

## Outcomes:

- To Explore and learn.
- Behave well in public.
- Create our own plan for our walk.
- Follow the map during the walk.
- Teamwork.

Description of trip: Middle of may and we had to get our waterproofs and layers on again for this walk, as the weather took a turn for the worst. But 4.5 miles flew by as we chatted and kept each other company and the weather weren't too bad in the end, maybe it is because we were prepared.

Half-way around our walk and we stopped to admire the horses in a field. There were two adult horses with their foals. They were so friendly and came over as soon as we stopped. One had its mane all plaited. As we left, they followed us round, probably hoping for food, but we had no carrots or apples spare. We quickly stopped for a snack break in a sheltered field, before completing the final 2 miles. This term we have walked a total of 20.5 miles.

## Quotes:

"Such pretty horses"

"That is 4.5 miles in total"

"We've walked down here before"
