

Exploring the Outdoors with WatchTree Wheelers

With the arrival of better weather, our young people at Whinfell have been making the most of the opportunity to visit WatchTree Wheelers—a fantastic cycle centre and charity based at WatchTree Nature Reserve in Wigton, Cumbria.

WatchTree Wheelers is committed to providing inclusive cycling experiences for people of all ages and abilities. From adapted cycles to training sessions and on-site bike repairs, the centre ensures that everyone can enjoy the joy and freedom of cycling.

Our visits have been a huge hit! The young people have loved trying out the wide variety of bikes, especially racing them around the traffic-free, family-friendly cycling route. It's not just about fitness—being outdoors at WatchTree also offers a chance to take in the beautiful surroundings and spot some of the diverse wildlife that calls the nature reserve home.

We're delighted to have this wonderful resource nearby and look forward to many more adventures on two (or sometimes three!) wheels.
