

On Tuesday 10<sup>th</sup> March, we were thrilled to take our students to HS Activities in Hereford to enjoy an action-packed day of laser tag on a specially designed outdoor course set in their wooded area. Thanks to the capable hands of our guides, Kelly and Derek, the day was a resounding success, with every student fully engaged from start to finish.

It was fantastic to see everyone working collaboratively, communicating effectively to give their team the best chance of success and encouraging one another throughout each game.

Students demonstrated maturity, respect and excellent sportsmanship, while also showing resilience as they challenged themselves in a new environment.

The experience highlighted their ability to work together and appreciate one another's individual strengths and differences, and we are proud of how they represented our school throughout the day.
