

Cambian Wisbech School trip report

Outcomes:

- Improving social skills
- Physical well being
- Learning about nature
- Mental well being
- Learning how to behave in public

Description of trip: This week Puffins went to Ferry Meadows. We left school at around 9:30 and arrived at Ferry Meadows at 10:15. Puffins class went for a walk here; they socialised and built their social skills as well as strengthened their friendships within the class. After the walk Puffins went to the play area where they played tag with staff and explored nature. It was lovely to see our whole class playing together and including one another. This trip helped our children to relax after an intensive week full of learning it also allowed them relax both physically and mentally. After leaving the play area the children were offered an ice cream or a drink, all chose ice cream 😊. The children enjoyed their ice cream outside where they could admire the lake, nature and animals such as swans, ducks and dogs. The whole class really enjoyed our trip and the opportunity to be outside and enjoy the sun 😊 At around 12 we left Ferry Meadows and returned to school.

Quotes:

"I Really enjoyed our trip"

"I love Nature!!!"

"The swans look beautiful"
