

Hill House Harvest Festival Celebration

Young People came together to celebrate the autumn season and enjoy a day filled with fun activities, delicious apples and Hill House Community spirit!

This year there was a special `apple` themed day with seasonal activities for everyone to enjoy

Apple pressing equipment was borrowed from the local community and the day was busy with apple washing; chopping; scratting; pressing; bottling and of course tasting!

The sun shone and everyone got stuck in, following directions on the production line and learning new skills along the way, creating delicious, fresh apple juice

The day was the perfect way to celebrate harvest and come together to experience something truly different but great fun!
