

EXAMINATION SUCCESS

On average, our young people achieved at least two ASDAN Lifeskills Challenge accreditations last year, formally validating their progress in preparation for adulthood.

Every Friday, our school community comes together for our Weekly Celebration Assembly. It is a joyful time where we share our collective achievements and proudly announce our Star of the Week awards, celebrating the unique personal, social, and academic milestones of our incredible young people.

WELLBEING

Our annual learner survey showed that 90% of learners feel safe, understood, and happy at school, directly supporting their readiness to learn.

Through the implantation of Forest School programme, our learners regularly access outdoor learning to support emotional regulation. Learners build resilience, practice peer collaboration and develop sensory tolerance by engaging with natural elements in a safe, structured woodland setting.

INCLUSION

100% of our learners took part in our inclusive Sports Day

6 of our learners successfully engaged in regular horse-riding sessions, developing core physical strength, balance, and a meaningful connection with animals.

4 of our learners successfully completed an intensive Outward-Bound experience mastering outdoor challenges and building lifelong teamwork skills.

4 of our learners participated in a specialised animal care programme at The ARC, learning essential skills in feeding, grooming, and habitat maintenance while exploring future vocational pathways.

COMMUNICATION & INTERACTION

90% of our learners successfully generalised their classroom social skills into real-world scenarios during community visits.

80% of our non-verbal learners successfully increased their communicative intent and independence using AAC.

INDEPENDENCE AND LIFE SKILLS

100% of our learners have met a personal mile stone for independent food preparation.

90% of our learners participated in regular Community Access Modules, successfully practicing financial transactions in local shops.

70% of our learners navigating public transport, including the bus and Train.

4 of our learners have taken a huge step toward independence by beginning their Independent Travel Training learning to navigate the local community and public transport safely.

1 of our classes successfully budgeted for a healthy snack, with every learner creating their own shopping list and independently purchasing their ingredients at a local shop. This project beautifully combined functional literacy, financial skills, and healthy lifestyle choices.

CAREERS & PATHWAYS

Two of our young people successfully participated in real-life external work experience placements, practicing vital workplace skills. Meanwhile, other learners engaged in structured employer engagement activities, connecting directly with local businesses to explore future career and vocational pathways.
