

## Enterprise 2025-2026

The Springhill Enterprise Team have had another very busy and productive year.

Throughout the year, we have been actively engaged in planning, producing, and selling our products at both on-campus and off-campus markets, as well as participating in various charity events. Additionally, we have maintained our weekly tuck shop every Friday.

We have had our animal harvest festival in October in which we collected items for a chosen local animal charity- Saving Yorkshires Dogs. Students were involved in making posters and organising collections at school and dropping off items at local drop off points.

We held a coffee and cake morning for McMillan cancer charity. Students helped get donations, made cakes and helped set up the hall. It was a lovely morning to all get together and raise money for a great cause. As well as students working on essential work skills such as team work, communication and customer service.

We made some seasonal Halloween and autumn crafts to take home.

We also held our annual pumpkin carving competition with many great creative entries.

During the autumn term, our team dedicated significant effort to creating a variety of items, including reindeer food, ornaments, stockings, greeting cards, and more. This was a collaborative endeavor involving the Creative Department, Enterprise, Textiles, and the Croft Team. Students were also given the opportunity to participate in a market stall at our local Morrisons, thanks to the support of Angela, the Community Champion. This experience allowed students to engage with members of the public and witness their items being purchased. It was a highly successful and rewarding day for all involved.

In December, we hosted our onsite school Christmas fair. The event featured a variety of student-created items available at the enterprise stall, as well as popular activities such as the raffle, the "Guess the Weight of the Cake" contest, and the "Name the Teddy" game. All enterprise students participated by assisting with item preparation, setup, stall management, and promotional efforts. Parents, staff, students, and visitors joined us to celebrate our students' hard work and planning.

In February, we hosted a cake sale to support Children's Mental Health Week. We served beverages and cakes to students and staff. Additionally, we arranged wellbeing activities at each table, including mindfulness colouring and a positive message box. It was a wonderful opportunity to come together and enjoy a treat with colleagues and friends, embracing the theme 'We Belong.'

In April, we hosted our Easter fair on-site. Throughout this period, we have been actively engaged in enterprise sessions, creating items such as tealight holders, bottle vases, and packaging chocolate gift boxes, while also coordinating the event itself. This experience has provided valuable opportunities to enhance our skills in both work and enterprise.

The end-of-term summer fair marks the final event of the school year before preparations begin for next year. Congratulations to all the Enterprise students for their exceptional efforts.
