family members. The definition captures a range
3065 of different abusive behaviours, including physical, emotional and economic abuse and coercive and
3066 controlling behaviour. Both the person who is carrying out the behaviour and the person to whom the
3067 behaviour is directed towards must be aged 16 or over and they must be "personally connected" (as
3068 defined in section 2 of the 2021 Act).

3069 9.156. Types of domestic abuse include intimate partner violence, abuse by family members, teenage
3070 relationship abuse and child/adolescent to parent violence and abuse. Anyone can be a victim of
3071 domestic abuse, regardless of gender, age, ethnicity, socioeconomic status, sexuality or background
3072 and domestic abuse can take place inside or outside of the home.

3073 9.157. All children can witness and be adversely affected by domestic abuse in the context of their home life
3074 where domestic abuse occurs between family members. Experiencing domestic abuse and/or violence

- 3075 can have a serious, long lasting emotional and psychological impact on children. In some cases, a
3076 child may blame themselves for the abuse or may have had to leave the family home as a result.
- 3077 9.158. Young people can also experience domestic abuse within their own intimate relationships. This form
3078 of abuse is sometimes referred to as 'teenage relationship abuse'. Depending on the age of the young
3079 people, this may not be recognised in law under the statutory definition of 'domestic abuse' (if one or
3080 both parties are under 16). However, as with any child under 18, where there are concerns about safety
3081 or welfare, child safeguarding procedures should be followed and both young victims and young
3082 perpetrators should be offered support.
- 3083 9.159. KCSIE2022 introduces additional information about domestic abuse which can encompass a wide
3084 range of behaviours and may be a single incident or a pattern of incidents. That abuse can be, but is
3085 not limited to, psychological, physical, sexual, financial or emotional. Children can be victims of
3086 domestic abuse. They may see, hear, or experience the effects of abuse at home and/or suffer
3087 domestic abuse in their own intimate relationships (teenage relationship abuse). All of which can have
3088 a detrimental and long-term impact on their health, well-being, development, and ability to learn.
- 3089 9.160. [Operation Encompass](#) operates in all police forces across England. It helps police and schools work
3090 together to provide emotional and practical help to children. The system ensures that when police are
3091 called to an incident of domestic abuse, where there are children in the household who have
3092 experienced the domestic incident, the police will inform the key adult (usually the DSL) in school before
3093 the child or children arrive at school the following day. This ensures that the school has up to date
3094 relevant information about the child's circumstances and can enable immediate support to be put in
3095 place, according to the child's needs. Operation Encompass does not replace statutory safeguarding
3096 procedures. Where appropriate, the police and/or schools should make a referral to children's social
3097 care if they are concerned about a child's welfare. More information about the scheme and how
3098 schools can become involved is available on the Operation Encompass website.
- 3099 9.161. Operation Encompass provides an advice and helpline service for all staff members from educational
3100 settings who may be concerned about children who have experienced domestic abuse. The helpline
3101 is available 8AM to 1PM, Monday to Friday on 0204 513 9990 (charged at local rate).
- 3102 9.162. Refuge runs the National Domestic Abuse Helpline, which can be called free of charge and in
3103 confidence, 24 hours a day on 0808 2000 247. Its website provides guidance and support for potential
3104 victims, as well as those who are worried about friends and loved ones. It also has a form through

3105 which a safe time from the team for a call can be booked. Additional advice on identifying children
3106 who are affected by domestic abuse and how they can be helped is available at:

- 3107 • [NSPCC- UK domestic-abuse Signs Symptoms Effects](#)
- 3108 • [Refuge what is domestic violence/effects of domestic violence on children](#)
- 3109 • [Safelives: young people and domestic abuse.](#)
- 3110 • [Domestic abuse: specialist sources of support - GOV.UK](#) (www.gov.uk) (includes
3111 information for adult victims, young people facing abuse in their own relationships and
3112 parents experiencing child to parent violence/abuse)
- 3113 • Home : [Operation Encompass](#) (includes information for schools on the impact of
3114 domestic abuse on children)

3115 **Serious Violent Crime**

3116 9.163. All staff should be aware of indicators, which may signal that children are at risk from, or are involved
3117 with serious violent crime. These may include:

- 3118 • increased absence from school with a significant decline in performance,
- 3119 • a change in friendships or relationships with older individuals or group,
- 3120 • signs of self-harm or a significant change in well-being, or signs of assault or
3121 unexplained injuries,
- 3122 • unexplained gifts or new possessions could also indicate that children have been
3123 approached by, or are involved with individuals associated with criminal networks
3124 or gangs.

3125 9.164. All staff should be aware of the associated risks and understand the measures in place to measure
3126 these. Advice for schools and colleges is provided in the Home Office’s Preventing youth violence and
3127 gang involvement and its [criminal exploitation of children and vulnerable adults: County Lines guidance](#)
3128 [- September 2018.](#)

3129 **Mental Health**

3130 9.165. Schools, colleges and homes have an important role to play in supporting the mental health and
3131 wellbeing of young people. All staff should be aware that mental health problems can, in some cases,
3132 be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation.

3133 9.166. Schools/colleges and homes need to ensure they have clear systems and processes in place for
3134 identifying possible mental health problems, including routes to escalate and clear referral and
3135 accountability systems.

3136 9.167. The Department is providing funding to support costs of a significant training program for senior mental
3137 health leads and the national rollout of the [Link Program](#). Training for senior mental health leads, will
3138 be available to all state-funded schools and colleges by 2025, to help introduce or develop their whole
3139 school or college approach to mental health.

3140 9.168. Only appropriately, trained professionals should attempt to make a diagnosis of a mental health
3141 problem. Staff however, are well placed to observe children day-to-day and identify those whose
3142 behaviour suggests that they may be experiencing a mental health problem or be at risk of developing
3143 one. If staff suspect this might be the case they should report their concerns to a senior leader within
3144 the school and if possible bring their concerns to a member of the clinical team.

3145 9.169. Where children have suffered abuse and neglect, or other potentially traumatic adverse childhood
3146 experiences, this can have a lasting impact throughout childhood, adolescence and into adulthood. It

3147 is key that staff receive appropriate education and training so that they are aware of how these
3148 children’s experiences, can impact on their mental health, behaviour and education.

3149 9.170. If staff have a mental health concern about a child that is also a safeguarding concern, immediate
3150 action should be taken. Staff should follow their child protection policy and speak immediately to the
3151 DSL or a deputy.

3152 9.171. Schools and colleges can access a range of advice to help them identify children in need of extra
3153 mental health support; this includes working with external agencies. More information can be found
3154 in the [mental health and behaviour in schools guidance](#), colleges may also wish to follow this guidance
3155 as best practice. Public Health England has produced a range of resources to support secondary school
3156 teachers to promote positive health, wellbeing and resilience among children.

3157 9.172. The DfE has published advice and guidance on [Preventing and Tackling Bullying](#) (which may also be
3158 useful for colleges). The [Promoting and supporting mental health and wellbeing in Schools](#) sets out
3159 how schools and colleges can help prevent mental health problems by promoting resilience as part of
3160 an integrated, whole school/college approach to social and emotional wellbeing, which is tailored to
3161 the needs of their pupils.

3162 9.173. In addition, Public Health England has produced a range of resources to support secondary schools to
3163 promote positive health, wellbeing and resilience among children including its guidance Promoting
3164 children and young people’s emotional health and wellbeing. Its resources include social media,
3165 forming positive relationships, smoking and alcohol. See [Rise Above](#) for links to all materials and lesson
3166 plans. The Department has also published, [‘Every interaction matters’](#), a pre-recorded webinar which
3167 provides staff with a simple framework for promoting wellbeing, resilience, and mental health. This sits
3168 alongside our [Wellbeing for education recovery program](#) content, which covers issues such as
3169 bereavement, loss, anxiety, stress and trauma.

Human trafficking

3171 9.174. Human trafficking is defined by the UNHCR in respect of children/young people/young adults as a
3172 process that is a combination of:

- 3173 - Movement (including within the UK);
- 3174 - Control, through harm / threat of harm or fraud
- 3175 - For the purpose of exploitation

3176 9.175. Traffickers and slave drivers trick, force and/or persuade individuals to leave their homes. Grooming
3177 methods are used to gain the trust of a person first, e.g. the promise of a better life, which results in a
3178 life of abuse, servitude and inhumane treatment.

3179 9.176. Any individual transported for exploitative reasons is considered to be a trafficking victim. There is
3180 significant evidence that children/young people/young adults (both of UK and other citizenship) are

- 3181 being trafficked internally within the UK and this is regarded as a more common form of trafficking in
3182 the UK.
- 3183 9.177. There are a number of indicators which suggest that a child/young person/young adult may have
3184 been trafficked into the UK, and may still be controlled by the traffickers or receiving adults. These are
3185 as follows:
- 3186 - Shows signs of physical or sexual abuse, and/or has contracted a sexually
3187 transmitted infection or has an unwanted pregnancy
 - 3188 - Has a history with missing links and unexplained moves
 - 3189 - Is required to earn a minimum amount of money every day
 - 3190 - Works in various locations
 - 3191 - Has limited freedom of movement
 - 3192 - Appears to be missing for periods
 - 3193 - Is known to beg for money
 - 3194 - Is being cared for by adult/s who are not their parents and the quality of the
3195 relationship between the child and their adult carers is not good
 - 3196 - Is one among a number of unrelated children found at one address
 - 3197 - Has not been registered with or attended a GP practice
 - 3198 - Is excessively afraid of being deported.
- 3199 9.178. For those children/young people/young adults who are internally trafficked within the UK indicators
3200 include:
- 3201 - Physical symptoms (bruising indicating either physical or sexual assault)
 - 3202 - Prevalence of a sexually transmitted infection or unwanted pregnancy
 - 3203 - Reports from reliable sources suggesting the likelihood of involvement in
 - 3204 - Sexual exploitation / the child has been seen in places known to be used for sexual
3205 exploitation
 - 3206 - Evidence of drug, alcohol or substance misuse
 - 3207 - Being in the community in clothing unusual for a child i.e. inappropriate for age, or
3208 borrowing clothing from older people
 - 3209 - Relationship with a significantly older partner
 - 3210 - Accounts of social activities, expensive clothes, mobile phones or other possessions
3211 with no plausible explanation of the source of necessary funding
 - 3212 - Persistently missing, staying out overnight or returning late with no plausible
3213 explanation
 - 3214 - Returning after having been missing, looking well cared for despite having not been
3215 at home
 - 3216 - Having keys to premises other than those known about

- 3217 - Low self- image, low self-esteem, self-harming behaviour including cutting,
3218 overdosing, eating disorder, promiscuity
- 3219 - Truancy / disengagement with education
- 3220 - Entering or leaving vehicles driven by unknown adults
- 3221 - Going missing and being found in areas where the child/young person/young adult
3222 has no known links; and/or
- 3223 - Possible inappropriate use of the internet and forming on-line relationships,
3224 particularly with adults/other adults.
- 3225 9.179. These behaviours themselves do not indicate that an Individual is being trafficked, but should be
3226 considered as indicators that this may be the case.

3227 **Child abduction and community safety incidents**

- 3228 9.180. Child abduction is the unauthorised removal or retention of a minor from a parent or anyone with legal
3229 responsibility for the child. Child abduction can be committed by parents or other family members; by
3230 people known but not related to the victim (such as neighbours, friends and acquaintances); and by
3231 strangers. Other community safety incidents in the vicinity of a school can raise concerns amongst
3232 children and parents, for example, people loitering nearby or unknown adults engaging children in
3233 conversation.
- 3234 9.181. As children get older and are granted more independence (for example, as they start walking to school
3235 on their own), it is important they are given practical advice on how to keep themselves safe. Many
3236 schools provide outdoor-safety lessons run by teachers or by local police staff. It is important that
3237 lessons focus on building children's confidence and abilities rather than simply warning them about all
3238 strangers. Further information is available at: <http://www.actionagainstabduction.org/> and
3239 <https://clevernevergoes.org/>

3240 **Modern slavery and the National Referral Mechanism**

- 3241 9.182. Modern slavery encompasses human trafficking and slavery, servitude and forced or compulsory
3242 labour. Exploitation can take many forms, including: sexual exploitation, forced labour, slavery,
3243 servitude, forced criminality and the removal of organs.
- 3244 9.183. When considering modern slavery, there is a perception that this is taking place overseas. The
3245 government estimates that tens of thousands of slaves are in the UK today.
- 3246 9.184. Young people are being forced to work in restaurants, nail bars, car washes and harvesting fruit,
3247 vegetables or other foods have all been slaves 'hiding in plain sight' within the U.K and rescued from
3248 slavery. Other forms of slavery such as sex slaves or household slaves are more hidden but have also
3249 been rescued within the UK.
- 3250 9.185. If staff believe that a child/young person/young adult is being trafficked or is a slave, this must be
3251 reported to the DSL/RM/Head of Service for referral to be considered to local Safeguarding Authority.
- 3252 9.186. Further information on the signs that someone may be a victim of modern slavery, the support available
3253 to victims and how to refer them to the NRM is available in the Modern Slavery Statutory Guidance.
3254 Modern slavery: how to identify and support victims - GOV.UK (www.gov.uk)

3255 **Cybercrime**

- 3256 9.187. Cybercrime is criminal activity committed using computers and/or the internet. It is broadly categorised
3257 as either 'cyber-enabled' (crimes that can happen off-line but are enabled at scale and at speed on-

3258 line) or 'cyber dependent' (crimes that can be committed only by using a computer). Cyber-dependent
3259 crimes include:

3260 • unauthorised access to computers (illegal 'hacking'), for example accessing a school's
3261 computer network to look for test paper answers or change grades awarded;

3262 • denial of Service (Dos or DDoS) attacks or 'booting'. These are attempts to make a computer,
3263 network or website unavailable by overwhelming it with internet traffic from multiple sources;
3264 and

3265 • making, supplying or obtaining malware (malicious software) such as viruses, spyware,
3266 ransomware, botnets and Remote Access Trojans with the intent to commit further offence,
3267 including those above.

3268 9.188. Children with particular skill and interest in computing and technology may inadvertently or deliberately
3269 stray into cyber-dependent crime.

3270 9.189. If there are concerns about a child in this area, the DSL (or a deputy), should consider referring into the
3271 Cyber Choices programme. This is a nationwide police programme supported by the Home Office and
3272 led by the National Crime Agency, working with regional and local policing. It aims to intervene where
3273 young people are at risk of committing, or being drawn into, low level cyber-dependent offences and
3274 divert them to a more positive use of their skills and interests.

3275 9.190. Note that Cyber Choices does not currently cover 'cyber-enabled' crime such as fraud, purchasing of
3276 illegal drugs on-line and child sexual abuse and exploitation, nor other areas of concern such as on-
3277 line bullying or general on-line safety. Additional advice can be found at: [Cyber Choices](#), '[NPCC- When](#)
3278 [to call the Police](#)' and [National Cyber Security Centre - NCSC.GOV.UK](#)

3279 Initiation/Hazing

3280 9.191. Hazing is a form of initiation ceremony, which is used to induct newcomers into an organisation such
3281 as a private school, sports team etc. There are a number of different forms, from relatively mild rituals
3282 to severe and sometimes violent ceremonies in gangs/criminal groups.

3283 9.192. The idea behind this practice is that it welcomes newcomers by subjecting them to a series of trials,
3284 which promote a bond between them. After the hazing is over, the newcomers also have something
3285 in common with older members of the organisation, because they all experienced it as part of a rite of
3286 passage. Many rituals involve humiliation, embarrassment, abuse, and harassment.

3287 9.193. Cambian Group will provide education to prevent individuals from becoming victims of such behaviour
3288 and raise awareness of such within all services.
3289

3290 Safeguarding issues relating to Individual children and young people needs

3291 Homelessness

3292 9.194. As an organisation we recognise that being homeless or being at risk of becoming homeless presents
3293 a real risk to a child's/young person welfare. The impact of losing a place of safety and security can
3294 affect an Individual's behaviour and attachments. DSL will work with Local Authorities to raise/progress
3295 concerns at the earliest opportunity.

3296 9.195. In line with the Homelessness Reduction Act 2017 they will also promote links into the Local Housing
3297 Authority for the parent/guardians in order to raise/progress concerns.

3298 9.196. In most cases school and college, colleagues will be considering homelessness in the context of
3299 children who live with their families, and intervention will be on that basis. However, it should also be
3300 recognised in some cases 16 and 17 year olds could be living independently from their parents or
3301 guardians, for example through their exclusion from the family home, or other reasons. This will require
3302 a different level of intervention and support. Children's services will be the lead agency for these young
3303 people and the DSL (or a deputy) should ensure appropriate referrals are made based on the child's

3304 circumstances. The department and the Ministry of Housing, Communities and Local Government have
3305 published joint statutory guidance on the provision of accommodation for 16 and 17 year olds who may
3306 be homeless and/or require accommodation: [Homelessness Reduction Act: policy factsheets](#).

3307 9.197. Guidance on how local authorities should exercise their homelessness functions in accordance with
3308 the Homelessness Reduction Act 2017 from 3 April 2018- [Homelessness code of guidance for local](#)
3309 [authorities](#).

3310 9.198. Children's services (Adult's services where the person is 18 +) will be the lead agency for these young
3311 people and the DSL should ensure appropriate referrals are made based on the Individual's
3312 circumstances.

3313 9.199. It is recognised that whilst referrals and/or discussion with the Local Housing Authority should be
3314 progressed as appropriate, this does not, and should not, replace a referral into the Local Safeguarding
3315 Authority where an Individual has been harmed or is at risk of harm.

3316 **Private Fostering**

3317 9.200. Private fostering is an arrangement by a child's parents for their child (under 16 or 18 if disabled) to be
3318 cared for by another adult who is not closely related and is not a legal guardian with parental
3319 responsibility for 28 days or more.

3320 9.201. It is not private fostering if the carer is a close relative to the child such as grandparent, brother, sister,
3321 uncle or aunt.

3322 9.202. The Law requires that the carers and parents must notify the Children's Services Department of any
3323 private fostering arrangement.

3324 9.203. If the school/college/children's home/care homes (16-18) becomes aware that a child/young person
3325 is being privately fostered they will inform the Children's Services Department and inform both the
3326 parents and carers that they have done so.

3327 **Child and the Court System**

3328 9.204. As an organisation we recognise that children/young people are sometimes required to give evidence
3329 in criminal courts, either for crimes committed against them or for crimes, they have witnessed. We
3330 know that this can be a stressful experience and therefore services across the organisation will aim to
3331 support children through this process.

3332 9.205. Along with information, advice and guidance, services will use age-appropriate materials published
3333 by HM Courts and Tribunals Services (2017) [Going to court](#) explain to children/young people what it
3334 means to be a witness, how to give evidence and the special measures which are in place to assist
3335 such as using a live link/aids to communicate and video links.

3336 9.206. We recognise that making child arrangements via the family courts following separation can be
3337 stressful and entrench conflict in families. This can be very stressful for children. Services will support
3338 children/young people going through this process.

3339 9.207. Alongside information, advice and guidance services will use online materials published by The
3340 Ministry of Justice (2018) which offers children/young people information & advice on the dispute

3341 resolution service - [Get help with child arrangements](#). These materials will also be offered to parents
3342 and carers if appropriate.

3343 9.208. Ensure that children/young people are sufficiently supported where a parent has been sent to prison;
3344 adequate support includes protection from stigma, isolation and poor mental health.

3345 **Fabricated or induced illnesses (FI)**

3346 9.209. Fabricated or induced illness (FI) is a rare form of child abuse. It occurs when a parent or carer, usually
3347 the child's biological mother, exaggerates or deliberately causes symptoms of illness in the child.

3348 9.210. FI is also known as "Munchausen's syndrome by proxy" (not to be confused with Munchausen's
3349 syndrome, where a person pretends to be ill or causes illness or injury to themselves).

3350 9.211. FI covers a wide range of symptoms and behaviours involving parents seeking healthcare for a child.
3351 This ranges from extreme neglect (failing to seek medical care) to induced illness.

3352 9.212. Behaviours in FI include a parent/carer who:

- 3353 • persuades healthcare professionals that their child is ill when they're perfectly healthy,
- 3354 • exaggerates or lies about their child's symptoms,
- 3355 • manipulates test results to suggest the presence of illness – for example, by putting glucose in
3356 urine samples to suggest the child has diabetes,
- 3357 • deliberately induces symptoms of illness – for example, by poisoning her child with unnecessary
3358 medication or other substances.
