

Ribble class have enjoyed baking this week

They followed the recipe and created scones. Ribble class are able to collect the ingredients and equipment then tidy up after themselves. They are developing their skills each week and becoming more confident when cooking

In class we have been working on becoming more independent during their learning tasks. The pupils are starting to complete tasks independently without adult support or prompting. This has been a target we have been working on this term and the pupils are very proud of their independent learning.

We have been braving the cold and working on the planting beds in the playground. The pupils have pulled out all of the weeds and turned the soil over. We then planted daffodils in the bed. We are looking forward to seeing these grow!
