

Welcome to Dilston

I wanted to take a moment to share some truly heartening progress regarding Chester

His confidence has increase and he is now feeling safe to the first time in a long while, he stepped out of his accommodation and spent time in the community.

Even more wonderfully, he sat in the dining hall to have his meal — a significant and meaningful step forward

This progress is a testament to our **consistency** and **clear communication** across the team.

Staffs continued support, patience, and collaborative efforts have created a safe and encouraging environment that makes moments like this possible.

Thank you to the team that is supporting and helping our young people grow and thrive.

Let's keep building on this momentum 😊
