## FRESH IDEAS FOR OUR PLANET

This term has been packed to the brim with activity and there is lots to be proud of!

### The Hill House Refill Station

Our Work Experience curriculum has strengthened its connection with the 'Materials and Products' Principle of One Planet Living by setting up a refill station for the homes. Shower Gel, Hand Soap and Shampoo (in various scents shown below) are decanted into refillable bottles and distributed around each house. Hypoallergenic and sensitive skin friendly products from Miniml are offered with the aim of reducing the amount of plastic consumed at HHS and showing our Young People how making just #onesmallchange can still be impactful.

#### Materials and products

Using materials from sustainable sources and promoting products which help people reduce consumption.

Nourishing coconut  
body wash

Pink grapefruit and  
Aloe Vera body wash

Nourishing coconut  
shampoo

Pink grapefruit and  
Aloe Vera shampoo

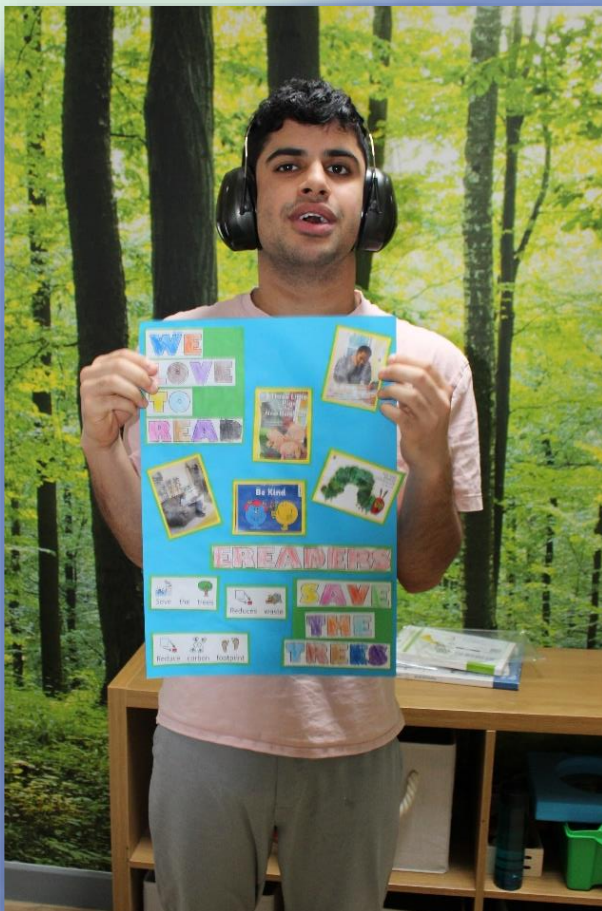

Sweet clementine  
handwash

Lime, Basil and  
Mandarin handwash

# Green Dragon's Den 2025

We invited all of you to bring forward your ideas for increasing sustainability at Hill house and you didn't disappoint! Members from local community groups Eco Sway and Transition Lymington joined the panel of 'Dragons' to watch the presentations and discuss them with the entrants. The amazing young people involved did such a fantastic job, all of the dragons were thoroughly impressed and there were claps all round! We have an extensive list of potential projects to discuss at the next Eco committee meeting, all of which are very exciting and we couldn't be more grateful to those of you who got involved.

The Newly reinstated Eco-Committee are looking forward to adapting our One Planet Living Action Plan with as many of these ideas as possible!

# Earth Day 2025

The 22<sup>nd</sup> April is Earth Day every year, and green thinking people around the world celebrate in a huge variety of ways. This year at HHS that looked like creating posters of our beautiful blue planet and highlighting the importance of recycling properly.

We also had a Bug Bingo activity in Adventure Play, where the children practised identifying British bugs, and later on in the day some seeds were planted to be shared with the local community through our work with Transition Lymington.

Land and nature

Protecting and restoring land for the benefit of people and wildlife.

New Forest

for a sustainable future

## Your Fresh Ideas...

Thank you so much to everyone for continuing to contribute to the ongoing mission to make Hill House as sustainable as we possibly can. You are doing great things, little step by little step.

Please feel free to send any green ideas to my email [sarah.watkins-evans@cambianguroup.com](mailto:sarah.watkins-evans@cambianguroup.com), or just come and have a chat!

See you in the next issue!
