

Green Class good news 05.05.2026

Green Class have been working on Pirate artwork to show off our new sounds, P for Pirate and S for Sand. We used a mixture of sensory elements to embed our learning, for example PVA glue and sand, and writing letters in the sand.

We have also done lots of outdoors learning, furthering our Sports, Forest School, and Community Access curriculum areas. We have taken turns and worked together in pairs, for example pushing peers on the swing, rolling balls to each other, or sharing spaces such as the climbing frame.
