

Outcomes:

- Teambuilding.
- Following instruction from staff and peers.
- Social Learning.
- Demonstrating good behaviour in public.
- Life Skills

We had a fantastic day visiting the SEA LIFE Centre in King's Lynn. We spent the whole day exploring the centre, looking at the different sea creatures and learning more about the animals and their habitats.

During our visit, we attended the otter talks, penguin talks and seal talk. These were very interesting and enjoyable, giving us the opportunity to learn more about the animals, their behaviours, diets and how they are cared for by the staff.

We enjoyed watching the animals and listening to the knowledgeable staff share interesting facts about each species. The talks made the visit more interactive and helped us gain a better understanding of the importance of protecting marine life and wildlife.

As we were there all day, we had plenty of time to explore the centre at a relaxed pace, observe the animals and take part in the different activities available.

Quotes:

Look at Sally the Seal

SL

The Otters are so cute!
EM

Look at the seals eating.
