

The students welcomed Mags from Creature Ark to enjoy some hands-on experience with a variety of animals.

Mags introduced our whole school to ferrets, snakes, spiders, millipedes, tortoises and guinea pigs. Our students were able to handle and experience these different and exotic animals, Mags gave the students lots of information about each animal and what makes them unique.

The students had a fantastic experience with Mags and they really enjoyed meeting all the animals!

Thank you to Mags for coming and sharing these wonderful creatures her amazing knowledge.
